#	ARTICLE	IF	CITATIONS
1	Patient-centred access to health care: conceptualising access at the interface of health systems and populations. <i>International Journal for Equity in Health</i> , 2013, 12, 18.	3.5	1,599
2	Cohort Profile: The 45 and Up Study. <i>International Journal of Epidemiology</i> , 2008, 37, 941-947.	1.9	594
3	A systematic review of interventions in primary care to improve health literacy for chronic disease behavioral risk factors. <i>BMC Family Practice</i> , 2012, 13, 49.	2.9	193
4	Attitudes, norms and controls influencing lifestyle risk factor management in general practice. <i>BMC Family Practice</i> , 2009, 10, 59.	2.9	147
5	A narrative synthesis of the impact of primary health care delivery models for refugees in resettlement countries on access, quality and coordination. <i>International Journal for Equity in Health</i> , 2013, 12, 88.	3.5	135
6	Care of patients with chronic disease: the challenge for general practice. <i>Medical Journal of Australia</i> , 2007, 187, 104-107.	1.7	126
7	Effectiveness of a mHealth Lifestyle Program With Telephone Support (TXT2BFiT) to Prevent Unhealthy Weight Gain in Young Adults: Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2015, 3, e66.	3.7	122
8	The influence of power dynamics and trust on multidisciplinary collaboration: a qualitative case study of type 2 diabetes mellitus. <i>BMC Health Services Research</i> , 2012, 12, 63.	2.2	107
9	Do people with existing chronic conditions benefit from telephone coaching? A rapid review. <i>Australian Health Review</i> , 2013, 37, 381.	1.1	104
10	The impact of health literacy and life style risk factors on health-related quality of life of Australian patients. <i>Health and Quality of Life Outcomes</i> , 2016, 14, 68.	2.4	104
11	Chronic disease management in primary care: from evidence to policy. <i>Medical Journal of Australia</i> , 2008, 188, S53-6.	1.7	101
12	Effect of a Computer-Guided, Quality Improvement Program for Cardiovascular Disease Risk Management in Primary Health Care. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2015, 8, 87-95.	2.2	98
13	Coordinating primary health care: an analysis of the outcomes of a systematic review. <i>Medical Journal of Australia</i> , 2008, 188, S65-8.	1.7	97
14	Gender inequalities in cardiovascular risk factor assessment and management in primary healthcare. <i>Heart</i> , 2017, 103, 492-498.	2.9	97
15	The inverse care law revisited: impact of disadvantaged location on accessing longer GP consultation times. <i>Medical Journal of Australia</i> , 2002, 177, 80-83.	1.7	95
16	A Mobile Health Lifestyle Program for Prevention of Weight Gain in Young Adults (TXT2BFiT): Nine-Month Outcomes of a Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2016, 4, e78.	3.7	93
17	Electronic, mobile and telehealth tools for vulnerable patients with chronic disease: a systematic review and realist synthesis. <i>BMJ Open</i> , 2018, 8, e019192.	1.9	89
18	Team climate for innovation: what difference does it make in general practice?. <i>International Journal for Quality in Health Care</i> , 2007, 19, 164-169.	1.8	87

#	ARTICLE	IF	CITATIONS
19	Impact of diabetes on hospital admission and length of stay among a general population aged 45 year or more: a record linkage study. BMC Health Services Research, 2015, 15, 12.	2.2	84
20	Validating self-report of diabetes use by participants in the 45 and up study: a record linkage study. BMC Health Services Research, 2013, 13, 481.	2.2	79
21	Patient related factors in frequent readmissions: the influence of condition, access to services and patient choice. BMC Health Services Research, 2010, 10, 216.	2.2	77
22	Quality of Health Care for Children in Australia, 2012-2013. JAMA - Journal of the American Medical Association, 2018, 319, 1113.	7.4	77
23	Association of systolic and diastolic blood pressure and all cause mortality in people with newly diagnosed type 2 diabetes: retrospective cohort study. BMJ, The, 2012, 345, e5567-e5567.	6.0	76
24	How people with chronic illnesses view their care in general practice: a qualitative study. Medical Journal of Australia, 2004, 181, 70-73.	1.7	70
25	An exploration of how clinician attitudes and beliefs influence the implementation of lifestyle risk factor management in primary healthcare: a grounded theory study. Implementation Science, 2009, 4, 66.	6.9	67
26	Interprofessional teamwork innovations for primary health care practices and practitioners: evidence from a comparison of reform in three countries. Journal of Multidisciplinary Healthcare, 2016, 9, 35.	2.7	67
