#	ARTICLE	IF	CITATIONS
1	Critical Needs in Advancing <i>Shigella</i> Vaccines for Global Health. <i>Journal of Infectious Diseases</i> , 2022, 225, 1500-1503.	4.0	9
2	<i>Campylobacter</i> infection and the link with Irritable Bowel Syndrome: on the pathway towards a causal association. <i>Pathogens and Disease</i> , 2022, 80, .	2.0	5
3	Military and Civilian Sector Practice Patterns for Short-Term Travelers' Diarrhea Self-Treatment in Adults. <i>American Journal of Tropical Medicine and Hygiene</i> , 2022, 106, 1156-1162.	1.4	1
4	Diarrhea, Dysbiosis, Dysfunction, and the Disastrous Global Health Consequences: Piecing the Puzzle Together. <i>American Journal of Gastroenterology</i> , 2022, 117, 98-99.	0.4	0
5	Reply. <i>Gastroenterology</i> , 2021, 160, 476-477.	1.3	0
6	Using COVID-19 cycle threshold and other lab values as predictors of hospitalization need. <i>Journal of Medical Virology</i> , 2021, 93, 3007-3014.	5.0	7
7	The interrelationship between water access, exclusive breastfeeding and diarrhea in children: a cross-sectional assessment across 19 African countries. <i>Journal of Global Health</i> , 2021, 11, 04001.	2.7	3
8	The traveller and antimicrobial resistance: what's new and where are we headed?. <i>Journal of Travel Medicine</i> , 2021, 28, .	3.0	3
9	Immune response characterization in a human challenge study with a <i>Shigella flexneri</i> 2a bioconjugate vaccine. <i>EBioMedicine</i> , 2021, 66, 103308.	6.1	35
10	Human challenge study with a <i>Shigella</i> bioconjugate vaccine: Analyses of clinical efficacy and correlate of protection. <i>EBioMedicine</i> , 2021, 66, 103310.	6.1	53
11	Fecal Microbiota Functional Gene Effects Related to Single-Dose Antibiotic Treatment of Travelers' Diarrhea. <i>Open Forum Infectious Diseases</i> , 2021, 8, ofab271.	0.9	2
12	Global diarrhoea-associated mortality estimates and models in children: Recommendations for dataset and study selection. <i>Vaccine</i> , 2021, 39, 4391-4398.	3.8	12
13	Enteric Pathogens and Reactive Arthritis: Systematic Review and Meta-Analyses of Pathogen-Associated Reactive Arthritis. <i>Foodborne Pathogens and Disease</i> , 2021, 18, 627-639.	1.8	7
14	A prospective observational study describing severity of acquired diarrhea among U.S. military and Western travelers participating in the Global Travelers' Diarrhea Study. <i>Travel Medicine and Infectious Disease</i> , 2021, 43, 102139.	3.0	4
15	World Health Organization Expert Working Group: Recommendations for assessing morbidity associated with enteric pathogens. <i>Vaccine</i> , 2021, 39, 7521-7525.	3.8	16
16	Chronic Gastrointestinal and Joint-Related Sequelae Associated with Common Foodborne Illnesses: A Scoping Review. <i>Foodborne Pathogens and Disease</i> , 2020, 17, 67-86.	1.8	22
17	Use of the Multiplex Diagnostic PCR Panel in Diarrheal Disease: Expert Guidance on the Interpretation of Results With a Focus on Travelers' Diarrhea. <i>American Journal of Gastroenterology</i> , 2020, 115, 1553-1555.	0.4	3
18	A first in human clinical trial assessing the safety and immunogenicity of transcutaneously delivered enterotoxigenic <i>Escherichia coli</i> fimbrial tip adhesin with heat-labile enterotoxin with mutation R192G. <i>Vaccine</i> , 2020, 38, 7040-7048.	3.8	19

#	ARTICLE	IF	CITATIONS
19	Epidemiology and associated microbiota changes in deployed military personnel at high risk of traveler's diarrhea. PLoS ONE, 2020, 15, e0236703.	2.5	28
20	Updates on the epidemiology, pathogenesis, diagnosis, and management of postinfectious irritable bowel syndrome. Current Opinion in Infectious Diseases, 2020, 33, 411-418.	3.1	6
21	Performance characteristics of a quantitative PCR assay on repository stool specimens and smeared filter-paper cards. BMC Research Notes, 2020, 13, 500.	1.4	3
22	Genetic and Virulence Profiles of Enteroaggregative Escherichia coli (EAEC) Isolated From Deployed Military Personnel (DMP) With Travelers' Diarrhea. Frontiers in Cellular and Infection Microbiology, 2020, 10, 200.	3.9	15
