#	ARTICLE	IF	CITATIONS
1	Racial/Ethnic Differences in Prosocial Beliefs and Prevention Behavior During the COVID-19 Pandemic. <i>Journal of Racial and Ethnic Health Disparities</i> , 2022, 9, 1807-1817.	3.2	7
2	Dismissing "Don't Know" Responses to Perceived Risk Survey Items Threatens the Validity of Theoretical and Empirical Behavior-Change Research. <i>Perspectives on Psychological Science</i> , 2022, 17, 841-851.	9.0	8
3	Psychometric evaluation of two indices assessing stigma toward opioid misuse and treatment among health care providers. <i>American Journal of Drug and Alcohol Abuse</i> , 2022, , 1-7.	2.1	0
4	Prevention is political: political party affiliation predicts perceived risk and prevention behaviors for COVID-19. <i>BMC Public Health</i> , 2022, 22, 298.	2.9	31
5	The Impact of Maternal Worry on Infant Care Practices. <i>Academic Pediatrics</i> , 2022, 22, 935-941.	2.0	0
6	Agency beliefs are associated with lower health information avoidance. <i>Health Education Journal</i> , 2021, 80, 272-286.	1.2	10
7	Limitations in American adults' awareness of and beliefs about alcohol as a risk factor for cancer. <i>Preventive Medicine Reports</i> , 2021, 23, 101433.	1.8	9
8	Causes and consequences of uncertainty about illness risk perceptions. <i>Journal of Health Psychology</i> , 2020, 25, 1030-1042.	2.3	17
9	Affective components of perceived risk mediate the relation between cognitively-based perceived risk and colonoscopy screening. <i>Journal of Behavioral Medicine</i> , 2020, 43, 121-130.	2.1	12
10	Affective determinants of physical activity in cancer survivors. <i>Psychology and Health</i> , 2020, 35, 593-612.	2.2	4
11	Cultural worldviews and perceived risk of colon cancer and diabetes. <i>Health, Risk and Society</i> , 2020, 22, 324-345.	1.7	7
12	Examining strategies for addressing high levels of "I don't know" responding to risk perception questions for colorectal cancer and diabetes: an experimental investigation. <i>Psychology and Health</i> , 2020, 36, 1-17.	2.2	2
13	The influence of affect on HPV vaccine decision making in an HPV vaccine naïve college student population. <i>Preventive Medicine Reports</i> , 2020, 20, 101195.	1.8	9
14	Using a group development framework to maximize leadership strategies in the inaugural session of the Society of Behavioral Medicine Leadership Institute. <i>Translational Behavioral Medicine</i> , 2020, 10, 877-883.	2.4	1
15	Is it disgusting or am I just easily disgusted? The relation between situational disgust, dispositional disgust, and colonoscopy intentions. <i>European Journal of Cancer Care</i> , 2020, 29, e13244.	1.5	3
16	"Don't know" responding and estimates of perceived risk: failing to provide a "don't know" response systematically biases laypeople's perceived risk estimates. <i>Health, Risk and Society</i> , 2020, 22, 69-85.	1.7	12
17	#BlackBreastsMatter: Process Evaluation of Recruitment and Engagement of Pregnant African American Women for a Social Media Intervention Study to Increase Breastfeeding. <i>Journal of Medical Internet Research</i> , 2020, 22, e16239.	4.3	7
18	Integrative Approaches to the Undergraduate Public Health Major Curriculum: Strengths, Challenges, and Examples. <i>Frontiers in Public Health</i> , 2019, 7, 106.	2.7	7

#	ARTICLE	IF	CITATIONS
19	Lay beliefs about risk: relation to risk behaviors and to probabilistic risk perceptions. <i>Journal of Behavioral Medicine</i> , 2019, 42, 1062-1072.	2.1	7
20	Using NCI-Designated Cancer Center Catchment-Area Data to Understand an Ignored but High-Need Constituent: People Uncertain or Avoidant about Their Cancer Risk. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2019, 28, 1955-1957.	2.5	2
21	Differences in Rural and Urban Health Information Access and Use. <i>Journal of Rural Health</i> , 2019, 35, 405-417.	2.9	187
22	Predicting Colonoscopy Screening Behavior and Future Screening Intentions for African Americans Older than 50 Years. <i>Behavioral Medicine</i> , 2019, 45, 221-230.	1.9	8
23	Engaging the Practitioner: "But Wait, That's Not All!" Collaborations with Practitioners and Extending the Reasons You Started Doing Research in the First Place. , 2019, , 149-158.		3
24	Education-based disparities in knowledge of novel health risks: The case of knowledge gaps in HIV risk perceptions. <i>British Journal of Health Psychology</i> , 2018, 23, 420-435.	3.5	29
25	Designing a randomized controlled trial to evaluate a community-based narrative intervention for improving colorectal cancer screening for African Americans. <i>Contemporary Clinical Trials</i> , 2018, 65, 8-18.	1.8	10
