#	ARTICLE	IF	CITATIONS
1	Regularity of contact with general practitioners and diabetes-related hospitalisation through a period of policy change: A retrospective cohort study. <i>Health Services Management Research</i> , 2022, 35, 134-145.	1.7	2
2	Women with type 1 diabetes exhibit a progressive increase in gut <i>Saccharomyces cerevisiae</i> in pregnancy associated with evidence of gut inflammation. <i>Diabetes Research and Clinical Practice</i> , 2022, 184, 109189.	2.8	6
3	Older adults with pre-existing noncommunicable conditions and their healthcare access amid COVID-19 pandemic: a cross-sectional study in eastern Nepal. <i>BMJ Open</i> , 2022, 12, e056342.	1.9	6
4	Learning from a codesign exercise aimed at developing a navigation intervention in the general practice setting. <i>Family Practice</i> , 2022, 39, 1070-1079.	1.9	2
5	Achieving continuity of care in general practice: the impact of patient enrolment on health outcomes. <i>Medical Journal of Australia</i> , 2022, , .	1.7	1
6	A Mobile App for Prevention of Cardiovascular Disease and Type 2 Diabetes Mellitus: Development and Usability Study. <i>JMIR Human Factors</i> , 2022, 9, e35065.	2.0	10
7	Demographic and health profiles of people with severe mental illness in general practice in Australia: a cross-sectional study. <i>Australian Journal of Primary Health</i> , 2022, 28, 408-416.	0.9	3
8	Utilisation of government-subsidised chronic disease management plans and cardiovascular care in Australian general practices. , 2022, 23, .		3
9	Frequent users of health services among community-based older Australians: Characteristics and association with mortality. <i>Australasian Journal on Ageing</i> , 2022, 41, .	0.9	2
10	Implementation of Chronic Care Model for Diabetes Self-Management: A Quantitative Analysis. <i>International Journal of Diabetology</i> , 2022, 3, 407-422.	2.0	5
11	Remotely Conducted App-Based Intervention for Cardiovascular Disease and Diabetes Risk Awareness and Prevention: Single-Group Feasibility Trial. <i>JMIR Human Factors</i> , 2022, 9, e38469.	2.0	3
12	Improving outcomes for marginalised rural families through a care navigator program. <i>Health Promotion Journal of Australia</i> , 2021, 32, 285-294.	1.2	1
13	One-View Chest Radiograph for Initial Management of Most Ambulatory Patients with Rib Pain. <i>Journal of the American Board of Family Medicine</i> , 2021, 34, 144-150.	1.5	2
14	Evaluating the feasibility and acceptability of a co-design approach to developing an integrated model of care for people with multi-morbid COPD in rural Nepal: a qualitative study. <i>BMJ Open</i> , 2021, 11, e045175.	1.9	10
15	General practitioner follow-up after hospitalisation in Central and Eastern Sydney, Australia: access and impact on health services. <i>Australian Health Review</i> , 2021, 45, 247-254.	1.1	4
16	Using a co-design process to develop an integrated model of care for delivering self-management intervention to multi-morbid COPD people in rural Nepal. <i>Health Research Policy and Systems</i> , 2021, 19, 17.	2.8	20
17	Prevalence of non-communicable chronic conditions, multimorbidity and its correlates among older adults in rural Nepal: a cross-sectional study. <i>BMJ Open</i> , 2021, 11, e041728.	1.9	9
18	Community Health Workers as Healthcare Navigators in Primary Care Chronic Disease Management: a Systematic Review. <i>Journal of General Internal Medicine</i> , 2021, 36, 2755-2771.	2.6	20

#	ARTICLE	IF	CITATIONS
19	Misconceptions about COVID-19 among older Rohingya (forcefully displaced Myanmar nationals) adults in Bangladesh: findings from a cross-sectional study. <i>BMJ Open</i> , 2021, 11, e050427.	1.9	10
20	Community Health Workers Can Provide Psychosocial Support to the People During COVID-19 and Beyond in Low- and Middle- Income Countries. <i>Frontiers in Public Health</i> , 2021, 9, 666753.	2.7	29
21	Implementing cardiovascular disease preventive care guidelines in general practice: an opportunity missed. <i>Medical Journal of Australia</i> , 2021, 215, 189.	1.7	1
