#	ARTICLE	IF	CITATIONS
1	Remote shared decision making through telemedicine: A systematic review of the literature. <i>Patient Education and Counseling</i> , 2022, 105, 356-365.	1.0	35
2	Patient preferences for use of virtual consultations in an orthopaedic rehabilitation setting: Results from a discrete choice experiment. <i>Journal of Health Services Research and Policy</i> , 2022, 27, 62-73.	0.8	10
3	Making sense of diabetes medication decisions: a mixed methods cluster randomized trial using a conversation aid intervention. <i>Endocrine</i> , 2022, 75, 377-391.	1.1	7
4	Patient, clinician and manager experience of the accelerated implementation of virtual consultations following COVID-19: A qualitative study of preferences in a tertiary orthopaedic rehabilitation setting. <i>Health Expectations</i> , 2022, 25, 775-790.	1.1	7
5	How do social and economic vulnerabilities shape the work of participating in care? Everyday experiences of people living with kidney failure in Argentina. <i>Social Science and Medicine</i> , 2022, 293, 114666.	1.8	3
6	Minimally Disruptive Medicine. <i>Mayo Clinic Proceedings</i> , 2022, 97, 210-220.	1.4	11
7	OUP accepted manuscript. <i>Family Practice</i> , 2022, , .	0.8	0
8	Translational framework for implementation evaluation and research: a normalisation process theory coding manual for qualitative research and instrument development. <i>Implementation Science</i> , 2022, 17, 19.	2.5	50
9	SYMptoms in chronic heart failure imPACT on burden of treatment (SYMPACT): a cross-sectional survey. <i>ESC Heart Failure</i> , 2022, 9, 2279-2290.	1.4	4
10	Process evaluations of mental health and psychosocial support interventions for populations affected by humanitarian crises. <i>Social Science and Medicine</i> , 2022, 303, 114994.	1.8	4
11	How do illness identity, patient workload and agentic capacity interact to shape patient and caregiver experience? Comparative analysis of lung cancer and chronic obstructive pulmonary disease. <i>Health and Social Care in the Community</i> , 2022, 30, .	0.7	3
12	Home and Online Management and Evaluation of Blood Pressure (HOME BP) using a digital intervention in poorly controlled hypertension: randomised controlled trial. <i>BMJ</i> , The, 2021, 372, m4858.	3.0	106
13	Factors that influence patient preferences for virtual consultations in an orthopaedic rehabilitation setting: a qualitative study. <i>BMJ Open</i> , 2021, 11, e041038.	0.8	18
14	“Snakes & Ladders”™: factors influencing access to appropriate care for children and young people with suspected juvenile idiopathic arthritis “ a qualitative study. <i>Pediatric Rheumatology</i> , 2021, 19, 43.	0.9	6
15	Patient Work and Treatment Burden in Type 2 Diabetes: A Mixed-Methods Study. <i>Mayo Clinic Proceedings Innovations, Quality & Outcomes</i> , 2021, 5, 359-367.	1.2	11
16	The Early Youth Engagement in first episode psychosis (EYE-2) study: pragmatic cluster randomised controlled trial of implementation, effectiveness and cost-effectiveness of a team-based motivational engagement intervention to improve engagement. <i>Trials</i> , 2021, 22, 272.	0.7	5
17	Implementing a digital intervention for managing uncontrolled hypertension in Primary Care: a mixed methods process evaluation. <i>Implementation Science</i> , 2021, 16, 57.	2.5	6
18	A Digital Intervention for Primary Care Practitioners to Support Antidepressant Discontinuation (Advisor for Health Professionals): Development Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e25537.	2.1	1

#	ARTICLE	IF	CITATIONS
19	Do chronic heart failure symptoms interact with burden of treatment? Qualitative literature systematic review. <i>BMJ Open</i> , 2021, 11, e047060.	0.8	11
20	A qualitative investigation into the results of a discrete choice experiment and the impact of COVID-19 on patient preferences for virtual consultations. <i>Archives of Physiotherapy</i> , 2021, 11, 20.	0.7	6
21	Kidney failure, status passage, and the transitional nature of living with the disease: A qualitative study in Argentina. <i>Health (United Kingdom)</i> , 2021, , 136345932110468.	0.9	3