26	Structure and content of affective associations with health behaviours: Is the behaviour "good OR bad" or "good AND bad". <i>Psychology and Health</i> , 2018, 33, 159-175.	2.2	10
27	Mediation, moderation, and context: Understanding complex relations among cognition, affect, and health behaviour. <i>Psychology and Health</i> , 2018, 33, 98-116.	2.2	39
28	The interplay between feelings and beliefs about condoms as predictors of their use. <i>Psychology and Health</i> , 2018, 33, 176-192.	2.2	8
29	Low Health Literacy and Health Information Avoidance but Not Satisficing Help Explain "Don't Know" Responses to Questions Assessing Perceived Risk. <i>Medical Decision Making</i> , 2018, 38, 1006-1017.	2.4	26
30	Health Literacy and Use and Trust in Health Information. <i>Journal of Health Communication</i> , 2018, 23, 724-734.	2.4	229
31	Decision-making and socioeconomic disparities in colonoscopy screening in African Americans.. <i>Health Psychology</i> , 2018, 37, 481-490.	1.6	9
32	Where people look for online health information. <i>Health Information and Libraries Journal</i> , 2017, 34, 146-155.	2.5	56
33	Military veteran cancer survivors' preferences for a program to address lifestyle change and psychosocial wellness following treatment. <i>Journal of Psychosocial Oncology</i> , 2017, 35, 111-127.	1.2	1
34	"I don't know" My Cancer Risk: Implications for Health Behavior Engagement. <i>Annals of Behavioral Medicine</i> , 2016, 50, 784-788.	2.9	35
35	Perceived controllability of condom use shifts reliance on implicit versus explicit affect.. <i>Health Psychology</i> , 2016, 35, 842-846.	1.6	11
36	Research Methods for Health Decision Making. , 2016, , 53-68.		0

#	ARTICLE	IF	CITATIONS
37	Relations between negative affect and health behaviors by race/ethnicity: Differential effects for symptoms of depression and anxiety.. Health Psychology, 2015, 34, 966-969.	1.6	31
38	Increasing condom use by changing people's feelings about them: An experimental study.. Health Psychology, 2015, 34, 941-950.	1.6	70
39	Prostate cancer survivors' beliefs about screening and treatment decision-making experiences in an era of controversy. Psycho-Oncology, 2015, 24, 1073-1079.	2.3	18
40	Deficiencies in public understanding about tobacco harm reduction: results from a United States national survey. Harm Reduction Journal, 2015, 12, 21.	3.2	50
41	Planning versus action: Different decision-making processes predict plans to change one's diet versus actual dietary behavior. Journal of Health Psychology, 2015, 20, 556-568.	2.3	8
42	Perceived cancer risk and risk attributions among African-American residents of a low-income, predominantly African-American neighborhood. Ethnicity and Health, 2015, 20, 543-556.	2.5	16
43	Don't Know My Cancer Risk. Medical Decision Making, 2015, 35, 436-445.	2.4	44
44	Avoiding cancer risk information. Social Science and Medicine, 2015, 147, 113-120.	3.8	101
45	The Case for Consequences for Academic Dishonesty. College Teaching, 2015, 63, 37-39.	0.6	1
46	Affective associations and cognitive beliefs relate to individuals' decisions to perform testicular or breast self-exams. Journal of Behavioral Medicine, 2015, 38, 664-672.	2.1	15
47	Perceptions of Barriers and Facilitators to Health Behavior Change Among Veteran Cancer Survivors. Military Medicine, 2014, 179, 998-1005.	0.8	19
48	Implicit affective associations predict snack choice for those with low, but not high levels of eating disorder symptomatology. Appetite, 2014, 77, 124-132.	3.7	12
49	Changing how I feel about the food: experimentally manipulated affective associations with fruits change fruit choice behaviors. Journal of Behavioral Medicine, 2014, 37, 322-331.	2.1	71
50	Disgusted, Embarrassed, Annoyed: Affective Associations Relate to Uptake of Colonoscopy Screening. Annals of Behavioral Medicine, 2014, 48, 112-119.	2.9	44
51	Worry about skin cancer mediates the relation of perceived cancer risk and sunscreen use. Journal of Behavioral Medicine, 2014, 37, 1069-1074.	2.1	36
52	Effects of a blended learning approach on student outcomes in a graduate-level public health course. BMC Medical Education, 2014, 14, 47.	2.4	80
53	Pilot Intervention Outcomes of an Educational Program for Biospecimen Research Participation. Journal of Cancer Education, 2013, 28, 52-59.	1.3	35
54	Perceived risk for breast cancer and its relationship to mammography in Blacks, Hispanics, and Whites. Journal of Behavioral Medicine, 2013, 36, 466-476.	2.1	47