22	Older adults with non-communicable chronic conditions and their health care access amid COVID-19 pandemic in Bangladesh: Findings from a cross-sectional study. <i>PLoS ONE</i> , 2021, 16, e0255534.	2.5	30
23	Evaluation of protocol amendments to the Environmental Determinants of Islet Autoimmunity (ENDIA) study during the COVID-19 pandemic. <i>Diabetic Medicine</i> , 2021, 38, e14638.	2.3	2
24	Psychotropic medicine prescribing and polypharmacy for people with dementia entering residential aged care: the influence of changing general practitioners. <i>Medical Journal of Australia</i> , 2021, 215, 130-136.	1.7	10
25	Type 1 diabetes in pregnancy is associated with distinct changes in the composition and function of the gut microbiome. <i>Microbiome</i> , 2021, 9, 167.	11.1	23
26	Access and communication for deaf individuals in Australian primary care. <i>Health Expectations</i> , 2021, 24, 1971-1978.	2.6	3
27	OPTIMISE: a pragmatic stepped wedge cluster randomised trial of an intervention to improve primary care for refugees in Australia. <i>Medical Journal of Australia</i> , 2021, 215, 420-426.	1.7	4
28	Innovative use of MedicineInsight GP database for applied research on antibiotic prescribing in Western Australia. <i>International Journal of Epidemiology</i> , 2021, 50, .	1.9	0
29	Healthcare Professionals' Perspectives of Patients' Experiences of the Self-Management of Type 2 Diabetes in the Rural Areas of Pakistan: A Qualitative Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 9869.	2.6	7
30	Response to language barriers with patients from refugee background in general practice in Australia: findings from the OPTIMISE study. <i>BMC Health Services Research</i> , 2021, 21, 921.	2.2	8
31	Improving access to primary health care: a cross-case comparison based on an a priori program theory. <i>International Journal for Equity in Health</i> , 2021, 20, 223.	3.5	6
32	Applications of a Chronic Care Model for Self-Management of Type 2 Diabetes: A Qualitative Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 10840.	2.6	1
33	Allied health are key to improving health for people with chronic disease: but where are the outcomes and where is the strategy?. <i>Australian Journal of Primary Health</i> , 2021, 27, 437-441.	0.9	6
34	Validation of a lifestyle-based risk score for type 2 diabetes mellitus in Australian adults. <i>Preventive Medicine Reports</i> , 2021, 24, 101647.	1.8	1
35	Difficulties faced by older Rohingya (forcibly displaced Myanmar nationals) adults in accessing medical services amid the COVID-19 pandemic in Bangladesh. <i>BMJ Global Health</i> , 2021, 6, e007051.	4.7	10
36	The influence of personality on trajectories of distress, health and functioning in mild-to-moderately depressed adults with type 2 diabetes. <i>Psychology, Health and Medicine</i> , 2020, 25, 296-308.	2.4	11

#	ARTICLE	IF	CITATIONS
37	Does healthcare inequity reflect variations in peoples' abilities to access healthcare? Results from a multi-jurisdictional interventional study in two high-income countries. <i>International Journal for Equity in Health</i> , 2020, 19, 167.	3.5	22
38	“There’s always something else” Patient perspectives on improving the implementation of obesity guidelines in general practice. <i>Obesity Research and Clinical Practice</i> , 2020, 14, 437-442.	1.8	1
39	Facilitators and barriers to the self-management of COPD: a qualitative study from rural Nepal. <i>BMJ Open</i> , 2020, 10, e035700.	1.9	22
40	Assessing suitability for long-term colorectal cancer shared care: a scenario-based qualitative study. <i>BMC Family Practice</i> , 2020, 21, 240.	2.9	5
41	The Summary of an Urdu Version of Diabetes Self-Care Activities Measure: Psychometric Evaluation and Validation. <i>Journal of Primary Care and Community Health</i> , 2020, 11, 215013272093529.	2.1	7
42	A digital health intervention for cardiovascular disease management in primary care (CONNECT) randomized controlled trial. <i>Npj Digital Medicine</i> , 2020, 3, 117.	10.9	43
43	Barriers to the use of trained interpreters in consultations with refugees in four resettlement countries: a qualitative analysis using normalisation process theory. <i>BMC Family Practice</i> , 2020, 21, 259.	2.9	9