22	Evaluation of the usability, accessibility and acceptability for a family support intervention (Family-Focused Support Conversation) for end of life care discharge planning from hospital: A participatory learning and action research study. <i>International Journal of Nursing Studies Advances</i> , 2021, 3, 100022.	0.9	2
23	Digital transformation could increase the burden of treatment on patients. <i>BMJ, The</i> , 2021, 375, n2909.	3.0	14
24	A Complex Intervention for Alcohol Misuse Among Conflict-Affected Populations in Uganda and Ukraine: Study Protocol for the Qualitative Components in the CHANGE Trial. <i>International Journal of Qualitative Methods, The</i> , 2021, 20, 160940692110630.	1.3	1
25	Use of virtual consultations in an orthopaedic rehabilitation setting: how do changes in the work of being a patient influence patient preferences? A systematic review and qualitative synthesis. <i>BMJ Open</i> , 2020, 10, e036197.	0.8	13
26	Managing patient preferences and clinical responses in acute pathophysiological deterioration: What do clinicians think treatment escalation plans do?. <i>Social Science and Medicine</i> , 2020, 258, 113143.	1.8	11
27	Creating pre-conditions for change in clinical practice: the influence of interactions between multiple contexts and human agency. <i>Journal of Health Organization and Management</i> , 2020, 35, 1-17.	0.6	6
28	Tailored implementation of internet-based cognitive behavioural therapy in the multinational context of the ImpleMentAll project: a study protocol for a stepped wedge cluster randomized trial. <i>Trials</i> , 2020, 21, 893.	0.7	25
29	How do SYMPtoms and management tasks in chronic heart failure imPACT a person's life (SYMPACT)? Protocol for a mixedâ€methods study. <i>ESC Heart Failure</i> , 2020, 7, 4472-4477.	1.4	5
30	Co-construction of the family-focused support conversation: a participatory learning and action research study to implement support for family members whose relatives are being discharged for end-of-life care at home or in a nursing home. <i>BMC Palliative Care</i> , 2020, 19, 146.	0.8	8
31	The Potential Added Value of Novel Hearing Therapeutics: An Early Health Economic Model for Hearing Loss. <i>Otology and Neurotology</i> , 2020, 41, 1033-1041.	0.7	6
32	Malnutrition in community-dwelling older people: lessons learnt using a new procedure. <i>British Journal of Community Nursing</i> , 2020, 25, 193-195.	0.2	2
33	Normalization of a conversation tool to promote shared decision making about anticoagulation in patients with atrial fibrillation within a practical randomized trial of its effectiveness: a cross-sectional study. <i>Trials</i> , 2020, 21, 395.	0.7	9
34	Patient-reported outcome measures for monitoring primary care patients with depression (PROMDEP): study protocol for a randomised controlled trial. <i>Trials</i> , 2020, 21, 441.	0.7	8
35	REDUCE (Reviewing long-term antidepressant use by careful monitoring in everyday practice) internet and telephone support to people coming off long-term antidepressants: protocol for a randomised controlled trial. <i>Trials</i> , 2020, 21, 419.	0.7	11
36	Effectiveness of nurseâled group <sc>CBT</sc> for hot flushes and night sweats in women with breast cancer: Results of the <sc>MENOS4</sc> randomised controlled trial. <i>Psycho-Oncology</i> , 2020, 29, 1514-1523.	1.0	19

#	ARTICLE	IF	CITATIONS
37	Coordinating Compassionate Care Across Nursing Teams: The Implementation Journey of a Planned Intervention. <i>Organizational Behaviour in Health Care</i> , 2020, , 29-51.	0.4	2
38	Supporting antidepressant discontinuation: the development and optimisation of a digital intervention for patients in UK primary care using a theory, evidence and person-based approach. <i>BMJ Open</i> , 2020, 10, e032312.	0.8	18
39	Exploring maintenance of physical activity behaviour change among people living with and beyond gastrointestinal cancer: a cross-sectional qualitative study and typology. <i>BMJ Open</i> , 2020, 10, e037136.	0.8	11
40	Patients' and kidney care team's perspectives of treatment burden and capacity in older people with chronic kidney disease: a qualitative study. <i>BMJ Open</i> , 2020, 10, e042548.	0.8	13
