#	ARTICLE	IF	CITATIONS
1	Implementing, Embedding, and Integrating Practices: An Outline of Normalization Process Theory. <i>Sociology</i> , 2009, 43, 535-554.	1.7	1,284
2	Normalisation process theory: a framework for developing, evaluating and implementing complex interventions. <i>BMC Medicine</i> , 2010, 8, 63.	2.3	858
3	Development of a theory of implementation and integration: Normalization Process Theory. <i>Implementation Science</i> , 2009, 4, 29.	2.5	839
4	Implementation, context and complexity. <i>Implementation Science</i> , 2016, 11, 141.	2.5	542
5	We need minimally disruptive medicine. <i>BMJ: British Medical Journal</i> , 2009, 339, b2803-b2803.	2.4	533
6	Understanding the implementation of complex interventions in health care: the normalization process model. <i>BMC Health Services Research</i> , 2007, 7, 148.	0.9	495
7	Cumulative complexity: a functional, patient-centered model of patient complexity can improve research and practice. <i>Journal of Clinical Epidemiology</i> , 2012, 65, 1041-1051.	2.4	479
8	Towards a general theory of implementation. <i>Implementation Science</i> , 2013, 8, 18.	2.5	463
9	Factors that promote or inhibit the implementation of e-health systems: an explanatory systematic review. <i>Bulletin of the World Health Organization</i> , 2012, 90, 357-364.	1.5	441
10	Rethinking the patient: using Burden of Treatment Theory to understand the changing dynamics of illness. <i>BMC Health Services Research</i> , 2014, 14, 281.	0.9	435
11	Systematic review of cost effectiveness studies of telemedicine interventions. <i>BMJ: British Medical Journal</i> , 2002, 324, 1434-1437.	2.4	391
12	Using Normalization Process Theory in feasibility studies and process evaluations of complex healthcare interventions: a systematic review. <i>Implementation Science</i> , 2018, 13, 80.	2.5	350
13	Promoting professional behaviour change in healthcare: what interventions work, and why? A theory-led overview of systematic reviews. <i>BMJ Open</i> , 2015, 5, e008592.	0.8	342
14	A rational model for assessing and evaluating complex interventions in health care. <i>BMC Health Services Research</i> , 2006, 6, 86.	0.9	305
15	Understanding Patients' Experiences of Treatment Burden in Chronic Heart Failure Using Normalization Process Theory. <i>Annals of Family Medicine</i> , 2011, 9, 235-243.	0.9	279
16	Building a measurement framework of burden of treatment in complex patients with chronic conditions: a qualitative study. <i>Patient Related Outcome Measures</i> , 2012, 3, 39.	0.7	239
17	An open letter to <i>The BMJ</i> editors on qualitative research. <i>BMJ, The</i> , 2016, 352, i563.	3.0	234
18	From compliance to concordance: barriers to accomplishing a re-framed model of health care interactions. <i>Social Science and Medicine</i> , 2004, 58, 851-862.	1.8	229

#	ARTICLE	IF	CITATIONS
19	Barriers to Advance Care Planning at the End of Life: An Explanatory Systematic Review of Implementation Studies. PLoS ONE, 2015, 10, e0116629.	1.1	228
20	Disclosing a diagnosis of dementia: a systematic review. International Journal of Geriatric Psychiatry, 2004, 19, 151-169.	1.3	224
21	Resisting and promoting new technologies in clinical practice: the case of telepsychiatry. Social Science and Medicine, 2001, 52, 1889-1901.	1.8	219
22	Why is it difficult to implement e-health initiatives? A qualitative study. Implementation Science, 2011, 6, 6.	2.5	204
23	Thinking about the burden of treatment. BMJ, The, 2014, 349, g6680-g6680.	3.0	192
24	Collaborative deliberation: A model for patient care. Patient Education and Counseling, 2014, 97, 158-164.	1.0	181
25	Limitations of Patient Satisfaction Studies in Telehealthcare: A Systematic Review of the Literature. Telemedicine Journal and E-Health, 2001, 7, 293-316.	1.6	178