44	How to implement patient experience surveys and use their findings for service improvement: a qualitative expert consultation study in Australian general practiceHow to implement patient experience surveys and use their findings for service improvement: a qualitative expert consultation study in Australian general practice. <i>Integrated Healthcare Journal</i> , 2020, 22, .	0.4	4
45	Associations between rapid weight gain in infancy and weight status among urban Aboriginal children participating in the Gudaga study: nine-year results from a cohort study. <i>BMC Pediatrics</i> , 2020, 20, 224.	1.7	3
46	Levels and determinants of health literacy and patient activation among multi-morbid COPD people in rural Nepal: Findings from a cross-sectional study. <i>PLoS ONE</i> , 2020, 15, e0233488.	2.5	25
47	Socio-demographic characteristics, lifestyle factors, multi-morbid conditions and depressive symptoms among Nepalese older adults. <i>BMC Psychiatry</i> , 2020, 20, 261.	2.6	18
48	Self-management practice, associated factors and its relationship with health literacy and patient activation among multi-morbid COPD patients from rural Nepal. <i>BMC Public Health</i> , 2020, 20, 300.	2.9	26
49	What do consumers with chronic conditions expect from their interactions with general practitioners? A qualitative study of Australian consumer and provider perspectives. <i>Health Expectations</i> , 2020, 23, 707-716.	2.6	10
50	Do Chronic Obstructive Pulmonary Diseases (COPD) Self-Management Interventions Consider Health Literacy and Patient Activation? A Systematic Review. <i>Journal of Clinical Medicine</i> , 2020, 9, 646.	2.4	32
51	A computer-guided quality improvement tool for primary health care: cost-effectiveness analysis based on TORPEDO trial data. <i>Medical Journal of Australia</i> , 2020, 213, 73-78.	1.7	7
52	Self-reported health, lifestyle and social circumstances of Australian adult cancer survivors: A propensity score weighted cross-sectional study. <i>Cancer Epidemiology</i> , 2020, 67, 101773.	1.9	2
53	Time protective effect of contact with a general practitioner and its association with diabetes-related hospitalisations: a cohort study using the 45 and Up Study data in Australia. <i>BMJ Open</i> , 2020, 10, e032790.	1.9	4
54	Access to appropriate health care for non-English speaking migrant families with a newborn/young child: a systematic scoping literature review. <i>BMC Health Services Research</i> , 2020, 20, 309.	2.2	13

#	ARTICLE	IF	CITATIONS
55	Primary Prevention of Cardiovascular Disease and Type 2 Diabetes Mellitus Using Mobile Health Technology: Systematic Review of the Literature. <i>Journal of Medical Internet Research</i> , 2020, 22, e21159.	4.3	16
56	Changes in pancreatic exocrine function in young at-risk children followed to islet autoimmunity and type 1 diabetes in the <sc>ENDIA</sc> study. <i>Pediatric Diabetes</i> , 2020, 21, 945-949.	2.9	9
57	A Web-Based Mental Health Intervention to Improve Social and Occupational Functioning in Adults With Type 2 Diabetes (The Springboard Trial): 12-Month Outcomes of a Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e16729.	4.3	14
58	Extreme events: how do public health systems learn and adapt?. <i>Public Health Research and Practice</i> , 2020, 30, .	1.5	0
59	Linking observational data from general practice, hospital admissions and diabetes clinic databases: can it be used to predict hospital admission?. <i>BMC Health Services Research</i> , 2019, 19, 526.	2.2	5
60	Prevalence and determinants of frailty in the absence of disability among older population: a cross sectional study from rural communities in Nepal. <i>BMC Geriatrics</i> , 2019, 19, 283.	2.7	20
61	Do general practice management and/or team care arrangements reduce avoidable hospitalisations in Central and Eastern Sydney, Australia?. <i>BMC Health Services Research</i> , 2019, 19, 811.	2.2	6
62	Preventive Evidence into Practice: what factors matter in a facilitation intervention to prevent vascular disease in family practice?. <i>BMC Family Practice</i> , 2019, 20, 113.	2.9	8
