#	Article	IF	Citations
1	Industry 4.0: driving factors and impacts on firmâ€™s performance: an empirical study on Chinaâ€™s manufacturing industry. Annals of Operations Research, 2023, 329, 47-67.	4.1	51
2	Mechanism analysis of the influence of oil price uncertainty on strategic investment of renewable energy enterprises. International Journal of Finance and Economics, 2023, 28, 4176-4193.	3.5	4
3	Trust in Fintech: Risk, Governance, and Continuance Intention. Journal of Computer Information Systems, 2023, 63, 648-662.	2.9	6
4	Crude oil market and Nigerian stocks: An asymmetric information spillover approach. International Journal of Finance and Economics, 2022, 27, 4002-4017.	3.5	8
5	The long term effects of carbon trading markets in China: Evidence from energy intensive industries. Science of the Total Environment, 2022, 806, 150311.	8.0	30
6	Does energy efficiency make sense in China? Based on the perspective of economic growth quality. Science of the Total Environment, 2022, 804, 149895.	8.0	59
7	Does the Clean Air Action Really Affect Labor Demand in China?. Journal of Global Information Management, 2022, 30, 1-23.	2.8	8
8	Towards carbon neutrality: The role of different paths of technological progress in mitigating China's CO2 emissions. Science of the Total Environment, 2022, 813, 152588.	8.0	38
9	How does market-oriented reform influence the rebound effect of Chinaâ€™s mining industry?. Economic Analysis and Policy, 2022, 74, 34-44.	6.6	5
10	Does Use of Solid Cooking Fuels Increase Family Medical Expenses in China?. International Journal of Environmental Research and Public Health, 2022, 19, 1649.	2.6	11
11	Energy efficiency of the industrial sectors in Beijing-Tianjin-Hebei urban agglomeration: does technological gap matter?. Environmental Science and Pollution Research, 2022, , 1.	5.3	2
12	Does environmental decentralization aggravate pollution emissions? Microscopic evidence from Chinese industrial enterprises. Science of the Total Environment, 2022, 829, 154640.	8.0	41
13	Risk prediction of hypertension complications based on the intelligent algorithm optimized Bayesian network. Journal of Combinatorial Optimization, 2021, 42, 966-987.	1.3	2
14	Stock markets and the COVID-19 fractal contagion effects. Finance Research Letters, 2021, 38, 101640.	6.7	203
15	Energy efficiency performance of the industrial sector: From the perspective of technological gap in different regions in China. Energy, 2021, 214, 118865.	8.8	67
16	Analysis of electricity consumption in Pakistan using index decomposition and decoupling approach. Energy, 2021, 214, 118888.	8.8	37
17	Cleaner production of Pakistanâ€™s chemical industry: Perspectives of energy conservation and emissions reduction. Journal of Cleaner Production, 2021, 278, 123888.	9.3	18
18	Does natural gas pricing reform establish an effective mechanism in China: A policy evaluation perspective. Applied Energy, 2021, 282, 116205.	10.1	17

#	Article	IF	Citations
19	Impact of natural gas consumption on sub-Saharan Africa's CO2 emissions: Evidence and policy perspective. Science of the Total Environment, 2021, 760, 143321.	8.0	27
20	What drives energy intensity fall in China? Evidence from a meta-frontier approach. Applied Energy, 2021, 281, 116034.	10.1	40
21	Large fluctuations of China's commodity prices: Main sources and heterogeneous effects. International Journal of Finance and Economics, 2021, 26, 2074-2089.	3.5	4
22	Does Service Trade Globalization Promote Trade and Low-Carbon Globalization? Evidence from 30 Countries. Emerging Markets Finance and Trade, 2021, 57, 1455-1473.	3.1	23
23	A multi factor Malmquist <mml:math xmlns:mml="http://www.w3.org/1998/Math/MathML" altimg="si1.svg"><mml:msub><mml:mi>CO</mml:mi><mml:mn>2</mml:mn></mml:msub><mml:mspace width="0.25em" /><mml:mi>emission</mml:mi></mml:math> performance indices: Evidence from Sub Saharan African public thermal power plants. Energy, 2021, 223, 120081.	8.8	15
