#	ARTICLE	IF	CITATIONS
1	Value Dimensions, Meaning, and Complexity in Human Occupation - A Tentative Structure for Analysis. <i>Scandinavian Journal of Occupational Therapy</i> , 2001, 8, 7-18.	1.7	182
2	Patients' opinion on what constitutes good psychiatric care. <i>Scandinavian Journal of Caring Sciences</i> , 2003, 17, 339-346.	2.1	149
3	The Importance of Work as Compared to Other Forms of Daily Occupations for Wellbeing and Functioning Among Persons with Long-Term Mental Illness. <i>Community Mental Health Journal</i> , 2004, 40, 465-477.	2.0	120
4	Occupational Engagement in Persons With Schizophrenia: Relationships to Self-Related Variables, Psychopathology, and Quality of Life. <i>American Journal of Occupational Therapy</i> , 2007, 61, 21-32.	0.3	112
5	Daily activities and hand function in women with scleroderma. <i>Scandinavian Journal of Rheumatology</i> , 2004, 33, 102-107.	1.1	110
6	Time Use and Occupational Performance Among Persons with Schizophrenia. <i>Occupational Therapy in Mental Health</i> , 2004, 20, 27-47.	0.3	108
7	Relationships between satisfaction with occupational factors and health-related variables in schizophrenia outpatients. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2001, 36, 79-85.	3.1	98
8	Relationships between Occupational Factors and Health and Well-Being in Individuals with Persistent Mental Illness Living in the Community. <i>Canadian Journal of Occupational Therapy</i> , 2007, 74, 303-313.	1.3	87
9	Factors influencing subjective quality of life in patients with schizophrenia and other mental disorders: A pooled analysis. <i>Schizophrenia Research</i> , 2010, 121, 251-258.	2.0	87
10	The linkage between patterns of daily occupations and occupational balance: Applications within occupational science and occupational therapy practice. <i>Scandinavian Journal of Occupational Therapy</i> , 2017, 24, 41-56.	1.7	87
11	Meaningfulness in work "Experiences among employed individuals with persistent mental illness. <i>Work</i> , 2009, 34, 21-32.	1.1	86
12	Hand mobility in scleroderma (HAMIS) test: The reliability of a novel hand function test. <i>Arthritis and Rheumatism</i> , 2000, 13, 369-374.	6.7	79
13	Time use among people with psychiatric disabilities: Implications for practice.. <i>Psychiatric Rehabilitation Journal</i> , 2009, 32, 177-191.	1.1	76
14	Helping alliance and early dropout from psychiatric out-patient care. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2006, 41, 140-147.	3.1	75
15	Engagement in occupations among men and women with schizophrenia. <i>Occupational Therapy International</i> , 2006, 13, 100-121.	0.7	73
16	Experience of meaning in everyday occupations among unemployed people with severe mental illness. <i>Scandinavian Journal of Occupational Therapy</i> , 2012, 19, 49-58.	1.7	73
17	Evaluation of paraffin bath treatment in patients with systemic sclerosis. <i>Disability and Rehabilitation</i> , 2004, 26, 981-987.	1.8	67
18	Meaningfulness in daily occupations among individuals with persistent mental illness. <i>Journal of Occupational Science</i> , 2008, 15, 27-35.	1.3	66

#	ARTICLE	IF	CITATIONS
19	Psychometric properties of a Swedish version of the Pearlin Mastery Scale in people with mental illness and healthy people. <i>Nordic Journal of Psychiatry</i> , 2012, 66, 380-388.	1.3	66
20	Time use and daily activities in people with persistent mental illness. <i>Occupational Therapy International</i> , 2006, 13, 123-141.	0.7	65
21	Profiles of Occupational Engagement in People with Schizophrenia (POES): The Development of a New Instrument Based on Time-Use Diaries. <i>British Journal of Occupational Therapy</i> , 2006, 69, 58-68.	0.9	65
22	Personality and self-esteem variables: important determinants of subjective quality of life in schizophrenia outpatients. <i>Acta Psychiatrica Scandinavica</i> , 2003, 108, 134-143.	4.5	63
23	Satisfaction with Daily Occupations: A Tool for Client Evaluation in Mental Health Care. <i>Scandinavian Journal of Occupational Therapy</i> , 2004, 11, 136-142.	1.7	63
24	Occupational Value among Individuals with Long-Term Mental Illness. <i>Canadian Journal of Occupational Therapy</i> , 2003, 70, 276-284.	1.3	62
25	Occupational value and relationships to meaning and health: Elaborations of the ValMO-model. <i>Scandinavian Journal of Occupational Therapy</i> , 2011, 18, 72-80.	1.7	62
26	Validity of HAMIS: a test of hand mobility in scleroderma. <i>Arthritis and Rheumatism</i> , 2000, 13, 382-387.	6.7	61
27	Return to Work Outcomes of the Redesigning Daily Occupations (ReDO) Program for Women with Stress-Related Disorders—A Comparative Study. <i>Women and Health</i> , 2011, 51, 676-692.	1.0	61
28	Driving to Learn in a Powered Wheelchair: The Process of Learning Joystick Use in People With Profound Cognitive Disabilities. <i>American Journal of Occupational Therapy</i> , 2011, 65, 652-660.	0.3	61
29	The relationship of personality dimensions as measured by the temperament and character inventory and quality of life in individuals with schizophrenia or schizoaffective disorder living in the community. <i>Quality of Life Research</i> , 2001, 10, 133-139.	3.1	57
30	Participation in day centres for people with psychiatric disabilities: Characteristics of occupations. <i>Scandinavian Journal of Occupational Therapy</i> , 2011, 18, 243-253.	1.7	52
31	Psychometric properties and factor structure of the Swedish version of the Perceived Stress Scale. <i>Nordic Journal of Psychiatry</i> , 2014, 68, 494-499.	1.3	52
32	Describing Patterns of Daily Occupations - A Methodological Study Comparing Data from Four Different Methods. <i>Scandinavian Journal of Occupational Therapy</i> , 2001, 8, 31-39.	1.7	51
33	Social Network Among People With Persistent Mental Illness: Associations With Sociodemographic, Clinical and Health-Related Factors. <i>International Journal of Social Psychiatry</i> , 2007, 53, 293-305.	3.1	51
34	Effectiveness of Balancing Everyday Life (BEL) versus standard occupational therapy for activity engagement and functioning among people with mental illness – a cluster RCT study. <i>BMC Psychiatry</i> , 2017, 17, 363.	2.6	50
35	The influence of temperament and character on functioning and aspects of psychological health among people with schizophrenia. <i>European Psychiatry</i> , 2004, 19, 34-41.	0.2	49
36	Occupational Therapy Interventions in Mental Health: A Literature Review in Search of Evidence. <i>Occupational Therapy in Mental Health</i> , 2019, 35, 109-156.	0.3	47

