## Greg J Siegle

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/3075546/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	A double-blind study assessing the impact of orbitofrontal theta burst stimulation on goal-directed behavior , 2022, 131, 287-300.		1
2	Individual differences associated with treatment adherence and transfer effects following gamified web-based cognitive control training for repetitive negative thinking. Internet Interventions, 2022, 27, 100507.	2.7	4
3	Imagery- and Verbally-Based Brooding Rumination in Adolescence: Differential Associations with Depressive Symptoms Adolescent Psychiatry (Hilversum, Netherlands), 2022, 12, .	0.2	1
4	Publication guidelines and recommendations for pupillary measurement in psychophysiological studies. Psychophysiology, 2022, 59, e14035.	2.4	25
5	Elucidating treatment targets and mediators within a confirmatory efficacy trial: study protocol for a randomized controlled trial of cognitive-behavioral therapy vs. light therapy for winter depression. Trials, 2022, 23, 383.	1.6	0
6	0044 Pre-Pandemic Circadian Phase Predicts Pandemic Sleep, Depression, and Alcohol Use Among Adolescents. Sleep, 2022, 45, A20-A21.	1.1	0
7	CBT MobileWork©: User-Centered Development and Testing of a Mobile Mental Health Application for Depression. Cognitive Therapy and Research, 2021, 45, 287-302.	1.9	25
8	What's in a Face? Amygdalar Sensitivity to an Emotional Threatening Faces Task and Transdiagnostic Internalizing Disorder Symptoms in Participants Receiving Attention Bias Modification Training. Cognitive Therapy and Research, 2021, 45, 795-804.	1.9	2
9	Partner intimate touch is associated with increased interpersonal closeness, especially in non-romantic partners. PLoS ONE, 2021, 16, e0246065.	2.5	9
10	Are need for affect and cognition culture dependent? Implications for global public health campaigns: a cross-sectional study. BMC Public Health, 2021, 21, 693.	2.9	4
11	Effect of Experimental Manipulation of the Orbitofrontal Cortex on Short-Term Markers of Compulsive Behavior: A Theta Burst Stimulation Study. American Journal of Psychiatry, 2021, 178, 459-468.	7.2	25
12	Associations between brain structure and sleep patterns across adolescent development. Sleep, 2021, 44, .	1.1	20
13	Eyeing ambiguity: Pupillary reactivity during early automatic interpretations in major depressive disorder. International Journal of Psychophysiology, 2021, 164, 41-51.	1.0	2
14	Importance of test–retest reliability for promoting fMRI based screening and interventions in major depressive disorder. Translational Psychiatry, 2021, 11, 387.	4.8	4
15	Electrophysiological predictors and indicators of contingency management treatment response: Rationale and design for the ways of rewarding abstinence project (WRAP). Contemporary Clinical Trials Communications, 2021, 23, 100796.	1.1	2
16	Interpretable principal component analysis for multilevel multivariate functional data. Biostatistics, 2021, , .	1.5	1
17	The antidepressant standoff: why it continues and how to resolve it. Psychological Medicine, 2020, 50, 177-186.	4.5	15
18	Response to SSRI intervention and amygdala activity during self-referential processing in major depressive disorder. NeuroImage: Clinical, 2020, 28, 102388.	2.7	12

#	Article	IF	CITATIONS
19	Low Cost MR Compatible Haptic Stimulation with Application to fMRI Neurofeedback. Brain Sciences, 2020, 10, 790.	2.3	3
20	Time course of pupillary response to threat words before and after attention bias modification for transdiagnostic anxiety disorders: A randomized controlled trial. Brain and Behavior, 2020, 10, e01664.	2.2	3
21	Neural Connectivity Subtypes Predict Discrete Attentional-Bias Profiles Among Heterogeneous Anxiety Patients. Clinical Psychological Science, 2020, 8, 491-505.	4.0	13
22	Hurts so good: Pain as an emotion regulation strategy Emotion, 2020, 20, 1382-1389.	1.8	8
23	Anxiety Treatment and Targeted Sleep Enhancement to Address Sleep Disturbance in Pre/Early Adolescents with Anxiety. Journal of Clinical Child and Adolescent Psychology, 2019, 48, S284-S297.	3.4	20
24	Timing matters in elaborative processing of positive stimuli: Gamma band reactivity in schizophrenia compared to depression and healthy adults. Schizophrenia Research, 2019, 204, 111-119.	2.0	7
25	The role of reward and task demand in value-based strategic allocation of auditory comprehension effort. Hearing Research, 2019, 381, 107775.	2.0	15