24	Leveraging carbon label to achieve low-carbon economy: Evidence from a survey in Chinese first-tier cities. Journal of Environmental Management, 2021, 286, 112201.	7.8	28
25	Analyzing the frequency dynamics of volatility spillovers across precious and industrial metal markets. Journal of Futures Markets, 2021, 41, 1375-1396.	1.8	9
26	Effects of structural changes on the prediction of downside volatility in futures markets. Journal of Futures Markets, 2021, 41, 1124-1153.	1.8	51
27	Impact of China's new-type urbanization on energy intensity: A city-level analysis. Energy Economics, 2021, 99, 105292.	12.1	109
28	The dilemma of paraxylene plants in China: Real trouble for the environment?. Science of the Total Environment, 2021, 779, 146456.	8.0	4
29	Impact of public support and government's policy on climate change in China. Journal of Environmental Management, 2021, 294, 112983.	7.8	27
30	Fuels substitution possibilities and the technical progress in Pakistan's agriculture sector. Journal of Cleaner Production, 2021, 314, 128021.	9.3	24
31	Determinants of household food waste reduction intention in China: The role of perceived government control. Journal of Environmental Management, 2021, 299, 113577.	7.8	41
32	Understanding the green total factor energy efficiency gap between regional manufacturingâ€”insight from infrastructure development. Energy, 2021, 237, 121553.	8.8	55
33	Does low-carbon travel intention really lead to actual low-carbon travel? Evidence from urban residents in China. Economic Analysis and Policy, 2021, 72, 743-756.	6.6	15
34	Does Rent-Seeking Affect Environmental Regulation?. Journal of Global Information Management, 2021, 30, 1-22.	2.8	10
35	Reducing Overcapacity in Chinaâ€™s Coal Industry: A Real Option Approach. Computational Economics, 2020, 55, 1073-1093.	2.6	12
36	Impact of foreign trade on energy efficiency in Chinaâ€™s textile industry. Journal of Cleaner Production, 2020, 245, 118878.	9.3	41

#	Article	IF	Citations
37	Economic, energy and environmental impact of coal-to-electricity policy in China: A dynamic recursive CGE study. Science of the Total Environment, 2020, 698, 134241.	8.0	99
38	Are government subsidies effective in improving innovation efficiency? Based on the research of China's wind power industry. Science of the Total Environment, 2020, 710, 136339.	8.0	84
39	Impact of inter-fuel substitution on energy intensity in Ghana. Frontiers in Energy, 2020, 14, 27-41.	2.3	8
40	Why Chinaâ€™s Heating Industry High-input but Low-return?. Emerging Markets Finance and Trade, 2020, 56, 1630-1650.	3.1	1
41	Economic Growth Effect of Nuclear Power Plants on Location Cities Based on Counterfactual Analysis with Prefecture-Level Panel Data of Mainland China. Emerging Markets Finance and Trade, 2020, 56, 1873-1893.	3.1	1
42	Influence of CEO Characteristics on Accounting Information Disclosure Qualityâ€”Based on the Mediating Effect of Capital Structure. Emerging Markets Finance and Trade, 2020, 56, 1781-1803.	3.1	8
43	Will land transport infrastructure affect the energy and carbon dioxide emissions performance of Chinaâ€™s manufacturing industry?. Applied Energy, 2020, 260, 114266.	10.1	70
44	Empirical Study of Factors Influencing Performance of Chinese Enterprises in Overseas Mergers and Acquisitions in Context of Belt and Road Initiativeâ€”A Perspective Based on Political Connections. Emerging Markets Finance and Trade, 2020, 56, 1564-1580.	3.1	14
45	Energy substitution effect on transport sector of Pakistan: A trans-log production function approach. Journal of Cleaner Production, 2020, 251, 119606.	9.3	42
46	Household heterogeneity impact of removing energy subsidies in China: Direct and indirect effect. Energy Policy, 2020, 147, 111811.	8.8	23
