| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 1  | Maternal infection and stillbirth: a review. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2022, 35, 4442-4450.  | 1.5 | 4         |
| 2  | Preeclampsia at delivery is associated with lower serum vitamin D and higher antiangiogenic factors: a case control study. <i>Reproductive Biology and Endocrinology</i> , 2022, 20, 8.   | 3.3 | 1         |
| 3  | Birth length is the strongest predictor of linear growth status and stunting in the first 2 years of life after a preconception maternal nutrition intervention: the children of the Women First trial. <i>American Journal of Clinical Nutrition</i> , 2022, 116, 86-96. | 4.7 | 11        |
| 4  | Placental vascular malperfusion lesions are associated with hypertension, growth restriction, and antepartum hemorrhage and ultimately with fetal and preterm neonatal death. <i>American Journal of Obstetrics and Gynecology</i> , 2022, 227, 363-364.                  | 1.3 | 1         |
| 5  | Predictors of <i>Plasmodium falciparum</i> Infection in the First Trimester Among Nulliparous Women From Kenya, Zambia, and the Democratic Republic of the Congo. <i>Journal of Infectious Diseases</i> , 2022, 225, 2002-2010.   | 4.0 | 3         |
| 6  | Birth asphyxia is under-rated as a cause of preterm neonatal mortality in low- and middle-income countries: A prospective, observational study from PURPOSE. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2022, 129, 1993-2000.                  | 2.3 | 5         |
| 7  | Growth from Birth Through Six Months for Infants of Mothers in the "Women First" Preconception Maternal Nutrition Trial. <i>Journal of Pediatrics</i> , 2021, 229, 199-206.e4.  | 1.8 | 13        |
| 8  | Factors Associated With Parental Acceptance of Minimally Invasive Tissue Sampling to Identify the Causes of Stillbirth and Neonatal Death. <i>Clinical Infectious Diseases</i> , 2021, 73, S422-S429.   | 5.8 | 5         |
| 9  | Have Coronavirus Disease 2019 (COVID-19) Community Lockdowns Reduced Preterm Birth Rates?. <i>Obstetrics and Gynecology</i> , 2021, 137, 399-402.   | 2.4 | 28        |
| 10 | Gestational weight gain in 4 low- and middle-income countries and associations with birth outcomes: a secondary analysis of the Women First Trial. <i>American Journal of Clinical Nutrition</i> , 2021, 114, 804-812.  | 4.7 | 12        |
| 11 | Perceptions of women, their husbands and healthcare providers about anemia in rural Pakistan: Findings from a qualitative exploratory study. <i>PLoS ONE</i> , 2021, 16, e0249360.  | 2.5 | 2         |
| 12 | Maternal and fetal vascular lesions of malperfusion in the placentas associated with fetal and neonatal death: results of a prospective observational study. <i>American Journal of Obstetrics and Gynecology</i> , 2021, 225, 660.e1-660.e12.                            | 1.3 | 25        |
| 13 | Heat Stress-Associated Growth Retardation in the First 1000 Days Is Mitigated by Preconception Nutritional Supplementation. <i>Current Developments in Nutrition</i> , 2021, 5, 88.   | 0.3 | 0         |
| 14 | Preventable stillbirths in India and Pakistan: a prospective, observational study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2021, 128, 1762-1773.  | 2.3 | 12        |
| 15 | Maternal serum fructosamine levels and stillbirth: A case-control study of The Stillbirth Collaborative Research Network. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2021, , .   | 2.3 | 2         |
| 16 | Weekly 17 alpha-hydroxyprogesterone caproate to prevent preterm birth among women living with HIV: a randomised, double-blind, placebo-controlled trial. <i>Lancet HIV</i> , 2021, 8, e605-e613.  | 4.7 | 21        |
| 17 | Lung Findings in Minimally Invasive Tissue Sampling (MITS) Examinations of Fetal and Preterm Neonatal Deaths: A Report From the PURPOSE Study. <i>Clinical Infectious Diseases</i> , 2021, 73, S430-S434.   | 5.8 | 5         |
