#	ARTICLE	IF	CITATIONS
1	Self-Medication among Healthcare and Non-Healthcare Students at University of Ljubljana, Slovenia. <i>Medical Principles and Practice</i> , 2010, 19, 395-401.	2.4	84
2	Medication Adherence in Elderly with Polypharmacy Living at Home: a Systematic Review of Existing Studies. <i>Materia Socio-medica</i> , 2016, 28, 129.	0.7	74
3	Prevalence and factors associated with unmet needs in post-treatment cancer survivors: A systematic review. <i>European Journal of Cancer Care</i> , 2019, 28, e13060.	1.5	63
4	Using movies to teach professionalism to medical students. <i>BMC Medical Education</i> , 2011, 11, 60.	2.4	57
5	How did general practices organize care during the COVID-19 pandemic: the protocol of the cross-sectional PRICOV-19 study in 38 countries. , 2022, 23, 11.		39
6	A cross sectional study of sex differences in self-medication practices among university students in Slovenia. <i>Collegium Antropologicum</i> , 2011, 35, 329-34.	0.2	39
7	The effect of carbon dioxide on near-death experiences in out-of-hospital cardiac arrest survivors: a prospective observational study. <i>Critical Care</i> , 2010, 14, R56.	5.8	35
8	Which positive factors give general practitioners job satisfaction and make general practice a rewarding career? A European multicentric qualitative research by the European general practice research network. <i>BMC Family Practice</i> , 2019, 20, 96.	2.9	35
9	Association of circadian rhythm genes ARNTL/BMAL1 and CLOCK with multiple sclerosis. <i>PLoS ONE</i> , 2018, 13, e0190601.	2.5	34
10	Development of a Competency Framework for Quality Improvement in Family Medicine: A Qualitative Study. <i>Journal of Continuing Education in the Health Professions</i> , 2012, 32, 174-180.	1.3	32
11	Development and validation of a questionnaire for evaluation of students' attitudes towards family medicine. <i>Collegium Antropologicum</i> , 2015, 39, 1-10.	0.2	31
12	Which positive factors determine the GP satisfaction in clinical practice? A systematic literature review. <i>BMC Family Practice</i> , 2016, 17, 133.	2.9	29
13	Academic general practice/family medicine in times of COVID-19 – Perspective of WONCA Europe. <i>European Journal of General Practice</i> , 2020, 26, 182-188.	2.0	27
14	Development and validation of a professionalism assessment scale for medical students. <i>International Journal of Medical Education</i> , 2014, 5, 205-211.	1.2	26
15	Perceived Difficulties in Managing Ethical Problems in Family Practice in Slovenia: Cross-sectional Study. <i>Croatian Medical Journal</i> , 2008, 49, 799-806.	0.7	25
16	Factors associated with health-related quality of life among university students. <i>Srpski Arhiv Za Celokupno Lekarstvo</i> , 2011, 139, 197-202.	0.2	25
17	Process quality indicators in family medicine: results of an international comparison. <i>BMC Family Practice</i> , 2015, 16, 172.	2.9	24
18	Marital status and survival in cancer patients: A systematic review and meta-analysis. <i>Cancer Medicine</i> , 2023, 12, 1685-1708.	2.8	24

#	ARTICLE	IF	CITATIONS
19	The safety attitudes questionnaire " ambulatory version: psychometric properties of the Slovenian version for the out-of-hours primary care setting. BMC Health Services Research, 2017, 17, 36.	2.2	22
20	The 14-item Resilience scale as a potential screening tool for depression/anxiety and quality of life assessment: a systematic review of current research. Family Practice, 2019, 36, 262-268.	1.9	21
21	Scale-up integrated care for diabetes and hypertension in Cambodia, Slovenia and Belgium (SCUBY): a study design for a quasi-experimental multiple case study. Global Health Action, 2020, 13, 1824382.	1.9	20
22	Life Changes in Patients After Out-of-Hospital Cardiac Arrest. International Journal of Behavioral Medicine, 2013, 20, 7-12.	1.7	18
23	The Impact of Psychological Interventions with Elements of Mindfulness (PIM) on Empathy, Well-Being, and Reduction of Burnout in Physicians: A Systematic Review. International Journal of Environmental Research and Public Health, 2021, 18, 11181.	2.6	17
24	On a European collaboration to identify organizational models, potential shortcomings and improvement options in out-of-hours primary health care. European Journal of General Practice, 2014, 20, 233-237.	2.0	15
25	New tool for patient evaluation of nurse practitioner in primary care settings. Journal of Clinical Nursing, 2014, 23, 1323-1331.	3.0	15
26	Association between family doctors'™ practices characteristics and patient evaluation of care. Health Policy, 2012, 106, 269-275.	3.0	14
27	HEMS in Slovenia: One Country, Four Models, Different Quality Outcomes. Air Medical Journal, 2012, 31, 298-304.	0.6	13
28	Variations in patient safety climate and perceived quality of collaboration between professions in out-of-hours care. Journal of Multidisciplinary Healthcare, 2017, Volume 10, 417-423.	2.7	13
29	Core Values of Family Medicine in Europe: Current State and Challenges. Frontiers in Medicine, 2021, 8, 646353.	2.6	13
30	Role of nurse practitioners in reducing cardiovascular risk factors: a retrospective cohort study. Journal of Clinical Nursing, 2015, 24, 3077-3083.	3.0	12
31	Implementing quality indicators for diabetes and hypertension in family medicine in Slovenia. Zdravstveno Varstvo, 2017, 56, 211-219.	0.9	12
32	Outcome predictors of Glasgow Outcome Scale score in patients with severe traumatic brain injury. Ulusal Travma Ve Acil Cerrahi Dergisi, 2011, 17, 509-515.	0.3	12
33	Guidelines adherence to lower urinary tract infection treatment in out-of-hours primary care in European countries. Quality in Primary Care, 2014, 22, 221-31.	0.8	12
34	Strength of primary care service delivery: a comparative study of European countries, Australia, New Zealand, and Canada. Primary Health Care Research and Development, 2018, 19, 277-287.	1.2	11
35	The role of the European Academy of Teachers in General Practice and Family Medicine in family medicine education in Europe " the experience of the University of Maribor. Acta Medica Academica, 2012, 41, 80-87.	0.8	11
36	Attitudes of Slovenian family practice patients toward changing unhealthy lifestyle and the role of family physicians: a cross-sectional study. Croatian Medical Journal, 2011, 52, 205-211.	0.7	10

#	ARTICLE	IF	CITATIONS
37	Seeking health advice on the Internet in patients with health problems: A cross-sectional population study in Slovenia. <i>Informatics for Health and Social Care</i> , 2013, 38, 280-290.	2.6	10
38	The Role of the Psychosocial Dimension in the Improvement of Quality of Care: A Systematic Review. <i>Zdravstveno Varstvo</i> , 2016, 55, 86-95.	0.9	10