47	Assessing Sub-Saharan Africaâ€™s low carbon development through the dynamics of energy-related carbon dioxide emissions. Journal of Cleaner Production, 2020, 274, 122676.	9.3	11
48	CAN CARBON TAX COMPLEMENT EMISSION TRADING SCHEME? THE IMPACT OF CARBON TAX ON ECONOMY, ENERGY AND ENVIRONMENT IN CHINA. Climate Change Economics, 2020, 11, 2041002.	5.0	16
49	Factors behind CO2 emission reduction in Chinese heavy industries: Do environmental regulations matter?. Energy Policy, 2020, 145, 111765.	8.8	118
50	Multidimensional Energy Poverty and Mental Health: Micro-Level Evidence from Ghana. International Journal of Environmental Research and Public Health, 2020, 17, 6726.	2.6	43
51	Predicting the volatility of crude oil futures: The roles of leverage effects and structural changes. International Journal of Finance and Economics, 2020, , .	3.5	4
52	Energy substitution and technology costs in a transitional economy. Energy, 2020, 203, 117828.	8.8	26
53	Analysis of the natural gas demand and subsidy in China: A multi-sectoral perspective. Energy, 2020, 202, 117786.	8.8	20
54	Environmental regulation and energy-environmental performanceâ€”Empirical evidence from China's non-ferrous metals industry. Journal of Environmental Management, 2020, 269, 110722.	7.8	62

#	Article	IF	Citations
55	Decoupling and mitigation potential analysis of CO2 emissions from Pakistan's transport sector. Science of the Total Environment, 2020, 730, 139000.	8.0	93
56	The rapid development of the photovoltaic industry in China and related carbon dioxide abatement costs. Regional Environmental Change, 2020, 20, 1.	2.9	6
57	The influence of carbon tax on the ecological efficiency of China's energy intensive industriesâ€"A inter-fuel and inter-factor substitution perspective. Journal of Environmental Management, 2020, 261, 110252.	7.8	40
58	Structural optimization and carbon taxation in China's commercial sector. Energy Policy, 2020, 140, 111442.	8.8	9
59	Coal and economic development in Pakistan: A necessity of energy source. Energy, 2020, 207, 118244.	8.8	40
60	How does fossil energy abundance affect China's economic growth and CO2 emissions?. Science of the Total Environment, 2020, 719, 137503.	8.0	89
61	Does integrated efficiency improvement of the heating industry matter for air quality in China?. Science of the Total Environment, 2020, 717, 137020.	8.0	5
62	The role of technical progress in Chinaâ€™s northern and southern heating industry. Energy Efficiency, 2020, 13, 665-682.	2.8	2
63	Designing energy policy based on dynamic change in energy and carbon dioxide emission performance of Chinaâ€™s iron and steel industry. Journal of Cleaner Production, 2020, 256, 120412.	9.3	42
64	Policy effect of the Clean Air Action on green development in Chinese cities. Journal of Environmental Management, 2020, 258, 110036.	7.8	54
65	Analysis of energy security indicators and CO2 emissions. A case from a developing economy. Energy, 2020, 200, 117575.	8.8	73
66	Can energy conservation and substitution mitigate CO2 emissions in electricity generation? Evidence from Middle East and North Africa. Journal of Environmental Management, 2020, 275, 111222.	7.8	18
67	Supply control vs. demand control: why is resource tax more effective than carbon tax in reducing emissions?. Humanities and Social Sciences Communications, 2020, 7, .	2.9	17
68	Spatio-temporal analysis of driving factors of water resources consumption in China. Science of the Total Environment, 2019, 690, 1321-1330.	8.0	50
69	Resources allocation and more efficient use of energy in China's textile industry. Energy, 2019, 185, 111-120.	8.8	13
70	Good subsidies or bad subsidies? Evidence from low-carbon transition in China's metallurgical industry. Energy Economics, 2019, 83, 52-60.	12.1	33