27	When financial incentives do more good than harm: a checklist. BMJ, The, 2012, 345, e5047-e5047.	6.0	64
28	Process evaluation of TXT2BFiT: a multi-component mHealth randomised controlled trial to prevent weight gain in young adults. International Journal of Behavioral Nutrition and Physical Activity, 2016, 13, 7.	4.6	62
29	The health needs of asylum seekers living in the community. Medical Journal of Australia, 2001, 175, 589-592.	1.7	60
30	â€˜TXT2BFiTâ€™ a mobile phone-based healthy lifestyle program for preventing unhealthy weight gain in young adults: study protocol for a randomized controlled trial. Trials, 2013, 14, 75.	1.6	60
31	Specific cleavage of pre-edited mRNAs in trypanosome mitochondrial extracts.. Molecular and Cellular Biology, 1992, 12, 2591-2598.	2.3	59
32	"Should I and Can I?": A mixed methods study of clinician beliefs and attitudes in the management of lifestyle risk factors in primary health care. BMC Health Services Research, 2008, 8, 44.	2.2	57
33	Which providers can bridge the health literacy gap in lifestyle risk factor modification education: a systematic review and narrative synthesis. BMC Family Practice, 2012, 13, 44.	2.9	57
34	Access to primary health care services by community-based asylum seekers. Medical Journal of Australia, 2011, 195, 188-191.	1.7	55
35	Do multidisciplinary care plans result in better care for patients with type 2 diabetes?. Australian Family Physician, 2007, 36, 85-9.	0.5	55
36	Providing healthcare for people with chronic illness: the views of Australian GPs. Medical Journal of Australia, 2003, 179, 30-33.	1.7	53

#	ARTICLE	IF	CITATIONS
37	Anxiety and depression in general practice patients: prevalence and management. Medical Journal of Australia, 1996, 164, 526-529.	1.7	49
38	Relationship Between Mental Health Disorders and Unemployment Status in Australian Adults. Australian and New Zealand Journal of Psychiatry, 2003, 37, 230-235.	2.3	49
39	Quality of diabetes care and coronary heart disease absolute risk in patients with type 2 diabetes mellitus in Australian general practice. Quality and Safety in Health Care, 2006, 15, 131-135.	2.5	47
40	Chronic disease self-management: implementation with and within Australian general practice. Medical Journal of Australia, 2008, 189, S17-20.	1.7	47
41	Quality of life of Australian chronically-ill adults: patient and practice characteristics matter. Health and Quality of Life Outcomes, 2009, 7, 50.	2.4	46
42	Obesity management in general practice: does current practice match guideline recommendations?. Medical Journal of Australia, 2015, 202, 370-372.	1.7	46
43	The effectiveness of health impact assessment in influencing decision-making in Australia and New Zealand 2005-2009. BMC Public Health, 2013, 13, 1188.	2.9	45
44	“90% of the time, it’s not just weight.” General practitioner and practice staff perspectives regarding the barriers and enablers to obesity guideline implementation. Obesity Research and Clinical Practice, 2019, 13, 398-403.	1.8	45
45	Effective Strategies to Recruit Young Adults Into the TXT2BFIT mHealth Randomized Controlled Trial for Weight Gain Prevention. JMIR Research Protocols, 2015, 4, e66.	1.0	45
46	A systematic review of interventions to enhance access to best practice primary health care for chronic disease management, prevention and episodic care. BMC Health Services Research, 2012, 12, 415.	2.2	44
47	Australian GPs are satisfied with their job: even more so in rural areas. Family Practice, 2002, 19, 300-303.	1.9	43
48	A digital health intervention for cardiovascular disease management in primary care (CONNECT) randomized controlled trial. Npj Digital Medicine, 2020, 3, 117.	10.9	43
49	Multidisciplinary care plans for diabetes: how are they used?. Medical Journal of Australia, 2007, 187, 78-81.	1.7	41
50	Explaining the variation in the management of lifestyle risk factors in primary health care: A multilevel cross sectional study. BMC Public Health, 2009, 9, 165.	2.9	41
51	Finding common ground? Evaluating an intervention to improve teamwork among primary health-care professionals. International Journal for Quality in Health Care, 2010, 22, 519-524.	1.8	40
52	GP attitudes to managing drug- and alcohol-dependent patients: a reluctant role. Drug and Alcohol Review, 2000, 19, 165-170.	2.1	39
53	The Gudaga Study: establishing an Aboriginal birth cohort in an urban community. Australian and New Zealand Journal of Public Health, 2010, 34, S9-S17.	1.8	39
