#	ARTICLE	IF	CITATIONS
1	Narrative as a learning tool for coaches of athletes with a disability: using stories to translate research into practice. <i>Physical Education and Sport Pedagogy</i> , 2023, 28, 546-567.	3.0	3
2	Experiences and perceived outcomes of persons with multiple sclerosis from participating in a randomized controlled trial testing implementation of the Canadian Physical Activity Guidelines for Adults with MS: an embedded qualitative study. <i>Disability and Rehabilitation</i> , 2022, 44, 4663-4671.	1.8	4
3	Examining the Impact of the Rio 2016 Paralympic Games on Explicit Perceptions of Paralympians and Individuals with Disabilities. <i>Health Communication</i> , 2022, , 1-7.	3.1	1
4	An Experimental Test of a Generic Messaging Approach for the Canadian 24-Hour Movement Guidelines for Adults. <i>Journal of Health Communication</i> , 2022, , 1-9.	2.4	2
5	Exploring experiential elements, strategies and outcomes of quality participation for children with intellectual and developmental disabilities: A systematic scoping review. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2022, 35, 691-718.	2.0	4
6	Exploring attention to the Canadian 24-Hour Movement Guidelines for Children and Youth using eye-tracking: A randomized control trial. <i>Public Health Nursing</i> , 2022, 39, 982-992.	1.5	0
7	A small change approach to prevent long-term weight gain in adults with overweight and obesity: a randomized controlled trial. <i>Cmaj</i> , 2022, 194, E324-E331.	2.0	2
8	Exploring the Relationship Between Quality and Quantity of Physical Activity Participation in Community-Based Exercise Programs for Persons With Physical Disabilities. <i>Adapted Physical Activity Quarterly</i> , 2022, 39, 380-398.	0.8	1
9	About time! A scoping review of public-facing emergency department wait time displays in Canada. <i>Canadian Journal of Emergency Medicine</i> , 2022, , .	1.1	1
10	Timing of 24-hour movement behaviours: implications for practice, policy and research. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2022, 42, 170-174.	1.1	2
11	Exploring how the process of quality participation unfolds for volunteers in community-based exercise programs for persons with disabilities. <i>Qualitative Research in Sport, Exercise and Health</i> , 2021, 13, 300-324.	5.9	7
12	A cross-sectional examination of the 24-hour movement behaviours in Canadian youth with physical and sensory disabilities. <i>Disability and Health Journal</i> , 2021, 14, 100980.	2.8	10
13	Pathways for Long-Term Physical Activity Participation for Military Veterans With a Physical Disability. <i>Adapted Physical Activity Quarterly</i> , 2021, 38, 1-24.	0.8	5
14	An Exploration of the Content and Quality of Online, Text-Based Coach Development Programs Specific to Parasport. <i>International Sport Coaching Journal</i> , 2021, , 1-7.	0.7	0
15	Examining differences in parents' perceptions of children's physical activity versus screen time guidelines and behaviours. <i>Journal of Paediatrics and Child Health</i> , 2021, 57, 1448-1453.	0.8	4
16	An Online Physical Activity Intervention for Youth With Physical Disabilities: A Pilot Study. <i>Frontiers in Rehabilitation Sciences</i> , 2021, 2, .	1.2	2
17	Commentary on "The First Global Physical Activity and Sedentary Behavior Guidelines for People Living With Disability". <i>Journal of Physical Activity and Health</i> , 2021, 18, 348-349.	2.0	12
18	Physical Activity Together for People With Multiple Sclerosis and Their Care Partners: Protocol for a Feasibility Randomized Controlled Trial of a Dyadic Intervention. <i>JMIR Research Protocols</i> , 2021, 10, e18410.	1.0	3

#	ARTICLE	IF	CITATIONS
19	Developing and Disseminating Physical Activity Messages Targeting Parents: A Systematic Scoping Review. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7046.	2.6	3
20	Quality participation: Perspectives of physical activity service providers for veterans with disabilities. <i>Disability and Health Journal</i> , 2021, 14, 101094.	2.8	2
21	Program conditions that foster quality physical activity participation experiences for people with a physical disability: a systematic review. <i>Disability and Rehabilitation</i> , 2020, 42, 147-155.	1.8	39
22	From the Athletesâ€™ Perspective: A Social-Relational Understanding of How Coaches Shape the Disability Sport Experience. <i>Journal of Applied Sport Psychology</i> , 2020, 32, 546-564.	2.3	17
23	Physical Activity Messages for Youth with Disabilities: An Evaluation of Attitudes, Intentions, and Preferences. <i>Health Communication</i> , 2020, 35, 974-983.	3.1	3
24	Understanding quality participation: exploring ideal physical activity outcomes for military veterans with a physical disability. <i>Qualitative Research in Sport, Exercise and Health</i> , 2020, 12, 563-578.	5.9	3
