#	ARTICLE	IF	CITATIONS
1	How advanced is the epidemiological transition in Papua New Guinea? New evidence from verbal autopsy. <i>International Journal of Epidemiology</i> , 2022, 50, 2058-2069.	1.9	3
2	Quantifying impacts of the COVID-19 pandemic on Australian life expectancy. <i>International Journal of Epidemiology</i> , 2022, 51, 1692-1695.	1.9	11
3	Are cause of death data for Shanghai fit for purpose? A retrospective study of medical records. <i>BMJ Open</i> , 2022, 12, e046185.	1.9	3
4	Assessment of the national and subnational completeness of death registration in Nepal. <i>BMC Public Health</i> , 2022, 22, 429.	2.9	3
5	Is the Rise in Reported Dementia Mortality Real? Analysis of Multiple-Cause-of-Death Data for Australia and the United States. <i>American Journal of Epidemiology</i> , 2022, 191, 1270-1279.	3.4	10
6	Mortality surveillance in Brazil: factors associated with certification of unspecified external cause of death. <i>Ciencia E Saude Coletiva</i> , 2022, 27, 1289-1300.	0.5	0
7	Routine mortality surveillance to identify the cause of death pattern for out-of-hospital adult (aged) Tj ETQq1 1 0.784314 rgBT /Overl 21, 491.	2.9	9
8	Estimating causes of out-of-hospital deaths in China: application of SmartVA methods. <i>Population Health Metrics</i> , 2021, 19, 25.	2.7	8
9	Monitoring progress with national and subnational health goals by integrating verbal autopsy and medically certified cause of death data. <i>BMJ Global Health</i> , 2021, 6, e005387.	4.7	9
10	How reliable are self-reported estimates of birth registration completeness? Comparison with vital statistics systems. <i>PLoS ONE</i> , 2021, 16, e0252140.	2.5	3
11	Generating age-specific mortality statistics from incomplete death registration data: two applications of the empirical completeness method. <i>Population Health Metrics</i> , 2021, 19, 29.	2.7	2
12	Diversity of epidemiological transition in the Pacific: Findings from the application of verbal autopsy in Papua New Guinea and the Solomon Islands. <i>The Lancet Regional Health - Western Pacific</i> , 2021, 11, 100150.	2.9	6
13	Have inequalities in completeness of death registration between states in India narrowed during two decades of civil registration system strengthening?. <i>International Journal for Equity in Health</i> , 2021, 20, 195.	3.5	11
14	Who dies where? Estimating the percentage of deaths that occur at home. <i>BMJ Global Health</i> , 2021, 6, e006766.	4.7	17
15	Are there sex differences in completeness of death registration and quality of cause of death statistics? Results from a global analysis. <i>BMJ Global Health</i> , 2021, 6, e006660.	4.7	9
16	An egalitarian society? Widening inequalities in premature mortality from non-communicable diseases in Australia, 2006-2016. <i>International Journal of Epidemiology</i> , 2021, 50, 783-796.	1.9	5
17	The impact of errors in medical certification on the accuracy of the underlying cause of death. <i>PLoS ONE</i> , 2021, 16, e0259667.	2.5	3
18	How has COVID-19 impacted the civil registration and vital statistics system in Loreto, Perú? Evidence using process mapping and qualitative analysis. <i>BMJ Open</i> , 2021, 11, e055024.	1.9	4

#	ARTICLE	IF	CITATIONS
19	Is training doctors in medical certification effective? Evidence from a prospective study in the Philippines. <i>Health Information Management Journal</i> , 2021, , 183335832110592.	1.2	0
20	Global age-sex-specific fertility, mortality, healthy life expectancy (HALE), and population estimates in 204 countries and territories, 1950â€“2019: a comprehensive demographic analysis for the Global Burden of Disease Study 2019. <i>Lancet, The</i> , 2020, 396, 1160-1203.	13.7	890
21	The role of overweight and obesity in adverse cardiovascular disease mortality trends: an analysis of multiple cause of death data from Australia and the USA. <i>BMC Medicine</i> , 2020, 18, 199.	5.5	50
22	Are cause of death data fit for purpose? evidence from 20 countries at different levels of socio-economic development. <i>PLoS ONE</i> , 2020, 15, e0237539.	2.5	19
23	Estimating completeness of national and subnational death reporting in Brazil: application of record linkage methods. <i>Population Health Metrics</i> , 2020, 18, 22.	2.7	20
