#	ARTICLE	IF	CITATIONS
1	Defining the <i>p</i>-factor: an empirical test of five leading theories. <i>Psychological Medicine</i> , 2023, 53, 2732-2743.	2.7	11
2	Assessment of subjective sleep quality and issues in aggression: Intermittent Explosive Disorder compared with psychiatric and healthy controls. <i>Comprehensive Psychiatry</i> , 2022, 112, 152270.	1.5	1
3	Gene expression in peripheral blood mononuclear cells in impulsive aggression: Intermittent explosive disorder compared with non-aggressive healthy and psychiatric controls. <i>Psychoneuroendocrinology</i> , 2022, 136, 105453.	1.3	3
4	Associations of aggression and use of caffeine, alcohol and nicotine in healthy and aggressive individuals. <i>Journal of Psychiatric Research</i> , 2022, 146, 21-27.	1.5	5
5	Diabetes distress, emotional regulation, HbA1c in people with diabetes and A controlled pilot study of an emotion-focused behavioral therapy intervention in adults with type 2 diabetes. <i>Primary Care Diabetes</i> , 2022, , .	0.9	2
6	Neuronal responses in social-emotional information processing in impulsive aggressive individuals. <i>Neuropsychopharmacology</i> , 2022, , .	2.8	1
7	Cognitive-Behavioral Versus Supportive Psychotherapy for Intermittent Explosive Disorder: A Randomized Controlled Trial. <i>Behavior Therapy</i> , 2022, 53, 1133-1146.	1.3	2
8	Personality disorder and mild traumatic brain injury. <i>Personality and Mental Health</i> , 2022, 16, 331-337.	0.6	4
9	The development of an fMRI protocol to investigate vmPFC network functioning underlying the generalization of behavioral control. <i>Psychiatry Research - Neuroimaging</i> , 2021, 307, 111197.	0.9	4
10	Emotional Regulation and Diabetes Distress in Adults With Type 1 and Type 2 Diabetes. <i>Diabetes Care</i> , 2021, 44, 20-25.	4.3	16
11	Evidence for the taxonic latent structure for DSM-5 intermittent explosive disorder in adults. <i>Psychological Medicine</i> , 2021, 51, 54-61.	2.7	2
12	The Role of 5-HT2B Receptor on Aggression and Drugs of Abuse. <i>Receptors</i> , 2021, , 291-307.	0.2	0
13	Neuronal responses to adverse social threat in healthy human subjects. <i>Journal of Psychiatric Research</i> , 2021, 136, 47-53.	1.5	5
14	Emotion attribution in intermittent explosive disorder. <i>Comprehensive Psychiatry</i> , 2021, 106, 152229.	1.5	2
15	Neural responses to induced emotion and response to social threat in intermittent explosive disorder. <i>Psychiatry Research - Neuroimaging</i> , 2021, 318, 111388.	0.9	1
16	Potential Mood Variation Following a Behavioral Analogue of Self-Injurious Behavior. <i>Archives of Suicide Research</i> , 2020, 24, S113-S125.	1.2	2
17	Comorbidity of disruptive behavior disorders and intermittent explosive disorder. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2020, 14, 24.	1.2	6
18	History of childhood abuse and alcohol use disorder: Relationship with intermittent explosive disorder and intoxicated aggression frequency. <i>Journal of Psychiatric Research</i> , 2020, 125, 38-44.	1.5	12

#	ARTICLE	IF	CITATIONS
19	The Overt Aggression Scale Modified (OAS-M) for clinical trials targeting impulsive aggression and intermittent explosive disorder: Validity, reliability, and correlates. <i>Journal of Psychiatric Research</i> , 2020, 124, 50-57.	1.5	28
20	Narcissistic and Borderline Personality Disorders: Relationship With Oxidative Stress. <i>Journal of Personality Disorders</i> , 2020, 34, 6-24.	0.8	11
21	Disordered Aggression and Violence in the United States. <i>Journal of Clinical Psychiatry</i> , 2020, 81, .	1.1	13
22	Translational Medicine Strategies for Drug Development for Impulsive Aggression. <i>Handbook of Behavioral Neuroscience</i> , 2019, 29, 403-418.	0.7	0
23	Pharmacologic Treatment of Intermittent Explosive Disorder. , 2019, , 221-233.		2
24	Aggression and Intermittent Explosive Disorder: Medical and Lifestyle Correlates. , 2019, , 131-143.		0
25	Psychiatric comorbidity in Intermittent Explosive Disorder. <i>Journal of Psychiatric Research</i> , 2019, 118, 38-43.	1.5	10
26	New Hope for Patients with Major Depressive Disorder?. <i>New England Journal of Medicine</i> , 2019, 381, 980-981.	13.9	6