#	ARTICLE	IF	CITATIONS
55	Don't Know Responses to Risk Perception Measures. <i>Medical Decision Making</i> , 2013, 33, 271-281.	2.4	69
56	Living My Family's Story. <i>Cancer Nursing</i> , 2012, 35, 493-504.	1.5	24
57	The Association of Perceived Provider Patient Communication and Relationship Quality With Colorectal Cancer Screening. <i>Health Education and Behavior</i> , 2012, 39, 555-563.	2.5	59
58	Awareness of the 2009 US Preventive Services Task Force recommended changes in mammography screening guidelines, accuracy of awareness, sources of knowledge about recommendations, and attitudes about updated screening guidelines in women ages 40-49 and 50+. <i>BMC Public Health</i> , 2012, 12, 899.	2.9	46
59	Influence of Demographic Factors, Knowledge, and Beliefs on Jordanian Women's Intention to Undergo Mammography Screening. <i>Journal of Nursing Scholarship</i> , 2012, 44, 19-26.	2.4	23
60	Race/ethnicity, psychological distress, and fruit/vegetable consumption. The nature of the distress-behavior relation differs by race/ethnicity. <i>Appetite</i> , 2011, 56, 737-740.	3.7	21
61	Psychological Distress and Smoking Behavior: The Nature of the Relation Differs by Race/Ethnicity. <i>Nicotine and Tobacco Research</i> , 2011, 13, 113-119.	2.6	44
62	Perceptions of and willingness to engage in public health precautions to prevent 2009 H1N1 influenza transmission. <i>BMC Public Health</i> , 2011, 11, 152.	2.9	31
63	Individual-level factors in colorectal cancer screening: a review of the literature on the relation of individual-level health behavior constructs and screening behavior. <i>Psycho-Oncology</i> , 2011, 20, 1023-1033.	2.3	101
64	Exploring the link between racial discrimination and substance use: What mediates? What buffers?. <i>Journal of Personality and Social Psychology</i> , 2010, 99, 785-801.	2.8	206
65	Easier Said Than Done: Behavioral Conflicts in following Social-Distancing Recommendations for Influenza Prevention. <i>Public Health Reports</i> , 2010, 125, 789-792.	2.5	7
66	Perceived Cancer Risk: Why Is It Lower Among Nonwhites than Whites?. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2010, 19, 746-754.	2.5	79
67	The Effect of Online Chapter Quizzes on Exam Performance in an Undergraduate Social Psychology Course. <i>Teaching of Psychology</i> , 2009, 36, 33-37.	1.2	87
68	Decision Making about Cancer Screening: An Assessment of the State of the Science and a Suggested Research Agenda from the ASPO Behavioral Oncology and Cancer Communication Special Interest Group. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2009, 18, 3133-3137.	2.5	15
69	Food exemplar salience. What foods do people think of when you tell them to change their diet?. <i>Appetite</i> , 2009, 52, 753-756.	3.7	5
70	Affective associations mediate the influence of cost-benefit beliefs on fruit and vegetable consumption. <i>Appetite</i> , 2009, 52, 771-775.	3.7	38
71	A Subtle Source of Power: The Effect of Having an Expectation on Anticipated Interpersonal Power. <i>Journal of Social Psychology</i> , 2009, 149, 82-104.	1.5	11
72	What do people think about changes in health behaviors? Differential perceptions of consequences of increases and decreases in health behaviors. <i>Psychology and Health</i> , 2008, 23, 867-885.	2.2	6

#	ARTICLE	IF	CITATIONS
73	Motivated dimension manipulation in the processing of social comparison information. <i>Self and Identity</i> , 2008, 7, 225-242.	1.6	4
74	Role of affective associations in the planning and habit systems of decision-making related to addiction. <i>Behavioral and Brain Sciences</i> , 2008, 31, 450-451.	0.7	9
75	How do i feel about the behavior? The interplay of affective associations with behaviors and cognitive beliefs as influences on physical activity behavior.. <i>Health Psychology</i> , 2007, 26, 152-158.	1.6	226
76	Selective memory biases in individualsâ€™ memory for health-related information and behavior recommendations. <i>Psychology and Health</i> , 2006, 21, 247-272.	2.2	30
77	Does How I Feel About It Matter? The Role of Affect in Cognitive and Behavioral Reactions to an Illness Diagnosis. <i>Journal of Applied Social Psychology</i> , 2006, 36, 2599-2618.	2.0	31
78	Too Many of a Good Thing? The Effects of Multiple Motivations on Stress, Cost, Fulfillment, and Satisfaction. <i>Personality and Social Psychology Bulletin</i> , 2002, 28, 732-743.	3.0	69
79	Treating People With Information: an Analysis and Review of Approaches to Communicating Health Risk Information. <i>Journal of the National Cancer Institute Monographs</i> , 1999, 1999, 44-51.	2.1	195