| 18 | Cytokine profiling: variation in immune modulation with preterm birth vs. uncomplicated term birth identifies pivotal signals in pathogenesis of preterm birth. <i>Journal of Perinatal Medicine</i> , 2021, 49, 299-309.   | 1.4 | 12        |

| #  | ARTICLE  | IF   | CITATIONS |
|----|--|------|-----------|
| 19 | Preconceptional Lipid-Based Nutrient Supplementation in 2 Low-Resource Countries Results in Distinctly Different IGF-1/mTOR Placental Responses. <i>Journal of Nutrition</i> , 2021, 151, 556-569.   | 2.9  | 9         |
| 20 | Use of Smokeless Tobacco Before Conception and Its Relationship With Maternal and Fetal Outcomes of Pregnancy in Thatta, Pakistan: Findings From Women First Study. <i>Nicotine and Tobacco Research</i> , 2021, 23, 1291-1299.              | 2.6  | 3         |
| 21 | A mobile cesarean birth center as a solution to improve access to surgical birth in rural Ethiopia: a mixed methods research protocol. <i>Pilot and Feasibility Studies</i> , 2021, 7, 218.  | 1.2  | 0         |
| 22 | Incidence and associated factors of extrauterine growth restriction (EUGR) in preterm infants, a cross-sectional study in selected NICUs in Ethiopia. <i>BMJ Paediatrics Open</i> , 2020, 4, e000765.  | 1.4  | 8         |
| 23 | Prevalence and determinants of anemia among women of reproductive age in Thatta Pakistan: Findings from a cross-sectional study. <i>PLoS ONE</i> , 2020, 15, e0239320.   | 2.5  | 15        |
| 24 | Hemoglobin concentrations and adverse birth outcomes in South Asian pregnant women: findings from a prospective Maternal and Neonatal Health Registry. <i>Reproductive Health</i> , 2020, 17, 154.   | 3.1  | 23        |
| 25 | Risk factors associated with adverse maternal outcomes following intrapartum cesarean birth: a secondary analysis of the WHO global survey on maternal and perinatal health, 2004–2008. <i>BMC Pregnancy and Childbirth</i> , 2020, 20, 687. | 2.4  | 2         |
| 26 | Causal Genetic Variants in Stillbirth. <i>New England Journal of Medicine</i> , 2020, 383, 1107-1116.  | 27.0 | 67        |
| 27 | Comparison of neonatal outcomes of small for gestational age and appropriate for gestational age preterm infants born at 28–36 weeks of gestation: a multicentre study in Ethiopia. <i>BMJ Paediatrics Open</i> , 2020, 4, e000740.          | 1.4  | 7         |
| 28 | Prevalence of clinically-evident congenital anomalies in the Western highlands of Guatemala. <i>Reproductive Health</i> , 2020, 17, 153.   | 3.1  | 5         |
| 29 | Neonatal deaths in rural Karnataka, India 2014–2018: a prospective population-based observational study in a low-resource setting. <i>Reproductive Health</i> , 2020, 17, 161.   | 3.1  | 9         |
| 30 | The Global Network Maternal Newborn Health Registry: a multi-country, community-based registry of pregnancy outcomes. <i>Reproductive Health</i> , 2020, 17, 184.  | 3.1  | 26        |
| 31 | Reports from the NICHD Global Network’s Maternal and Newborn Health Registry: supplement introduction. <i>Reproductive Health</i> , 2020, 17, 177.   | 3.1  | 2         |
| 32 | Stillbirth 2010–2018: a prospective, population-based, multi-country study from the Global Network. <i>Reproductive Health</i> , 2020, 17, 146.  | 3.1  | 13        |
| 33 | Exploring women and traditional birth attendants’ perceptions and experiences of stillbirths in district Thatta, Sindh, Pakistan: a qualitative study. <i>Reproductive Health</i> , 2020, 17, 3.   | 3.1  | 15        |
| 34 | Preconception nutrition intervention improved birth length and reduced stunting and wasting in newborns in South Asia: The Women First Randomized Controlled Trial. <i>PLoS ONE</i> , 2020, 15, e0218960.                                    | 2.5  | 16        |
| 35 | Oligohydramnios: a prospective study of fetal, neonatal and maternal outcomes in low-middle income countries. <i>Reproductive Health</i> , 2020, 17, 19.   | 3.1  | 22        |