25	Healthy together: A systematic review of theory and techniques used in health interventions for persons with chronic neurological conditions and their caregivers. <i>Patient Education and Counseling</i> , 2020, 103, 788-803.	2.2	9
26	The impact of social relationships on initiation in adapted physical activity for individuals with acquired disabilities. <i>Psychology of Sport and Exercise</i> , 2020, 50, 101752.	2.1	9
27	Quit4hlth: a preliminary investigation of tobacco treatment with gain-framed and loss-framed text messages for quitline callers. <i>Journal of Smoking Cessation</i> , 2020, 15, 143-148.	1.0	3
28	Using a thinkâ€œloud methodology to understand online physical activity information search experiences and preferences of parents of children and youth with disabilities. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2020, 33, 1478-1488.	2.0	6
29	Changing Sedentary Behavior in the Office: A Randomised Controlled Trial Comparing the Effect of Affective, Instrumental, and Selfâ€œRegulatory Messaging on Sitting. <i>Applied Psychology: Health and Well-Being</i> , 2020, 12, 687-702.	3.0	2
30	Examining the relationship between parent physical activity support behaviour and physical activity among children and youth with autism spectrum disorder. <i>Autism</i> , 2020, 24, 1783-1794.	4.1	31
31	Population-level evaluation of ParticipACTIONâ€™s 150 Play List: a mass-reach campaign with mass participatory events. <i>International Journal of Health Promotion and Education</i> , 2020, 58, 297-310.	0.9	1
32	An Experimental Application of the Brand Equity Pyramid Using a Healthy Movement Product Brand. <i>Social Marketing Quarterly</i> , 2020, 26, 129-145.	1.7	5
33	Translating the international scientific spinal cord injury exercise guidelines into community and clinical practice guidelines: a Canadian evidence-informed resource. <i>Spinal Cord</i> , 2020, 58, 647-657.	1.9	16
34	Dissemination and implementation of national physical activity, sedentary behaviour, and/or sleep guidelines among community-dwelling adults aged 18 years and older: a systematic scoping review and suggestions for future reporting and research. <i>Applied Physiology, Nutrition and Metabolism</i> , 2020, 45, S258-S283.	1.9	16
35	Canadian 24-Hour Movement Guidelines for Adults aged 18â€œ64 years and Adults aged 65 years or older: an integration of physical activity, sedentary behaviour, and sleep. <i>Applied Physiology, Nutrition and Metabolism</i> , 2020, 45, S57-S102.	1.9	346
36	Optimal messaging of the Canadian 24-Hour Movement Guidelines for Adults aged 18â€œ64 years and Adults aged 65 years and older. <i>Applied Physiology, Nutrition and Metabolism</i> , 2020, 45, S125-S150.	1.9	21

#	ARTICLE	IF	CITATIONS
37	Knowledge translation of the Canadian 24-Hour Movement Guidelines for Adults aged 18–64 years and Adults aged 65 years or older: a collaborative movement guideline knowledge translation process. <i>Applied Physiology, Nutrition and Metabolism</i> , 2020, 45, S103-S124.	1.9	21
38	A concerns report survey of physical activity support needs of people with moderate-to-severe MS disability and family caregivers. <i>Disability and Rehabilitation</i> , 2019, 41, 2888-2899.	1.8	10
39	Exploring Parents'™ Message Receipt and Message Enactment of the World's™ First Integrated Movement Behaviour Guidelines for Children and Youth. <i>Journal of Health Communication</i> , 2019, 24, 643-653.	2.4	3
40	Parental support of the Canadian 24-hour movement guidelines for children and youth: prevalence and correlates. <i>BMC Public Health</i> , 2019, 19, 1385.	2.9	37
41	Psychosocial Aspects of Physical Activity Participation for Military Personnel with Illness and Injury: A Scoping Review. <i>Military Behavioral Health</i> , 2019, 7, 459-476.	0.8	7
42	Quality physical activity experiences for military Veterans with a physical disability: Exploring the relationship among program conditions, elements, and outcomes. <i>Journal of Military, Veteran and Family Health</i> , 2019, 5, 80-92.	0.6	5
43	Exploring gaze behaviors toward images of physically active individuals with a physical disability. <i>Psychology of Sport and Exercise</i> , 2019, 45, 101533.	2.1	2
44	Make Room for Play: An Evaluation of a Campaign Promoting Active Play. <i>Journal of Health Communication</i> , 2019, 24, 38-46.	2.4	3
45	Application of the Multi-Process Action Control Framework to Understand Parental Support of Child and Youth Physical Activity, Sleep, and Screen Time Behaviours. <i>Applied Psychology: Health and Well-Being</i> , 2019, 11, 223-239.	3.0	31
46	Identifying "real-world" initiatives for knowledge translation tools: a case study of community-based physical activity programs for persons with physical disability in Canada. <i>Translational Behavioral Medicine</i> , 2019, 9, 797-809.	2.4	12
