#	ARTICLE	IF	CITATIONS
1	Familiesâ€™ and professionalsâ€™ perspectives of building and maintaining engagement in telepractice early intervention for young children with communication disability. <i>Disability and Rehabilitation</i> , 2023, 45, 1165-1177.	1.8	4
2	What do speechâ€“language pathologists do to support familiesâ€™ active involvement in early intervention? Exploring moment-to-moment interactions in sessions. <i>International Journal of Speech-Language Pathology</i> , 2023, 25, 630-643.	1.2	2
3	Speech language pathologistsâ€™ responses to the rejection or abandonment of AAC systems. <i>Disability and Rehabilitation</i> , 2022, 44, 4257-4265.	1.8	2
4	How Can eHealth Meet the Hearing and Communication Needs of Adults With Hearing Impairment and their Significant Others? A Group Concept Mapping Study. <i>Ear and Hearing</i> , 2022, 43, 335-346.	2.1	4
5	Audiologistsâ€™ perspectives on management of mild bilateral hearing loss in infants and young children. <i>International Journal of Audiology</i> , 2022, 61, 752-760.	1.7	6
6	â€œWhen that understanding is there, you work much better togetherâ€“ the role of family in audiological rehabilitation for older adults. <i>International Journal of Audiology</i> , 2022, 61, 984-992.	1.7	4
7	Identifying critical behaviours for building engagement in telepractice early intervention: An international eâ€“Delphi study. <i>International Journal of Language and Communication Disorders</i> , 2022, 57, 645-659.	1.5	8
8	Exploring engagement in telepractice early intervention for young children with developmental disability and their families: a qualitative systematic review. <i>Disability and Rehabilitation: Assistive Technology</i> , 2022, , 1-14.	2.2	4
9	Minimum Data Set for Families of Children With Hearing Loss: An eDelphi Study. <i>Journal of Speech, Language, and Hearing Research</i> , 2022, 65, 1615-1629.	1.6	3
10	Speechâ€“language pathology studentsâ€™ perceptions of simulationâ€“based learning experiences in stuttering. <i>International Journal of Language and Communication Disorders</i> , 2022, 57, 466-467.	1.5	0
11	What does a family who is â€œengagedâ€“ in early intervention look like? Perspectives of Australian speech-language pathologists. <i>International Journal of Speech-Language Pathology</i> , 2021, 23, 236-246.	1.2	11
12	Family-Centered Care in the Transition to Early Hearing Intervention. <i>Journal of Deaf Studies and Deaf Education</i> , 2021, 26, 21-45.	1.2	6
13	â€œI've had a love-hate, I mean mostly hate relationship with these PODD booksâ€“ parent perceptions of how they and their child contributed to AAC rejection and abandonment. <i>Disability and Rehabilitation: Assistive Technology</i> , 2021, 16, 72-82.	2.2	21
14	Exploring the complexity of how families are engaged in early speechâ€“language pathology intervention using videoâ€“reflexive ethnography. <i>International Journal of Language and Communication Disorders</i> , 2021, 56, 360-373.	1.5	10
15	Setting a prioritized agenda to drive speechâ€“language therapy research in health. <i>International Journal of Language and Communication Disorders</i> , 2021, 56, 768-783.	1.5	4
16	Speechâ€“language pathology studentsâ€™ perceptions of simulationâ€“based learning experiences in stuttering. <i>International Journal of Language and Communication Disorders</i> , 2021, 56, 1132-1146.	1.5	7
17	Does a simulationâ€“based learning programme assist with the development of speechâ€“language pathology studentsâ€™ clinical skills in stuttering management?. <i>International Journal of Language and Communication Disorders</i> , 2021, 56, 1334-1346.	1.5	3
18	What does â€œengagementâ€“ mean in early speech pathology intervention? A qualitative systematised review. <i>Disability and Rehabilitation</i> , 2020, 42, 2665-2678.	1.8	40

#	ARTICLE	IF	CITATIONS
19	The It Takes Two to Talk® – The Hanen Program® for Parents: impacts on child behaviour and social-emotional functioning. <i>Speech, Language and Hearing</i> , 2020, 23, 180-188.	1.0	6
20	“We were just kind of handed it and then it was smoke bombed by everyone”: How do external stakeholders contribute to parent rejection and the abandonment of AAC systems? <i>International Journal of Language and Communication Disorders</i> , 2020, 55, 59-69.	1.5	26
21	Parents’ questions to clinicians within paediatric hearing habilitation appointments for children with hearing impairment. <i>Patient Education and Counseling</i> , 2020, 103, 491-499.	2.2	2
22	Maximising allied health accessibility for Aboriginal and Torres Strait Islander children: exploring experiences and perceptions of a family-centred consultation model. <i>Speech, Language and Hearing</i> , 2020, , 1-11.	1.0	0
23	Guidelines for Best Practice in the Audiological Management of Adults with Severe and Profound Hearing Loss. <i>Seminars in Hearing</i> , 2020, 41, 141-246.	1.2	12
24	Exploring factors influencing the use of an eHealth intervention for families of children with hearing loss: An application of the COM-B model. <i>Disability and Health Journal</i> , 2020, 13, 100921.	2.8	11
