|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1 | Changes in body mass index and risk of adolescent psychopathology: a longitudinal cohort study. Irish Journal of Psychological Medicine, 2023, 40, 118-126. | 1.0 | O |
| 2 | Climate change and mental health: time for action and advocacy. Irish Journal of Psychological Medicine, 2023, 40, 6-8. | 1.0 | 2 |
| 3 | Longitudinal Gray Matter Development Associated With Psychotic Experiences in Young People. Biological Psychiatry Global Open Science, 2023, 3, 264-273. | 2.2 | 2 |
| 4 | Childhood adversity and recurrence of psychotic experiences during adolescence: the role of mediation in an analysis of a population-based longitudinal cohort study. Psychological Medicine, 2023, 53, 4046-4054. | 4.5 | 2 |
| 5 | Phenomenological characteristics and explanations of unusual perceptual experiences, thoughts and beliefs in a population sample of early adolescents. Irish Journal of Psychological Medicine, 2022, 39, 173-184. | 1.0 | 5 |
| 6 | Mediators of the longitudinal relationship between childhood adversity and late adolescent psychopathology. Psychological Medicine, 2022, 52, 3689-3697. | 4.5 | 11 |
| 7 | Maternal smoking during pregnancy and offspring psychiatric disorder: a longitudinal birth cohort study. Social Psychiatry and Psychiatric Epidemiology, 2022, 57, 595-600. | 3.1 | 5 |
| 8 | Psychotic-like experiences? Trajectories and typologies of hallucinations and delusions from early adolescence to early adulthood in a population-based sample of Irish youth. Irish Journal of Psychological Medicine, 2022, 39, 207-222. | 1.0 | 3 |
| 9 | Systematic Review and Meta-analysis: Psychosis Risk in Children and Adolescents With an At-Risk Mental State. Journal of the American Academy of Child and Adolescent Psychiatry, 2022, 61, 615-625. | 0.5 | 22 |
| 10 | The association of plasma inflammatory markers with omega-3 fatty acids and their mediating role in psychotic symptoms and functioning: An analysis of the NEURAPRO clinical trial. Brain, Behavior, and Immunity, 2022, 99, 147-156. | 4.1 | 2 |
| 11 | Birth Weight and Childhood Psychopathology in the ABCD Cohort: Association is Strongest for Attention Problems and is Moderated by Sex. Research on Child and Adolescent Psychopathology, 2022, 50, 563-575. | 2.3 | 8 |
| 12 | Youth psychiatry: time for a new subâ€specialty within psychiatry. World Psychiatry, 2022, 21, 2-3. | 10.4 | 9 |
| 13 | Sexual assault and psychosis in two large general population samples: Is childhood and adolescence a developmental window of sensitivity?. Schizophrenia Research, 2022, 241, 78-82. | 2.0 | 3 |
| 14 | Neuroanatomical markers of psychotic experiences in adolescents: A machine-learning approach in a longitudinal population-based sample. NeuroImage: Clinical, 2022, 34, 102983. | 2.7 | 0 |
| 15 | Machine learning based prediction and the influence of complement – Coagulation pathway proteins on clinical outcome: Results from the NEURAPRO trial. Brain, Behavior, and Immunity, 2022, 103, 50-60. | 4.1 | 4 |
| 16 | MRI volumetric changes in hippocampal subfields in psychosis: a protocol for a systematic review and meta-analysis. Systematic Reviews, 2022, 11, 44. | 5.3 | 1 |
| 17 | Plasma lipid alterations in young adults with psychotic experiences: A study from the Avon Longitudinal Study of Parents and Children cohort. Schizophrenia Research, 2022, 243, 78-85. | 2.0 | 2 |
| 18 | Person-Centered Trajectories of Psychopathology From Early Childhood to Late Adolescence. JAMA Network Open, 2022, 5, e229601. | 5.9 | 10 |

| # | Article | IF | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|-----------|
| 19 | The importance of anthropology in psychiatry. Irish Journal of Psychological Medicine, 2022, 39, 113-114. | 1.0 | 1 |
| 20 | Early adult mental health, functional and neuropsychological outcomes of young people who have reported psychotic experiences: a 10-year longitudinal study. Psychological Medicine, 2021, 51, 1861-1869. | 4. 5 | 22 |
| 21 | Risk and protective factors for psychotic experiences in adolescence: a population-based study. Psychological Medicine, 2021, 51, 1220-1228. | 4.5 | 16 |
| 22 | Complement pathway changes at age 12 are associated with psychotic experiences at age 18 in a longitudinal population-based study: evidence for a role of stress. Molecular Psychiatry, 2021, 26, 524-533. | 7.9 | 36 |
| 23 | Childhood trauma and adult mental disorder: A systematic review and metaâ€analysis of longitudinal cohort studies. Acta Psychiatrica Scandinavica, 2021, 143, 189-205. | 4.5 | 161 |
| 24 | Development of Proteomic Prediction Models for Transition to Psychotic Disorder in the Clinical High-Risk State and Psychotic Experiences in Adolescence. JAMA Psychiatry, 2021, 78, 77. | 11.0 | 57 |
| 25 | Intelligence quotient decline following frequent or dependent cannabis use in youth: a systematic review and meta-analysis of longitudinal studies. Psychological Medicine, 2021, 51, 194-200. | 4.5 | 13 |
| 26 | Online Mental Health Animations for Young People: Qualitative Empirical Thematic Analysis and Knowledge Transfer. Journal of Medical Internet Research, 2021, 23, e21338. | 4.3 | 9 |