| 36 | Development of the Global Network for Women’s and Children’s Health Research’s socioeconomic status index for use in the network’s sites in low and lower middle-income countries. <i>Reproductive Health</i> , 2020, 17, 193.               | 3.1  | 9         |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Associations Between the Features of Gross Placental Morphology and Birthweight. <i>Pediatric and Developmental Pathology</i> , 2019, 22, 194-204.   | 1.0 | 14        |
| 38 | Major causes of death in preterm infants in selected hospitals in Ethiopia (SIP): a prospective, cross-sectional, observational study. <i>The Lancet Global Health</i> , 2019, 7, e1130-e1138.   | 6.3 | 113       |
| 39 | Challenges of Implementing an Individual Randomized Controlled Trial (Women First: Preconception) <i>Tj ETQq1 1 0.784314 rgBT /Ove</i><br><i>Insights</i> , 2019, 12, 117863881985205.   | 1.9 | 1         |
| 40 | The association of stillbirth with placental abnormalities in growth-restricted and normally grown fetuses. <i>Paediatric and Perinatal Epidemiology</i> , 2019, 33, 274-383.  | 1.7 | 9         |
| 41 | Mode of delivery among nulliparous women with single, cephalic, term pregnancies: The WHO global survey on maternal and perinatal health, 2004-2008. <i>International Journal of Gynecology and Obstetrics</i> , 2019, 147, 165-172.   | 2.3 | 6         |
| 42 | Polyhydramnios among women in a cluster-randomized trial of ultrasound during prenatal care within five low and low-middle income countries: a secondary analysis of the first look study. <i>BMC Pregnancy and Childbirth</i> , 2019, 19, 258.  | 2.4 | 3         |
| 43 | Maternal Characteristics Affect Fetal Growth Response in the Women First Preconception Nutrition Trial. <i>Nutrients</i> , 2019, 11, 2534.   | 4.1 | 9         |
| 44 | Variation in C-reactive protein at 1 month post-partum by etiology of preterm birth: selective identification of those at risk for both poor pregnancy outcome and future health complications. <i>Journal of Perinatal Medicine</i> , 2019, 47, 804-810.                                    | 1.4 | 1         |
| 45 | Interpregnancy interval and risk of stillbirth: a population-based case control study. <i>Annals of Epidemiology</i> , 2019, 35, 35-41.  | 1.9 | 16        |
| 46 | Perceptions of parents and religious leaders regarding minimal invasive tissue sampling to identify the cause of death in stillbirths and neonates: results from a qualitative study. <i>Reproductive Health</i> , 2019, 16, 53.   | 3.1 | 22        |
| 47 | Challenges in classification and assignment of causes of stillbirths in low- and lower middle-income countries. <i>Seminars in Perinatology</i> , 2019, 43, 308-314.   | 2.5 | 17        |
| 48 | Making cesarean delivery SAFE in low- and middle-income countries. <i>Seminars in Perinatology</i> , 2019, 43, 260-266.  | 2.5 | 3         |
| 49 | Understanding causes of stillbirth: moving in the right direction. <i>The Lancet Global Health</i> , 2019, 7, e400-e401.   | 6.3 | 5         |
| 50 | Including ultrasound scans in antenatal care in low-resource settings: Considering the complementarity of obstetric ultrasound screening and maternity waiting homes in strengthening referral systems in low-resource, rural settings. <i>Seminars in Perinatology</i> , 2019, 43, 273-281. | 2.5 | 7         |
| 51 | Use of ultrasound and mHealth to improve perinatal outcomes in low and middle income countries. <i>Seminars in Perinatology</i> , 2019, 43, 267-272.   | 2.5 | 5         |
| 52 | Intramuscular 17-hydroxyprogesterone caproate to prevent preterm birth among HIV-infected women in Zambia: study protocol of the IPOP randomized trial. <i>BMC Pregnancy and Childbirth</i> , 2019, 19, 81.  | 2.4 | 10        |