41	Normalization Process Theory. , 2020, , .		17
42	Choosing to listen. , 2020, , 29-34.		0
43	Interdisciplinary team working in the Irish primary healthcare system: Analysis of "invisible" bottom up innovations using Normalisation Process Theory. <i>Health Policy</i> , 2019, 123, 1083-1092.	1.4	11
44	What factors promote or inhibit implementation of a new procedure for screening and treatment of malnutrition in community settings? A prospective process evaluation of the <i>Implementing Nutrition Screening in Community Care for Older People</i> (INSCCOPe) project (UK). <i>BMJ Open</i> , 2019, 9, e023362.	0.8	2
45	A digital self-management intervention for adults with type 2 diabetes: Combining theory, data and participatory design to develop HeLP-Diabetes. <i>Internet Interventions</i> , 2019, 17, 100241.	1.4	36
46	Systematic review and meta-analysis of maintenance of physical activity behaviour change in cancer survivors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 37.	2.0	127
47	Patients and informal caregivers' experiences of burden of treatment in lung cancer and chronic obstructive pulmonary disease (COPD): a systematic review and synthesis of qualitative research. <i>BMJ Open</i> , 2019, 9, e020515.	0.8	59
48	What is the acceptability of real time 1:1 videoconferencing between clinicians and patients for a follow-up consultation for multi-directional shoulder instability?. <i>Shoulder and Elbow</i> , 2019, 11, 53-59.	0.7	13
49	Burden of treatment in chronic heart failure: does symptom burden play a role?. <i>British Journal of Cardiac Nursing</i> , 2019, 14, 91-93.	0.0	5
50	HORIZONS protocol: a UK prospective cohort study to explore recovery of health and well-being in adults diagnosed with cancer. <i>BMJ Open</i> , 2019, 9, e029662.	0.8	6
51	Helping people discontinue long-term antidepressants: views of health professionals in UK primary care. <i>BMJ Open</i> , 2019, 9, e027837.	0.8	16
52	Ethnographic study using Normalization Process Theory to understand the implementation process of infection prevention and control guidelines in Ireland. <i>BMJ Open</i> , 2019, 9, e029514.	0.8	9
53	Protocol for the CONNECT project: a mixed methods study investigating patient preferences for communication technology use in orthopaedic rehabilitation consultations. <i>BMJ Open</i> , 2019, 9, e035210.	0.8	7
54	Implementing professional behaviour change in teams under pressure: results from phase one of a prospective process evaluation (the <i>Implementing Nutrition Screening in Community Care for Older</i>)		0

#	ARTICLE	IF	CITATIONS
55	Health care professionals's views towards self-management and self-management education for people with type 2 diabetes. <i>BMJ Open</i> , 2019, 9, e029961.	0.8	19
56	Barriers and facilitators to discontinuing antidepressant use: A systematic review and thematic synthesis. <i>Journal of Affective Disorders</i> , 2019, 245, 38-62.	2.0	54
57	Implementation of self-management support in cancer care and normalization into routine practice: a systematic scoping literature review protocol. <i>Systematic Reviews</i> , 2019, 8, 37.	2.5	29
58	Implementing and Embedding Health Informatics Systems - Understanding Organizational Behaviour Change Using Normalization Process Theory (NPT). <i>Studies in Health Technology and Informatics</i> , 2019, 263, 171-190.	0.2	5
59	What is the patient acceptability of real time 1:1 videoconferencing in an orthopaedics setting? A systematic review. <i>Physiotherapy</i> , 2018, 104, 178-186.	0.2	47
60	Supporting carers to manage pain medication in cancer patients at the end of life: A feasibility trial. <i>Palliative Medicine</i> , 2018, 32, 246-256.	1.3	18
61	Escalation-related decision making in acute deterioration: a retrospective case note review. <i>BMJ Open</i> , 2018, 8, e022021.	0.8	13
62	Improving the normalization of complex interventions: part 1 - development of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018, 18, 133.	1.4	97
63	Improving the normalization of complex interventions: part 2 - validation of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018, 18, 135.	1.4	139