| 27 | Incidence of schizophrenia and influence of prenatal and infant exposure to viral infectious diseases. Acta Psychiatrica Scandinavica, 2021, 143, 487-494. | 4.5 | 5 |
| 28 | A metaâ€analysis of the relationship between parental death in childhood and subsequent psychiatric disorder. Acta Psychiatrica Scandinavica, 2021, 143, 472-486. | 4. 5 | 13 |
| 29 | Cannabis and public health—a need to reclaim the narrative. Irish Journal of Medical Science, 2021, , 1. | 1.5 | 1 |
| 30 | Plasma polyunsaturated fatty acids and mental disorders in adolescence and early adulthood: cross-sectional and longitudinal associations in a general population cohort. Translational Psychiatry, 2021, 11, 321. | 4.8 | 15 |
| 31 | Public health psychiatry: an idea whose time has come. World Psychiatry, 2021, 20, 222-223. | 10.4 | 5 |
| 32 | Prevalence of DSM-V mental disorders in a cohort of young adults in Ireland. BJPsych Open, 2021, 7, S271-S271. | 0.7 | 0 |
| 33 | A neural efficiency-threshold model to understand psychotic experiences. Psychological Medicine, 2021, 51, 1777-1782. | 4.5 | 11 |
| 34 | Cannabis Legalization and Adolescent Cannabis Use: Explanation of Paradoxical Findings. Journal of Adolescent Health, 2021, 69, 14-15. | 2.5 | 7 |
| 35 | Hallucinations in the general population across the adult lifespan: prevalence and psychopathologic significance. British Journal of Psychiatry, 2021, 219, 652-658. | 2.8 | 12 |
| 36 | The association between familial death in childhood or adolescence and subsequent substance use disorder: A systematic review and meta-analysis. Addictive Behaviors, 2021, 120, 106936. | 3.0 | 4 |

|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Evidence that infant and early childhood developmental impairments are associated with hallucinatory experiences: results from a large, population-based cohort study. Psychological Medicine, 2021, , 1-9. | 4.5 | 7 |
| 38 | Social cognition and self-reported ASD traits in young adults who have reported psychotic experiences: A population-based, longitudinal study. Schizophrenia Research, 2021, 237, 54-61. | 2.0 | 4 |
| 39 | Self-reported interpersonal and educational/vocational difficulties in young adults with a history of transient psychotic experiences: findings from a population-based study. BMC Psychiatry, 2021, 21, 30. | 2.6 | 7 |
| 40 | Precursors and correlates of transient and persistent longitudinal profiles of psychotic experiences from late childhood through early adulthood. British Journal of Psychiatry, 2021, , 1-9. | 2.8 | 5 |
| 41 | The debate about physician assisted suicide and euthanasia in Ireland – Implications for psychiatry. International Journal of Law and Psychiatry, 2021, 79, 101747. | 0.9 | 3 |
| 42 | Testing the Independent and Joint Contribution of Exposure to Neurodevelopmental Adversity and Childhood Trauma to Risk of Psychotic Experiences in Adulthood. Schizophrenia Bulletin, 2021, 47, 776-784. | 4.3 | 5 |
| 43 | OUP accepted manuscript. European Journal of Public Health, 2021, 31, 167-173. | 0.3 | 5 |
| 44 | A Computational Analysis of Abnormal Belief Updating Processes and Their Association With Psychotic Experiences and Childhood Trauma in a UK Birth Cohort. Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, 2021, , . | 1.5 | 5 |
| 45 | Higher rates of disengagement among young adults attending a general adult community mental health team: Time to consider a youthâ€specific service?. Microbial Biotechnology, 2020, 14, 330-335. | 1.7 | 12 |
| 46 | Role of inflammation in the pathogenesis of schizophrenia: A review of the evidence, proposed mechanisms and implications for treatment. Microbial Biotechnology, 2020, 14, 385-397. | 1.7 | 71 |
| 47 | Early risk and protective factors and young adult outcomes in a longitudinal sample of young people with a history of psychoticâ€like experiences. Microbial Biotechnology, 2020, 14, 307-320. | 1.7 | 9 |
| 48 | The role of prenatal stress as a pathway to personality disorder: longitudinal birth cohort study. British Journal of Psychiatry, 2020, 216, 85-89. | 2.8 | 22 |
| 49 | Psychotic experiences in childhood are associated with increased structural integrity of the left arcuate fasciculus – A population-based case-control study. Schizophrenia Research, 2020, 215, 378-384. | 2.0 | 10 |
| 50 | Challenging the Association of Marijuana Laws With Teen Marijuana Use. JAMA Pediatrics, 2020, 174, 97. | 6.2 | 1 |
| 51 | A Population-Based Cohort Study Examining the Incidence and Impact of Psychotic Experiences From Childhood to Adulthood, and Prediction of Psychotic Disorder. American Journal of Psychiatry, 2020, 177, 308-317. | 7.2 | 98 |
| 52 | Childhood temperament and its association with adult psychiatric disorders in a prospective cohort study. Schizophrenia Research, 2020, 216, 229-234. | 2.0 | 4 |
| 53 | How mental health care should change as a consequence of the COVID-19 pandemic. Lancet Psychiatry,the, 2020, 7, 813-824. | 7.4 | 1,101 |
| 54 | Prenatal and perinatal complications in the development of psychosis: canaries in the coalmine. Lancet Psychiatry,the, 2020, 7, 372-373. | 7.4 | 3 |