27	Role of the kynurenine pathway and the endocannabinoid system as modulators of inflammation and personality traits. <i>Psychoneuroendocrinology</i> , 2019, 110, 104434.	1.3	9
28	Aggression directed towards others vs. aggression directed towards the self: clinical differences between intermittent explosive disorder and nonsuicidal self-injury. <i>Revista Brasileira De Psiquiatria</i> , 2019, 41, 303-309.	0.9	4
29	Psychiatric Comorbidity in Intermittent Explosive Disorder. , 2019, , 67-84.		2
30	Social Cognition in Intermittent Explosive Disorder. , 2019, , 145-156.		1
31	Neuroimaging in Aggression and IED. , 2019, , 111-130.		2
32	Neurotransmitters and Intermittent Explosive Disorder. , 2019, , 87-110.		4
33	Phenomenology of Impulsive Aggression and Intermittent Explosive Disorder. , 2019, , 37-65.		8
34	5-HT _{2c} agonist, lorcaserin, reduces aggressive responding in intermittent explosive disorder: A pilot study. <i>Human Psychopharmacology</i> , 2019, 34, e2714.	0.7	9
35	Subtypes of aggression in intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2019, 109, 164-172.	1.5	20
36	Identification and regulation of emotions in adults of varying weight statuses. <i>Journal of Health Psychology</i> , 2019, 24, 941-952.	1.3	6

#	ARTICLE	IF	CITATIONS
37	Clinical Approach and Assessment of Intermittent Explosive Disorder. , 2019, , 185-197.		0
38	Mild Traumatic Brain Injury and Aggression, Impulsivity, and History of Other- and Self-Directed Aggression. Journal of Neuropsychiatry and Clinical Neurosciences, 2018, 30, 220-227.	0.9	25
39	Psychosocial impairment in DSM-5 intermittent explosive disorder. Psychiatry Research, 2018, 264, 91-95.	1.7	22
40	Genome-Wide DNA Methylation Changes Associated with Intermittent Explosive Disorder: A Gene-Based Functional Enrichment Analysis. International Journal of Neuropsychopharmacology, 2018, 21, 12-20.	1.0	17
41	DSM-5 intermittent explosive disorder: Relationship with Disruptive Mood Dysregulation Disorder. Comprehensive Psychiatry, 2018, 84, 118-121.	1.5	8
42	Circulating endocannabinoids and affect regulation in human subjects. Psychoneuroendocrinology, 2018, 92, 66-71.	1.3	25
43	Reduced frontal grey matter, life history of aggression, and underlying genetic influence. Psychiatry Research - Neuroimaging, 2018, 271, 126-134.	0.9	22
44	Social desirability, deceptive reporting, and awareness of problematic aggression in intermittent explosive disorder compared with non-aggressive healthy and psychiatric controls. Psychiatry Research, 2018, 270, 20-25.	1.7	6
45	Comorbidity of personality disorder with intermittent explosive disorder. Journal of Psychiatric Research, 2018, 106, 15-21.	1.5	11
46	Development of a social emotional information processing assessment for adults (SEIPâ€œ). Aggressive Behavior, 2017, 43, 47-59.	1.5	24
47	Neural Correlates of Aggressive Behavior in Real Time: a Review of fMRI Studies of Laboratory Reactive Aggression. Current Behavioral Neuroscience Reports, 2017, 4, 138-150.	0.6	60
48	Intermittent explosive disorder and eating disorders: Analysis of national comorbidity and research samples. Comprehensive Psychiatry, 2017, 75, 62-67.	1.5	12
49	Development of a screening questionnaire for DSM-5 intermittent explosive disorder (IED-SQ). Comprehensive Psychiatry, 2017, 74, 21-26.	1.5	9
50	Testosterone and Aggression: More Than Just Biology?. Biological Psychiatry, 2017, 82, 234.	0.7	3
51	Social emotional information processing in adults: Development and psychometrics of a computerized video assessment in healthy controls and aggressive individuals. Psychiatry Research, 2017, 248, 40-47.	1.7	12
52	Intermittent Explosive Disorder and Substance Use Disorder. Journal of Clinical Psychiatry, 2017, 78, 697-702.	1.1	28
53	Elevated Plasma Oxidative Stress Markers in Individuals With Intermittent Explosive Disorder and Correlation With Aggression in Humans. Biological Psychiatry, 2016, 79, 127-135.	0.7	47
54	GH response to intravenous clonidine challenge correlates with history of childhood trauma in personality disorder. Journal of Psychiatric Research, 2016, 76, 38-43.	1.5	5

#	ARTICLE	IF	CITATIONS
55	Defense styles in Intermittent Explosive Disorder. <i>Psychiatry Research</i> , 2016, 238, 137-142.	1.7	5