64	Developing an implementation strategy for a digital health intervention: an example in routine healthcare. <i>BMC Health Services Research</i> , 2018, 18, 794.	0.9	74
65	Work of being an adult patient with chronic kidney disease: a systematic review of qualitative studies. <i>BMJ Open</i> , 2018, 8, e023507.	0.8	83
66	Digitized patient-provider interaction: How does it matter? A qualitative meta-synthesis. <i>Social Science and Medicine</i> , 2018, 215, 36-44.	1.8	22
67	Using Normalization Process Theory in feasibility studies and process evaluations of complex healthcare interventions: a systematic review. <i>Implementation Science</i> , 2018, 13, 80.	2.5	350
68	A conceptual model of treatment burden and patient capacity in stroke. <i>BMC Family Practice</i> , 2018, 19, 9.	2.9	77
69	Implementation of grip strength measurement in medicine for older people wards as part of routine admission assessment: identifying facilitators and barriers using a theory-led intervention. <i>BMC Geriatrics</i> , 2018, 18, 79.	1.1	31
70	MENOS4 trial: a multicentre randomised controlled trial (RCT) of a breast care nurse delivered cognitive behavioural therapy (CBT) intervention to reduce the impact of hot flushes in women with breast cancer: Study Protocol. <i>BMC Women's Health</i> , 2018, 18, 63.	0.8	9
71	Qualitative process study to explore the perceived burdens and benefits of a digital intervention for self-managing high blood pressure in Primary Care in the UK. <i>BMJ Open</i> , 2018, 8, e020843.	0.8	16
72	Digital Health Interventions for Adults With Type 2 Diabetes: Qualitative Study of Patient Perspectives on Diabetes Self-Management Education and Support. <i>Journal of Medical Internet Research</i> , 2018, 20, e40.	2.1	98

#	ARTICLE	IF	CITATIONS
73	A web-based self-management programme for people with type 2 diabetes: the HeLP-Diabetes research programme including RCT. Programme Grants for Applied Research, 2018, 6, 1-242.	0.4	13
74	A two phased study on health care professionals's perceptions of single or multi-use of intermittent catheters. International Journal of Nursing Studies, 2017, 72, 83-90.	2.5	6
75	Web-based self-management support for people with type 2 diabetes (HeLP-Diabetes): randomised controlled trial in English primary care. BMJ Open, 2017, 7, e016009.	0.8	75
76	Optimising impact and sustainability: a qualitative process evaluation of a complex intervention targeted at compassionate care. BMJ Quality and Safety, 2017, 26, 970-977.	1.8	48
77	Organizing Practice and Practicing Organization: An Outline of Translational Mobilization Theory. SAGE Open, 2017, 7, 215824401770799.	0.8	18
78	Implementing communication and decision-making interventions directed at goals of care: a theory-led scoping review. BMJ Open, 2017, 7, e017056.	0.8	16
79	Understanding how primary care practitioners perceive an online intervention for the management of hypertension. BMC Medical Informatics and Decision Making, 2017, 17, 5.	1.5	26
80	Intervention planning for a digital intervention for self-management of hypertension: a theory-, evidence- and person-based approach. Implementation Science, 2017, 12, 25.	2.5	107
81	Using digital interventions for self-management of chronic physical health conditions: A meta-ethnography review of published studies. Patient Education and Counseling, 2017, 100, 616-635.	1.0	147
82	Development and validation of the Patient Experience with Treatment and Self-management (PETS): a patient-reported measure of treatment burden. Quality of Life Research, 2017, 26, 489-503.	1.5	141
83	Successfully implementing and embedding guidelines to improve the nutrition and growth of preterm infants in neonatal intensive care: a prospective interventional study. BMJ Open, 2017, 7, e017727.	0.8	25
84	Supporting insulin initiation in type 2 diabetes in primary care: results of the Stepping Up pragmatic cluster randomised controlled clinical trial. BMJ: British Medical Journal, 2017, 356, j783.	2.4	46
85	Managing expectations: cognitive authority and experienced control in complex healthcare processes. BMC Health Services Research, 2017, 17, 459.	0.9	18
