#	ARTICLE	IF	CITATIONS
1	Role of nursing in telehealth. Nursing, 2022, 52, 42-46.	0.3	0
2	Performance of the American Heart Association/American College of Cardiology/Heart Rhythm Society versus European Society of Cardiology Guideline Criteria for Hospital Admission of Patients with Syncope. Heart Rhythm, 2022, , .	0.7	3
3	Telemedicine Is Mainstream Care Delivery. NEJM Catalyst, 2022, 3, .	0.7	6
4	Finding acute coronary syndrome with serial troponin testing for rapid assessment of cardiac ischemic symptoms (FAST-TRAC): a study protocol. Clinical and Experimental Emergency Medicine, 2022, 9, 140-145.	1.6	4
5	Using Sex-specific Cutoffs for High-sensitivity Cardiac Troponin T to Diagnose Acute Myocardial Infarction. Academic Emergency Medicine, 2021, 28, 463-466.	1.8	10
6	Patient Markers of Successful Diabetes Management. Diabetes Spectrum, 2021, 34, 275-282.	1.0	1
7	Patient-important outcomes to inform shared decision making and goal setting for diabetes treatment. Patient Education and Counseling, 2021, 104, 2592-2597.	2.2	3
8	Mistrust, Neighborhood Deprivation, and Telehealth Use in African Americans with Diabetes. Population Health Management, 2021, 24, 699-700.	1.7	13
9	Assessing the impact of medically tailored meals and medical nutrition therapy on type 2 diabetes: Protocol for Project MiNT. Contemporary Clinical Trials, 2021, 108, 106511.	1.8	5
10	Hospital Telehealth Adoption Increased in 2014 and 2015 and Was Influenced by Population, Hospital, and Policy Characteristics. Telemedicine Journal and E-Health, 2020, 26, 455-461.	2.8	11
11	Risk Stratification of Older Adults Who Present to the Emergency Department With Syncope: The FAINT Score. Annals of Emergency Medicine, 2020, 75, 147-158.	0.6	45
12	Accuracy of Patient Reported Stone Passage for Patients With Acute Renal Colic Treated in the Emergency Department. Urology, 2020, 136, 70-74.	1.0	7
13	Frequency of Abnormal and Critical Laboratory Results in Older Patients Presenting to the Emergency Department With Syncope. Academic Emergency Medicine, 2020, 27, 161-164.	1.8	4
14	Impact of Emergency Department Tele-intake on Left Without Being Seen and Throughput Metrics. Academic Emergency Medicine, 2020, 27, 139-147.	1.8	40
15	The Accuracy of Interqual Criteria in Determining the Observation versus Inpatient Status in Older Adults with Syncope. Journal of Emergency Medicine, 2020, 59, 193-200.	0.7	2
16	Biomarkers Enhance Discrimination and Prognosis of Type 2 Myocardial Infarction. Circulation, 2020, 142, 1532-1544.	1.6	31
17	Echocardiographic assessment of insulin-like growth factor binding protein-7 and early identification of acute heart failure. ESC Heart Failure, 2020, 7, 1664-1675.	3.1	19
18	A randomized clinical trial of a collaborative home-based diabetes intervention to reduce emergency department visits and hospitalizations in black individuals with diabetes. Contemporary Clinical Trials, 2020, 95, 106069.	1.8	4

#	ARTICLE	IF	CITATIONS
19	“I had no other choice but to catch it too” the roles of family history and experiences with diabetes in illness representations. BMC Endocrine Disorders, 2020, 20, 95.	2.2	6
20	The 99th percentile upper reference limit for the 5th generation cardiac troponin T assay in the United States. Clinica Chimica Acta, 2020, 504, 172-179.	1.1	9
21	Recurrent syncope is not an independent risk predictor for future syncopal events or adverse outcomes. American Journal of Emergency Medicine, 2019, 37, 869-872.	1.6	6
22	On-demand synchronous audio video telemedicine visits are cost effective. American Journal of Emergency Medicine, 2019, 37, 890-894.	1.6	69
23	QTc prolongation as a marker of 30-day serious outcomes in older patients with syncope presenting to the Emergency Department. American Journal of Emergency Medicine, 2019, 37, 685-689.	1.6	5
24	Copeptin to rule out myocardial infarction in Blacks versus Caucasians. European Heart Journal: Acute Cardiovascular Care, 2019, 8, 395-403.	1.0	6
25	Highly Elevated Quantitative D-Dimer Assay Values Increase the Likelihood of Venous Thromboembolism. TH Open, 2019, 03, e2-e9.	1.4	6
26	Analytical performance evaluation of the Elecsys® Troponin T Gen 5 STAT assay. Clinica Chimica Acta, 2019, 495, 522-528.	1.1	24
27	Clinical Benefit of Hospitalization for Older Adults With Unexplained Syncope: A Propensity-Matched Analysis. Annals of Emergency Medicine, 2019, 74, 260-269.	0.6	18
28	Eliciting patient-important outcomes through group brainstorming: when is saturation reached?. Journal of Patient-Reported Outcomes, 2019, 3, 9.	1.9	3