24	Mortality surveillance and verbal autopsy strategies: experiences, challenges and lessons learnt in Papua New Guinea. <i>BMJ Global Health</i> , 2020, 5, e003747.	4.7	6
25	Decentralization of birth registration to Local Government in Tanzania: the association with completeness of birth registration and certification. <i>Global Health Action</i> , 2020, 13, 1831795.	1.9	1
26	Global Burden of Cardiovascular Diseases and Risk Factors, 1990â€“2019. <i>Journal of the American College of Cardiology</i> , 2020, 76, 2982-3021.	2.8	4,468
27	Addressing critical knowledge and capacity gaps to sustain CRVS system development. <i>BMC Medicine</i> , 2020, 18, 46.	5.5	1
28	Where there is no hospital: improving the notification of community deaths. <i>BMC Medicine</i> , 2020, 18, 65.	5.5	15
29	Reflection on modern methods: cause of death decomposition of cohort survival comparisons. <i>International Journal of Epidemiology</i> , 2020, 49, 1712-1718.	1.9	3
30	Measuring the completeness of death registration in 2844 Chinese counties in 2018. <i>BMC Medicine</i> , 2020, 18, 176.	5.5	24
31	Assessing the quality of cause of death data in six high-income countries: Australia, Canada, Denmark, Germany, Japan and Switzerland. <i>International Journal of Public Health</i> , 2020, 65, 17-28.	2.3	27
32	Widening inequalities in premature mortality in Australia, 2006-16. <i>Australian Population Studies</i> , 2020, 4, 37-56.	0.6	14
33	Is the long-term decline in cardiovascular-disease mortality in high-income countries over? Evidence from national vital statistics. <i>International Journal of Epidemiology</i> , 2019, 48, 1815-1823.	1.9	138
34	Patterns of All-Cause Mortality in Papua New Guinea, 2011. <i>Asia-Pacific Journal of Public Health</i> , 2019, 31, 315-324.	1.0	7
35	Estimating the pattern of causes of death in Papua New Guinea. <i>BMC Public Health</i> , 2019, 19, 1322.	2.9	15
36	Slower increase in life expectancy in Australia than in other high income countries: the contributions of age and cause of death. <i>Medical Journal of Australia</i> , 2019, 210, 403-409.	1.7	20

#	ARTICLE	IF	CITATIONS
37	Estimating Adult Mortality in Papua New Guinea, 2011. <i>Population Health Metrics</i> , 2019, 17, 4.	2.7	4
38	On the estimation of population cause-specific mortality fractions from in-hospital deaths. <i>BMC Medicine</i> , 2019, 17, 29.	5.5	4
39	The setting of the rising sun? A recent comparative history of life expectancy trends in Japan and Australia. <i>PLoS ONE</i> , 2019, 14, e0214578.	2.5	6
40	Investigation of garbage code deaths to improve the quality of cause-of-death in Brazil: results from a pilot study. <i>Revista Brasileira De Epidemiologia</i> , 2019, 22, e19004.supl.3.	0.8	2
41	Progress towards reducing premature NCD mortality. <i>The Lancet Global Health</i> , 2018, 6, e1254-e1255.	6.3	4
42	How useful are registered birth statistics for health and social policy? A global systematic assessment of the availability and quality of birth registration data. <i>Population Health Metrics</i> , 2018, 16, 21.	2.7	14
43	Saving lives through certifying deaths: assessing the impact of two interventions to improve cause of death data in Peru. <i>BMC Public Health</i> , 2018, 18, 1329.	2.9	34
44	Estimating the completeness of death registration: An empirical method. <i>PLoS ONE</i> , 2018, 13, e0197047.	2.5	66
45	Comparing tariff and medical assistant assigned causes of death from verbal autopsy interviews in Matlab, Bangladesh: implications for a health and demographic surveillance system. <i>Population Health Metrics</i> , 2018, 16, 10.	2.7	10
46	The quality of medical death certification of cause of death in hospitals in rural Bangladesh: impact of introducing the International Form of Medical Certificate of Cause of Death. <i>BMC Health Services Research</i> , 2017, 17, 688.	2.2	27
47	Unmet demand for training among mature age Australians: Prevalence, differentials and perceived causes. <i>Australasian Journal on Ageing</i> , 2016, 35, 36-41.	0.9	7
48	Measuring Subnational Under-5 Mortality. <i>Asia-Pacific Journal of Public Health</i> , 2014, 26, 367-377.	1.0	6
49	THE IMPACT OF THE STOPPING RULE ON SEX RATIO OF LAST BIRTHS IN VIETNAM. <i>Journal of Biosocial Science</i> , 2012, 44, 181-196.	1.2	11
50	Mortality from diabetic renal disease: a hidden epidemic. <i>European Journal of Public Health</i> , 2012, 22, 280-284.	0.3	23