26	Attention to Peer Feedback Through the Eyes of Adolescents with a History of Anxiety and Healthy Adolescents. Child Psychiatry and Human Development, 2019, 50, 894-906.	1.9	4
27	Protracted amygdalar response predicts efficacy of a computer-based intervention targeting attentional patterns in transdiagnostic clinical anxiety. Translational Psychiatry, 2019, 9, 121.	4.8	4
28	Parental coping socialization is associated with healthy and anxious earlyâ€adolescents' neural and realâ€world response to threat. Developmental Science, 2019, 22, e12812.	2.4	12
29	Where are the breaks in translation from theory to clinical practice (and back) in addressing depression? An empirical graph-theoretic approach. Psychological Medicine, 2019, 49, 2681-2691.	4.5	1
30	Computational Modeling Applied to the Dot-Probe Task Yields Improved Reliability and Mechanistic Insights. Biological Psychiatry, 2019, 85, 606-612.	1.3	54
31	Cognitive and neural facets of dissociation in a traumatized population Emotion, 2019, 19, 863-875.	1.8	14
32	Voluntary arousing negative experiences (VANE): Why we like to be scared Emotion, 2019, 19, 682-698.	1.8	16
33	The effects of cognitive-behavior therapy for depression on repetitive negative thinking: A meta-analysis. Behaviour Research and Therapy, 2018, 106, 71-85.	3.1	106
34	Errorâ€related brain activity in pediatric anxiety disorders remains elevated following individual therapy: a randomized clinical trial. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2018, 59, 1152-1161.	5.2	37
35	Visual and Verbal Depressive Cognition: Implications for the Rumination–Depression Relationship. Cognitive Therapy and Research, 2018, 42, 421-435.	1.9	12
36	Altered task-based and resting-state amygdala functional connectivity following real-time fMRI amygdala neurofeedback training in major depressive disorder. NeuroImage: Clinical, 2018, 17, 691-703.	2.7	97

#	Article	IF	CITATIONS
37	Vigilant attention to threat, sleep patterns, and anxiety in peripubertal youth. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2018, 59, 1309-1322.	5.2	10
38	A Randomized Clinical Trial Comparing Individual Cognitive Behavioral Therapy and Child-Centered Therapy for Child Anxiety Disorders. Journal of Clinical Child and Adolescent Psychology, 2018, 47, 542-554.	3.4	75
39	Altered Gamma-Band Activity as a Potential Biomarker for the Recurrence of Major Depressive Disorder. Frontiers in Psychiatry, 2018, 9, 691.	2.6	8
40	Pupil response to social-emotional material is associated with rumination and depressive symptoms in adults with autism spectrum disorder. PLoS ONE, 2018, 13, e0200340.	2.5	33
41	Towards personalized, brain-based behavioral intervention for transdiagnostic anxiety: Transient neural responses to negative images predict outcomes following a targeted computer-based intervention Journal of Consulting and Clinical Psychology, 2018, 86, 1031-1045.	2.0	17
42	Increased amygdala reactivity following early life stress: a potential resilience enhancer role. BMC Psychiatry, 2017, 17, 27.	2.6	49
43	An electrophysiological investigation of emotional abnormalities in groups at risk for schizophrenia-spectrum personality disorders. Biological Psychology, 2017, 124, 119-132.	2.2	18
44	Randomized Clinical Trial of Real-Time fMRI Amygdala Neurofeedback for Major Depressive Disorder: Effects on Symptoms and Autobiographical Memory Recall. American Journal of Psychiatry, 2017, 174, 748-755.	7.2	260
45	Data-Driven Subgroups in Depression Derived from Directed Functional Connectivity Paths at Rest. Neuropsychopharmacology, 2017, 42, 2623-2632.	5.4	73
46	Increased pupil dilation to angry faces predicts interpersonal stress generation in offspring of depressed mothers. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2017, 58, 950-957.	5.2	6
47	Pupillary Response to Emotional Stimuli as a Risk Factor for Depressive Symptoms Following a Natural Disaster: The 2011 Binghamton Flood. Clinical Psychological Science, 2017, 5, 726-732.	4.0	7
48	Real-Time Functional Magnetic Resonance Imaging Amygdala Neurofeedback Changes Positive Information Processing in Major Depressive Disorder. Biological Psychiatry, 2017, 82, 578-586.	1.3	92
49	The role of day-to-day emotions, sleep, and social interactions in pediatric anxiety treatment. Behaviour Research and Therapy, 2017, 90, 87-95.	3.1	31
50	A quick behavioral dichotic word test is prognostic for clinical response to cognitive therapy for depression: A replication study. Psychiatry Research, 2017, 248, 13-19.	3.3	3