| 53 | Traditional birth attendants and birth outcomes in low-middle income countries: A review. <i>Seminars in Perinatology</i> , 2019, 43, 247-251.   | 2.5 | 19        |
| 54 | Associations Between Features of Placental Morphology and Birth Weight in Dichorionic Twins. <i>American Journal of Epidemiology</i> , 2019, 188, 518-526.   | 3.4 | 9         |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 55 | Evaluating WHO-Recommended Interventions for Preterm Birth: A Mathematical Model of the Potential Reduction of Preterm Mortality in Sub-Saharan Africa. <i>Global Health, Science and Practice</i> , 2019, 7, 215-227.                                    | 1.7 | 21        |
| 56 | It Takes a System: Magnesium Sulfate for Prevention of Eclampsia in a Resource-Limited Community Setting. <i>Global Health, Science and Practice</i> , 2019, 7, 340-343.  | 1.7 | 5         |
| 57 | Perceptions of health professionals regarding minimally invasive tissue sampling (MITS) to identify the cause of death in stillbirths and neonates: results from a qualitative study. <i>Maternal Health, Neonatology and Perinatology</i> , 2019, 5, 17. | 2.2 | 12        |
| 58 | Criteria for assigning cause of death for stillbirths and neonatal deaths in research studies in low-middle income countries. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2019, 32, 1915-1923.   | 1.5 | 24        |
| 59 | Use of antibiotics to reduce preterm birth. <i>The Lancet Global Health</i> , 2019, 7, e18-e19.   | 6.3 | 4         |
| 60 | Malpresentation in low- and middle-income countries: Associations with perinatal and maternal outcomes in the Global Network. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2019, 98, 300-308.  | 2.8 | 13        |
| 61 | A Prospective, Population-Based Study of Trends in Operative Vaginal Delivery Compared to Cesarean Delivery Rates in Low- and Middle-Income Countries, 2010-2016. <i>American Journal of Perinatology</i> , 2019, 36, 730-736.                            | 1.4 | 18        |
| 62 | Intravenous fluid contaminated with <i>Klebsiella oxytoca</i> as a source of sepsis in a preterm newborn: Case report. <i>American Journal of Infection Control</i> , 2019, 47, 840-842.  | 2.3 | 5         |
| 63 | Stillbirth, Inflammatory Markers, and Obesity: Results from the Stillbirth Collaborative Research Network. <i>American Journal of Perinatology</i> , 2018, 35, 1071-1078.   | 1.4 | 14        |
| 64 | Antenatal corticosteroids: an assessment of anticipated benefits and potential risks. <i>American Journal of Obstetrics and Gynecology</i> , 2018, 219, 62-74.  | 1.3 | 113       |
| 65 | Potentially Preventable Stillbirth in a Diverse U.S. Cohort. <i>Obstetrics and Gynecology</i> , 2018, 131, 336-343.   | 2.4 | 34        |
| 66 | Factors influencing referrals for ultrasound-diagnosed complications during prenatal care in five low and middle income countries. <i>Reproductive Health</i> , 2018, 15, 204.  | 3.1 | 13        |
| 67 | Perceptions of parents and healthcare professionals regarding minimal invasive tissue sampling to identify the cause of death in stillbirths and neonates: a qualitative study protocol. <i>Reproductive Health</i> , 2018, 15, 179.                      | 3.1 | 5         |
| 68 | Comparison of diameter-based and image-based measures of surface area from gross placental pathology for use in epidemiologic studies. <i>Placenta</i> , 2018, 69, 82-85.   | 1.5 | 1         |
| 69 | Improving pregnancy outcomes in low- and middle-income countries. <i>Reproductive Health</i> , 2018, 15, 88.  | 3.1 | 58        |
| 70 | Association of participation in a supplemental nutrition program with stillbirth by race, ethnicity, and maternal characteristics. <i>BMC Pregnancy and Childbirth</i> , 2018, 18, 306.   | 2.4 | 8         |
| 71 | Translating research evidence into practice: a report from the 2nd International Conference on Maternal and Newborn Health from KLE University - Belagavi, India. <i>Reproductive Health</i> , 2018, 15, 99.  | 3.1 | 2         |