23	Clinical outcomes in COVID-19 patients treated with tocilizumab: An individual patient data systematic review. Journal of Medical Virology, 2020, 92, 2516-2522.	5.0	88
24	Knowledge and practices of primary care physicians or general practitioners treating post-infectious Irritable Bowel Syndrome. BMC Gastroenterology, 2020, 20, 159.	2.0	3
25	Travel, Diarrhea, Antibiotics, Antimicrobial Resistance and Practice Guidelines—a Holistic Approach to a Health Conundrum. Current Infectious Disease Reports, 2020, 22, 1.	3.0	8
26	Serum Biomarkers Identify Patients Who Will Develop Inflammatory Bowel Diseases Up to 5 Years Before Diagnosis. Gastroenterology, 2020, 159, 96-104.	1.3	129
27	Cohort profile of a US military population for evaluating pre-disease and disease serological biomarkers in rheumatoid and reactive arthritis: Rationale, organization, design, and baseline characteristics. Contemporary Clinical Trials Communications, 2020, 17, 100522.	1.1	6
28	Application of a cost-effectiveness analysis of pathogen-specific vaccines against gastroenteritis to a military population in a developing country setting. Vaccine, 2020, 38, 2292-2297.	3.8	4
29	Posttraumatic stress disorder and risk of selected autoimmune diseases among US military personnel. BMC Psychiatry, 2020, 20, 23.	2.6	41
30	A grading system for local skin reactions developed for clinical trials of an intradermal and transcutaneous ETEC vaccine. Vaccine, 2020, 38, 3773-3779.	3.8	5
31	Refinement of the CS6-expressing enterotoxigenic Escherichia coli strain B7A human challenge model: A randomized trial. PLoS ONE, 2020, 15, e0239888.	2.5	5
32	Deployment and Travel Medicine Knowledge, Attitudes, Practices, and Outcomes Study: Malaria Chemoprophylaxis Prescription Patterns in the Military Health System. American Journal of Tropical Medicine and Hygiene, 2020, 103, 334-343.	1.4	3
33	632. A Randomized, Placebo-Controlled, Double-Blind, Clinical Trial Evaluating Two Dose Regimens of Rifaximin (550mg daily or twice-daily) for Chemoprophylaxis Against Travelers'™ Diarrhea Among Deployed U.S. and U.K. Military Personnel (PREVENT TD). Open Forum Infectious Diseases, 2020, 7, S376-S376.	0.9	0
34	Title is missing!. , 2020, 15, e0236703.		0
35	Title is missing!. , 2020, 15, e0236703.		0
36	Title is missing!. , 2020, 15, e0236703.		0

37	Title is missing!. , 2020, 15, e0236703.		0
38	Title is missing!. , 2020, 15, e0236703.		0
39	Title is missing!. , 2020, 15, e0236703.		0
40	Vaccines Against Shigella and Enterotoxigenic Escherichia coli: A summary of the 2018 VASE Conference. Vaccine, 2019, 37, 4768-4774.	3.8	28
41	Preface. Vaccine, 2019, 37, 4767.	3.8	0
42	Travelersâ€™ diarrhea: update on the incidence, etiology and risk in military and similar populations â€“ 1990-2005 versus 2005â€“2015, does a decade make a difference?. Tropical Diseases, Travel Medicine and Vaccines, 2019, 5, 1.	2.2	75
43	A Comparison of Stool Enteropathogen Detection by Semiquantitative PCR in Adults With Acute Travelersâ€™ Diarrhea Before and 3 Weeks After Successful Antibiotic Treatment. Open Forum Infectious Diseases, 2019, 6, ofz187.	0.9	6
44	When should travel medicine practitioners prescribe Rifamycin SV-MXX for self-treatment of travellersâ€™ diarrhoea?. Journal of Travel Medicine, 2019, 26, .	3.0	1
45	Cohort profile of the PRoteomic Evaluation and Discovery in an IBD Cohort of Tri-service Subjects (PREDICTS) study: Rationale, organization, design, and baseline characteristics. Contemporary Clinical Trials Communications, 2019, 14, 100345.	1.1	24
46	SAT0103â€¦LONGITUDINAL PRE-DISEASE TO DISEASE SERUM SAMPLES IDENTIFY BIOMARKERS THAT ARE UPREGULATED PRIOR TO THE DIAGNOSIS OF RHEUMATOID ARTHRITIS. , 2019, , .		0
47	OPO118â€¦DISCRETE PATTERNS OF CITRULLINATED PEPTIDE AUTOANTIBODY REACTIVITIES EMERGE DURING PROGRESSION FROM PRE-DISEASE STATE TO DIAGNOSIS OF RHEUMATOID ARTHRITIS. , 2019, , .		0
48	Deployment Infectious Disease Threats: IDCRP Initiatives and Vision Forward. Military Medicine, 2019, 184, 26-34.	0.8	3