71	Changes in Energy Intensity During the development Processï¼šEvidence in Sub-Saharan Africa and Policy Implications. Energy, 2019, 183, 1012-1022.	8.8	17
72	Determinants of renewable energy technological innovation in China under CO2 emissions constraint. Journal of Environmental Management, 2019, 247, 662-671.	7.8	220

#	Article	IF	Citations
73	Assessing Ghana's carbon dioxide emissions through energy consumption structure towards a sustainable development path. Journal of Cleaner Production, 2019, 238, 117941.	9.3	40
74	Quantitative assessment of factors affecting energy intensity from sector, region and time perspectives using decomposition method: A case of Chinaâ€™s metallurgical industry. Energy, 2019, 189, 116280.	8.8	23
75	Economy-wide estimates of energy rebound effect: Evidence from China's provinces. Energy Economics, 2019, 83, 389-401.	12.1	53
76	Impacts of carbon price level in carbon emission trading market. Applied Energy, 2019, 239, 157-170.	10.1	123
77	Renewable energy (electricity) development in Ghana: Observations, concerns, substitution possibilities, and implications for the economy.. Journal of Cleaner Production, 2019, 233, 1396-1409.	9.3	30
78	Dynamic analysis of carbon dioxide emissions in China's petroleum refining and coking industry. Science of the Total Environment, 2019, 671, 937-947.	8.0	42
79	Inconsistency of economic growth and electricity consumption in China: A panel VAR approach. Journal of Cleaner Production, 2019, 229, 144-156.	9.3	47
80	Impacts of policies on innovation in wind power technologies in China. Applied Energy, 2019, 247, 682-691.	10.1	76
81	Energy, economic and environmental impact of government fines in China's carbon trading scheme. Science of the Total Environment, 2019, 667, 658-670.	8.0	35
82	R&D Efforts, Total Factor Productivity, and the Energy Intensity in China. Emerging Markets Finance and Trade, 2019, 55, 2566-2588.	3.1	34
83	Assessing the energy productivity of China's textile industry under carbon emission constraints. Journal of Cleaner Production, 2019, 228, 197-207.	9.3	23
84	Industrial energy efficiency and driving forces behind efficiency improvement: Evidence from the Pearl River Delta urban agglomeration in China. Journal of Cleaner Production, 2019, 220, 899-909.	9.3	100
85	Does China become the â€œpollution heavenâ€•in South-South trade? Evidence from Sino-Russian trade. Science of the Total Environment, 2019, 666, 964-974.	8.0	51
86	Understanding the energy intensity change in China's food industry: A comprehensive decomposition method. Energy Policy, 2019, 129, 53-68.	8.8	32
87	Public acceptance towards waste-to-energy power plants: a new quantified assessment based on â€œwillingness to payâ€• Journal of Environmental Planning and Management, 2019, 62, 2459-2477.	4.5	9
88	Analysis of energy related CO2 emissions in Pakistan. Journal of Cleaner Production, 2019, 219, 981-993.	9.3	165
89	The role of renewable energy technological innovation on climate change: Empirical evidence from China. Science of the Total Environment, 2019, 659, 1505-1512.	8.0	300
90	What are the main factors affecting carbon price in Emission Trading Scheme? A case study in China. Science of the Total Environment, 2019, 654, 525-534.	8.0	75

#	Article	IF	Citations
91	Energy Conservation and Emission Reduction of Chinese Cement Industry: From a Perspective of Factor Substitutions. Emerging Markets Finance and Trade, 2019, 55, 967-979.	3.1	17
92	Does electricity price matter for innovation in renewable energy technologies in China?. Energy Economics, 2019, 78, 259-266.	12.1	124
93	Assessment of waste incineration power with considerations of subsidies and emissions in China. Energy Policy, 2019, 126, 190-199.	8.8	89
94	On Nigeria's renewable energy program: Examining the effectiveness, substitution potential, and the impact on national output. Energy, 2019, 167, 1181-1193.	8.8	22
