citing authors

#	ARTICLE	IF	CITATIONS
1	A guide to using the Theoretical Domains Framework of behaviour change to investigate implementation problems. <i>Implementation Science</i> , 2017, 12, 77.	6.9	1,734
2	Prevalence and Causes of Prescribing Errors: The PRescribing Outcomes for Trainee Doctors Engaged in Clinical Training (PROTECT) Study. <i>PLoS ONE</i> , 2014, 9, e79802.	2.5	147
3	Learning curves, taking instructions, and patient safety: using a theoretical domains framework in an interview study to investigate prescribing errors among trainee doctors. <i>Implementation Science</i> , 2012, 7, 86.	6.9	120
4	Perceived causes of prescribing errors by junior doctors in hospital inpatients: a study from the PROTECT programme. <i>BMJ Quality and Safety</i> , 2013, 22, 97-102.	3.7	106
5	An Audit and Feedback Intervention for Reducing Antibiotic Prescribing in General Dental Practice: The RAPID Cluster Randomised Controlled Trial. <i>PLoS Medicine</i> , 2016, 13, e1002115.	8.4	77
6	Bariatric surgery, lifestyle interventions and orlistat for severe obesity: the REBALANCE mixed-methods systematic review and economic evaluation. <i>Health Technology Assessment</i> , 2018, 22, 1-246.	2.8	69
7	Prioritizing research areas for antibiotic stewardship programmes in hospitals: a behavioural perspective consensus paper. <i>Clinical Microbiology and Infection</i> , 2019, 25, 163-168.	6.0	57
8	Junior doctors' perceptions of their self-efficacy in prescribing, their prescribing errors and the possible causes of errors. <i>British Journal of Clinical Pharmacology</i> , 2013, 76, 980-987.	2.4	37
9	Barriers and facilitators of evidence-based management of patients with bacterial infections among general dental practitioners: a theory-informed interview study. <i>Implementation Science</i> , 2015, 11, 11.	6.9	37
10	Clinical stakeholders' opinions on the use of selective decontamination of the digestive tract in critically ill patients in intensive care units: an international Delphi study. <i>Critical Care</i> , 2013, 17, R266.	5.8	35
11	Using shared goal setting to improve access and equity: a mixed methods study of the Good Goals intervention in children's occupational therapy. <i>Implementation Science</i> , 2012, 7, 76.	6.9	29
12	Evaluating an audit and feedback intervention for reducing antibiotic prescribing behaviour in general dental practice (the RAPID trial): a partial factorial cluster randomised trial protocol. <i>Implementation Science</i> , 2014, 9, 50.	6.9	29
13	Selective decontamination of the digestive tract in critically ill patients treated in intensive care units: a mixed-methods feasibility study (the SuDDICU study). <i>Health Technology Assessment</i> , 2014, 18, 1-170.	2.8	28
14	Barriers and Facilitators to Implementation of Antibiotic Stewardship Programmes in Hospitals in Developed Countries: Insights From Transnational Studies. <i>Frontiers in Sociology</i> , 2020, 5, 41.	2.0	22
15	A behavioural approach to specifying interventions: what insights can be gained for the reporting and implementation of interventions to reduce antibiotic use in hospitals?. <i>Journal of Antimicrobial Chemotherapy</i> , 2020, 75, 1338-1346.	3.0	22
16	Non-prescription medicine misuse, abuse and dependence: a cross-sectional survey of the UK general population. <i>Journal of Public Health</i> , 2016, 38, fdv204.	1.8	21
17	Observational study of current use of selective decontamination of the digestive tract in UK Critical Care units. <i>British Journal of Anaesthesia</i> , 2014, 113, 610-617.	3.4	19
18	Alcohol Use During Pregnancy: An Application of the Theory of Planned Behavior. <i>Journal of Applied Social Psychology</i> , 2012, 42, 1887-1903.	2.0	17

#	ARTICLE	IF	CITATIONS
19	Dose Adjustment for Normal Eating (DAFNE) in routine clinical practice: who benefits?. <i>Diabetic Medicine</i> , 2012, 29, 670-676.	2.3	17
20	The views of health care professionals about selective decontamination of the digestive tract: An international, theoretically informed interview study. <i>Journal of Critical Care</i> , 2014, 29, 634-640.	2.2	16
21	Assessing effective interventions to improve trial retention: do they contain behaviour change techniques?. <i>Trials</i> , 2020, 21, 213.	1.6	16
22	Comparison of four methods for assessing the importance of attitudinal beliefs: An international Delphi study in intensive care settings. <i>British Journal of Health Psychology</i> , 2014, 19, 274-291.	3.5	13
23	'You had to do something': prescribing antibiotics in Scotland during the COVID-19 pandemic restrictions and remobilisation. <i>British Dental Journal</i> , 2021, , .	0.6	12
24	How can behavioural science help us design better trials?. <i>Trials</i> , 2021, 22, 882.	1.6	11
25	Qualitative study exploring the key determinants of information gathering to inform the management of over-the-counter (OTC) consultations in community pharmacies. <i>BMJ Open</i> , 2019, 9, e029937.	1.9	10
26	Clinical components and associated behavioural aspects of a complex healthcare intervention: Multi-methods study of selective decontamination of the digestive tract in critical care. <i>Australian Critical Care</i> , 2013, 26, 173-179.	1.3	7
27	Implementing selective digestive tract decontamination in the intensive care unit: A qualitative analysis of nurse-identified considerations. <i>Heart and Lung: Journal of Acute and Critical Care</i> , 2014, 43, 13-18.	1.6	7
28	Using a behavioural approach to explore the factors that affect questionnaire return within a clinical trial: a qualitative study based on the theoretical domains framework. <i>BMJ Open</i> , 2021, 11, e048128.	1.9	7
29	Behavioural approaches to recruitment and retention in clinical trials: a systematic mapping review. <i>BMJ Open</i> , 2022, 12, e054854.	1.9	7
30	Theory-guided interviews identified behavioral barriers and enablers to healthcare professionals recruiting participants to maternity trials. <i>Journal of Clinical Epidemiology</i> , 2022, 145, 81-91.	5.0	6
31	Areas for improvement in community optometry: flashes and floaters take priority. <i>Ophthalmic and Physiological Optics</i> , 2018, 38, 411-421.	2.0	5
32	Channelling the force of audit and feedback: averting the dark side. <i>BMJ Quality and Safety</i> , 2022, 31, 695-697.	3.7	4
33	Pharmacist and Data-Driven Quality Improvement in Primary Care (P-DQIP): a qualitative study of anticipated implementation factors informed by the Theoretical Domains Framework. <i>BMJ Open</i> , 2020, 10, e033574.	1.9	3
34	Behavioural optimisation to address trial conduct challenges: case study in the UK-REBOA trial. <i>Trials</i> , 2022, 23, 398.	1.6	1