29	The power of the group: comparison of interviews and group concept mapping for identifying patient-important outcomes of care. BMC Medical Research Methodology, 2019, 19, 7.	3.1	22
30	Orthostatic vital signs do not predict 30-day serious outcomes in older emergency department patients with syncope: A multicenter observational study. American Journal of Emergency Medicine, 2019, 37, 2215-2223.	1.6	5
31	Do High-sensitivity Troponin and Natriuretic Peptide Predict Death or Serious Cardiac Outcomes After Syncope?. Academic Emergency Medicine, 2019, 26, 528-538.	1.8	15
32	Presurgical Assessment Using Telemedicine Technology: Impact on Efficiency, Effectiveness, and Patient Experience of Care. Telemedicine Journal and E-Health, 2019, 25, 137-142.	2.8	82
33	The role of atrial fibrillation in the short-term outcomes of patients with acute heart failure. Clinical Research in Cardiology, 2019, 108, 622-633.	3.3	7
34	Quality Assurance in Telehealth: Adherence to Evidence-Based Indicators. Telemedicine Journal and E-Health, 2019, 25, 599-603.	2.8	27
35	Comparison of 30-Day Serious Adverse Clinical Events for Elderly Patients Presenting to the Emergency Department With Near-Syncope Versus Syncope. Annals of Emergency Medicine, 2019, 73, 274-280.	0.6	7
36	International, multicenter evaluation of a new D-dimer assay for the exclusion of venous thromboembolism using standard and age-adjusted cut-offs. Thrombosis Research, 2018, 166, 63-70.	1.7	18

#	ARTICLE	IF	CITATIONS
37	ECG Predictors of Cardiac Arrhythmias in Older Adults With Syncope. <i>Annals of Emergency Medicine</i> , 2018, 71, 452-461.e3.	0.6	21
38	Outcomes of Patients With Syncope and Suspected Dementia. <i>Academic Emergency Medicine</i> , 2018, 25, 880-890.	1.8	3
39	For Low-Risk Patients With Suspected Acute Coronary Syndrome, Should Urgent (72-hours) Non-Invasive Cardiac Testing Be Performed After Biomarker Exclusion of Acute Myocardial Infarction. <i>Annals of Emergency Medicine</i> , 2018, 71, 464-465.	0.6	3
40	N-Terminal Pro-B-Type Natriuretic Peptide in the Emergency Department. <i>Journal of the American College of Cardiology</i> , 2018, 71, 1191-1200.	2.8	136
41	Effectiveness of a Decision Aid in Potentially Vulnerable Patients: A Secondary Analysis of the Chest Pain Choice Multicenter Randomized Trial. <i>Medical Decision Making</i> , 2018, 38, 69-78.	2.4	8
42	The BRONCH-AHF study: effects on short-term outcome of nebulized bronchodilators in emergency department patients diagnosed with acute heart failure. <i>European Journal of Heart Failure</i> , 2018, 20, 822-826.	7.1	4
43	Evaluation of Chest Pain and Acute Coronary Syndromes. <i>Cardiology Clinics</i> , 2018, 36, 1-12.	2.2	29
44	Initial Experience with Telemedicine at a Single Institution. <i>Urology Practice</i> , 2018, 5, 367-371.	0.5	14
45	Age- and sex-based resource utilisation and costs in patients with acute chest pain undergoing cardiac CT angiography: pooled evidence from ROMICAT II and ACRIN-PA trials. <i>European Radiology</i> , 2018, 28, 851-860.	4.5	11
46	Impact of a Shared Decision Making Intervention on Health Care Utilization: A Secondary Analysis of the Chest Pain Choice Multicenter Randomized Trial. <i>Academic Emergency Medicine</i> , 2018, 25, 293-300.	1.8	10
47	Efficacy of High-Sensitivity Troponin T in Identifying Very-Low-Risk Patients With Possible Acute Coronary Syndrome. <i>JAMA Cardiology</i> , 2018, 3, 104.	6.1	89
48	Framework to Advance Oncology-Related Telehealth. <i>JCO Clinical Cancer Informatics</i> , 2018, 2, 1-11.	2.1	23
49	Challenges And Opportunities Faced By Large Health Systems Implementing Telehealth. <i>Health Affairs</i> , 2018, 37, 1955-1959.	5.2	48
50	High-Sensitivity Troponin: Time to Implement. <i>Annals of Emergency Medicine</i> , 2018, 72, 665-667.	0.6	7
51	Effect of Tamsulosin on Passage of Symptomatic Ureteral Stones. <i>JAMA Internal Medicine</i> , 2018, 178, 1051.	5.1	65
52	Patient and Health System Experience With Implementation of an Enterprise-Wide Telehealth Scheduled Video Visit Program: Mixed-Methods Study. <i>JMIR Medical Informatics</i> , 2018, 6, e10.	2.6	57
53	Integrating Telehealth Emergency Department Follow-up Visits into Residency Training. <i>Cureus</i> , 2018, 10, e2433.	0.5	15
54	Editor's Choice-The role of the emergency department in the management of acute heart failure: An international perspective on education and research. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2017, 6, 421-429.	1.0	28
