#	ARTICLE	IF	CITATIONS
1	Healthcare interventions to promote and assist tobacco cessation: a review of efficacy, effectiveness and affordability for use in national guideline development. <i>Addiction</i> , 2015, 110, 1388-1403.	3.3	208
2	The effect of community-based health insurance on the utilization of modern health care services: Evidence from Burkina Faso. <i>Health Policy</i> , 2009, 90, 214-222.	3.0	111
3	Understanding enrolment in community health insurance in sub-Saharan Africa: a population-based case-control study in rural Burkina Faso. <i>Bulletin of the World Health Organization</i> , 2006, 84, 852-858.	3.3	109
4	Social sciences research in neglected tropical diseases 2: A bibliographic analysis. <i>Health Research Policy and Systems</i> , 2011, 9, 1.	2.8	92
5	Household decision-making on child health care in developing countries: the case of Nepal. <i>Health Policy and Planning</i> , 2004, 19, 218-233.	2.7	89
6	Social sciences research in neglected tropical diseases 1: the ongoing neglect in the neglected tropical diseases. <i>Health Research Policy and Systems</i> , 2010, 8, 32.	2.8	70
7	What interventions increase commuter cycling? A systematic review. <i>BMJ Open</i> , 2015, 5, e007945.	1.9	56
8	Gender role and child health care utilization in Nepal. <i>Health Policy</i> , 2005, 74, 100-109.	3.0	53
9	Step-wedge cluster-randomised community-based trials: An application to the study of the impact of community health insurance. <i>Health Research Policy and Systems</i> , 2008, 6, 10.	2.8	52
10	Determinants of household health expenditure on western institutional health care. <i>European Journal of Health Economics</i> , 2006, 7, 195-203.	2.8	39
11	Evaluation of an intensive family preservation service for families affected by parental substance misuse. <i>Child Abuse Review</i> , 2008, 17, 410-426.	0.8	39
12	The differences in characteristics between health-care users and non-users: implication for introducing community-based health insurance in Burkina Faso. <i>European Journal of Health Economics</i> , 2008, 9, 41-50.	2.8	36
13	Cytisine versus varenicline for smoking cessation in New Zealand indigenous Māori: a randomized controlled trial. <i>Addiction</i> , 2021, 116, 2847-2858.	3.3	31
14	EQUIPT: protocol of a comparative effectiveness research study evaluating cross-context transferability of economic evidence on tobacco control. <i>BMJ Open</i> , 2014, 4, e006945.	1.9	29
15	Model-based economic evaluations in smoking cessation and their transferability to new contexts: a systematic review. <i>Addiction</i> , 2017, 112, 946-967.	3.3	27
16	Understanding the stakeholders' intention to use economic decision-support tools: A cross-sectional study with the tobacco return on investment tool. <i>Health Policy</i> , 2016, 120, 46-54.	3.0	23
17	How to strengthen a health research system: WHO's review, whose literature and who is providing leadership?. <i>Health Research Policy and Systems</i> , 2020, 18, 72.	2.8	23
18	Estimates of effectiveness and reach for "return on investment" modelling of smoking cessation interventions using data from England. <i>Addiction</i> , 2018, 113, 19-31.	3.3	20

#	ARTICLE	IF	CITATIONS
19	Development and application of an economic model (EQUIPTMOD) to assess the impact of smoking cessation. <i>Addiction</i> , 2018, 113, 7-18.	3.3	20
20	The Selection of an Appropriate Count Data Model for Modelling Health Insurance and Health Care Demand: Case of Indonesia. <i>International Journal of Environmental Research and Public Health</i> , 2010, 7, 9-27.	2.6	19
21	Similarities and differences between stakeholders'™ opinions on using Health Technology Assessment (HTA) information across five European countries: results from the EQUIPT survey. <i>Health Research Policy and Systems</i> , 2016, 14, 38.	2.8	19
22	Cost-effectiveness of alternative smoking cessation scenarios in Spain: results from the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 65-75.	3.3	19
23	Determinants of COVID-19-Related Length of Hospital Stays and Long COVID in Ghana: A Cross-Sectional Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 527.	2.6	19
24	Social sciences research in neglected tropical diseases 3: Investment in social science research in neglected diseases of poverty: a case study of Bill and Melinda Gates Foundation. <i>Health Research Policy and Systems</i> , 2011, 9, 2.	2.8	18
25	The demand for sports and exercise: results from an illustrative survey. <i>European Journal of Health Economics</i> , 2012, 13, 277-287.	2.8	18
26	Envisioning and shaping translation of knowledge into action: A comparative case-study of stakeholder engagement in the development of a European tobacco control tool. <i>Health Policy</i> , 2019, 123, 917-923.	3.0	16
27	Economics of physical activity in low-income and middle-income countries: a systematic review. <i>BMJ Open</i> , 2021, 11, e037784.	1.9	16
28	Economic analysis of participation in physical activity in England: implications for health policy. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 117.	4.6	15
29	Is it cost-effective to provide internet-based interventions to complement the current provision of smoking cessation services in the Netherlands? An analysis based on the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 87-95.	3.3	15
30	Illness reporting and demand for medical care in rural Burkina Faso. <i>Social Science and Medicine</i> , 2010, 70, 1693-1700.	3.8	13
31	Cytisine versus varenicline for smoking cessation for Māori (the indigenous people of New Zealand) and their extended family: protocol for a randomized non-inferiority trial. <i>Addiction</i> , 2019, 114, 344-352.	3.3	13
32	Scaling up health interventions in resource-poor countries: what role does research in stated-preference framework play?. <i>Health Research Policy and Systems</i> , 2006, 4, 4.	2.8	12
33	Return on investment (ROI) modelling in public health: strengths and limitations. <i>European Journal of Public Health</i> , 2015, 25, 908-909.	0.3	12
34	Modelling the effectiveness of financing policies to address underutilization of children's health services in Nepal. <i>Bulletin of the World Health Organization</i> , 2005, 83, 338-44.	3.3	12
35	Determinants of parental reports of children's illnesses: Empirical evidence from Nepal. <i>Social Science and Medicine</i> , 2007, 65, 1106-1117.	3.8	11
36	Measuring the effects on quality of life and alcohol consumption of a program to reduce binge drinking in Spanish adolescents. <i>Drug and Alcohol Dependence</i> , 2019, 205, 107597.	3.2	11

