citing authors

#	ARTICLE	IF	CITATIONS
1	Specifying who delivers behaviour change interventions: development of an Intervention Source Ontology. Wellcome Open Research, 2021, 6, 77.	1.8	14
2	Engagement with advice to reduce cardiovascular risk following a health check programme: A qualitative study. Health Expectations, 2020, 23, 193-201.	2.6	9
3	A Lay Health Worker Intervention to Increase Uptake and Completion of Pulmonary Rehabilitation in Chronic Obstructive Pulmonary Disease: Assessing Fidelity of Intervention Delivery. COPD: Journal of Chronic Obstructive Pulmonary Disease, 2020, 17, 557-561.	1.6	1
4	Representation of behaviour change interventions and their evaluation: Development of the Upper Level of the Behaviour Change Intervention Ontology. Wellcome Open Research, 2020, 5, 123.	1.8	41
5	Representation of behaviour change interventions and their evaluation: Development of the Upper Level of the Behaviour Change Intervention Ontology. Wellcome Open Research, 2020, 5, 123.	1.8	41
6	Development of an Intervention Setting Ontology for behaviour change: Specifying where interventions take place. Wellcome Open Research, 2020, 5, 124.	1.8	26
7	Ontologies relevant to behaviour change interventions: a method for their development. Wellcome Open Research, 2020, 5, 126.	1.8	10
8	Ontologies relevant to behaviour change interventions: a method for their development. Wellcome Open Research, 2020, 5, 126.	1.8	18
9	Arthritis prevention in the pre-clinical phase of RA with abatacept (the APIPPRA study): a multi-centre, randomised, double-blind, parallel-group, placebo-controlled clinical trial protocol. Trials, 2019, 20, 429.	1.6	77
10	The lay health workerâ€“patient relationship in promoting pulmonary rehabilitation (PR) in COPD: What makes it work?. Chronic Respiratory Disease, 2019, 16, 147997311986932.	2.4	8
11	&lt;p&gt;Improving uptake and completion of pulmonary rehabilitation in COPD with lay health workers: feasibility of a clinical trial&lt;/p&gt;. International Journal of COPD, 2019, Volume 14, 631-643.	2.3	17
12	A behaviour change package to prevent hand dermatitis in nurses working in health care: the SCIN cluster RCT. Health Technology Assessment, 2019, 23, 1-92.	2.8	6
13	Enhanced Invitations Using the Question-Behavior Effect and Financial Incentives to Promote Health Check Uptake in Primary Care. Annals of Behavioral Medicine, 2018, 52, 594-605.	2.9	11
14	Cardiovascular risk at health checks performed opportunistically or following an invitation letter. Cohort study. Journal of Public Health, 2018, 40, e151-e156.	1.8	5
15	Implementing multiple health behaviour change interventions for cardiovascular risk reduction in primary care: a qualitative study. BMC Family Practice, 2018, 19, 171.	2.9	24
16	Unsupervised Information Extraction from Behaviour Change Literature. Studies in Health Technology and Informatics, 2018, 247, 680-684.	0.3	5
17	Psychological Determinants of Medication Adherence in Stroke Survivors: a Systematic Review of Observational Studies. Annals of Behavioral Medicine, 2017, 51, 833-845.	2.9	34
18	Multiple health behaviour change interventions for primary prevention of cardiovascular disease in primary care: systematic review and meta-analysis. BMJ Open, 2017, 7, e015375.	1.9	37

#	ARTICLE	IF	CITATIONS
19	Factors influencing participation in colorectal cancer screening—a qualitative study in an ethnic and socio-economically diverse inner city population. <i>Health Expectations</i> , 2017, 20, 608-617.	2.6	24
20	Changes in cardiovascular disease risk and behavioural risk factors before the introduction of a health check programme in England. <i>Preventive Medicine</i> , 2016, 91, 158-163.	3.4	11
21	A behavioural change package to prevent hand dermatitis in nurses working in the national health service (the SCIN trial): study protocol for a cluster randomised controlled trial. <i>Trials</i> , 2016, 17, 145.	1.6	23
22	Enhanced invitation methods and uptake of health checks in primary care: randomised controlled trial and cohort study using electronic health records. <i>Health Technology Assessment</i> , 2016, 20, 1-92.	2.8	28
23	Influences on individuals'™ decisions to take up the offer of a health check: a qualitative study. <i>Health Expectations</i> , 2015, 18, 2437-2448.	2.6	55
24	Effectiveness of behavioural weight loss interventions delivered in a primary care setting: a systematic review and meta-analysis. <i>Family Practice</i> , 2014, 31, 643-653.	1.9	112
25	Effectiveness of interventions to promote healthy diet in primary care: systematic review and meta-analysis of randomised controlled trials. <i>BMC Public Health</i> , 2013, 13, 1203.	2.9	55
26	Why does genetic causal information alter perceived treatment effectiveness? An analogue study. <i>British Journal of Health Psychology</i> , 2012, 17, 294-313.	3.5	10
27	Impact of communicating personalized genetic risk information on perceived control over the risk: A systematic review. <i>Genetics in Medicine</i> , 2011, 13, 273-277.	2.4	78
28	Trial Protocol: Using genotype to tailor prescribing of nicotine replacement therapy: a randomised controlled trial assessing impact of communication upon adherence. <i>BMC Public Health</i> , 2010, 10, 680.	2.9	20
29	The impact of numeracy on reactions to different graphic risk presentation formats: An experimental analogue study. <i>British Journal of Health Psychology</i> , 2009, 14, 107-125.	3.5	36
30	The impact of genetic testing for Crohn's™ disease, risk magnitude and graphical format on motivation to stop smoking: an experimental analogue study. <i>Clinical Genetics</i> , 2008, 73, 306-314.	2.0	22
31	Is attributing smoking to genetic causes associated with a reduced probability of quit attempt success? A cohort study. <i>Addiction</i> , 2007, 102, 1657-1664.	3.3	17
32	Can genetic risk information enhance motivation for smoking cessation? An analogue study.. <i>Health Psychology</i> , 2006, 25, 740-752.	1.6	45
33	Maternal anxiety following newborn hearing screening: the moderating role of knowledge. <i>Journal of Medical Screening</i> , 2006, 13, 20-25.	2.3	37
34	The impact of learning of a genetic predisposition to nicotine dependence: an analogue study. <i>Tobacco Control</i> , 2003, 12, 227-230.	3.2	80
35	Ontologies relevant to behaviour change interventions: a method for their development. <i>Wellcome Open Research</i> , 0, 5, 126.	1.8	7
