#	ARTICLE	IF	CITATIONS
1	Assisted vaginal birth with the Odon Device TM . Journal of Maternal-Fetal and Neonatal Medicine, 2022, 35, 5858-5860.	1.5	1
2	The Odon Device TM for assisted vaginal birth: a feasibility study to investigate safety and efficacyâ€”The ASSIST II study. Pilot and Feasibility Studies, 2021, 7, 72.	1.2	7
3	Simulation for intrapartum care: from training to novel device innovation. Minerva Obstetrics and Gynecology, 2021, 73, .	1.0	2
4	Outcomes of the novel Odon Device in indicated operative vaginal birth. American Journal of Obstetrics and Gynecology, 2021, 224, 607.e1-607.e17.	1.3	15
5	Exploring the reporting standards of RCTs involving invasive procedures for assisted vaginal birth: A systematic review. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2021, 262, 166-173.	1.1	1
6	Womenâ€™s experiences of the Odon Device to assist vaginal birth and participation in intrapartum research: a qualitative study in a maternity unit in the Southwest of England. BMJ Open, 2021, 11, e057023.	1.9	4
7	Simulation for intrapartum care: from training to novel device innovation. Minerva Obstetrics and Gynecology, 2021, 73, 82-93.	1.0	0
8	Effect of hands-on interprofessional simulation training for local emergencies in Scotland: the THISTLE stepped-wedge design randomised controlled trial. BMJ Quality and Safety, 2020, 29, 122-134.	3.7	23
9	Investigation of informed consent procedures initiated in the intrapartum period. British Journal of Midwifery, 2020, 28, 251-258.	0.4	2
10	Causation of permanent brachial plexus injuries to the anterior arm after shoulder dystocia â€” Literature review. Journal of Patient Safety and Risk Management, 2019, 24, 76-80.	0.6	2
11	The ASSIST Study - The BD Odon Device for assisted vaginal birth: a safety and feasibility study. Trials, 2019, 20, 159.	1.6	12
12	Implementation of a modified obstetric early warning system to improve the quality of obstetric care in Zimbabwe. International Journal of Gynecology and Obstetrics, 2017, 136, 175-179.	2.3	13
13	THISTLE: trial of hands-on Interprofessional simulation training for local emergencies: a research protocol for a stepped-wedge clustered randomised controlled trial. BMC Pregnancy and Childbirth, 2017, 17, 294.	2.4	12
14	Myths and realities of training in obstetric emergencies. Best Practice and Research in Clinical Obstetrics and Gynaecology, 2015, 29, 1067-1076.	2.8	48
15	Onsite training of doctors, midwives and nurses in obstetric emergencies, Zimbabwe. Bulletin of the World Health Organization, 2015, 93, 347-351.	3.3	50
16	The Incarcerated Gravid Uterus. Obstetrics and Gynecology, 2014, 123, 423-427.	2.4	28
17	Millennium Development Goal 4: reducing perinatal and neonatal mortality in lowâ€”resource settings. The Obstetrician and Gynaecologist, 2014, 16, 1-5.	0.4	7
18	Realism and construct validity of novel pelvic models of common gynecologic conditions. International Journal of Gynecology and Obstetrics, 2014, 124, 270-273.	2.3	9

#	ARTICLE	IF	CITATIONS
19	Simulation: Improving patient outcomes. <i>Seminars in Perinatology</i> , 2013, 37, 151-156.	2.5	34
20	Retention of factual knowledge after practical training for intrapartum emergencies. <i>International Journal of Gynecology and Obstetrics</i> , 2013, 123, 81-85.	2.3	37
21	The Use of Simulation to Teach Clinical Skills in Obstetrics. <i>Seminars in Perinatology</i> , 2011, 35, 68-73.	2.5	48
22	The management of a simulated emergency: Better teamwork, better performance. <i>Resuscitation</i> , 2011, 82, 203-206.	3.0	80
23	Team Communication With Patient Actors. <i>Simulation in Healthcare</i> , 2011, 6, 143-149.	1.2	41
24	Multiprofessional "fire-drill" training in the labour ward. <i>The Obstetrician and Gynaecologist</i> , 2009, 11, 55-60.	0.4	16
25	Improving Neonatal Outcome Through Practical Shoulder Dystocia Training. <i>Obstetrics and Gynecology</i> , 2008, 112, 14-20.	2.4	517
26	Hospital, Simulation Center, and Teamwork Training for Eclampsia Management. <i>Obstetrics and Gynecology</i> , 2008, 111, 723-731.	2.4	172
27	A template for reviewing the strength of evidence for obstetric brachial plexus injury in clinical negligence claims. <i>Clinical Risk</i> , 2008, 14, 96-100.	0.1	7
28	Improving Neonatal Outcome Through Practical Shoulder Dystocia Training. <i>Obstetrical and Gynecological Survey</i> , 2008, 63, 683-684.	0.4	1
29	Observations From 450 Shoulder Dystocia Simulations. <i>Obstetrics and Gynecology</i> , 2008, 112, 906-912.	2.4	120
30	Management of Shoulder Dystocia Skill Retention 6 and 12 Months After Training. <i>Obstetrics and Gynecology</i> , 2008, 111, 994.	2.4	1
31	Management of Shoulder Dystocia. <i>Obstetrics and Gynecology</i> , 2007, 110, 1069-1074.	2.4	157
32	Pattern and degree of forces applied during simulation of shoulder dystocia. <i>American Journal of Obstetrics and Gynecology</i> , 2007, 197, 156.e1-156.e6.	1.3	35
33	Training for Shoulder Dystocia. <i>Obstetrics and Gynecology</i> , 2006, 108, 1477-1485.	2.4	234
34	Shoulder dystocia training using a new birth training mannequin. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2005, 112, 997-999.	2.3	59
35	Cord prolapse and shoulder dystocia. , 0, , 131-140.		1
36	Cord Prolapse and Shoulder Dystocia. , 0, , 144-156.		0