25	Students’ Perceptions of Simulation-Based Learning in Speech Pathology: A Pilot Study. <i>International Journal of Practice-Based Learning in Health and Social Care</i> , 2020, 8, 1-14.	0.3	9
26	“I felt more prepared and ready for clinic”: Connections in student and clinical educator views about simulation-based learning. <i>Australian Journal of Clinical Education</i> , 2020, 7, .	0.4	3
27	A systematic review of the barriers and facilitators to the provision and use of low-tech and unaided AAC systems for people with complex communication needs and their families. <i>Disability and Rehabilitation: Assistive Technology</i> , 2019, 14, 710-731.	2.2	63
28	Speech pathologist perspectives on the acceptance versus rejection or abandonment of AAC systems for children with complex communication needs. <i>AAC: Augmentative and Alternative Communication</i> , 2019, 35, 193-204.	1.4	26
29	A qualitative investigation of families' needs in the transition to early intervention after diagnosis of hearing loss. <i>Child: Care, Health and Development</i> , 2019, 45, 670-680.	1.7	12
30	Family-Centered Care in Aphasia. <i>Topics in Language Disorders</i> , 2019, 39, 29-54.	1.0	18
31	Individualised active communication education (I-ACE): another clinical option for adults with hearing impairment with a focus on problem solving and self-management. <i>International Journal of Audiology</i> , 2019, 58, 504-509.	1.7	13
32	Effects of Patient- and Family-Centered Care for Young Adults With Chronic Health Conditions and Their Family Members: A Systematic Review. <i>Emerging Adulthood</i> , 2019, , 216769681988345.	2.4	2
33	Promoting Patient-Centered Hearing Care Through the Use of eHealth: Current Status and Future Possibilities. <i>Perspectives of the ASHA Special Interest Groups</i> , 2019, 4, 331-344.	0.8	7
34	Parental involvement in the care and intervention of children with hearing loss. <i>International Journal of Audiology</i> , 2018, 57, S15-S26.	1.7	21
35	The parents’ perspective of the early diagnostic period of their child with hearing loss: information and support. <i>International Journal of Audiology</i> , 2018, 57, S3-S14.	1.7	27
36	Speech pathology student experiences and perceptions of working with parents in a Hanen It Takes Two to Talk family-centred clinical placement. <i>Speech, Language and Hearing</i> , 2018, 21, 132-141.	1.0	2

#	ARTICLE	IF	CITATIONS
37	Factors influencing caregiver decision making to change the communication method of their child with hearing loss. <i>Deafness and Education International</i> , 2018, 20, 123-153.	1.3	9
38	Factors influencing parents'™ decisions about communication choices during early education of their child with hearing loss: a qualitative study. <i>Deafness and Education International</i> , 2018, 20, 154-181.	1.3	16
39	Parent-directed commentaries during children's hearing habilitation appointments: a practice in family-centred care. <i>International Journal of Language and Communication Disorders</i> , 2018, 53, 929-946.	1.5	9
40	The Nature of Patient- and Family-Centred Care for Young Adults Living with Chronic Disease and their Family Members: A Systematic Review. <i>International Journal of Integrated Care</i> , 2018, 18, 14.	0.2	15
41	Which outcomes are most important to people with aphasia and their families? an international nominal group technique study framed within the ICF. <i>Disability and Rehabilitation</i> , 2017, 39, 1364-1379.	1.8	156
42	Parent-implemented home therapy programmes for speech and language: a systematic review. <i>International Journal of Language and Communication Disorders</i> , 2017, 52, 253-269.	1.5	36
43	Communication outcomes of children with hearing loss enrolled in programs implementing different educational approaches: A systematic review. <i>Speech, Language and Hearing</i> , 2017, 20, 102-121.	1.0	10
44	What Is the International Classification of Functioning, Disability and Health and Why Is It Relevant to Audiology?. <i>Seminars in Hearing</i> , 2016, 37, 163-186.	1.2	30
45	The International Classification of Functioning, Disability and Health as a Framework for Providing Patient- and Family-Centered Audiological Care for Older Adults and Their Significant Others. <i>Seminars in Hearing</i> , 2016, 37, 187-199.	1.2	22
46	Exploratory investigation of communication management in residential aged care: a comparison of staff knowledge, documentation and observed resident-staff communication. <i>International Journal of Language and Communication Disorders</i> , 2016, 51, 296-309.	1.5	13
47	Third-party disability in carers of people with dysphagia following non-surgical management for head and neck cancer. <i>Disability and Rehabilitation</i> , 2016, 38, 462-471.	1.8	29
48	Service providers' perceptions of working in residential aged care: a qualitative cross-sectional analysis. <i>Ageing and Society</i> , 2015, 35, 1989-2010.	1.7	15