26	Evaluating complex interventions and health technologies using normalization process theory: development of a simplified approach and web-enabled toolkit. BMC Health Services Research, 2011, 11, 245.	0.9	173
27	Integrating telecare for chronic disease management in the community: What needs to be done?. BMC Health Services Research, 2011, 11, 131.	0.9	166
28	Framing the doctor-patient relationship in chronic illness: a comparative study of general practitioners' accounts. Sociology of Health and Illness, 2004, 26, 135-158.	1.1	163
29	Medically unexplained symptoms and the problem of power in the primary care consultation: a qualitative study. Family Practice, 2002, 19, 178-182.	0.8	152
30	Types of centredness in health care: themes and concepts. Medicine, Health Care and Philosophy, 2008, 11, 455-463.	0.9	152
31	Uncovering Treatment Burden as a Key Concept for Stroke Care: A Systematic Review of Qualitative Research. PLoS Medicine, 2013, 10, e1001473.	3.9	150
32	Using digital interventions for self-management of chronic physical health conditions: A meta-ethnography review of published studies. Patient Education and Counseling, 2017, 100, 616-635.	1.0	147
33	The burden of comorbidity in people with chronic kidney disease stage 3: a cohort study. BMC Nephrology, 2015, 16, 193.	0.8	146
34	Development and validation of the Patient Experience with Treatment and Self-management (PETS): a patient-reported measure of treatment burden. Quality of Life Research, 2017, 26, 489-503.	1.5	141
35	Qualitative research and the problem of judgement: lessons from interviewing fellow professionals. Family Practice, 2002, 19, 285-289.	0.8	140
36	Improving the normalization of complex interventions: part 2 - validation of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). BMC Medical Research Methodology, 2018, 18, 135.	1.4	139

#	ARTICLE	IF	CITATIONS
37	Young adults' (16-25 years) suggestions for providing developmentally appropriate diabetes services: a qualitative study. <i>Health and Social Care in the Community</i> , 2005, 13, 409-419.	0.7	137
38	Transforming general practice: the redistribution of medical work in primary care. <i>Sociology of Health and Illness</i> , 2003, 25, 71-92.	1.1	136
39	Agency and implementation: Understanding the embedding of healthcare innovations in practice. <i>Social Science and Medicine</i> , 2013, 78, 26-33.	1.8	131
40	Understanding the Normalization of Telemedicine Services through Qualitative Evaluation: Table 1. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2003, 10, 596-604.	2.2	130
41	Systematic review and meta-analysis of maintenance of physical activity behaviour change in cancer survivors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 37.	2.0	127
42	Process evaluation for complex interventions in primary care: understanding trials using the normalization process model. <i>BMC Family Practice</i> , 2007, 8, 42.	2.9	126
43	Remote Doctors and Absent Patients: Acting at a Distance in Telemedicine?. <i>Science Technology and Human Values</i> , 2003, 28, 274-295.	1.7	125
44	Arduous implementation: Does the Normalisation Process Model explain why it's so difficult to embed decision support technologies for patients in routine clinical practice. <i>Implementation Science</i> , 2008, 3, 57.	2.5	124
45	Stroke, multimorbidity and polypharmacy in a nationally representative sample of 1,424,378 patients in Scotland: implications for treatment burden. <i>BMC Medicine</i> , 2014, 12, 151.	2.3	124
46	Health technology assessment in its local contexts: studies of telehealthcare. <i>Social Science and Medicine</i> , 2003, 57, 697-710.	1.8	117
47	Chronic diseases and multi-morbidity - a conceptual modification to the WHO ICCC model for countries in health transition. <i>BMC Public Health</i> , 2014, 14, 575.	1.2	116