51	Neural correlates of heart rate variability in PTSD during sub―and supraliminal processing of traumaâ€related cues. Human Brain Mapping, 2017, 38, 4898-4907.	3.6	27
52	Cognitive and affective remediation training for mood disorders. Australian and New Zealand Journal of Psychiatry, 2017, 51, 317-319.	2.3	10
53	â€~Mom—I don't want to hear it': Brain response to maternal praise and criticism in adolescents with major depressive disorder. Social Cognitive and Affective Neuroscience, 2017, 12, 729-738.	3.0	28
54	The impact of experimental sleep restriction on affective functioning in social and nonsocial contexts among adolescents. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2016, 57, 1027-1037.	5.2	73

#	Article	IF	CITATIONS
55	The role of nonâ€rapid eye movement slowâ€wave activity in prefrontal metabolism across young and middleâ€aged adults. Journal of Sleep Research, 2016, 25, 296-306.	3.2	14
56	Parental autonomy granting and child perceived control: effects on the everyday emotional experience of anxious youth. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2016, 57, 835-842.	5.2	22
57	Vigilance in the laboratory predicts avoidance in the real world: A dimensional analysis of neural, behavioral, and ecological momentary data in anxious youth. Developmental Cognitive Neuroscience, 2016, 19, 128-136.	4.0	40
58	Pupillary reactivity to negative stimuli prospectively predicts recurrence of major depressive disorder in women. Psychophysiology, 2016, 53, 1836-1842.	2.4	17
59	A novel attention training paradigm based on operant conditioning of eye gaze: Preliminary findings Emotion, 2016, 16, 110-116.	1.8	30
60	Feeling Without Thinking? Anger Provocation Task Predicts Impaired Cognitive Performance in Bipolar Disorder but not Major Depression or Healthy Adults. Cognitive Therapy and Research, 2016, 40, 139-149.	1.9	3
61	Feasibility of a pocket-PC based cognitive control intervention in dementia spousal caregivers. Aging and Mental Health, 2016, 20, 575-582.	2.8	13
62	Amygdala Activity During Autobiographical Memory Recall in Depressed and Vulnerable Individuals: Association With Symptom Severity and Autobiographical Overgenerality. American Journal of Psychiatry, 2016, 173, 78-89.	7.2	66
63	Depressed Adolescents' Pupillary Response to Peer Acceptance and Rejection: The Role of Rumination. Child Psychiatry and Human Development, 2016, 47, 397-406.	1.9	21
64	From anxious youth to depressed adolescents: Prospective prediction of 2-year depression symptoms via attentional bias measures Journal of Abnormal Psychology, 2016, 125, 267-278.	1.9	68
65	The Effects of Computerized Cognitive Control Training on Community Adults with Depressed Mood. Behavioural and Cognitive Psychotherapy, 2015, 43, 578-589.	1.2	77
66	Pupillary reactivity to sad stimuli as a biomarker of depression risk: Evidence from a prospective study of children Journal of Abnormal Psychology, 2015, 124, 498-506.	1.9	48
67	Parental Depression Risk and Reduced Physiological Responses During a Valence Identification Task. Cognitive Therapy and Research, 2015, 39, 318-331.	1.9	5
68	Empirical recommendations for improving the stability of the dot-probe task in clinical research Psychological Assessment, 2015, 27, 365-376.	1.5	242
69	Individual Differences in Response to Prediction Bias Training. Clinical Psychological Science, 2015, 3, 79-90.	4.0	5
70	Impulsive Traits and Unplanned Suicide Attempts Predict Exaggerated Prefrontal Response to Angry Faces in the Elderly. American Journal of Geriatric Psychiatry, 2015, 23, 829-839.	1.2	18
71	Prolonged physiological reactivity and loss: Association of pupillary reactivity with negative thinking and feelings. International Journal of Psychophysiology, 2015, 98, 310-320.	1.0	14
72	Neural responses to maternal criticism in healthy youth. Social Cognitive and Affective Neuroscience, 2015, 10, 902-912.	3.0	60

#	Article	IF	CITATIONS
73	You Gotta Work at It. Clinical Psychological Science, 2014, 2, 455-471.	4.0	133
74	Neural substrates of trait ruminations in depression Journal of Abnormal Psychology, 2014, 123, 35-48.	1.9	121
75	Pupillary reactivity to emotional stimuli in children of depressed and anxious mothers. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2014, 55, 1009-1016.	5.2	54
76	Increased neural response to peer rejection associated with adolescent depression and pubertal development. Social Cognitive and Affective Neuroscience, 2014, 9, 1798-1807.	3.0	170
