Version: 2024-02-01

76 papers	2,439 citations	201674 27 h-index	233421 45 g-index
78 all docs	78 docs citations	78 times ranked	3801 citing authors

#	Article	IF	Citations
1	Hypermethylation of the oxytocin receptor gene (OXTR) in obsessive-compulsive disorder: further evidence for a biomarker of disease and treatment response. Epigenetics, 2022, 17, 642-652.	2.7	17
2	Impaired differential learning of fear versus safety signs in obsessiveâ€compulsive disorder. Psychophysiology, 2022, 59, e13956.	2.4	3
3	Cognitive control is quickly adapted to actual task requirements despite misleading context cuesâ€"Evidence from the N2, CRN, and ERN. Psychophysiology, 2022, 59, e13961.	2.4	1
4	Effectiveness of Individual Cognitive-Behavioral Therapy and Predictors of Outcome in Adult Patients with Obsessive-Compulsive Disorder. Psychotherapy and Psychosomatics, 2022, 91, 123-135.	8.8	16
5	The thalamus and its subnucleiâ€"a gateway to obsessive-compulsive disorder. Translational Psychiatry, 2022, 12, 70.	4.8	19
6	Neural correlates of emotional reactivity predict response to cognitive-behavioral therapy in obsessive-compulsive disorder. Journal of Affective Disorders, 2022, 308, 398-406.	4.1	2
7	Non-invasive brain stimulation modulates neural correlates of performance monitoring in patients with obsessive-compulsive disorder. NeuroImage: Clinical, 2022, 35, 103113.	2.7	2
8	Neural correlates of cueâ€induced changes in decisionâ€making distinguish subjects with gambling disorder from healthy controls. Addiction Biology, 2021, 26, e12951.	2.6	2
9	Identifying CBT non-response among OCD outpatients: A machine-learning approach. Psychotherapy Research, 2021, 31, 52-62.	1.8	18
10	Effects of adaptive and non-adaptive three-week executive control training on interference control: Evidence from the N2, CRN, and ERN. International Journal of Psychophysiology, 2021, 162, 8-21.	1.0	3
11	Diverging patterns of EEG alpha asymmetry in anxious apprehension and anxious arousal. Biological Psychology, 2021, 162, 108111.	2.2	11
12	The Thought From the Machine: Neural Basis of Thoughts With a Coherent and Diminished Sense of Authorship. Schizophrenia Bulletin, 2021, 47, 1631-1641.	4.3	1
13	In the Face of Potential Harm: The Predictive Validity of Neural Correlates of Performance Monitoring for Perceived Risk, Stress, and Internalizing Psychopathology During the COVID-19 Pandemic. Biological Psychiatry Global Open Science, 2021, 1, 300-309.	2.2	7
14	Fronto-lateral alpha power asymmetry in panic disorder. International Journal of Psychophysiology, 2021, 167, 69-76.	1.0	4
15	Polygenic risk for obsessive-compulsive disorder (OCD) predicts brain response during working memory task in OCD, unaffected relatives, and healthy controls. Scientific Reports, 2021, 11, 18914.	3.3	8
16	Feeling bad about being wrong: Affective evaluation of performed actions and its trial-by-trial relation to autonomic arousal.. Emotion, 2021, 21, 1402-1416.	1.8	2
17	Spatial working memory performance in people with obsessiveâ€"compulsive disorder, their unaffected first-degree relatives and healthy controls. BJPsych Open, 2021, 7, .	0.7	1
18	Mapping Cortical and Subcortical Asymmetry in Obsessive-Compulsive Disorder: Findings From the ENIGMA Consortium. Biological Psychiatry, 2020, 87, 1022-1034.	1.3	73

