| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 1  | The impact of remote home monitoring of people with COVID-19 using pulse oximetry: A national population and observational study. <i>EClinicalMedicine</i> , 2022, 45, 101318.  | 7.1 | 14        |
| 2  | Automated conflict resolution for patients with multiple morbidity being treated using more than one set of single condition clinical guidance: A case study. <i>Computers in Biology and Medicine</i> , 2022, 144, 105381. | 7.0 | 0         |
| 3  | Patients' experiences of, and engagement with, remote home monitoring services for COVID-19 patients: A rapid mixed-methods study. <i>Health Expectations</i> , 2022, 25, 2386-2404.  | 2.6 | 15        |
| 4  | MedPath: A process-based modeling language for designing care pathways. <i>International Journal of Medical Informatics</i> , 2021, 146, 104328.  | 3.3 | 5         |
| 5  | A comparative assessment of two tools designed to support patient safety culture in UK general practice. <i>BMC Family Practice</i> , 2021, 22, 98.   | 2.9 | 5         |
| 6  | From policy to patient: Using a socio-ecological framework to explore the factors influencing safe practice in UK primary care. <i>Social Science and Medicine</i> , 2021, 277, 113906.                                     | 3.8 | 9         |
| 7  | Implementing PROMs in routine clinical care: a qualitative exploration of GP perspectives. <i>BJGP Open</i> , 2021, 5, bjgpopen20X101135.   | 1.8 | 12        |
| 8  | Impact of COVID-19 on the digital divide: a rapid review. <i>BMJ Open</i> , 2021, 11, e053440.  | 1.9 | 120       |
| 9  | Management of fatigue with physical activity and behavioural change support in vasculitis: a feasibility study. <i>Rheumatology</i> , 2021, 60, 4130-4140.  | 1.9 | 10        |
| 10 | Addressing the transition to a chronic condition: exploring independent adoption of self-management by patients with ANCA-associated vasculitis. <i>Rheumatology Advances in Practice</i> , 2021, 5, rkab075.               | 0.7 | 2         |
| 11 | A Patient Safety Toolkit for Family Practices. <i>Journal of Patient Safety</i> , 2020, 16, e182-e186.  | 1.7 | 11        |
| 12 | Development of a group structured education programme to support safe exercise in people with Type 1 diabetes: the <sc>EXTOD</sc> education programme. <i>Diabetic Medicine</i> , 2020, 37, 945-952.                        | 2.3 | 8         |
| 13 | Barriers to Evidence-Based Treatment of Serious Burns: The Impact of Implicit Bias on Clinician Perceptions of Patient Adherence. <i>Journal of Burn Care and Research</i> , 2020, 41, 1297-1300.                           | 0.4 | 1         |
| 14 | A quantitative assessment of the parameters of the role of receptionists in modern primary care using the work design framework. <i>BMC Family Practice</i> , 2020, 21, 138.  | 2.9 | 7         |
| 15 | Development of the prototype concise safe systems checklist tool for general practice. <i>BMC Health Services Research</i> , 2020, 20, 544.   | 2.2 | 0         |
| 16 | Automated Verification of Care Pathways Using Constraint Programming. <i>IEEE Journal of Biomedical and Health Informatics</i> , 2020, 24, 2718-2725.   | 6.3 | 1         |
| 17 | General practitioners'™ views on use of patient reported outcome measures in primary care: a cross-sectional survey and qualitative study. <i>BMC Family Practice</i> , 2020, 21, 14.                                       | 2.9 | 35        |
| 18 | Patient and Healthcare Professionals Perspectives on the Delivery of Exercise Education for Patients With Type 1 Diabetes. <i>Frontiers in Endocrinology</i> , 2019, 10, 76.  | 3.5 | 22        |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 19 | The role of self-management in burns aftercare: a qualitative research study. <i>Burns</i> , 2019, 45, 825-834.  | 1.9 | 21        |
| 20 | Automated conflict detection between medical care pathways. <i>Journal of Software: Evolution and Process</i> , 2018, 30, e1898.   | 1.6 | 5         |
| 21 | Below the surface: Parents'™ views on the factors that influence treatment adherence in paediatric burn scar management – A qualitative study. <i>Burns</i> , 2018, 44, 626-635.   | 1.9 | 12        |
| 22 | Can rapid approaches to qualitative analysis deliver timely, valid findings to clinical leaders? A mixed methods study comparing rapid and thematic analysis. <i>BMJ Open</i> , 2018, 8, e019993.  | 1.9 | 274       |
| 23 | Can process mining automatically describe care pathways of patients with long-term conditions in UK primary care? A study protocol. <i>BMJ Open</i> , 2018, 8, e019947.  | 1.9 | 14        |
| 24 | Automated conflict resolution between multiple clinical pathways: a technology report. <i>BMJ Health and Care Informatics</i> , 2018, 25, 142-148.   | 3.0 | 1         |
| 25 | The impact of status and social context on health service co-design: an example from a collaborative improvement initiative in UK primary care. <i>BMC Medical Research Methodology</i> , 2018, 18, 136.   | 3.1 | 10        |