77	fMRI response to negative words and SSRI treatment outcome in major depressive disorder: A preliminary study. Psychiatry Research - Neuroimaging, 2013, 214, 296-305.	1.8	64
78	Toward Clinically Useful Neuroimaging in Depression Treatment. Archives of General Psychiatry, 2012, 69, 913.	12.3	204
79	Unique and Shared Aspects of Affective Symptomatology: The Role of Parental Bonding in Depression and Anxiety Symptom Profiles. Cognitive Therapy and Research, 2012, 36, 173-181.	1.9	10
80	Remission Prognosis for Cognitive Therapy for Recurrent Depression Using the Pupil: Utility and Neural Correlates. Biological Psychiatry, 2011, 69, 726-733.	1.3	97
81	Beyond depression commentary: Wherefore art thou, depression clinic of tomorrow?. Clinical Psychology: Science and Practice, 2011, 18, 305-310.	0.9	16
82	Pupillary unrest correlates with arousal symptoms and motor signs in Parkinson disease. Movement Disorders, 2011, 26, 1344-1347.	3.9	17
83	Impairment in risk-sensitive decision-making in older suicide attempters with depression Psychology and Aging, 2011, 26, 321-330.	1.6	150
84	Poor performance on cognitive tasks in depression: Doing too much or not enough?. Cognitive, Affective and Behavioral Neuroscience, 2010, 10, 129-140.	2.0	41
85	Sustained gamma-band EEG following negative words in depression and schizophreniaâ~†. International Journal of Psychophysiology, 2010, 75, 107-118.	1.0	53
86	Pupil response to negative emotional information in individuals at risk for depression. Cognition and Emotion, 2010, 24, 480-496.	2.0	35
87	Sleep deprivation alters pupillary reactivity to emotional stimuli in healthy young adults. Biological Psychology, 2009, 80, 300-305.	2.2	189
88	Introduction to Special Issue on Rumination: From Mechanisms to Treatment. Cognitive Therapy and Research, 2008, 32, 471-473.	1.9	2
89	Blink before and after you think: Blinks occur prior to and following cognitive load indexed by pupillary responses. Psychophysiology, 2008, 45, 679-687.	2.4	222
90	Pupillary Reactivity to Emotional Information in Child and Adolescent Depression: Links to Clinical and Ecological Measures. American Journal of Psychiatry, 2007, 164, 1873-1880.	7.2	103

#	Article	IF	CITATIONS
91	Increased Amygdala and Decreased Dorsolateral Prefrontal BOLD Responses in Unipolar Depression: Related and Independent Features. Biological Psychiatry, 2007, 61, 198-209.	1.3	745
92	Neurobehavioral Therapies in the 21st Century: Summary of an Emerging Field and an Extended Example of Cognitive Control Training for Depression. Cognitive Therapy and Research, 2007, 31, 235-262.	1.9	367
93	Fear Is Fast in Phobic Individuals: Amygdala Activation in Response to Fear-Relevant Stimuli. Biological Psychiatry, 2006, 60, 410-417.	1.3	140
94	Use of fMRI to Predict Recovery From Unipolar Depression With Cognitive Behavior Therapy. American Journal of Psychiatry, 2006, 163, 735-738.	7.2	384
95	Use of fMRI to Predict Recovery From Unipolar Depression With Cognitive Behavior Therapy. American Journal of Psychiatry, 2006, 163, 735.	7.2	294
96	From brain imaging to intervention: Disruptions of emotional reactivity in unipolar depression. Japanese Journal of Research on Emotions, 2006, 13, 65-82.	0.0	0
97	Rumination: One Construct, Many Features in Healthy Individuals, Depressed Individuals, and Individuals with Lupus. Cognitive Therapy and Research, 2004, 28, 645-668.	1.9	118
98	Sympathetic and parasympathetic innervation of pupillary dilation during sustained processing. International Journal of Psychophysiology, 2004, 52, 77-86.	1.0	362
99	Rumination and Depression: Advances in Theory and Research. Cognitive Therapy and Research, 2003, 27, 243-245.	1.9	43
100	Title is missing!. Cognitive Therapy and Research, 2003, 27, 365-382.	1.9	139
101	Use of concurrent pupil dilation assessment to inform interpretation and analysis of fMRI data. NeuroImage, 2003, 20, 114-124.	4.2	185
102	Relationships between Amygdala Volume and Activity during Emotional Information Processing Tasks in Depressed and Neverâ€Depressed Individuals. Annals of the New York Academy of Sciences, 2003, 985, 481-484.	3.8	79
103	Using connectionist models to guide assessment of psychological disorder. Psychological Assessment, 2002, 14, 263-78.	1.5	14
104	Pupillary and reaction time measures of sustained processing of negative information in depression. Biological Psychiatry, 2001, 49, 624-636.	1.3	153