#	ARTICLE	IF	CITATIONS
37	Identification of Policy Priorities to Address the Burden of Smokeless Tobacco in Pakistan: A Multimethod Analysis. <i>Nicotine and Tobacco Research</i> , 2020, 22, 2262-2265.	2.6	10
38	Estimates of costs for modelling return on investment from smoking cessation interventions. <i>Addiction</i> , 2018, 113, 32-41.	3.3	9
39	Assessment of cost-effective changes to the current and potential provision of smoking cessation services: an analysis based on the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 96-105.	3.3	7
40	Cost-effectiveness of increasing the reach of smoking cessation interventions in Germany: results from the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 52-64.	3.3	6
41	Quantifying the contribution of utility cycling to population levels of physical activity: an analysis of the Active People Survey. <i>Journal of Public Health</i> , 2016, 38, fdv182.	1.8	5
42	OPTIMIZING USABILITY OF AN ECONOMIC DECISION SUPPORT TOOL: PROTOTYPE OF THE EQUIPT TOOL. <i>International Journal of Technology Assessment in Health Care</i> , 2018, 34, 68-77.	0.5	5
43	A utility of model input uncertainty analysis in transferring tobacco control-related economic evidence to countries with scarce resources: results from the EQUIPT study. <i>Addiction</i> , 2018, 113, 42-51.	3.3	5
44	Cost-effectiveness of possible future smoking cessation strategies in Hungary: results from the EQUIPTMOD. <i>Addiction</i> , 2018, 113, 76-86.	3.3	5
45	Can Social Care Needs and Well-Being Be Explained by the EQ-5D? Analysis of the Health Survey for England. <i>Value in Health</i> , 2018, 21, 830-838.	0.3	5
46	The economics of physical activity in low-income and middle-income countries: protocol for a systematic review. <i>BMJ Open</i> , 2019, 9, e022686.	1.9	4
47	Costs of disinvesting from stop smoking services: an economic evaluation based on the NICE Tobacco Return on Investment model. <i>Lancet, The</i> , 2016, 388, S95.	13.7	3
48	EQUIPTMOD as a basis for rational investment decisions in tobacco control. <i>Addiction</i> , 2018, 113, 3-6.	3.3	3
49	The Relationship between Lifestyle and Costs Related to Medicine Use in Adults. <i>Arquivos Brasileiros De Cardiologia</i> , 2019, 112, 749-755.	0.8	3
50	Parafricta Bootees and Undergarments to Reduce Skin Breakdown in People with or at Risk of Pressure Ulcers: A NICE Medical Technologies Guidance. <i>Applied Health Economics and Health Policy</i> , 2016, 14, 635-646.	2.1	2
51	Understanding perceived availability and importance of tobacco control interventions to inform European adoption of a UK economic model: a cross-sectional study. <i>BMC Health Services Research</i> , 2018, 18, 115.	2.2	2
52	Expect the unexpected? Challenges of prospectively exploring stakeholder engagement in research. <i>Humanities and Social Sciences Communications</i> , 2021, 8, .	2.9	2
53	Determinants of Physical Activity and Dietary Habits among Adults in Ghana: A Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 4671.	2.6	2
54	Research can be integrated into public health policy-making: global lessons for and from Spanish economic evaluations. <i>Health Research Policy and Systems</i> , 2022, 20, .	2.8	2

#	ARTICLE	IF	CITATIONS
55	Behaviour Change in Public Health: Evidence and Implications. BioMed Research International, 2015, 2015, 1-2.	1.9	1
56	How much do people spend on physical activity in England: a nationwide cross-sectional survey of expenditure. Lancet, The, 2016, 388, S20.	13.7	1
57	Improving population levels of physical activity through integration into everyday life: a before and after analysis of the Cycling City and Towns programme. Lancet, The, 2016, 388, S106.	13.7	1
58	An examination of user costs in relation to smokers using a cessation service based in the UK. BMC Health Services Research, 2018, 18, 182.	2.2	1
59	Medical spending and health outcome in Nepal: problems with technology or its distribution?. Bulletin of the World Health Organization, 2003, 81, 844-5.	3.3	1
60	ROI Analysis: Making Policy Impacts. , 2017, , 139-157.		0
61	ROI Analysis: Art or Science?. , 2017, , 41-54.		0
62	Whereâ€™s Next for Public Health ROI Research?. , 2017, , 159-169.		0