54	Job satisfaction of staff and the team environment in Australian general practice. Medical Journal of Australia, 2007, 186, 570-573.	1.7	38

#	ARTICLE	IF	CITATIONS
55	What makes health impact assessments successful? Factors contributing to effectiveness in Australia and New Zealand. BMC Public Health, 2015, 15, 1009.	2.9	38
56	GPs' views of absolute cardiovascular risk and its role in primary prevention. Australian Family Physician, 2005, 34, 503-4, 507.	0.5	38
57	Prevalence, Detection and Management of Anxiety and Depressive Symptoms in Unemployed Patients Attending General Practitioners. Australian and New Zealand Journal of Psychiatry, 2000, 34, 107-113.	2.3	37
58	Quality of care provided by general practitioners using or not using Division-based diabetes registers. Medical Journal of Australia, 2002, 177, 250-252.	1.7	37
59	The NASSS framework for ex post theorisation of technology-supported change in healthcare: worked example of the TORPEDO programme. BMC Medicine, 2019, 17, 233.	5.5	37
60	Evaluating general practitioners' views about the implementation of the Enhanced Primary Care Medicare items. Medical Journal of Australia, 2001, 175, 95-98.	1.7	36
61	Patients Assessment of Chronic Illness Care (PACIC) in two Australian studies: structure and utility. Journal of Evaluation in Clinical Practice, 2011, 17, 215-221.	1.8	36
62	The Treatment of cardiovascular Risk in Primary care using Electronic Decision support (TORPEDO) study: intervention development and protocol for a cluster randomised, controlled trial of an electronic decision support and quality improvement intervention in Australian primary healthcare. BMJ Open, 2012, 2, e002177.	1.9	36
63	How health literacy and patient activation play their own unique role in self-management of chronic obstructive pulmonary disease (COPD)? Chronic Respiratory Disease, 2019, 16, 147997311881641.	2.4	36
64	General practitioner views on barriers and facilitators to implementation of the Asthma 3+ Visit Plan. Medical Journal of Australia, 2005, 183, 64-67.	1.7	35
65	Patient, general practitioner and oncologist views regarding long-term cancer shared care. Family Practice, 2018, 35, 323-329.	1.9	34
66	Implementation of a SNAP intervention in two divisions of general practice: a feasibility study. Medical Journal of Australia, 2005, 183, S54-8.	1.7	33
67	Effect of intensive structured care on individual blood pressure targets in primary care: multicentre randomised controlled trial. BMJ, The, 2012, 345, e7156-e7156.	6.0	33
68	Understanding the relationship between stress, distress and healthy lifestyle behaviour: a qualitative study of patients and general practitioners. BMC Family Practice, 2013, 14, 166.	2.9	33
69	Multidisciplinary Team Care Arrangements in the management of patients with chronic disease in Australian general practice. Medical Journal of Australia, 2011, 194, 236-239.	1.7	32
70	Do Chronic Obstructive Pulmonary Diseases (COPD) Self-Management Interventions Consider Health Literacy and Patient Activation? A Systematic Review. Journal of Clinical Medicine, 2020, 9, 646.	2.4	32
71	A Web-Based Cognitive Behavior Therapy Intervention to Improve Social and Occupational Functioning in Adults With Type 2 Diabetes (The Springboard Trial): Randomized Controlled Trial. Journal of Medical Internet Research, 2019, 21, e12246.	4.3	31
72	Chronically ill Australians' satisfaction with accessibility and patient-centredness. International Journal for Quality in Health Care, 2007, 20, 105-114.	1.8	30

#	ARTICLE	IF	CITATIONS
73	CareTrack Kids–part 1. Assessing the appropriateness of healthcare delivered to Australian children: study protocol for clinical indicator development. <i>BMJ Open</i> , 2015, 5, e007748-e007748.	1.9	30
74	Relation of Reduced Preclinical Left Ventricular Diastolic Function and Cardiac Remodeling in Overweight Youth to Insulin Resistance and Inflammation. <i>American Journal of Cardiology</i> , 2015, 115, 1222-1228.	1.6	30
75	A paucity of strategies for developing health literate organisations: A systematic review. <i>PLoS ONE</i> , 2018, 13, e0195018.	2.5	30
76	Older adults with non-communicable chronic conditions and their health care access amid COVID-19 pandemic in Bangladesh: Findings from a cross-sectional study. <i>PLoS ONE</i> , 2021, 16, e0255534.	2.5	30
77	A cluster randomised controlled trial of vascular risk factor management in general practice. <i>Medical Journal of Australia</i> , 2012, 197, 387-393.	1.7	29
