#	Article	IF	CITATIONS
1	The commonâ€sense model and mental illness outcomes: A metaâ€analysis. Clinical Psychology and Psychotherapy, 2022, 29, 1186-1202.	2.7	14
2	Knowledge Gaps and Educational Needs of Veterans Affairs Healthcare Providers Regarding COVID-19 at the Start of the Pandemic. American Journal of Infection Control, 2022, , .	2.3	0
3	Management of Chronic Multisymptom Illness: Synopsis of the 2021 US Department of Veterans Affairs and US Department of Defense Clinical Practice Guideline. Mayo Clinic Proceedings, 2022, 97, 991-1002.	3.0	6
4	Understanding Veterans' Causal Attributions of Physical Symptoms. International Journal of Behavioral Medicine, 2021, 28, 299-307.	1.7	4
5	Rapid review of virus risk communication interventions: Directions for COVID-19. Patient Education and Counseling, 2021, 104, 1834-1859.	2.2	12
6	Symptom attribution to a medically unexplained syndrome is associated with greater perceived severity and bothersomeness of symptoms in US military veterans. Psychology and Health, 2021, , 1-18.	2.2	2
7	Veterans with Gulf War Illness perceptions of management strategies. Life Sciences, 2021, 279, 119219.	4.3	5
8	Protocol for a type 1 hybrid effectiveness/implementation clinical trial of collaborative specialty care for Veterans with Gulf War Illness. Life Sciences, 2021, 292, 120004.	4.3	0
9	"Because the country, it seems though, has turned their back on me― Experiences of institutional betrayal among veterans living with Gulf War Illness. Social Science and Medicine, 2021, 284, 114211.	3.8	17
10	Healthcare providers' perceived learning needs and barriers to providing care for chronic multisymptom illness and environmental exposure concerns. Life Sciences, 2021, 284, 119757.	4.3	4
11	Under-recognition of medically unexplained symptom conditions among US Veterans with Gulf War Illness. PLoS ONE, 2021, 16, e0259341.	2.5	3
12	Interrelationships between symptom burden and health functioning and health care utilization among veterans with persistent physical symptoms. BMC Family Practice, 2020, 21, 124.	2.9	1
13	Are Common Sense Model constructs and self-efficacy simultaneously correlated with self-management behaviors and health outcomes: A systematic review. Health Psychology Open, 2020, 7, 205510291989884.	1.4	35
14	Doctor Recommendations are Related to Patient Interest and Use of Behavioral Treatment for Chronic Pain and Addiction. Journal of Pain, 2020, 21, 979-987.	1.4	5
15	Common-Sense Model of Self-Regulation. , 2020, , 1-9.		O
16	Common-Sense Model of Self-Regulation. , 2020, , 507-515.		0
17	Coping with Medically Unexplained Physical Symptoms: the Role of Illness Beliefs and Behaviors. International Journal of Behavioral Medicine, 2019, 26, 665-672.	1.7	15
18	Mutual maintenance of PTSD and physical symptoms for Veterans returning from deployment. Högre Utbildning, 2019, 10, 1608717.	3.0	30

#	Article	IF	CITATIONS
19	Medically Unexplained Physical Symptoms: Why Counseling Psychologists Should Care About Them. Counseling Psychologist, 2019, 47, 741-769.	1.2	8
20	Empirical Evaluation of Veterans' Perceived Nonconcordance With Providers Regarding Medically Unexplained Symptoms. Counseling Psychologist, 2019, 47, 770-795.	1.2	6
21	Introducing an Observational Rating System for Studying Concordance in Patient–Physician Relationships. Counseling Psychologist, 2019, 47, 796-819.	1.2	3
22	Using the common-sense model to understand health outcomes for medically unexplained symptoms: a meta-analysis. Health Psychology Review, 2019, 13, 427-446.	8.6	31
23	Helpful ways providers can communicate about persistent medically unexplained physical symptoms. BMC Family Practice, 2019, 20, 13.	2.9	11
24	Cultural incongruity predicts adjustment to college for student veterans Journal of Counseling Psychology, 2019, 66, 678-689.	2.0	4
25	The common sense of counseling psychology: introducing the Common-Sense Model of self-regulation. Counselling Psychology Quarterly, 2018, 31, 1-16.	2.3	11
26	Developing a Problem-Solving Treatment for Gulf War Illness: Cognitive Rehabilitation of Veterans with Complex Post-Deployment Health Concerns. Clinical Social Work Journal, 2018, 46, 100-109.	2.6	11
27	Management of Skin and Soft-Tissue Infections Before and After Clinical Pathway Implementation. Clinical Pediatrics, 2018, 57, 660-666.	0.8	4
28	Telephone-Based Versus In-Person Delivery of Cognitive Behavioral Treatment for Veterans with Chronic Multisymptom Illness: A Controlled, Randomized Trial. Military Behavioral Health, 2018, 6, 56-65.	0.8	5
29	Concordance of illness perceptions: The key to improving care of medically unexplained symptoms. Journal of Psychosomatic Research, 2018, 111, 140-142.	2.6	14
30	Chronic Multisymptom Illness Among Iraq/Afghanistan-Deployed US Veterans and Their Healthcare Utilization Within the Veterans Health Administration. Journal of General Internal Medicine, 2018, 33, 1419-1422.	2.6	5
31	Longitudinal relationship between onset of physical symptoms and functional impairment. Journal of Behavioral Medicine, 2018, 41, 819-826.	2.1	2
32	High healthcare utilization near the onset of medically unexplained symptoms. Journal of Psychosomatic Research, 2017, 98, 98-105.	2.6	23
33	Evaluating challenges for improving medically unexplained symptoms in US military veterans via provider communication. Patient Education and Counseling, 2017, 100, 1580-1587.	2.2	15
34	Resilience during war: Better unit cohesion and reductions in avoidant coping are associated with better mental health function after combat deployment Psychological Trauma: Theory, Research, Practice, and Policy, 2017, 9, 52-61.	2.1	21
35	Iraq and Afghanistan Veterans report symptoms consistent with chronic multisymptom illness one year after deployment. Journal of Rehabilitation Research and Development, 2016, 53, 59-70.	1.6	39
36	Fibromyalgia syndrome care of Iraq- and Afghanistan-deployed Veterans in Veterans Health Administration. Journal of Rehabilitation Research and Development, 2016, 53, 45-58.	1.6	14