48	Technogovernance: Evidence, subjectivity, and the clinical encounter in primary care medicine. <i>Social Science and Medicine</i> , 2006, 62, 1022-1030.	1.8	115
49	A patient decision aid to support shared decision-making on anti-thrombotic treatment of patients with atrial fibrillation: randomised controlled trial. <i>Quality and Safety in Health Care</i> , 2007, 16, 216-223.	2.5	115
50	Models of transitional care for young people with complex health needs: a scoping review. <i>Child: Care, Health and Development</i> , 2011, 37, 780-791.	0.8	115
51	Improving the normalization of complex interventions: measure development based on normalization process theory (NoMAD): study protocol. <i>Implementation Science</i> , 2013, 8, 43.	2.5	115
52	Intervention planning for a digital intervention for self-management of hypertension: a theory-, evidence- and person-based approach. <i>Implementation Science</i> , 2017, 12, 25.	2.5	107
53	Home and Online Management and Evaluation of Blood Pressure (HOME BP) using a digital intervention in poorly controlled hypertension: randomised controlled trial. <i>BMJ, The</i> , 2021, 372, m4858.	3.0	106
54	Finalizing a measurement framework for the burden of treatment in complex patients with chronic conditions. <i>Patient Related Outcome Measures</i> , 2015, 6, 117.	0.7	102

#	ARTICLE	IF	CITATIONS
55	Digital Health Interventions for Adults With Type 2 Diabetes: Qualitative Study of Patient Perspectives on Diabetes Self-Management Education and Support. <i>Journal of Medical Internet Research</i> , 2018, 20, e40.	2.1	98
56	Improving the normalization of complex interventions: part 1 - development of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018, 18, 133.	1.4	97
57	Nursing work, nurses' knowledge, and the subjectification of the patient.. <i>Sociology of Health and Illness</i> , 1992, 14, 472-487.	1.1	95
58	Patient satisfaction with teledermatology is related to perceived quality of life. <i>British Journal of Dermatology</i> , 2001, 145, 911-917.	1.4	95
59	From theory to 'measurement' in complex interventions: Methodological lessons from the development of an e-health normalisation instrument. <i>BMC Medical Research Methodology</i> , 2012, 12, 69.	1.4	93
60	Patient capacity and constraints in the experience of chronic disease: a qualitative systematic review and thematic synthesis. <i>BMC Family Practice</i> , 2016, 17, 127.	2.9	93
61	Preventing Type 2 diabetes after gestational diabetes: women's experiences and implications for diabetes prevention interventions. <i>Diabetic Medicine</i> , 2013, 30, 986-993.	1.2	88
62	Research on nurse-patient relationships: problems of theory, problems of practice. <i>Journal of Advanced Nursing</i> , 1990, 15, 307-315.	1.5	87
63	Chronic low back pain in general practice: the challenge of the consultation. <i>Family Practice</i> , 1999, 16, 46-49.	0.8	86
64	Making and Unmaking Telepatients. <i>Science Technology and Human Values</i> , 2009, 34, 9-33.	1.7	85
65	Integrating service development with evaluation in telehealthcare: an ethnographic study. <i>BMJ: British Medical Journal</i> , 2003, 327, 1205-1209.	2.4	83
66	A feasibility study of implementing grip strength measurement into routine hospital practice (GRIMP): study protocol. <i>Pilot and Feasibility Studies</i> , 2016, 2, 27.	0.5	83
67	Work of being an adult patient with chronic kidney disease: a systematic review of qualitative studies. <i>BMJ Open</i> , 2018, 8, e023507.	0.8	83
68	Experiencing depression, experiencing the depressed: The separate worlds of patients and doctors. <i>Journal of Mental Health</i> , 2001, 10, 317-333.	1.0	80
69	Still a difficult business? Negotiating alcohol-related problems in general practice consultations. <i>Social Science and Medicine</i> , 2006, 63, 2418-2428.	1.8	79
