List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/2662940/publications.pdf

Version: 2024-02-01

#	Article	IF	CITATIONS
1	Examination of developmental pathways from preschool temperament to early adolescent ADHD symptoms through initial responsiveness to reward. Development and Psychopathology, 2022, 34, 841-853.	2.3	11
2	Longitudinal predictors of depression, anxiety, and alcohol use following COVIDâ€19â€related stress. Stress and Health, 2022, 38, 679-691.	2.6	16
3	Neural response to rewarding social feedback in never-depressed adolescent girls and their mothers with remitted depression: Associations with multiple risk indices , 2022, 131, 141-151.		20
4	Understanding Trajectories to Anxiety and Depression: Neural Responses to Errors and Rewards as Indices of Susceptibility to Stressful Life Events. Current Directions in Psychological Science, 2022, 31, 115-123.	5.3	14
5	Parent Emotion Socialization and Positive Emotions in Child and Adolescent Clinical Samples: A Systematic Review and Call to Action. Clinical Child and Family Psychology Review, 2022, 25, 204-221.	4.5	6
6	#Socialdistancing: Social Media Use and Online Social Support Moderate the Effect of Pandemic-Related Stress on Internalizing Symptoms in Emerging Adults. Journal of Social and Clinical Psychology, 2022, 41, 30-53.	0.5	5
7	The Impact of Irritability and Callous Unemotional Traits on Reward Positivity in Youth with ADHD and Conduct Problems. Research on Child and Adolescent Psychopathology, 2022, 50, 1027-1040.	2.3	2
8	The time course of reactivity to social acceptance and rejection feedback: An examination of eventâ€related potentials and behavioral measures in a peer interaction task. Psychophysiology, 2022, 59, e14007.	2.4	7
9	Associations between peer stress in early adolescence and multiple eventâ€related potentials elicited during social feedback processing. Developmental Psychobiology, 2022, 64, .	1.6	5
10	Benevolent Childhood Experiences and Childhood Maltreatment History: Examining Their Roles in Depressive Symptoms Across the Peripartum Period. Adversity and Resilience Science, 2022, 3, 169-179.	2.6	3
11	Neural markers of emotion regulation difficulties moderate effects of COVIDâ€19 stressors on adolescent depression. Depression and Anxiety, 2022, 39, 515-523.	4.1	9
12	Mindfulness-Based Cognitive Therapy: A Preliminary Examination of the (Event-Related) Potential for Modifying Threat-Related Attentional Bias in Anxiety. Mindfulness, 2022, 13, 1719-1732.	2.8	2
13	Methods and metrics for EEC/ERP assessment of emotion and cognition in young children. Developmental Psychobiology, 2022, 64, .	1.6	3
14	The moderating role of externalizing problems on the association between anxiety and the errorâ€related negativity in youth. Developmental Psychobiology, 2021, 63, 782-792.	1.6	1
15	Neural responses to social acceptance predict behavioral adjustments following peer feedback in the context of a realâ€ŧime social interaction task. Psychophysiology, 2021, 58, e13748.	2.4	20
16	Differentiating stages of reward responsiveness: Neurophysiological measures and associations with facets of the behavioral activation system. Psychophysiology, 2021, 58, e13764.	2.4	9
17	A Preliminary Investigation of ERP Components of Attentional Bias in Anxious Adults Using Temporospatial Principal Component Analysis. Journal of Psychophysiology, 2021, 35, 1-14.	0.7	5
18	Altered reward responsiveness and depressive symptoms: An examination of social and monetary reward domains and interactions with rejection sensitivity. Journal of Affective Disorders, 2021, 282, 717-725.	4.1	19

#	Article	IF	CITATIONS
19	Zoom or In-Person: An Ecological Momentary Assessment Study the Effects of time With Friends and Depressive Symptoms on Affect in Emerging Adults. Journal of Social and Clinical Psychology, 2021, 40, 97-120.	0.5	3
20	Advancing the RDoC initiative through the assessment of caregiver social processes. Development and Psychopathology, 2021, 33, 1648-1664.	2.3	12
21	Neurophysiological Responses to Interpersonal Emotional Images: Associations with Symptoms of Depression and Social Anxiety. Cognitive, Affective and Behavioral Neuroscience, 2021, 21, 1306-1318.	2.0	10
