|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Chemoprophylaxis, diagnosis, treatments, and discharge management of COVID-19: An evidence-based clinical practice guideline (updated version). <i>Military Medical Research</i> , 2020, 7, 41.                                                                               | 3.4 | 56        |
| 2  | Reinfection in patients with COVID-19: a systematic review. <i>Global Health Research and Policy</i> , 2022, 7, 12.                                                                                                                                                           | 3.6 | 53        |
| 3  | Virtual Care in Patients with Cancer: A Systematic Review. <i>Current Oncology</i> , 2021, 28, 3488-3506.                                                                                                                                                                     | 2.2 | 26        |
| 4  | Clinical research methods for treatment, diagnosis, prognosis, etiology, screening, and prevention: A narrative review. <i>Journal of Evidence-Based Medicine</i> , 2020, 13, 130-136.                                                                                        | 1.8 | 25        |
| 5  | A Comparison of AGREE and RIGHT: which Clinical Practice Guideline Reporting Checklist Should Be Followed by Guideline Developers?. <i>Journal of General Internal Medicine</i> , 2020, 35, 894-898.                                                                          | 2.6 | 24        |
| 6  | A systematic review and meta-analysis of discharged COVID-19 patients retesting positive for RT-PCR. <i>EClinicalMedicine</i> , 2021, 34, 100839.                                                                                                                             | 7.1 | 17        |
| 7  | Molecular analyses in the diagnosis and prediction of prognosis in non-GIST soft tissue sarcomas: A systematic review and meta-analysis. <i>Cancer Treatment Reviews</i> , 2018, 66, 74-81.                                                                                   | 7.7 | 9         |
| 8  | How to conduct a high-quality original study on a diagnostic research topic. <i>Surgical Oncology</i> , 2017, 26, 305-309.                                                                                                                                                    | 1.6 | 8         |
| 9  | An evidence-based guideline on the application of molecular testing in the diagnosis, prediction of prognosis, and selection of therapy in non-GIST soft tissue sarcomas. <i>Cancer Treatment Reviews</i> , 2020, 85, 101987.                                                 | 7.7 | 7         |
| 10 | Methodological approaches for developing, reporting, and assessing evidence-based clinical practice guidelines: a systematic survey. <i>Journal of Clinical Epidemiology</i> , 2022, 146, 77-85.                                                                              | 5.0 | 7         |
| 11 | Neoadjuvant and adjuvant systemic therapy for newly diagnosed stage II-IV epithelial ovary, fallopian tube, or primary peritoneal carcinoma: A systematic review. <i>Critical Reviews in Oncology/Hematology</i> , 2021, 162, 103324.                                         | 4.4 | 6         |
| 12 | How to conduct a high-quality systematic review on diagnostic research topics. <i>Surgical Oncology</i> , 2018, 27, 70-75.                                                                                                                                                    | 1.6 | 5         |
| 13 | The Role of Denosumab for Surgical Outcomes in Patients with Giant Cell Tumour of Bone: A Systematic Review. <i>Current Oncology</i> , 2021, 28, 1302-1313.                                                                                                                   | 2.2 | 5         |
| 14 | How to conduct a high-quality original study on a prognostic research topic. <i>Surgical Oncology</i> , 2018, 27, A9-A13.                                                                                                                                                     | 1.6 | 4         |
| 15 | More Thoughts than Answers: What Distinguishes Evidence-Based Clinical Practice Guidelines from Non-evidence-Based Clinical Practice Guidelines?. <i>Journal of General Internal Medicine</i> , 2021, 36, 207-208.                                                            | 2.6 | 4         |
| 16 | An Ontario Health (Cancer Care Ontario) Clinical Practice Guideline: Consolidation or Maintenance Systemic Therapy for Newly Diagnosed Stage II, III, or IV Epithelial Ovary, Fallopian Tube, or Primary Peritoneal Carcinoma. <i>Current Oncology</i> , 2021, 28, 1114-1124. | 2.2 | 4         |
| 17 | Consolidation or maintenance systemic therapy for newly diagnosed stage II, III, or IV epithelial ovary, fallopian tube, or primary peritoneal carcinoma: A systematic review. <i>Critical Reviews in Oncology/Hematology</i> , 2021, 162, 103336.                            | 4.4 | 3         |
| 18 | Neoadjuvant and Adjuvant Systemic Therapy for Newly Diagnosed Stage II-IV Epithelial Ovary, Fallopian Tube, or Primary Peritoneal Carcinoma: A Practice Guideline. <i>Current Oncology</i> , 2022, 29, 231-242.                                                               | 2.2 | 3         |