63	A time-duration measure of continuity of care to optimise utilisation of primary health care: a threshold effects approach among people with diabetes. <i>BMC Health Services Research</i> , 2019, 19, 276.	2.2	14
64	The OPTIMISE project: protocol for a mixed methods, pragmatic, quasi-experimental trial to improve primary care delivery to refugees in Australia. <i>BMC Health Services Research</i> , 2019, 19, 396.	2.2	4
65	What matters to people with chronic conditions when accessing care in Australian general practice? A qualitative study of patient, carer, and provider perspectives. <i>BMC Family Practice</i> , 2019, 20, 79.	2.9	15
66	“90% of the time, it’s not just weight” General practitioner and practice staff perspectives regarding the barriers and enablers to obesity guideline implementation. <i>Obesity Research and Clinical Practice</i> , 2019, 13, 398-403.	1.8	45
67	Health service brokerage to improve primary care access for populations experiencing vulnerability or disadvantage: a systematic review and realist synthesis. <i>BMC Health Services Research</i> , 2019, 19, 269.	2.2	11
68	Factors influencing self-management in patients with type 2 diabetes in general practice: a qualitative study. <i>Australian Journal of Primary Health</i> , 2019, 25, 176.	0.9	26
69	Regularity of contact with GPs: Measurement approaches to improve valid associations with hospitalization. <i>Family Practice</i> , 2019, 36, 650-656.	1.9	15
70	How health literacy and patient activation play their own unique role in self-management of chronic obstructive pulmonary disease (COPD)?. <i>Chronic Respiratory Disease</i> , 2019, 16, 147997311881641.	2.4	36
71	Association between continuity of provider-adjusted regularity of general practitioner contact and unplanned diabetes-related hospitalisation: a data linkage study in New South Wales, Australia, using the 45 and Up Study cohort. <i>BMJ Open</i> , 2019, 9, e027158.	1.9	18
72	Understanding the use and impact of allied health services for people with chronic health conditions in Central and Eastern Sydney, Australia: a five-year longitudinal analysis. <i>Primary Health Care Research and Development</i> , 2019, 20, e141.	1.2	10

#	ARTICLE	IF	CITATIONS
73	Improving access to primary healthcare for vulnerable populations in Australia and Canada: protocol for a mixed-method evaluation of six complex interventions. <i>BMJ Open</i> , 2019, 9, e027869.	1.9	22
74	Community health workers involvement in preventative care in primary healthcare: a systematic scoping review. <i>BMJ Open</i> , 2019, 9, e031666.	1.9	28
75	The NASSS framework for ex post theorisation of technology-supported change in healthcare: worked example of the TORPEDO programme. <i>BMC Medicine</i> , 2019, 17, 233.	5.5	37
76	The quality of preventive care for pre-school aged children in Australian general practice. <i>BMC Medicine</i> , 2019, 17, 218.	5.5	1
77	Clinical indicators for common paediatric conditions: Processes, provenance and products of the CareTrack Kids study. <i>PLoS ONE</i> , 2019, 14, e0209637.	2.5	16
78	Self-management experiences among middle-aged population of rural area of Pakistan with type 2 diabetes: A qualitative analysis. <i>Clinical Epidemiology and Global Health</i> , 2019, 7, 177-183.	1.9	25
79	Increasing use of general practice management and team care arrangements over time in New South Wales, Australia. <i>Australian Journal of Primary Health</i> , 2019, 25, 168.	0.9	10
80	A Web-Based Cognitive Behavior Therapy Intervention to Improve Social and Occupational Functioning in Adults With Type 2 Diabetes (The Springboard Trial): Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2019, 21, e12246.	4.3	31
81	Recruiting to a Randomized Controlled Trial of a Web-Based Program for People With Type 2 Diabetes and Depression: Lessons Learned at the Intersection of e-Mental Health and Primary Care. <i>Journal of Medical Internet Research</i> , 2019, 21, e12793.	4.3	10
82	Culturally Diverse Patient Experiences and Walking Interviews: A Co-Design Approach to Improving Organizational Health Literacy. <i>Health Literacy Research and Practice</i> , 2019, 3, e238-e242.	0.9	5