#	ARTICLE	IF	CITATIONS
37	Rasch analysis of an instrument for measuring occupational value: Implications for theory and practice. <i>Scandinavian Journal of Occupational Therapy</i> , 2009, 16, 118-128.	1.7	46
38	Perception of occupational balance by people with mental illness: A new methodology. <i>Scandinavian Journal of Occupational Therapy</i> , 2016, 23, 304-313.	1.7	46
39	Psychosocial Work Environment, Stress Factors and Individual Characteristics among Nursing Staff in Psychiatric In-Patient Care. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 1161-1175.	2.6	45
40	Meaning in Life for People with Schizophrenia: Does it Include Occupation?. <i>Journal of Occupational Science</i> , 2012, 19, 93-105.	1.3	43
41	A model of subjective quality of life for outpatients with schizophrenia and other psychoses. <i>Quality of Life Research</i> , 2005, 14, 1157-1168.	3.1	42
42	Stress of Conscience among psychiatric nursing staff in relation to environmental and individual factors. <i>Nursing Ethics</i> , 2012, 19, 208-219.	3.4	42
43	Construct validity of a newly developed instrument: Profile of Occupational Engagement in people with Schizophrenia, POES. <i>Nordic Journal of Psychiatry</i> , 2006, 60, 200-206.	1.3	41
44	Time use among individuals with persistent mental illness: Identifying risk factors for imbalance in daily activities. <i>Scandinavian Journal of Occupational Therapy</i> , 2008, 15, 23-33.	1.7	40
45	Associations between women's subjective perceptions of daily occupations and life satisfaction, and the role of perceived control. <i>Australian Occupational Therapy Journal</i> , 2011, 58, 397-404.	1.1	39
46	The Relative Impact of Personality Traits, Meaningful Occupation and Occupational Value on Meaning in Life and Life Satisfaction. <i>Journal of Occupational Science</i> , 2012, 19, 165-177.	1.3	38
47	Levels of Complexity in Patterns of Daily Occupations: Relationship to Women's Well-Being. <i>Journal of Occupational Science</i> , 2006, 13, 27-36.	1.3	37
48	Applying Object Relations Theory to Psychosocial Occupational Therapy. <i>Occupational Therapy in Mental Health</i> , 2000, 15, 1-26.	0.3	36
49	Work status, daily activities and quality of life among people with severe mental illness. <i>Quality of Life Research</i> , 2009, 18, 163-170.	3.1	35
50	Attitudes towards mental illness among health care students at Swedish universities – A follow-up study after completed clinical placement. <i>Nurse Education Today</i> , 2009, 29, 660-665.	3.3	35
51	Time use in relation to valued and satisfying occupations among people with persistent mental illness: Exploring occupational balance. <i>Journal of Occupational Science</i> , 2010, 17, 231-238.	1.3	35
52	Daily occupations – performance, satisfaction and time use, and relations with well-being in women with limited systemic sclerosis. <i>Disability and Rehabilitation</i> , 2008, 30, 27-35.	1.8	34
53	Participation in Day Centres for People with Psychiatric Disabilities – A Focus on Occupational Engagement. <i>British Journal of Occupational Therapy</i> , 2013, 76, 144-150.	0.9	34
54	Daily Occupations and Well-Being in Women With Limited Cutaneous Systemic Sclerosis. <i>American Journal of Occupational Therapy</i> , 2005, 59, 390-397.	0.3	33

#	ARTICLE	IF	CITATIONS