#	Article	IF	Citations
19	Cueâ€induced effects on decisionâ€making distinguish subjects with gambling disorder from healthy controls. Addiction Biology, 2020, 25, e12841.	2.6	10
20	Predicting cognitive behavioral therapy outcome in the outpatient sector based on clinical routine data: A machine learning approach. Behaviour Research and Therapy, 2020, 124, 103530.	3.1	36
21	Application of attentional bias modification training to modulate hyperactive error-monitoring in OCD. International Journal of Psychophysiology, 2020, 156, 79-86.	1.0	23
22	Structural neuroimaging biomarkers for obsessive-compulsive disorder in the ENIGMA-OCD consortium: medication matters. Translational Psychiatry, 2020, 10, 342.	4.8	43
23	Were we erring? The impact of worry and arousal on errorâ€related negativity in a nonâ€clinical sample. Psychophysiology, 2020, 57, e13661.	2.4	10
24	Heightened degree connectivity of the striatum in obsessive-compulsive disorder induced by symptom provocation. Journal of Affective Disorders, 2020, 276, 1069-1076.	4.1	2
25	P50, N100, and P200 Sensory Gating in Panic Disorder. Clinical EEG and Neuroscience, 2020, 51, 317-324.	1.7	8
26	OUP accepted manuscript. Brain, 2020, 143, 684-700.	7.6	53
27	Schizotypy and smooth pursuit eye movements as potential endophenotypes of obsessive-compulsive disorder. European Archives of Psychiatry and Clinical Neuroscience, 2019, 269, 235-243.	3.2	9
28	Punishment has a persistent effect on error-related brain activity in highly anxious individuals twenty-four hours after conditioning. International Journal of Psychophysiology, 2019, 146, 63-72.	1.0	17
29	Unpredictability impairs goal-directed target processing and performance. Biological Psychology, 2019, 142, 29-36.	2.2	5
30	Emotional interference under low versus high executive control. Psychophysiology, 2019, 56, e13380.	2.4	11
31	Reduced Sensitivity to Non-Fear-Related Stimulus Changes in Panic Disorder. Neuropsychobiology, 2019, 78, 31-37.	1.9	9
32	Error-related brain activity as a transdiagnostic endophenotype for obsessive-compulsive disorder, anxiety and substance use disorder. Psychological Medicine, 2019, 49, 1207-1217.	4.5	81
33	Amygdalaâ€“prefrontal connectivity during appraisal of symptom-related stimuli in obsessiveâ€“compulsive disorder. Psychological Medicine, 2019, 49, 278-286.	4.5	21
34	Flexibility of error-monitoring in obsessiveâ€“compulsive disorder under speed and accuracy instructions.. Journal of Abnormal Psychology, 2019, 128, 671-677.	1.9	35
35	Getting it just right: A reevaluation of OCD symptom dimensions integrating traditional and Bayesian approaches. Journal of Anxiety Disorders, 2018, 56, 63-73.	3.2	20
36	Intergenerational Effect of Maternal Exposure to Childhood Maltreatment on Newborn Brain Anatomy. Biological Psychiatry, 2018, 83, 120-127.	1.3	138

#	Article	IF	Citations
37	Neural correlates of working memory deficits and associations to response inhibition in obsessive compulsive disorder. NeuroImage: Clinical, 2018, 17, 426-434.	2.7	39
38	Impaired planning in patients with obsessive-compulsive disorder and unaffected first-degree relatives: Evidence for a cognitive endophenotype. Journal of Anxiety Disorders, 2018, 57, 24-30.	3.2	17
39	Impaired Antisaccades in Obsessive-Compulsive Disorder: Evidence From Meta-Analysis and a Large Empirical Study. Frontiers in Psychiatry, 2018, 9, 284.	2.6	12
40	Modeling subjective relevance in schizophrenia and its relation to aberrant salience. PLoS Computational Biology, 2018, 14, e1006319.	3.2	23
41	An Empirical Comparison of Meta- and Mega-Analysis With Data From the ENIGMA Obsessive-Compulsive Disorder Working Group. Frontiers in Neuroinformatics, 2018, 12, 102.	2.5	59
42	Hyperactive performance monitoring as a transdiagnostic marker: Results from health anxiety in comparison to obsessiveâ€“compulsive disorder. Neuropsychologia, 2017, 96, 1-8.	1.6	35
43	Volitional saccade performance in a large sample of patients with obsessiveâ€compulsive disorder and unaffected firstâ€degree relatives. Psychophysiology, 2017, 54, 1284-1294.	2.4	3
44	Uncertainty increases neural indices of attention in obsessive-compulsive disorder. Depression and Anxiety, 2017, 34, 1018-1028.	4.1	17
45	Childhood maltreatment is associated with increased risk of subclinical hypothyroidism in pregnancy. Psychoneuroendocrinology, 2017, 84, 190-196.	2.7	20
46	Frontal alpha asymmetry in OCD patients and unaffected first-degree relatives.. Journal of Abnormal Psychology, 2017, 126, 750-760.	1.9	12
47	Pavlovian-to-instrumental transfer effects in the nucleus accumbens relate to relapse in alcohol dependence. Addiction Biology, 2016, 21, 719-731.	2.6	136
48	Validating the construct of aberrant salience in schizophrenia â€" Behavioral evidence for an automatic process. Schizophrenia Research: Cognition, 2016, 6, 22-27.	1.3	18
49	Neural correlates of training and transfer effects in working memory in older adults. NeuroImage, 2016, 134, 236-249.	4.2	88
50	The costs of distraction: The effect of distraction during repeated picture processing on the LPP. Biological Psychology, 2016, 117, 225-234.	2.2	26
51	Uncertainty is associated with increased selective attention and sustained stimulus processing. Cognitive, Affective and Behavioral Neuroscience, 2016, 16, 447-456.	2.0	53
52	Modulation of hyperactive error signals in obsessiveâ€“compulsive disorder by dual-task demands.. Journal of Abnormal Psychology, 2016, 125, 292-298.	1.9	37
53	Degree connectivity in body dysmorphic disorder and relationships with obsessive and compulsive symptoms. European Neuropsychopharmacology, 2016, 26, 1657-1666.	0.7	16
54	Adapting another personâ€™s affective state modulates brain potentials to unpleasant pictures. Biological Psychology, 2016, 120, 81-87.	2.2	3