#	Article	IF	Citations
37	Risk of hospitalization due to motor vehicle crashes among Iraq and Afghanistan WarÂVeterans diagnosed with traumatic brainÂinjury. NeuroRehabilitation, 2016, 39, 351-361.	1.3	5
38	Comparison of the Functional Health Limitations of Veterans Deployed to Iraq or Afghanistan to Veterans Deployed to Desert Shield/Storm With Chronic Fatigue Syndrome. Military Behavioral Health, 2016, 4, 299-306.	0.8	14
39	Less Engagement in Pleasurable Activities Is Associated With Poorer Quality of Life for Veterans With Comorbid Postdeployment Conditions. Military Psychology, 2016, 29, 74-81.	1.1	3
40	Chronic Multisymptom Illness Among Female Veterans Deployed to Iraq and Afghanistan. Medical Care, 2015, 53, S143-S148.	2.4	12
41	Sleep problems may mediate associations between rumination and PTSD and depressive symptoms among OIF/OEF veterans Psychological Trauma: Theory, Research, Practice, and Policy, 2015, 7, 76-84.	2.1	33
42	Using the Common Sense Model of Self-Regulation to Understand the Relationship Between Symptom Reporting and Trait Negative Affect. International Journal of Behavioral Medicine, 2014, 21, 989-994.	1.7	21
43	Military Veterans' Perceptions Of Disagreement With Their Provider Regarding Their Medically Unexplained Symptoms Are Associated With Lower Satisfaction And Intentions To Adhere To Treatment And Poorer Health-Outcome Expectations. Value in Health, 2014, 17, A139-A140.	0.3	2
44	What pre-deployment and early post-deployment factors predict health function after combat deployment?: a prospective longitudinal study of Operation Enduring Freedom (OEF)/Operation Iraqi Freedom (OIF) soldiers. Health and Quality of Life Outcomes, 2013, $11,73$.	2.4	31
45	Self-Reported Stressors of National Guard Women Veterans Before and After Deployment: The Relevance of Interpersonal Relationships. Journal of General Internal Medicine, 2013, 28, 549-555.	2.6	19
46	War Related Illness and Injury Study Center (WRIISC): A Multidisciplinary Translational Approach to the Care of Veterans With Chronic Multisymptom Illness. Military Medicine, 2013, 178, 705-707.	0.8	18
47	Challenges to Healthy Eating for People With Diabetes in a Low-Income, Minority Neighborhood. Diabetes Care, 2013, 36, 2895-2901.	8.6	42
48	The Impact of Self-monitoring of Blood Glucose on a Behavioral Weight Loss Intervention for Patients With Type 2 Diabetes. The Diabetes Educator, 2013, 39, 397-405.	2.5	21
49	Using the Common Sense Model of Self-Regulation to Review the Effects of Self-Monitoring of Blood Glucose on Glycemic Control for Non–Insulin-Treated Adults With Type 2 Diabetes. The Diabetes Educator, 2013, 39, 541-559.	2.5	26
50	Verbal Learning and Memory in Older Adults with Minor and Major Depression. Archives of Clinical Neuropsychology, 2012, 27, 196-207.	0.5	28
51	Environmental Exposure and Health of Operation Enduring Freedom/Operation Iraqi Freedom Veterans. Journal of Occupational and Environmental Medicine, 2012, 54, 665-669.	1.7	32
52	Prevalence of Environmental and Other Military Exposure Concerns in Operation Enduring Freedom and Operation Iraqi Freedom Veterans. Journal of Occupational and Environmental Medicine, 2012, 54, 659-664.	1.7	21
53	Organizational Psychosocial Factors and Deployment-Related Exposure Concerns in Afghanistan/Iraq War Veterans. Journal of Occupational and Environmental Medicine, 2012, 54, 670-676.	1.7	5
54	Rumination Moderates the Associations Between PTSD and Depressive Symptoms and Risky Behaviors in U. S. Veterans. Journal of Traumatic Stress, 2012, 25, 583-586.	1.8	28

#	ARTICLE	IF	CITATION
55	A retrospective cohort study of U.S. service members returning from Afghanistan and Iraq: is physical health worsening over time?. BMC Public Health, 2012, 12, 1124.	2.9	17
56	Association between self-monitoring of blood glucose and diet among minority patients with diabetes*. Journal of Diabetes, 2011, 3, 147-152.	1.8	11
57	Factors Related to Perceived Diabetes Control Are Not Related to Actual Glucose Control for Minority Patients With Diabetes. Diabetes Care, 2010, 33, 736-738.	8.6	17
58	When, why and for whom there is a relationship between physical activity and menopause symptoms. Maturitas, 2009, 64, 119-125.	2.4	64
59	Using the common sense model to design interventions for the prevention and management of chronic illness threats: From description to process. British Journal of Health Psychology, 2008, 13, 195-204.	3.5	202
60	Does Patient Blood Glucose Monitoring Improve Diabetes Control?. The Diabetes Educator, 2007, 33, 991-1011.	2.5	85