86	Integrating acute stroke telemedicine consultations into specialists's usual practice: a qualitative analysis comparing the experience of Australia and the United Kingdom. BMC Health Services Research, 2017, 17, 751.	0.9	18
87	Can routine clinical data identify older patients at risk of poor healthcare outcomes on admission to hospital?. BMC Research Notes, 2017, 10, 384.	0.6	3
88	Debt Counselling for Depression in Primary Care: an adaptive randomised controlled pilot trial (DeCoDer study). Health Technology Assessment, 2017, 21, 1-164.	1.3	15
89	Supporting family caregivers in the transition between hospital and their relative's preferred place for end of life care. BMJ Supportive and Palliative Care, 2016, 6, 404.3-405.	0.8	0
90	Recovering the self: a manifesto for primary care. British Journal of General Practice, 2016, 66, 582-583.	0.7	11

#	ARTICLE	IF	CITATIONS
91	A feasibility study of implementing grip strength measurement into routine hospital practice (GRIMP): study protocol. Pilot and Feasibility Studies, 2016, 2, 27.	0.5	83
92	Illness identity as an important component of candidacy: Contrasting experiences of help-seeking and access to care in cancer and heart disease. Social Science and Medicine, 2016, 168, 101-110.	1.8	28
93	Interventions for compassionate nursing care: A systematic review. International Journal of Nursing Studies, 2016, 62, 137-155.	2.5	74
94	<i>â€œIt was like he was in the room with usâ€™:</i> patientsâ€™ and carersâ€™ perspectives of telemedicine in acute stroke. Health Expectations, 2016, 19, 98-111.	1.1	17
95	Patient capacity and constraints in the experience of chronic disease: a qualitative systematic review and thematic synthesis. BMC Family Practice, 2016, 17, 127.	2.9	93
96	Experiences of long-term life-limiting conditions among patients and carers: what can we learn from a meta-review of systematic reviews of qualitative studies of chronic heart failure, chronic obstructive pulmonary disease and chronic kidney disease?. BMJ Open, 2016, 6, e011694.	0.8	68
97	Implementation, context and complexity. Implementation Science, 2016, 11, 141.	2.5	542
98	Assessing the feasibility of a web-based domestic violence intervention using chronic disease frameworks: reducing the burden of â€œtreatmentâ€™ and promoting capacity for action in women abused by a partner. BMC Women's Health, 2016, 16, 73.	0.8	7
99	An open letter to<i>The BMJ</i> editors on qualitative research. BMJ, The, 2016, 352, i563.	3.0	234
100	A web-based intervention (RESTORE) to support self-management of cancer-related fatigue following primary cancer treatment: a multi-centre proof of concept randomised controlled trial. Supportive Care in Cancer, 2016, 24, 2445-2453.	1.0	75
101	The burden of comorbidity in people with chronic kidney disease stage 3: a cohort study. BMC Nephrology, 2015, 16, 193.	0.8	146
102	RESTORE: an exploratory trial of a web-based intervention to enhance self-management of cancer-related fatigue: findings from a qualitative process evaluation. BMC Medical Informatics and Decision Making, 2015, 15, 94.	1.5	30
103	Implementation of secondary fracture prevention services after hip fracture: a qualitative study using extended Normalization Process Theory. Implementation Science, 2015, 10, 57.	2.5	30
104	Finalizing a measurement framework for the burden of treatment in complex patients with chronic conditions. Patient Related Outcome Measures, 2015, 6, 117.	0.7	102
105	Barriers to Advance Care Planning at the End of Life: An Explanatory Systematic Review of Implementation Studies. PLoS ONE, 2015, 10, e0116629.	1.1	228
106	Making sense of technology adoption in healthcare: meso-level considerations. BMC Medicine, 2015, 13, 92.	2.3	18
107	Promoting professional behaviour change in healthcare: what interventions work, and why? A theory-led overview of systematic reviews. BMJ Open, 2015, 5, e008592.	0.8	342
108	EXPERTS 1–experiences of long-term life-limiting conditions among patients and carers: protocol for a qualitative meta-synthesis and conceptual modelling study. BMJ Open, 2015, 5, e007372-e007372.	0.8	9