#	Article	IF	Citations
55	Differential modulation of visual object processing in dorsal and ventral stream by stimulus visibility. Cortex, 2016, 83, 113-123.	2.4	24
56	Reduced risk avoidance and altered neural correlates of feedback processing in patients with borderline personality disorder. Psychiatry Research, 2016, 243, 14-22.	3.3	17
57	Facial discrimination in body dysmorphic, obsessive-compulsive and social anxiety disorders. Psychiatry Research, 2016, 236, 105-111.	3.3	5
58	Presupplementary Motor Area Contributes to Altered Error Monitoring in Obsessive-Compulsive Disorder. Biological Psychiatry, 2016, 80, 562-571.	1.3	61
59	TMS Over the Right Precuneus Reduces the Bilateral Field Advantage in Visual Short Term Memory Capacity. Brain Stimulation, 2015, 8, 216-223.	1.6	25
60	Timing of spatial priming within the fronto-parietal attention network: A TMS study. Neuropsychologia, 2015, 74, 30-36.	1.6	17
61	Performance monitoring in obsessiveâ€“compulsive undergraduates: Effects of task difficulty. Brain and Cognition, 2015, 98, 35-42.	1.8	10
62	Overactive Performance Monitoring as an Endophenotype for Obsessive-Compulsive Disorder: Evidence From a Treatment Study. American Journal of Psychiatry, 2015, 172, 665-673.	7.2	101
63	Reply to: Continuation Antidepressant Strategies After Electroconvulsive Therapy: Ultrabrief Pulse Versus Cognitive-Behavioral Therapy. Biological Psychiatry, 2015, 77, e9.	1.3	0
64	Performance monitoring in obsessiveâ€“compulsive disorder and social anxiety disorder.. Journal of Abnormal Psychology, 2014, 123, 705-714.	1.9	90
65	Altered frontal <scp>EEG</scp> asymmetry in obsessiveâ€compulsive disorder. Psychophysiology, 2014, 51, 596-601.	2.4	45
66	Amygdala hyperactivation during symptom provocation in obsessiveâ€“compulsive disorder and its modulation by distraction. NeuroImage: Clinical, 2014, 4, 549-557.	2.7	85
67	Cognitive-Behavioral Therapy as Continuation Treatment to Sustain Response After Electroconvulsive Therapy in Depression: A Randomized Controlled Trial. Biological Psychiatry, 2014, 76, 194-202.	1.3	91
68	Performance monitoring in obsessiveâ€“compulsive disorder: A temporo-spatial principal component analysis. Cognitive, Affective and Behavioral Neuroscience, 2014, 14, 983-995.	2.0	38
69	The suggestible brain: posthypnotic effects on value-based decision-making. Social Cognitive and Affective Neuroscience, 2014, 9, 1281-1288.	3.0	31
70	Default mode network subsystem alterations in obsessiveâ€“compulsive disorder. British Journal of Psychiatry, 2014, 205, 376-382.	2.8	92
71	Response accuracy rating modulates ERN and Pe amplitudes. Biological Psychology, 2014, 96, 1-7.	2.2	44
72	Crossmodal bias of visual input on pain perception and pain-induced beta activity. NeuroImage, 2013, 66, 469-478.	4.2	26

#	Article	IF	Citations
73	Negative Priming in Obsessive-Compulsive Disorder and Schizophrenia: Association with Symptom Patterns. Journal of Experimental Psychopathology, 2013, 4, 405-419.	0.8	2
74	Responseâ€related negativities following correct and incorrect responses: Evidence from a temporospatial principal component analysis. Psychophysiology, 2012, 49, 733-743.	2.4	62
75	Overactive Error-Related Brain Activity as a Candidate Endophenotype for Obsessive-Compulsive Disorder: Evidence From Unaffected First-Degree Relatives. American Journal of Psychiatry, 2011, 168, 317-324.	7.2	188
76	Event-related brain potential variations during location and identity negative priming. Neuroscience Letters, 2006, 394, 53-56.	2.1	38