49	Cholera in travellers: a systematic review. Journal of Travel Medicine, 2019, 26, .	3.0	26
50	Consensus Report on Shigella Controlled Human Infection Model: Conduct of Studies. Clinical Infectious Diseases, 2019, 69, S580-S590.	5.8	24
51	Consensus Report on Shigella Controlled Human Infection Model: Clinical Endpoints. Clinical Infectious Diseases, 2019, 69, S591-S595.	5.8	23
52	Antibiotics for Travellersâ€™ Diarrhoea on Trialâ€”is there a potential role for Rifamycin SV?. Journal of Travel Medicine, 2019, 26, .	3.0	4
53	Faecal microbiota transplantation: what is the role in travellers' diarrhoea?. Journal of Travel Medicine, 2019, 26, .	3.0	2
54	Update on Campylobacter vaccine development. Human Vaccines and Immunotherapeutics, 2019, 15, 1389-1400.	3.3	34

#	ARTICLE	IF	CITATIONS
55	Global disability-adjusted life-year estimates of long-term health burden and undernutrition attributable to diarrhoeal diseases in children younger than 5 years. <i>The Lancet Global Health</i> , 2018, 6, e255-e269.	6.3	122
56	Rifaximin Fails to Prevent <i>Campylobacteriosis</i> in the Human Challenge Model: A Randomized, Double-Blind, Placebo-Controlled Trial. <i>Clinical Infectious Diseases</i> , 2018, 66, 1435-1441.	5.8	13
57	The Distribution of Enteric Infections Utilizing Stool Microbial Polymerase Chain Reaction Testing in Clinical Practice. <i>Digestive Diseases and Sciences</i> , 2018, 63, 1900-1909.	2.3	9
58	<i>Campylobacter jejuni</i> transcriptional and genetic adaptation during human infection. <i>Nature Microbiology</i> , 2018, 3, 494-502.	13.3	78
59	Shigellosis. <i>Lancet, The</i> , 2018, 391, 801-812.	13.7	384
60	1104. Deployment-Associated Infectious Gastroenteritis and Associations With Irritable Bowel Syndrome, Post-Traumatic Stress Disorder, and Combat Stress: A Retrospective Cohort Study Among Deployed United States Military Personnel. <i>Open Forum Infectious Diseases</i> , 2018, 5, S331-S331.	0.9	0
61	Is a <i>Shigella</i> vaccine needed for travellers and the military?. <i>Journal of Travel Medicine</i> , 2018, 25, .	3.0	9
62	Morbidity and mortality due to shigella and enterotoxigenic <i>Escherichia coli</i> diarrhoea: the Global Burden of Disease Study 1990-2016. <i>Lancet Infectious Diseases, The</i> , 2018, 18, 1229-1240.	9.1	427
63	Stand-by antibiotics for travellers' diarrhoea: risks, benefits and research needs. <i>Journal of Travel Medicine</i> , 2018, 25, .	3.0	5
64	Should travel medicine practitioners prescribe antibiotics for self-treatment of travellers' diarrhea?. <i>Journal of Travel Medicine</i> , 2018, 25, .	3.0	6
65	Post-Infectious Functional Gastrointestinal Disorders Among Populations Living in Areas of High Enteric Infection Risk: Adding Some Clarity or Further Muddying the Waters. <i>American Journal of Gastroenterology</i> , 2018, 113, 1287-1289.	0.4	0
66	Comparison of stool collection and storage on Whatman FTA Elute cards versus frozen stool for enteropathogen detection using the TaqMan Array Card PCR assay. <i>PLoS ONE</i> , 2018, 13, e0202178.	2.5	16
67	Reply to "Travellers' diarrhoea in children: a blind spot in the expert panel guidelines on prevention and treatment". <i>Journal of Travel Medicine</i> , 2018, 25, .	3.0	0
68	The Risk of Chronic Gastrointestinal Disorders Following Acute Infection with Intestinal Parasites. <i>Frontiers in Microbiology</i> , 2018, 9, 17.	3.5	8
69	Rotavirus Vaccination and the Global Burden of Rotavirus Diarrhea Among Children Younger Than 5 Years. <i>JAMA Pediatrics</i> , 2018, 172, 958.	6.2	551
70	Health Protection: Military Concepts Applied to the Civilian World. <i>American Journal of Public Health</i> , 2018, 108, 1155-1157.	2.7	1
71	Enterotoxigenic <i>E. coli</i> virulence gene regulation in human infections. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018, 115, E8968-E8976.	7.1	55
72	Enterotoxigenic <i>Escherichia coli</i> blood group A interactions intensify diarrheal severity. <i>Journal of Clinical Investigation</i> , 2018, 128, 3298-3311.	8.2	45