22	Neurophysiological Responses to Interpersonal Emotional Images Prospectively Predict the Impact of COVID-19 Pandemic–Related Stress on Internalizing Symptoms. Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, 2021, 6, 887-897.	1.5	17
23	Development of emotion processing and regulation: Insights from event-related potentials and implications for internalizing disorders. International Journal of Psychophysiology, 2021, 170, 121-132.	1.0	8
24	Identifying Neural Markers of Peer Dysfunction in Girls with ADHD. Journal of Psychiatry and Brain Science, 2021, 6, .	0.5	1
25	Performance Monitoring and Mental Health During the COVID-19 Pandemic: Clarifying Pathways to Internalizing Psychopathology. Biological Psychiatry Global Open Science, 2021, 1, 249-251.	2.2	1
26	Stressful life events moderate the effect of neural reward responsiveness in childhood on depressive symptoms in adolescence. Psychological Medicine, 2020, 50, 1548-1555.	4.5	40
27	Neurobiological changes during the peripartum period: implications for health and behavior. Social Cognitive and Affective Neuroscience, 2020, 15, 1097-1110.	3.0	35
28	Exposure to COVIDâ€19 pandemic stress: Associations with depression and anxiety in emerging adults in the United States. Depression and Anxiety, 2020, 37, 1280-1288.	4.1	189
29	Effects of Maternal Depression and Mother–Child Relationship Quality in Early Childhood on Neural Reactivity to Rejection and Peer Stress in Adolescence: A 9-Year Longitudinal Study. Clinical Psychological Science, 2020, 8, 657-672.	4.0	8
30	Developmental trajectories to reduced activation of positive valence systems: A review of biological and environmental contributions. Developmental Cognitive Neuroscience, 2020, 43, 100791.	4.0	40
31	The effects of a brief motivation manipulation on reward responsiveness: A multi-method study with implications for depression. International Journal of Psychophysiology, 2020, 150, 100-107.	1.0	22
32	Differentiating clinically depressed adolescents with and without active suicidality: An examination of neurophysiological and selfâ€report measures of reward responsiveness. Depression and Anxiety, 2020, 37, 876-884.	4.1	17
33	Conducting Event-Related Potential (ERP) Research With Young Children. Journal of Psychophysiology, 2020, 34, 137-158.	0.7	37
34	Social Feedback Valence Differentially Modulates the Reward Positivity, P300, and Late Positive Potential. Journal of Psychophysiology, 2020, 34, 255-267.	0.7	15
35	Impact of pubertal timing and depression on errorâ€related brain activity in anxious youth. Developmental Psychobiology, 2019, 61, 69-80.	1.6	5
36	Reduced reward responsiveness moderates the effect of maternal depression on depressive symptoms in offspring: evidence across levels of analysis. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2019, 60, 82-90.	5.2	78

#	Article	IF	CITATIONS
37	Stability and change in emotional processing across development: A 6â€year longitudinal investigation using eventâ€related potentials. Psychophysiology, 2019, 56, e13438.	2.4	21
38	The neural chronometry of threat-related attentional bias: Event-related potential (ERP) evidence for early and late stages of selective attentional processing. International Journal of Psychophysiology, 2019, 146, 20-42.	1.0	62
39	Blunted Social Reward Responsiveness Moderates the Effect of Lifetime Social Stress Exposure on Depressive Symptoms. Frontiers in Behavioral Neuroscience, 2019, 13, 178.	2.0	51
40	Peer Victimization and Dysfunctional Reward Processing: ERP and Behavioral Responses to Social and Monetary Rewards. Frontiers in Behavioral Neuroscience, 2019, 13, 120.	2.0	32
41	Reduced Reward Responsiveness Predicts Change in Depressive Symptoms in Anxious Children and Adolescents Following Treatment. Journal of Child and Adolescent Psychopharmacology, 2019, 29, 378-385.	1.3	30
42	Parenting style moderates the effects of exposure to natural disaster-related stress on the neural development of reactivity to threat and reward in children. Development and Psychopathology, 2019, 31, 1589-1598.	2.3	11