51	Tobacco consumption and pancreatic cancer mortality: what can we conclude from historical data in Australia?. <i>European Journal of Public Health</i> , 2012, 22, 243-247.	0.3	7
52	Global and regional mortality from 235 causes of death for 20 age groups in 1990 and 2010: a systematic analysis for the Global Burden of Disease Study 2010. <i>Lancet</i> , The, 2012, 380, 2095-2128.	13.7	11,038
53	100 years of mortality due to chronic obstructive pulmonary disease in Australia: the role of tobacco consumption. <i>International Journal of Tuberculosis and Lung Disease</i> , 2012, 16, 1699-1705.	1.2	19
54	Access to Health Services and Early Age Mortality in Ende, Indonesia. <i>Indian Journal of Pediatrics</i> , 2012, 79, 612-618.	0.8	8

#	ARTICLE	IF	CITATIONS
55	Building the evidence base for health policy: guidelines for understanding and utilising basic health information. Pacific Health Dialog: A Publication of the Pacific Basin Officers Training Program and the Fiji School of Medicine, 2012, 18, 53-62.	0.2	0
56	Training workshop to improve the use of existing datasets. Pacific Health Dialog: A Publication of the Pacific Basin Officers Training Program and the Fiji School of Medicine, 2012, 18, 83-90.	0.2	0
57	Improving the utilisation of demographic and health surveys as a source of health information. Pacific Health Dialog: A Publication of the Pacific Basin Officers Training Program and the Fiji School of Medicine, 2012, 18, 103-19.	0.2	1
58	Trends in oral, pharyngeal and oesophageal cancer mortality in Australia: the comparative importance of tobacco, alcohol and other risk factors. Australian and New Zealand Journal of Public Health, 2011, 35, 212-219.	1.8	18
59	Reconstruction of long-term tobacco consumption trends in Australia and their relationship to lung cancer mortality. Cancer Causes and Control, 2011, 22, 1047-1053.	1.8	29
60	Utility of local health registers in measuring perinatal mortality: A case study in rural Indonesia. BMC Pregnancy and Childbirth, 2011, 11, 20.	2.4	16
61	Using Historical Vital Statistics to Predict the Distribution of Under-Five Mortality by Cause. Clinical Medicine and Research, 2011, 9, 66-74.	0.8	10
62	Tuberculosis mortality differentials in Indonesia during 2007-2008: evidence for health policy and monitoring. International Journal of Tuberculosis and Lung Disease, 2011, 15, 1608-1614.	1.2	11
63	Mortality in Central Java: results from the Indonesian mortality registration system strengthening project. BMC Research Notes, 2010, 3, 325.	1.4	21
64	Mortality patterns in Vietnam, 2006: Findings from a national verbal autopsy survey. BMC Research Notes, 2010, 3, 78.	1.4	36
65	Cause-of-death ascertainment for deaths that occur outside hospitals in Thailand: application of verbal autopsy methods. Population Health Metrics, 2010, 8, 13.	2.7	49
66	Estimated causes of death in Thailand, 2005: implications for health policy. Population Health Metrics, 2010, 8, 14.	2.7	94
67	MATERNAL SOCIOECONOMIC AND DEMOGRAPHIC FACTORS ASSOCIATED WITH THE SEX RATIO AT BIRTH IN VIETNAM. Journal of Biosocial Science, 2010, 42, 757-772.	1.2	8
68	ASSESSING THE QUALITY OF DATA FOR ANALYSING THE SEX RATIO AT BIRTH IN VIET NAM. Asian Population Studies, 2010, 6, 263-287.	1.5	10
69	Changes in certification of diabetes with cardiovascular diseases increased reported diabetes mortality in Australia and the United States. Journal of Clinical Epidemiology, 2010, 63, 199-204.	5.0	26
70	UNMET NEED FOR CONTRACEPTION AMONG HIV-POSITIVE WOMEN IN LESOTHO AND IMPLICATIONS FOR MOTHER-TO-CHILD TRANSMISSION. Journal of Biosocial Science, 2009, 41, 269-278.	1.2	29
71	Men's condom use in higher-risk sex: Trends in five sub-Saharan African countries. Journal of Population Research, 2008, 25, 51-62.	1.1	7
72	HIV STATUS AND AGE AT FIRST MARRIAGE AMONG WOMEN IN CAMEROON. Journal of Biosocial Science, 2008, 40, 743-60.	1.2	13

#	ARTICLE	IF	CITATIONS
73	BIRTH ATTENDANT UTILIZATION IN THE INDONESIAN MEGA-URBAN REGIONS OF JABODETABEK, BANDUNG AND SURABAYA. <i>Asian Population Studies</i> , 2007, 3, 187-205.	1.5	2
74	Assessing the Diagnostic Accuracy of Physicians for Home Death Certification in Shanghai: Application of SmartVA. <i>Frontiers in Public Health</i> , 0, 10, .	2.7	2