95	Evaluating the CO2 performance of China's non-ferrous metals Industry: A total factor meta-frontier Malmquist index perspective. Journal of Cleaner Production, 2019, 209, 1061-1077.	9.3	40
96	What will China's carbon emission trading market affect with only electricity sector involvement? A CGE based study. Energy Economics, 2019, 78, 301-311.	12.1	165
97	Carbon sinks and output of China's forestry sector: An ecological economic development perspective. Science of the Total Environment, 2019, 655, 1169-1180.	8.0	78
98	Real-time scheduling optimization considering the unexpected events in home health care. Journal of Combinatorial Optimization, 2019, 37, 196-220.	1.3	25
99	How to reduce energy intensity in China's heavy industryâ€"Evidence from a seemingly uncorrelated regression. Journal of Cleaner Production, 2018, 180, 708-715.	9.3	36
100	What factors lead to the decline of energy intensity in China's energy intensive industries?. Energy Economics, 2018, 71, 213-221.	12.1	140
101	Energy consumption, fuel substitution, technical change, and economic growth: Implications for CO2 mitigation in Egypt. Energy Policy, 2018, 117, 340-347.	8.8	55
102	Time-varying effects of oil supply and demand shocks on China's macro-economy. Energy, 2018, 149, 424-437.	8.8	77
103	Factor substitution and decomposition of carbon intensity in China's heavy industry. Energy, 2018, 145, 582-591.	8.8	46
104	Analysis of the changes in the scale of natural gas subsidy in China and its decomposition factors. Energy Economics, 2018, 70, 37-44.	12.1	34
105	Industrial sectors' energy rebound effect: An empirical study of Yangtze River Delta urban agglomeration. Energy, 2018, 145, 408-416.	8.8	55
106	Dynamic change in energy and CO2 performance of China's commercial sector: A regional comparative study. Energy Policy, 2018, 119, 113-122.	8.8	31
107	A decomposition analysis of energy-related CO2 emissions in Chinese six high-energy intensive industries. Journal of Cleaner Production, 2018, 184, 1102-1112.	9.3	95
108	Growth of industrial CO2 emissions in Shanghai city: Evidence from a dynamic vector autoregression analysis. Energy, 2018, 151, 167-177.	8.8	35

#	Article	IF	Citations
109	Exchange rate fluctuations, oil price shocks and economic growth in a small net-importing economy. Energy, 2018, 151, 402-407.	8.8	36
110	Can Industrial Restructuring Significantly Reduce Energy Consumption? Evidence from China. Emerging Markets Finance and Trade, 2018, 54, 1082-1095.	3.1	10
111	Evaluating Design of Increasing Block Tariffs for Residential Natural Gas in China: A Case Study of Henan Province. Computational Economics, 2018, 52, 1335-1351.	2.6	6
112	Structural breaks and volatility forecasting in the copper futures market. Journal of Futures Markets, 2018, 38, 290-339.	1.8	137
113	How to promote energy efficiency through technological progress in China?. Energy, 2018, 143, 812-821.	8.8	143
114	Analysis of carbon emissions reduction of China's metallurgical industry. Journal of Cleaner Production, 2018, 176, 1177-1184.	9.3	79
115	Energy efficiency and conservation in China's manufacturing industry. Journal of Cleaner Production, 2018, 174, 492-501.	9.3	50
116	Optimizing Daily Service Scheduling for Medical Diagnostic Equipment Considering Patient Satisfaction and Hospital Revenue. Sustainability, 2018, 10, 3349.	3.2	3
117	Transfer payments in emission trading markets: A perspective of rural and urban residents in China. Journal of Cleaner Production, 2018, 204, 753-766.	9.3	11
118	Is Chinaâ€™s Manufacturing Industry Efficient? Evidence from an Energy-Rebound Effect Perspective. Emerging Markets Finance and Trade, 2018, 54, 2245-2257.	3.1	3
119	Impact of technological progress on China's textile industry and future energy saving potential forecast. Energy, 2018, 161, 859-869.	8.8	24