49	Service providers' perceptions of working in residential aged care: a qualitative cross-sectional analysis " CORRIGENDUM. <i>Ageing and Society</i> , 2015, 35, 2257-2257.	1.7	2
50	The Value of Qualitative Research in Dysphagia in the Head and Neck Cancer Population: What Can We Learn From the Survivors' Perspective?. <i>Perspectives on Swallowing and Swallowing Disorders (Dysphagia)</i> , 2015, 24, 99-106.	0.1	4
51	"This Is a Partnership Between All of Us" Audiologists' Perceptions of Family Member Involvement in Hearing Rehabilitation. <i>American Journal of Audiology</i> , 2015, 24, 536-548.	1.2	24
52	Impacts of an in-service education program on promoting language development in young children: A pilot study with early childhood educators. <i>Child Language Teaching and Therapy</i> , 2015, 31, 37-51.	0.9	18
53	Family member involvement in audiology appointments with older people with hearing impairment. <i>International Journal of Audiology</i> , 2015, 54, 70-76.	1.7	65
54	Communication changes following non-glottic head and neck cancer management: The perspectives of survivors and carers. <i>International Journal of Speech-Language Pathology</i> , 2015, 17, 263-272.	1.2	19

#	ARTICLE	IF	CITATIONS
55	Mealtime management in Australian residential aged care: Comparison of documented, reported and observed care. <i>International Journal of Speech-Language Pathology</i> , 2015, 17, 451-459.	1.2	17
56	Disagreements between clients and family members regarding clients's hearing and rehabilitation within audiology appointments for older adults. <i>Journal of Interactional Research in Communication Disorders</i> , 2014, 5, 217-244.	0.2	20
57	Language outcomes for children with cochlear implants enrolled in different communication programs. <i>Cochlear Implants International</i> , 2014, 15, 121-135.	1.2	45
58	Survivors's experiences of dysphagia-related services following head and neck cancer: Implications for clinical practice. <i>International Journal of Language and Communication Disorders</i> , 2014, 49, 354-363.	1.5	58
59	Application of the International Classification of Functioning, Disability and Health (ICF) to People with Dysphagia Following Non-surgical Head and Neck Cancer Management. <i>Dysphagia</i> , 2014, 29, 692-703.	1.8	26
60	Perspectives on Mealtime Management in Residential Aged Care: Insights From a Cross-Disciplinary Investigation. <i>Journal of Nutrition in Gerontology and Geriatrics</i> , 2014, 33, 325-339.	1.0	16
61	The lived experience of dysphagia following non-surgical treatment for head and neck cancer. <i>International Journal of Speech-Language Pathology</i> , 2014, 16, 282-289.	1.2	92
62	Describing the impact of aphasia on close family members using the ICF framework. <i>Disability and Rehabilitation</i> , 2014, 36, 1184-1195.	1.8	44
63	Carers's Experiences of Dysphagia in People Treated for Head and Neck Cancer: A Qualitative Study. <i>Dysphagia</i> , 2014, 29, 450-458.	1.8	73
64	Third-party disability in family members of people with aphasia: a systematic review. <i>Disability and Rehabilitation</i> , 2013, 35, 1324-1341.	1.8	51
65	A qualitative investigation into third-party functioning and third-party disability in aphasia: Positive and negative experiences of family members of people with aphasia. <i>Aphasiology</i> , 2013, 27, 828-848.	2.2	41
66	Parents and children with cerebral palsy discuss communication needs in hospital. <i>Developmental Neurorehabilitation</i> , 2013, 16, 363-374.	1.1	20
67	Using a Family-Centered Care Approach in Audiologic Rehabilitation for Adults with Hearing Impairment. <i>Perspectives on Aural Rehabilitation and Its Instrumentation</i> , 2013, 20, 83-90.	0.2	18
68	Factors Associated With Third-Party Disability in Spouses of Older People With Hearing Impairment. <i>Ear and Hearing</i> , 2012, 33, 698-708.	2.1	71
69	Challenging Behaviour, Mental Health, and Offending. <i>Journal of Intellectual Disability Research</i> , 2012, 56, 673-692.	2.0	1
70	A systematic review of the positive outcomes for family members of people with aphasia. <i>Evidence-Based Communication Assessment and Intervention</i> , 2012, 6, 135-149.	0.6	7
71	Third-Party Disability in Spouses of Older People With Hearing Impairment. <i>Perspectives on Aural Rehabilitation and Its Instrumentation</i> , 2011, 18, 3-12.	0.2	10
72	The effect of hearing impairment in older people on the spouse: Development and psychometric testing of The Significant Other Scale for Hearing Disability (SOS-HEAR). <i>International Journal of Audiology</i> , 2009, 48, 671-683.	1.7	63

#	ARTICLE	IF	CITATIONS
73	The ICF and third-party disability: Its application to spouses of older people with hearing impairment. <i>Disability and Rehabilitation</i> , 2009, 31, 2088-2100.	1.8	66
74	The effect of hearing impairment in older people on the spouse. <i>International Journal of Audiology</i> , 2008, 47, 141-151.	1.7	122
75	Relationships Between Hearing Disability, Quality of Life and Wellbeing in Older Community-Based Australians. <i>Australian and New Zealand Journal of Audiology</i> , 2008, 30, 99-112.	0.3	31