70	Using computer decision support systems in NHS emergency and urgent care: ethnographic study using normalisation process theory. <i>BMC Health Services Research</i> , 2013, 13, 111.	0.9	79
71	Patients' perceptions of a telemedicine specialty clinic. <i>Journal of Telemedicine and Telecare</i> , 2000, 6, 36-40.	1.4	78
72	A conceptual model of treatment burden and patient capacity in stroke. <i>BMC Family Practice</i> , 2018, 19, 9.	2.9	77

#	ARTICLE	IF	CITATIONS
73	Overwhelmed Patients. <i>Diabetes Care</i> , 2012, 35, 47-49.	4.3	75
74	A web-based intervention (RESTORE) to support self-management of cancer-related fatigue following primary cancer treatment: a multi-centre proof of concept randomised controlled trial. <i>Supportive Care in Cancer</i> , 2016, 24, 2445-2453.	1.0	75
75	Web-based self-management support for people with type 2 diabetes (HeLP-Diabetes): randomised controlled trial in English primary care. <i>BMJ Open</i> , 2017, 7, e016009.	0.8	75
76	Managing depression in primary care: another example of the inverse care law?. <i>Family Practice</i> , 2002, 19, 632-637.	0.8	74
77	Regulatory Objectivity in Action. <i>Social Studies of Science</i> , 2009, 39, 665-690.	1.5	74
78	Interventions for compassionate nursing care: A systematic review. <i>International Journal of Nursing Studies</i> , 2016, 62, 137-155.	2.5	74
79	Developing an implementation strategy for a digital health intervention: an example in routine healthcare. <i>BMC Health Services Research</i> , 2018, 18, 794.	0.9	74
80	Towards a wireless patient: Chronic illness, scarce care and technological innovation in the United Kingdom. <i>Social Science and Medicine</i> , 2005, 61, 1485-1494.	1.8	73
81	Teledermatology in the U.K.: lessons in service innovation. <i>British Journal of Dermatology</i> , 2007, 156, 521-527.	1.4	73
82	Patient, Carer and Professional Perspectives on Barriers and Facilitators to Quality Care in Advanced Heart Failure. <i>PLoS ONE</i> , 2014, 9, e93288.	1.1	72
83	Experiences of abortion: A narrative review of qualitative studies. <i>BMC Health Services Research</i> , 2008, 8, 150.	0.9	70
84	The nursing work of hospital-based clinical practice guideline implementation: An explanatory systematic review using Normalisation Process Theory. <i>International Journal of Nursing Studies</i> , 2014, 51, 289-299.	2.5	70
85	Individual Care? Power and Subjectivity in Therapeutic Relationships. <i>Sociology</i> , 1992, 26, 589-602.	1.7	69
86	Doctors' understanding of palliative care. <i>Palliative Medicine</i> , 2006, 20, 493-497.	1.3	68
87	Experiences of long-term life-limiting conditions among patients and carers: what can we learn from a meta-review of systematic reviews of qualitative studies of chronic heart failure, chronic obstructive pulmonary disease and chronic kidney disease?. <i>BMJ Open</i> , 2016, 6, e011694.	0.8	68
88	When protocols fail: technical evaluation, biomedical knowledge, and the social production of "facts" about a telemedicine clinic. <i>Social Science and Medicine</i> , 2001, 53, 989-1002.	1.8	66
89	The Clinical Encounter and the Problem of Context. <i>Sociology</i> , 2007, 41, 29-45.	1.7	66
90	Which quality of life score is best for glaucoma patients and why?. <i>BMC Ophthalmology</i> , 2008, 8, 2.	0.6	65

#	ARTICLE	IF	CITATIONS
91	Embedding effective depression care: using theory for primary care organisational and systems change. <i>Implementation Science</i> , 2010, 5, 62.	2.5	65
92	Incontinence and sexuality: findings from a qualitative perspective. <i>Journal of Advanced Nursing</i> , 1999, 30, 573-579.	1.5	64
93	Mobilising modern facts: health technology assessment and the politics of evidence. <i>Sociology of Health and Illness</i> , 2006, 28, 513-532.	1.1	62