43	Sensitivity to Peer Feedback in Young Adolescents with Symptoms of ADHD: Examination of Neurophysiological and Self-Report Measures. Journal of Abnormal Child Psychology, 2019, 47, 605-617.	3.5	39
44	Positive and Negative Emotionality at Age 3 Predicts Change in Frontal EEG Asymmetry across Early Childhood. Journal of Abnormal Child Psychology, 2019, 47, 209-219.	3.5	9
45	Early temperamental fearfulness and the developmental trajectory of errorâ€related brain activity. Developmental Psychobiology, 2018, 60, 224-231.	1.6	22
46	Convergence of BOLD and ERP measures of neural reactivity to emotional faces in children and adolescents with and without anxiety disorders. Biological Psychology, 2018, 134, 9-19.	2.2	33
47	Anterior cingulate activation to implicit threat before and after treatment for pediatric anxiety disorders. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2018, 84, 250-256.	4.8	19
48	Hurricane Sandy Exposure Alters the Development of Neural Reactivity to Negative Stimuli in Children. Child Development, 2018, 89, 339-348.	3.0	11
49	Neural indices of emotional reactivity and regulation predict course of PTSD symptoms in combat-exposed veterans. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2018, 82, 255-262.	4.8	28
50	A longitudinal examination of event-related potentials sensitive to monetary reward and loss feedback from late childhood to middle adolescence. International Journal of Psychophysiology, 2018, 132, 323-330.	1.0	51
51	Neural Reactivity to Angry Faces Predicts Treatment Response in Pediatric Anxiety. Journal of Abnormal Child Psychology, 2017, 45, 385-395.	3.5	38
52	Affective and cognitive correlates of PTSD: Electrocortical processing of threat and perseverative errors on the WCST in combat-related PTSD. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2017, 75, 63-69.	4.8	10
53	Attenuated neural reactivity to happy faces is associated with rule breaking and social problems in anxious youth. European Child and Adolescent Psychiatry, 2017, 26, 215-230.	4.7	29
54	Behavioral observations of positive and negative valence systems in early childhood predict physiological measures of emotional processing three years later. Journal of Affective Disorders, 2017, 216, 70-77.	4.1	15

#	Article	IF	CITATIONS
55	The relation between parent depressive symptoms and neural correlates of attentional control in offspring: A preliminary study. Psychiatry Research - Neuroimaging, 2017, 263, 26-31.	1.8	4
56	Neural responses to social and monetary reward in early adolescence and emerging adulthood. Psychophysiology, 2017, 54, 1786-1799.	2.4	64
57	456. Neural Correlates of Implicit Emotion Processing in Pediatric Anxiety: Changes with and Predictors of Treatment Response. Biological Psychiatry, 2017, 81, S186.	1.3	Ο
58	Social processing in early adolescence: Associations between neurophysiological, self-report, and behavioral measures. Biological Psychology, 2017, 128, 55-62.	2.2	42
59	Neurophysiological Processing of Emotion in Children of Mothers with a History of Depression: the Moderating Role of Preschool Persistent Irritability. Journal of Abnormal Child Psychology, 2017, 45, 1599-1608.	3.5	12
60	Neural correlates of explicit and implicit emotion processing in relation to treatment response in pediatric anxiety. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2017, 58, 546-554.	5.2	26
61	Vulnerability to Depression in Youth: Advances From Affective Neuroscience. Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, 2017, 2, 28-37.	1.5	64
62	Error-related brain activity in youth and young adults before and after treatment for generalized or social anxiety disorder. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2016, 71, 162-168.	4.8	70
63	Ageâ€related changes in emotional face processing across childhood and into young adulthood: Evidence from eventâ€related potentials. Developmental Psychobiology, 2016, 58, 27-38.	1.6	42
64	Ageâ€related changes in amygdala–frontal connectivity during emotional face processing from childhood into young adulthood. Human Brain Mapping, 2016, 37, 1684-1695.	3.6	104
65	Developmental changes in electroencephalographic frontal asymmetry in young children at risk for depression. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2016, 57, 1075-1082.	5.2	33