78	Factors influencing participation in a vascular disease prevention lifestyle program among participants in a cluster randomized trial. <i>BMC Health Services Research</i> , 2013, 13, 201.	2.2	29
79	Does health literacy affect patients' receipt of preventative primary care? A multilevel analysis. <i>BMC Family Practice</i> , 2014, 15, 171.	2.9	29
80	Community Health Workers Can Provide Psychosocial Support to the People During COVID-19 and Beyond in Low- and Middle- Income Countries. <i>Frontiers in Public Health</i> , 2021, 9, 666753.	2.7	29
81	What predicts patient-reported GP management of smoking, nutrition, alcohol, physical activity and weight?. <i>Australian Journal of Primary Health</i> , 2012, 18, 123.	0.9	29
82	Community health workers involvement in preventative care in primary healthcare: a systematic scoping review. <i>BMJ Open</i> , 2019, 9, e031666.	1.9	28
83	Specific Cleavage of Pre-Edited mRNAs in Trypanosome Mitochondrial Extracts. <i>Molecular and Cellular Biology</i> , 1992, 12, 2591-2598.	2.3	28
84	The 45 year old health check - feasibility and impact on practices and patient behaviour. <i>Australian Family Physician</i> , 2009, 38, 358-62.	0.5	28
85	Access to primary health care: three challenges to equity. <i>Australian Journal of Primary Health</i> , 2004, 10, 21.	0.9	27
86	Assessment and management of lifestyle risk factors in rural and urban general practices in Australia. <i>Australian Journal of Primary Health</i> , 2010, 16, 81.	0.9	27
87	“Managing patient involvement”: provider perspectives on diabetes decision-making. <i>Health Expectations</i> , 2013, 16, 189-198.	2.6	27
88	CareTrack Kids–part 2. Assessing the appropriateness of the healthcare delivered to Australian children: study protocol for a retrospective medical record review. <i>BMJ Open</i> , 2015, 5, e007749-e007749.	1.9	27
89	Association of processes of primary care and hospitalisation for people with diabetes: A record linkage study. <i>Diabetes Research and Clinical Practice</i> , 2015, 108, 296-305.	2.8	27
90	Case conferences in general practice: time for a rethink?. <i>Medical Journal of Australia</i> , 2002, 177, 93-94.	1.7	26

#	ARTICLE	IF	CITATIONS
91	Factors influencing self-management in patients with type 2 diabetes in general practice: a qualitative study. Australian Journal of Primary Health, 2019, 25, 176.	0.9	26
92	Self-management practice, associated factors and its relationship with health literacy and patient activation among multi-morbid COPD patients from rural Nepal. BMC Public Health, 2020, 20, 300.	2.9	26
93	Health improvement and prevention study (HIPS) - evaluation of an intervention to prevent vascular disease in general practice. BMC Family Practice, 2010, 11, 57.	2.9	25
94	Preventive evidence into practice (PEP) study: implementation of guidelines to prevent primary vascular disease in general practice protocol for a cluster randomised controlled trial. Implementation Science, 2013, 8, 8.	6.9	25
95	What drives adoption of a computerised, multifaceted quality improvement intervention for cardiovascular disease management in primary healthcare settings? A mixed methods analysis using normalisation process theory. Implementation Science, 2018, 13, 140.	6.9	25
96	Informing implementation of quality improvement in Australian primary care. BMC Health Services Research, 2018, 18, 287.	2.2	25
97	Self-management experiences among middle-aged population of rural area of Pakistan with type 2 diabetes: A qualitative analysis. Clinical Epidemiology and Global Health, 2019, 7, 177-183.	1.9	25
98	Levels and determinants of health literacy and patient activation among multi-morbid COPD people in rural Nepal: Findings from a cross-sectional study. PLoS ONE, 2020, 15, e0233488.	2.5	25
99	Equity and long-term condition self-management. Chronic Illness, 2011, 7, 3-5.	1.5	24
100	Analysis of factors influencing general practitioners' decision to refer obese patients in Australia: a qualitative study. BMC Family Practice, 2015, 16, 45.	2.9	24
101	General health care service utilisation: where, when and by whom in a socioeconomically disadvantaged population. Australian Journal of Primary Health, 2010, 16, 132.	0.9	24
102	The metabolic syndrome. Australian Family Physician, 2013, 42, 524-7.	0.5	24
103	Unemployment and health: the healthcare system's role. Medical Journal of Australia, 1998, 168, 291-296.	1.7	23