83	Primary health care providerâ€“focused interventions for improving outcomes for people with type 2 diabetes: a rapid review. <i>Public Health Research and Practice</i> , 2019, 29, .	1.5	2
84	Do programs for Aboriginal and Torres Strait Islander people leaving prison meet their health and social support needs?. <i>Australian Journal of Rural Health</i> , 2018, 26, 6-13.	1.5	13
85	Quality of Health Care for Children in Australia, 2012-2013. <i>JAMA - Journal of the American Medical Association</i> , 2018, 319, 1113.	7.4	77
86	Identifying patterns of general practitioner service utilisation and their relationship with potentially preventable hospitalisations in people with diabetes: The utility of a cluster analysis approach. <i>Diabetes Research and Clinical Practice</i> , 2018, 138, 201-210.	2.8	11
87	Dimensions and intensity of inter-professional teamwork in primary care: evidence from five international jurisdictions. <i>Family Practice</i> , 2018, 35, 285-294.	1.9	19
88	The business of integrated care: implementing new models of care in a fee-for-service setting. <i>Journal of Integrated Care</i> , 2018, 26, 16-28.	0.5	7
89	Patient, general practitioner and oncologist views regarding long-term cancer shared care. <i>Family Practice</i> , 2018, 35, 323-329.	1.9	34
90	What drives adoption of a computerised, multifaceted quality improvement intervention for cardiovascular disease management in primary healthcare settings? A mixed methods analysis using normalisation process theory. <i>Implementation Science</i> , 2018, 13, 140.	6.9	25

#	ARTICLE	IF	CITATIONS
91	Contextual levers for team-based primary care: lessons from reform interventions in five jurisdictions in three countries. <i>Family Practice</i> , 2018, 35, 276-284.	1.9	18
92	Uncovering the wisdom hidden between the lines: the Collaborative Reflexive Deliberative Approach. <i>Family Practice</i> , 2018, 35, 266-275.	1.9	6
93	Electronic, mobile and telehealth tools for vulnerable patients with chronic disease: a systematic review and realist synthesis. <i>BMJ Open</i> , 2018, 8, e019192.	1.9	89
94	Preventing chronic disease in patients with low health literacy using eHealth and teamwork in primary healthcare: protocol for a cluster randomised controlled trial. <i>BMJ Open</i> , 2018, 8, e023239.	1.9	18
95	Predictors of weight stigma experienced by middle-older aged, general-practice patients with obesity in disadvantaged areas of Australia: a cross-sectional study. <i>BMC Public Health</i> , 2018, 18, 640.	2.9	18
96	The effectiveness of a sustained nurse home visiting intervention for Aboriginal infants compared with non-Aboriginal infants and with Aboriginal infants receiving usual child health care: a quasi-experimental trial - the Bulundidi Gudaga study. <i>BMC Health Services Research</i> , 2018, 18, 599.	2.2	11
97	A paucity of strategies for developing health literate organisations: A systematic review. <i>PLoS ONE</i> , 2018, 13, e0195018.	2.5	30
98	Vertical, Horizontal and Residual Skills Mismatch in the Australian Graduate Labour Market. <i>Economic Record</i> , 2018, 94, 301-315.	0.4	21
99	Care of patients with chronic disease: achievements in Australia over the past decade. <i>Medical Journal of Australia</i> , 2018, 209, 55-57.	1.7	11
100	Informing implementation of quality improvement in Australian primary care. <i>BMC Health Services Research</i> , 2018, 18, 287.	2.2	25
101	A peripheral blood transcriptomic signature predicts autoantibody development in infants at risk of type 1 diabetes. <i>JCI Insight</i> , 2018, 3, .	5.0	18
102	Refugee health “collaborating for better outcomes. <i>Public Health Research and Practice</i> , 2018, 28, .	1.5	1
103	Integration of refugees into routine primary care in NSW, Australia. <i>Public Health Research and Practice</i> , 2018, 28, .	1.5	10
104	Transition from an asylum seeker “specific health service to mainstream primary care for community-based asylum seekers: a qualitative interview study. <i>Public Health Research and Practice</i> , 2018, 28, .	1.5	6