56	Amygdala hyperactivation to angry faces in intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2016, 79, 34-41.	1.5	74
57	Relationships between perceived emotional intelligence, aggression, and impulsivity in a population-based adult sample. <i>Psychiatry Research</i> , 2016, 246, 255-260.	1.7	13
58	Differential fMRI BOLD responses in amygdala in intermittent explosive disorder as a function of past Alcohol Use Disorder. <i>Psychiatry Research - Neuroimaging</i> , 2016, 257, 5-10.	0.9	12
59	Social cognition in Intermittent Explosive Disorder and aggression. <i>Journal of Psychiatric Research</i> , 2016, 83, 140-150.	1.5	33
60	Comorbid intermittent explosive disorder and posttraumatic stress disorder: Clinical correlates and relationship to suicidal behavior. <i>Comprehensive Psychiatry</i> , 2016, 70, 125-133.	1.5	18
61	Substance use disorders: Relationship with intermittent explosive disorder and with aggression, anger, and impulsivity. <i>Journal of Psychiatric Research</i> , 2016, 81, 127-132.	1.5	48
62	White Matter Integrity Reductions in Intermittent Explosive Disorder. <i>Neuropsychopharmacology</i> , 2016, 41, 2697-2703.	2.8	36
63	Tryptophan, kynurenine, and kynurenine metabolites: Relationship to lifetime aggression and inflammatory markers in human subjects. <i>Psychoneuroendocrinology</i> , 2016, 71, 189-196.	1.3	32
64	HbA1c levels as a function of emotional regulation and emotional intelligence in patients with type 2 diabetes. <i>Primary Care Diabetes</i> , 2016, 10, 334-341.	0.9	19
65	Frontolimbic Morphometric Abnormalities in Intermittent Explosive Disorder and Aggression. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2016, 1, 32-38.	1.1	22
66	Effects of Escitalopram Administration on Face Processing in Intermittent Explosive Disorder: An fMRI Study. <i>Neuropsychopharmacology</i> , 2016, 41, 590-597.	2.8	27
67	>Toxoplasma gondii; Infection. <i>Journal of Clinical Psychiatry</i> , 2016, 77, 334-341.	1.1	58
68	Serotonin and impulsive aggression. <i>CNS Spectrums</i> , 2015, 20, 295-302.	0.7	116
69	Neurobiology of Impulsive Aggression. , 2015, , .		0
70	Verbal versus physical aggression in Intermittent Explosive Disorder. <i>Psychiatry Research</i> , 2015, 225, 531-539.	1.7	15
71	Emotion regulation deficits in intermittent explosive disorder. <i>Aggressive Behavior</i> , 2015, 41, 25-33.	1.5	34
72	Cerebrospinal Fluid Inflammatory Cytokines and Aggression in Personality Disordered Subjects. <i>International Journal of Neuropsychopharmacology</i> , 2015, 18, pyv001-pyv001.	1.0	31

#	ARTICLE	IF	CITATIONS
73	Morphometric analysis of amygdala and hippocampus shape in impulsively aggressive and healthy control subjects. <i>Journal of Psychiatric Research</i> , 2015, 69, 80-86.	1.5	30
74	The nature of impulsive aggression: Commentary on "Aggression in borderline personality disorder" A multidimensional model. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2015, 6, 292-293.	1.0	3
75	Inflammatory markers and chronic exposure to fluoxetine, divalproex, and placebo in intermittent explosive disorder. <i>Psychiatry Research</i> , 2015, 229, 844-849.	1.7	18
76	Childhood trauma and parental style: Relationship with markers of inflammation, oxidative stress, and aggression in healthy and personality disordered subjects. <i>Biological Psychology</i> , 2015, 112, 56-65.	1.1	37
77	Cerebrospinal fluid and plasma C-reactive protein and aggression in personality-disordered subjects: a pilot study. <i>Journal of Neural Transmission</i> , 2015, 122, 321-326.	1.4	19
78	Emotional intelligence and impulsive aggression in Intermittent Explosive Disorder. <i>Journal of Psychiatric Research</i> , 2015, 61, 135-140.	1.5	15
79	The experience of aggressive outbursts in Intermittent Explosive Disorder. <i>Psychiatry Research</i> , 2015, 225, 710-715.	1.7	42
80	Self-harm behavior among individuals with intermittent explosive disorder and personality disorders. <i>Journal of Psychiatric Research</i> , 2015, 60, 125-131.	1.5	27
81	Elevated Plasma Inflammatory Markers in Individuals With Intermittent Explosive Disorder and Correlation With Aggression in Humans. <i>JAMA Psychiatry</i> , 2014, 71, 158.	6.0	124