94	The professional imagination: narrative and the symbolic boundaries between medicine and nursing. <i>Journal of Advanced Nursing</i> , 1997, 25, 1094-1100.	1.5	61
95	Dealing with doubt. <i>Journal of Psychosomatic Research</i> , 2000, 49, 223-225.	1.2	60
96	Qualitative systematic reviews of treatment burden in stroke, heart failure and diabetes - Methodological challenges and solutions. <i>BMC Medical Research Methodology</i> , 2013, 13, 10.	1.4	60
97	Established users and the making of telecare work in long term condition management: Implications for health policy. <i>Social Science and Medicine</i> , 2011, 72, 1077-1084.	1.8	59
98	Patients and informal caregivers' experiences of burden of treatment in lung cancer and chronic obstructive pulmonary disease (COPD): a systematic review and synthesis of qualitative research. <i>BMJ Open</i> , 2019, 9, e020515.	0.8	59
99	Development and formative evaluation of the e-Health Implementation Toolkit (e-HIT). <i>BMC Medical Informatics and Decision Making</i> , 2010, 10, 61.	1.5	58
100	Clinical terminology: anxiety and confusion amongst families undergoing genetic counseling. <i>Patient Education and Counseling</i> , 1997, 32, 81-91.	1.0	57
101	Qualitative study of patients' perceptions of the quality of care for depression in general practice. <i>British Journal of General Practice</i> , 2003, 53, 278-83.	0.7	57
102	Affective neutrality and involvement in nurse-patient relationships: perceptions of appropriate behaviour among nurses in acute medical and surgical wards. <i>Journal of Advanced Nursing</i> , 1991, 16, 552-558.	1.5	54
103	Lay understanding of genetic disease: A British study of families attending a genetic counseling service. <i>Journal of Genetic Counseling</i> , 1995, 4, 281-300.	0.9	54
104	Medical knowledge and the intractable patient: the case of chronic low back pain. <i>Social Science and Medicine</i> , 1999, 48, 523-534.	1.8	54
105	Implementing nutrition guidelines for older people in residential care homes: a qualitative study using Normalization Process Theory. <i>Implementation Science</i> , 2012, 7, 106.	2.5	54
106	Barriers and facilitators to discontinuing antidepressant use: A systematic review and thematic synthesis. <i>Journal of Affective Disorders</i> , 2019, 245, 38-62.	2.0	54
107	Normative models of health technology assessment and the social production of evidence about telehealth care. <i>Health Policy</i> , 2003, 64, 39-54.	1.4	52
108	The influence of diabetes upon adolescent and young adult development: A qualitative study. <i>British Journal of Health Psychology</i> , 2007, 12, 75-91.	1.9	52

#	ARTICLE	IF	CITATIONS
109	The place of information and communication technology-mediated consultations in primary care: GPs' perspectives. <i>Family Practice</i> , 2012, 29, 361-366.	0.8	51
110	Translational framework for implementation evaluation and research: a normalisation process theory coding manual for qualitative research and instrument development. <i>Implementation Science</i> , 2022, 17, 19.	2.5	50
111	The harmful consequences of elevating the doctor-patient relationship to be a primary goal of the general practice consultation. <i>Family Practice</i> , 2004, 21, 229-231.	0.8	49
112	Pathology, Identity and the Social Construction of Alcohol Dependence. <i>Sociology</i> , 2001, 35, 385-401.	1.7	48
113	Future patients? Telehealthcare, roles and responsibilities. <i>Health and Social Care in the Community</i> , 2007, 16, 86-95.	0.7	48
114	“Your whole life is lived through your teeth”: biographical disruption and experiences of tooth loss and replacement. <i>Sociology of Health and Illness</i> , 2014, 36, 462-476.	1.1	48
115	Optimising impact and sustainability: a qualitative process evaluation of a complex intervention targeted at compassionate care. <i>BMJ Quality and Safety</i> , 2017, 26, 970-977.	1.8	48