66	Altered Development of Amygdala-Anterior Cingulate Cortex Connectivity in Anxious Youth and Young Adults. Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, 2016, 1, 345-352.	1.5	44
67	NEURAL REACTIVITY TO REWARD AS A PREDICTOR OF COGNITIVE BEHAVIORAL THERAPY RESPONSE IN ANXIETY AND DEPRESSION. Depression and Anxiety, 2016, 33, 281-288.	4.1	83
68	Longitudinal Associations Between Preschool Disruptive Mood Dysregulation Disorder Symptoms and Neural Reactivity to Monetary Reward During Preadolescence. Journal of Child and Adolescent Psychopharmacology, 2016, 26, 131-137.	1.3	40
69	Neural Reactivity to Emotional Stimuli Prospectively Predicts the Impact of a Natural Disaster on Psychiatric Symptoms in Children. Biological Psychiatry, 2016, 80, 381-389.	1.3	52
70	Prefrontal Reactivity to Social Signals of Threat as a Predictor of Treatment Response in Anxious Youth. Neuropsychopharmacology, 2016, 41, 1983-1990.	5.4	46
71	Neural reactivity to monetary rewards and losses differentiates social from generalized anxiety in children. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2015, 56, 792-800.	5.2	53
72	Early Parenting Moderates the Association Between Parental Depression and Neural Reactivity to Rewards and Losses in Offspring. Clinical Psychological Science, 2015, 3, 503-515.	4.0	38

#	Article	IF	CITATIONS
73	Depression and event-related potentials: emotional disengagement and reward insensitivity. Current Opinion in Psychology, 2015, 4, 110-113.	4.9	117
74	Enhanced error-related brain activity in children predicts the onset of anxiety disorders between the ages of 6 and 9 Journal of Abnormal Psychology, 2015, 124, 266-274.	1.9	116
75	Enhanced Neural Reactivity to Threatening Faces in Anxious Youth: Evidence from Event-Related Potentials. Journal of Abnormal Child Psychology, 2015, 43, 1493-1501.	3.5	92
76	Neural reactivity to monetary rewards and losses in childhood: Longitudinal and concurrent associations with observed and self-reported positive emotionality. Biological Psychology, 2015, 104, 41-47.	2.2	94
77	Neural reactivity to rewards and losses in offspring of mothers and fathers with histories of depressive and anxiety disorders Journal of Abnormal Psychology, 2014, 123, 287-297.	1.9	133
78	Electrocortical reactivity to social feedback in youth: A pilot study of the Island Getaway task. Developmental Cognitive Neuroscience, 2014, 10, 140-147.	4.0	80
79	Emotion recognition in preschool children: Associations with maternal depression and early parenting. Development and Psychopathology, 2014, 26, 159-170.	2.3	35
80	Differentiating eventâ€related potential components sensitive to emotion in middle childhood: Evidence from temporal–spatial PCA. Developmental Psychobiology, 2013, 55, 539-550.	1.6	43
81	Increased Error-Related Brain Activity in Six-Year-Old Children with Clinical Anxiety. Journal of Abnormal Child Psychology, 2013, 41, 1257-1266.	3.5	69
82	Two-year stability of the late positive potential across middle childhood and adolescence. Biological Psychology, 2013, 94, 290-296.	2.2	77
83	The relation between electroencephalogram asymmetry and attention biases to threat at baseline and under stress. Brain and Cognition, 2013, 82, 337-343.	1.8	95
84	The feedback negativity reflects favorable compared to nonfavorable outcomes based on global, not local, alternatives. Psychophysiology, 2013, 50, 134-138.	2.4	70
85	Electrocortical reactivity to emotional images and faces in middle childhood to early adolescence. Developmental Cognitive Neuroscience, 2012, 2, 458-467.	4.0	84
86	Electrocortical reactivity to emotional faces in young children and associations with maternal and paternal depression. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2012, 53, 207-215.	5.2	109
87	Electrocortical and behavioral measures of response monitoring in young children during a Go/No o task. Developmental Psychobiology, 2012, 54, 139-150.	1.6	86
88	Attentional Biases for Emotional Faces in Young Children of Mothers with Chronic or Recurrent Depression. Journal of Abnormal Child Psychology, 2011, 39, 125-135.	3.5	110