| 72 | Trends and determinants of stillbirth in developing countries: results from the Global Network's Population-Based Birth Registry. <i>Reproductive Health</i> , 2018, 15, 100.   | 3.1 | 64        |

| #  | ARTICLE  | IF   | CITATIONS |
|----|--|------|-----------|
| 73 | An approach to identify a minimum and rational proportion of caesarean sections in resource-poor settings: a global network study. <i>The Lancet Global Health</i> , 2018, 6, e894-e901.   | 6.3  | 38        |
| 74 | Association of Temporal Changes in Gestational Age With Perinatal Mortality in the United States, 2007-2015. <i>JAMA Pediatrics</i> , 2018, 172, 627.  | 6.2  | 30        |
| 75 | Association Between Temporal Changes in Neonatal Mortality and Spontaneous and Clinician-Initiated Deliveries in the United States, 2006-2013. <i>JAMA Pediatrics</i> , 2018, 172, 949.  | 6.2  | 22        |
| 76 | Monitoring of birth registry coverage and data quality utilizing lot quality assurance sampling methodology: A pilot study. <i>Journal of Family Medicine and Primary Care</i> , 2018, 7, 522.                                     | 0.9  | 1         |
| 77 | A prospective study of maternal, fetal and neonatal outcomes in the setting of cesarean section in low- and middle-income countries. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2017, 96, 410-420.                      | 2.8  | 50        |
| 78 | The Global Network Neonatal Cause of Death algorithm for low-resource settings. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 904-911.  | 1.5  | 18        |
| 79 | Maternal near miss in low-resource areas. <i>International Journal of Gynecology and Obstetrics</i> , 2017, 138, 347-355.  | 2.3  | 29        |
| 80 | Evaluation of Focused Obstetric Ultrasound Examinations by Health Care Personnel in the Democratic Republic of Congo, Guatemala, Kenya, Pakistan, and Zambia. <i>Current Problems in Diagnostic Radiology</i> , 2017, 46, 210-215. | 1.4  | 31        |
| 81 | Interventions to reduce neonatal mortality: a mathematical model to evaluate impact of interventions in sub-Saharan Africa. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 1286-1295.                  | 1.5  | 15        |
| 82 | Associations between Maternal and Fetal Inherited Thrombophilias, Placental Characteristics Associated with Vascular Malperfusion, and Fetal Growth. <i>TH Open</i> , 2017, 01, e43-e55.   | 1.4  | 6         |
| 83 | Dengue and stillbirth. <i>Lancet Infectious Diseases</i> , The, 2017, 17, 886-888.   | 9.1  | 4         |
| 84 | Challenges of Implementing Antenatal Ultrasound Screening in a Rural Study Site: A Case Study From the Democratic Republic of the Congo. <i>Global Health, Science and Practice</i> , 2017, 5, 315-324.                            | 1.7  | 17        |
| 85 | Fetal death certificate data quality: a tale of two U.S. counties. <i>Annals of Epidemiology</i> , 2017, 27, 466-471.e2.   | 1.9  | 10        |
| 86 | Maternal exposure to childhood maltreatment and risk of stillbirth. <i>Annals of Epidemiology</i> , 2017, 27, 459-465.e2.  | 1.9  | 15        |
| 87 | Improving Birth Outcomes in Low- and Middle-Income Countries. <i>New England Journal of Medicine</i> , 2017, 377, 2387-2388.   | 27.0 | 12        |
| 88 | Fetal growth restriction: Case definition & guidelines for data collection, analysis, and presentation of immunization safety data. <i>Vaccine</i> , 2017, 35, 6546-6554.  | 3.8  | 24        |
| 89 | Maternal marijuana use, adverse pregnancy outcomes, and neonatal morbidity. <i>American Journal of Obstetrics and Gynecology</i> , 2017, 217, 478.e1-478.e8.   | 1.3  | 106       |
| 90 | Immediate postpartum use of long-acting reversible contraceptives in low- and middle-income countries. <i>Maternal Health, Neonatology and Perinatology</i> , 2017, 3, 24.   | 2.2  | 20        |