116	Health professionals' responses to the introduction of a home telehealth service. <i>Journal of Telemedicine and Telecare</i> , 2004, 10, 226-230.	1.4	47
117	What General Practitioners Find Satisfying in Their Work: Implications for Health Care System Reform. <i>Annals of Family Medicine</i> , 2006, 4, 500-505.	0.9	47
118	Juvenile idiopathic arthritis: improved outcome requires improved access to care. <i>Rheumatology</i> , 2010, 49, 401-403.	0.9	47
119	What is the patient acceptability of real time 1:1 videoconferencing in an orthopaedics setting? A systematic review. <i>Physiotherapy</i> , 2018, 104, 178-186.	0.2	47
120	Supporting insulin initiation in type 2 diabetes in primary care: results of the Stepping Up pragmatic cluster randomised controlled clinical trial. <i>BMJ: British Medical Journal</i> , 2017, 356, j783.	2.4	46
121	Patients or research subjects? A qualitative study of participation in a randomised controlled trial of a complex intervention. <i>Patient Education and Counseling</i> , 2006, 62, 260-270.	1.0	45
122	Patient autonomy and the politics of professional relationships. <i>Journal of Advanced Nursing</i> , 1995, 21, 83-87.	1.5	42
123	“They leave at least believing they had a part in the discussion”: Understanding decision aid use and patient “clinician decision-making through qualitative research. <i>Patient Education and Counseling</i> , 2013, 93, 86-94.	1.0	42
124	Identifying treatment burden as an important concept for end of life care in those with advanced heart failure. <i>Current Opinion in Supportive and Palliative Care</i> , 2013, 7, 3-7.	0.5	41
125	Negotiating palliative care expertise in the medical world. <i>Social Science and Medicine</i> , 2003, 57, 277-288.	1.8	40
126	Seeing through the glass darkly? A qualitative exploration of GPs' drinking and their alcohol intervention practices. <i>Family Practice</i> , 2006, 23, 481-487.	0.8	40

#	ARTICLE	IF	CITATIONS
127	Telepsychiatry evaluation in the north-west of England: Preliminary results of a qualitative study. <i>Journal of Telemedicine and Telecare</i> , 2000, 6, 20-22.	1.4	37
128	Why do telemedicine systems fail to normalize as stable models of service delivery?. <i>Journal of Telemedicine and Telecare</i> , 2003, 9, 25-26.	1.4	37
129	A digital self-management intervention for adults with type 2 diabetes: Combining theory, data and participatory design to develop HeLP-Diabetes. <i>Internet Interventions</i> , 2019, 17, 100241.	1.4	36
130	Chronic illness and intractability: professional-patient interactions in primary care. <i>Chronic Illness</i> , 2005, 1, 15-20.	0.6	35
131	Remote shared decision making through telemedicine: A systematic review of the literature. <i>Patient Education and Counseling</i> , 2022, 105, 356-365.	1.0	35
132	Patient Satisfaction with Store-and-Forward Teledermatology. <i>Journal of Telemedicine and Telecare</i> , 2001, 7, 45-46.	1.4	34
133	Subjectivity and culpability in the constitution of nurse-patient relationships. <i>International Journal of Nursing Studies</i> , 1993, 30, 181-192.	2.5	32
134	Patients' Influence on Doctors' Behavior: A Case Study of Patient Strategies in Somatization. <i>International Journal of Psychiatry in Medicine</i> , 1995, 25, 319-329.	0.8	31
135	Implementation of grip strength measurement in medicine for older people wards as part of routine admission assessment: identifying facilitators and barriers using a theory-led intervention. <i>BMC Geriatrics</i> , 2018, 18, 79.	1.1	31
136	Parental guilt: The part played by the clinical geneticist. <i>Journal of Genetic Counseling</i> , 1995, 4, 179-191.	0.9	30
137	Medical communication and technology: a video-based process study of the use of decision aids in primary care consultations. <i>BMC Medical Informatics and Decision Making</i> , 2007, 7, 2.	1.5	30