120	Carbon Price in China: A CO₂Abatement Cost of Wind Power Perspective. Emerging Markets Finance and Trade, 2018, 54, 1653-1671.	3.1	19
121	Should China support the development of biomass power generation?. Energy, 2018, 163, 416-425.	8.8	41
122	A comparison of carbon dioxide (CO2) emission trends among provinces in China. Renewable and Sustainable Energy Reviews, 2017, 73, 19-25.	16.4	127
123	Carbon taxes, industrial production, welfare and the environment. Energy, 2017, 123, 305-313.	8.8	32
124	Economic viability of battery energy storage and grid strategy: A special case of China electricity market. Energy, 2017, 124, 423-434.	8.8	71
125	Estimation of the environmental values of electric vehicles in Chinese cities. Energy Policy, 2017, 104, 221-229.	8.8	76
126	Is biomass power a good choice for governments in China?. Renewable and Sustainable Energy Reviews, 2017, 73, 1218-1230.	16.4	39

#	Article	IF	Citations
127	Can urban rail transit curb automobile energy consumption?. Energy Policy, 2017, 105, 120-127.	8.8	52
128	Does private investment in the transport sector mitigate the environmental impact of urbanisation? Evidence from Asia. Journal of Cleaner Production, 2017, 153, 331-341.	9.3	45
129	Promoting energy conservation in China's metallurgy industry. Energy Policy, 2017, 104, 285-294.	8.8	52
130	Estimating energy conservation potential in Chinaâ€™s energy intensive industries with rebound effect. Journal of Cleaner Production, 2017, 156, 899-910.	9.3	62
131	An application of a double bootstrap to investigate the effects of technological progress on total-factor energy consumption performance in China. Energy, 2017, 128, 575-585.	8.8	40
132	Sustainable development of China's energy intensive industries: From the aspect of carbon dioxide emissions reduction. Renewable and Sustainable Energy Reviews, 2017, 77, 386-394.	16.4	98
133	Economic growth model, structural transformation, and green productivity in China. Applied Energy, 2017, 187, 489-500.	10.1	208
134	Climate change and agriculture under CO 2 fertilization effects and farm level adaptation: Where do the models meet?. Applied Energy, 2017, 195, 556-571.	10.1	18
135	A comparative study on the production efficiencies of China's oil companies: A true fixed effect model considering the unobserved heterogeneity. Journal of Cleaner Production, 2017, 154, 341-352.	9.3	21
136	Energy consumption, inter-fuel substitution and economic growth in Nigeria. Energy, 2017, 120, 675-685.	8.8	21
137	Analysis of energy related carbon dioxide emission and reduction potential in Pakistan. Journal of Cleaner Production, 2017, 143, 278-287.	9.3	105
138	Is renewable energy a model for powering Eastern African countries transition to industrialization and urbanization?. Renewable and Sustainable Energy Reviews, 2017, 75, 909-917.	16.4	11
139	How oil price changes affect car use and purchase decisions? Survey evidence from Chinese cities. Energy Policy, 2017, 111, 68-74.	8.8	27
140	Energy and carbon intensity in China during the urbanization and industrialization process: A panel VAR approach. Journal of Cleaner Production, 2017, 168, 780-790.	9.3	168
141	Technological progress and rebound effect in China's nonferrous metals industry: An empirical study. Energy Policy, 2017, 109, 520-529.	8.8	56
142	Abatement Efforts, Technological Progress, and Pollution Control in Chinaâ€™s Industrial Sector. Emerging Markets Finance and Trade, 2017, 53, 1337-1351.	3.1	6
143	Analyzing the distributional effects of fuel taxation in China. Energy Efficiency, 2017, 10, 1235-1251.	2.8	4
144	Technology gap and CO 2 emission reduction potential by technical efficiency measures: A meta-frontier modeling for the Chinese agricultural sector. Ecological Indicators, 2017, 73, 653-661.	6.3	50