| 26 | A qualitative study exploring staff attitudes to maintaining hydration in neurosurgery patients. <i>Nursing Open</i> , 2018, 5, 422-430.   | 2.4 | 3         |
| 27 | Influences on the adoption of patient safety innovation in primary care: a qualitative exploration of staff perspectives. <i>BMC Family Practice</i> , 2018, 19, 72.   | 2.9 | 8         |
| 28 | A Process Mining and Text Analysis Approach to Analyse the Extent of Polypharmacy in Medical Prescribing. , 2018, , .  |     | 3         |
| 29 | Is ambient air pollution associated with onset of sudden infant death syndrome: a case-crossover study in the UK. <i>BMJ Open</i> , 2018, 8, e018341.  | 1.9 | 19        |
| 30 | Pressure garment to prevent abnormal scarring after burn injury in adults and children: the PEGASUS feasibility RCT and mixed-methods study. <i>Health Technology Assessment</i> , 2018, 22, 1-162.  | 2.8 | 16        |
| 31 | Radiofrequency Exposure Amongst Employees of Mobile Network Operators and Broadcasters. <i>Radiation Protection Dosimetry</i> , 2017, 175, 178-185.  | 0.8 | 2         |
| 32 | Assessing the extent of drug interactions among patients with multimorbidity in primary and secondary care in the West Midlands (UK): a study protocol for the Mixed Methods Multimorbidity Study (MiMMS). <i>BMJ Open</i> , 2017, 7, e016713.               | 1.9 | 4         |
| 33 | The future role of receptionists in primary care. <i>British Journal of General Practice</i> , 2017, 67, 523-524.  | 1.4 | 18        |
| 34 | Patients'™ evaluations of patient safety in English general practices: a cross-sectional study. <i>British Journal of General Practice</i> , 2017, 67, e474-e482.  | 1.4 | 22        |
| 35 | Adaption, implementation and evaluation of collaborative service improvements in the testing and result communication process in primary care from patient and staff perspectives: a qualitative study. <i>BMC Health Services Research</i> , 2017, 17, 615. | 2.2 | 5         |
| 36 | Exploring the clinically orientated roles of the general practice receptionist: a systematic review protocol. <i>Systematic Reviews</i> , 2017, 6, 209.  | 5.3 | 3         |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Clinical reminder alert fatigue in healthcare: a systematic literature review protocol using qualitative evidence. <i>Systematic Reviews</i> , 2017, 6, 255.   | 5.3 | 69        |
| 38 | Factors influencing improved attendance in the UK fire service. <i>Occupational Medicine</i> , 2016, 66, 731-736.  | 1.4 | 7         |
| 39 | A Preliminary Assessment of the Role of Ambient Nitric Oxide Exposure in Hospitalization with Respiratory Syncytial Virus Bronchiolitis. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 578.                               | 2.6 | 4         |
| 40 | Patients' perceptions and experiences of the prevention of hospital-acquired thrombosis: a qualitative study. <i>BMJ Open</i> , 2016, 6, e013839.  | 1.9 | 18        |
| 41 | Prevention of hospital-acquired thrombosis from a primary care perspective: a qualitative study. <i>British Journal of General Practice</i> , 2016, 66, e593-e602.   | 1.4 | 3         |
| 42 | Protocol for using mixed methods and process improvement methodologies to explore primary care receptionist work. <i>BMJ Open</i> , 2016, 6, e013240.  | 1.9 | 4         |
| 43 | Patient perspectives on test result communication in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2015, 65, e133-e140.  | 1.4 | 31        |
| 44 | Routine failures in the process for blood testing and the communication of results to patients in primary care in the UK: a qualitative exploration of patient and provider perspectives. <i>BMJ Quality and Safety</i> , 2015, 24, 681-690.                     | 3.7 | 45        |
| 45 | Test result communication in primary care: a survey of current practice. <i>BMJ Quality and Safety</i> , 2015, 24, 691-699.  | 3.7 | 31        |
| 46 | Test result communication in primary care: clinical and office staff perspectives. <i>Family Practice</i> , 2014, 31, 592-597.   | 1.9 | 33        |
| 47 | National Register of Radiofrequency Workers: Exploring health effects of occupational radiofrequency radiation exposure. <i>Journal of Environmental and Occupational Science</i> , 2014, 3, 190.  | 0.2 | 1         |
| 48 | Birmingham and Lambeth Liver Evaluation Testing Strategies (BALLETS): a prospective cohort study. <i>Health Technology Assessment</i> , 2013, 17, i-xiv, 1-307.  | 2.8 | 58        |
| 49 | The Role of Air Pollution as a Determinant of Sudden Infant Death Syndrome: A Systematic Review and Meta-analysis. <i>Epidemiology</i> , 2011, 22, S165-S166.  | 2.7 | 1         |
| 50 | Health effects of air pollution. , 2010, , 141-152.  |     | 0         |
| 51 | Clinical and economic assessment of different general population strategies of pertussis vaccine booster regarding number of doses and age of application for reducing whooping cough disease burden: A systematic review. <i>Vaccine</i> , 2008, 26, 6768-6776. | 3.8 | 18        |
| 52 | Assessment of occupational exposure to radiofrequency fields and radiation. <i>Radiation Protection Dosimetry</i> , 2004, 111, 191-203.  | 0.8 | 16        |