47	Fostering quality experiences: Qualitative perspectives from program members and providers in a community-based exercise program for adults with physical disabilities. <i>Disability and Health Journal</i> , 2019, 12, 296-301.	2.8	19
48	Perceptions of Inclusivity: The Canadian 24-Hour Movement Guidelines for Children and Youth. <i>Adapted Physical Activity Quarterly</i> , 2019, 36, 1-18.	0.8	14
49	Predicting parental support and parental perceptions of child and youth movement behaviors. <i>Psychology of Sport and Exercise</i> , 2019, 41, 80-90.	2.1	24
50	Exploring Stereotypes of Athletes With a Disability: A Behaviors From Intergroup Affect and Stereotypes Map Comparison. <i>Adapted Physical Activity Quarterly</i> , 2019, 36, 339-358.	0.8	3
51	The Utility of Physical Activity Micro-Grants: The ParticipACTION Teen Challenge Program. <i>Health Promotion Practice</i> , 2018, 19, 246-255.	1.6	3
52	Response to correspondence from the ESSA Statement authors. <i>Spinal Cord</i> , 2018, 56, 409-411.	1.9	2
53	Efficacy of Online Multi-Player Versus Single-Player Exergames on Adherence Behaviors Among Children: A Nonrandomized Control Trial. <i>Annals of Behavioral Medicine</i> , 2018, 52, 878-889.	2.9	12
54	Leisure time physical activity, perception of impact of pain and life satisfaction after spinal cord injury. <i>Annals of Physical and Rehabilitation Medicine</i> , 2018, 61, 273-275.	2.3	5

#	ARTICLE	IF	CITATIONS
55	The relationship between the implementation and effectiveness of a nationwide physical activity telephone counseling service for adults with spinal cord injury. <i>Disability and Rehabilitation</i> , 2018, 40, 527-537.	1.8	26
56	Spinal Cord Injury Peer Mentorship: Applying Self-Determination Theory to Explain Quality of Life and Participation. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 468-476.e12.	0.9	34
57	Evidence-based scientific exercise guidelines for adults with spinal cord injury: an update and a new guideline. <i>Spinal Cord</i> , 2018, 56, 308-321.	1.9	289
58	Narratives of participation among individuals with physical disabilities: A life-course analysis of athletes' experiences and development in parasport. <i>Psychology of Sport and Exercise</i> , 2018, 37, 170-178.	2.1	60
59	Exploring strategies used to deliver physical activity experiences to Veterans with a physical disability. <i>Disability and Rehabilitation</i> , 2018, 40, 3198-3205.	1.8	12
60	Understanding leisure time physical activity: Voices of people with <scp>MS</scp> who have moderate to severe disability and their family caregivers. <i>Health Expectations</i> , 2018, 21, 181-191.	2.6	15
61	Assessing the social climate of physical (in)activity in Canada. <i>BMC Public Health</i> , 2018, 18, 1301.	2.9	18
62	The short-term effects of a mass reach physical activity campaign: an evaluation using hierarchy of effects model and intention profiles. <i>BMC Public Health</i> , 2018, 18, 1300.	2.9	3
63	Examining the ParticipACTION brand using the brand equity pyramid. <i>Journal of Social Marketing</i> , 2018, 8, 378-396.	2.3	8
64	ParticipACTION after 5 years of relaunch: a quantitative survey of Canadian organizational awareness and capacity regarding physical activity initiatives. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2018, 38, 162-169.	1.1	4
65	Perceptions of organizational capacity to promote physical activity in Canada and ParticipACTION's influence five years after its relaunch: a qualitative study. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2018, 38, 170-178.	1.1	4
66	Awareness of ParticipACTION among Canadian adults: a seven-year cross-sectional follow-up. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2018, 38, 179-186.	1.1	7
67	Effects of home-based exergaming on child social cognition and subsequent prediction of behavior. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2018, 28, 2234-2242.	2.9	60
68	Integrating insights from the parasport community to understand optimal Experiences: The Quality Parasport Participation Framework. <i>Psychology of Sport and Exercise</i> , 2018, 37, 79-90.	2.1	60
69	Correlating the Physical Activity Patterns of People with Moderate to Severe Multiple Sclerosis Disability and Their Family Caregivers. <i>Physiotherapy Canada Physiotherapie Canada</i> , 2018, 70, 373-381.	0.6	15
70	Exploring the peer mentorship experiences of adults with spinal cord injury.. <i>Rehabilitation Psychology</i> , 2018, 63, 542-552.	1.3	24
71	Are adults with spinal cord injury meeting the spinal cord injury-specific physical activity guidelines? A look at a sample from a Canadian province. <i>Spinal Cord</i> , 2017, 55, 454-459.	1.9	48
72	Formulation of evidence-based messages to promote the use of physical activity to prevent and manage Alzheimer's disease. <i>BMC Public Health</i> , 2017, 17, 209.	2.9	34