82	Relationship between psychopathy, aggression, anger, impulsivity, and intermittent explosive disorder. <i>Aggressive Behavior</i> , 2014, 40, 526-536.	1.5	55
83	Intermittent Explosive Disorder and aversive parental care. <i>Psychiatry Research</i> , 2014, 220, 477-482.	1.7	12
84	Validity of the new A1 and A2 criteria for DSM-5 intermittent explosive disorder. <i>Comprehensive Psychiatry</i> , 2014, 55, 260-267.	1.5	22
85	History of childhood maltreatment in Intermittent Explosive Disorder and suicidal behavior. <i>Journal of Psychiatric Research</i> , 2014, 56, 10-17.	1.5	29
86	The latent structure of oppositional defiant disorder in children and adults. <i>Journal of Psychiatric Research</i> , 2013, 47, 1932-1939.	1.5	23
87	Cerebrospinal fluid glutamate concentration correlates with impulsive aggression in human subjects. <i>Journal of Psychiatric Research</i> , 2013, 47, 1247-1253.	1.5	62
88	Cerebrospinal fluid 5-hydroxyindolacetic acid correlates directly with negative affective intensity, but not affective lability, in human subjects. <i>International Journal of Neuropsychopharmacology</i> , 2013, 16, 261-269.	1.0	1
89	A novel V1a receptor antagonist blocks vasopressin-induced changes in the CNS response to emotional stimuli: an fMRI study. <i>Frontiers in Systems Neuroscience</i> , 2013, 7, 100.	1.2	38
90	Modulation of Central Serotonin Affects Emotional Information Processing in Impulsive Aggressive Personality Disorder. <i>Journal of Clinical Psychopharmacology</i> , 2012, 32, 329-335.	0.7	13

#	ARTICLE	IF	CITATIONS
91	Función corticolímbica en la conducta agresiva impulsiva. <i>Psiquiatría Biológica</i> , 2012, 19, 46-53.	0.0	3
92	Inter-relationship between different platelet measures of 5-HT and their relationship to aggression in human subjects. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2012, 36, 277-281.	2.5	5
93	Cerebrospinal Fluid Substance P-Like Immunoreactivity Correlates with Aggression in Personality Disordered Subjects. <i>Biological Psychiatry</i> , 2012, 72, 238-243.	0.7	24
94	Cerebrospinal Fluid Neuropeptide Y-like Immunoreactivity Correlates with Impulsive Aggression in Human Subjects. <i>Biological Psychiatry</i> , 2012, 72, 997-1003.	0.7	33
95	What Is the Nature of Serotonergic Abnormalities in Human Aggression?. <i>Biological Psychiatry</i> , 2012, 72, 980-981.	0.7	9
96	Personality disorder—“not otherwise specified” evidence of validity and consideration for DSM-5. <i>Comprehensive Psychiatry</i> , 2012, 53, 907-914.	1.5	50
97	Intermittent Explosive Disorder as a Disorder of Impulsive Aggression for DSM-5. <i>American Journal of Psychiatry</i> , 2012, 169, 577-588.	4.0	156
98	Affective intensity and lability: Heritability in adult male twins. <i>Journal of Affective Disorders</i> , 2012, 136, 1011-1016.	2.0	22
99	Life history of impulsive behavior: Development and validation of a new questionnaire. <i>Journal of Psychiatric Research</i> , 2012, 46, 346-352.	1.5	38
100	The latent structure of attention deficit/hyperactivity disorder in an adult sample. <i>Journal of Psychiatric Research</i> , 2012, 46, 782-789.	1.5	27
101	Hostile Attributional Bias, Negative Emotional Responding, and Aggression in Adults: Moderating Effects of Gender and Impulsivity. <i>Aggressive Behavior</i> , 2012, 38, 47-63.	1.5	58
102	Corticolimbic Function in Impulsive Aggressive Behavior. <i>Biological Psychiatry</i> , 2011, 69, 1153-1159.	0.7	193
103	The Neurochemistry of Human Aggression. <i>Advances in Genetics</i> , 2011, 75, 151-169.	0.8	79
104	Intermittent explosive disorder: development of integrated research criteria for Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition. <i>Comprehensive Psychiatry</i> , 2011, 52, 119-125.	1.5	49
105	Characterizing eating disorders in a personality disorders sample. <i>Psychiatry Research</i> , 2011, 185, 427-432.	1.7	15
106	Personality predictors of antiaggressive response to fluoxetine. <i>International Clinical Psychopharmacology</i> , 2011, 26, 278-283.	0.9	11
107	Genomic architecture of aggression: Rare copy number variants in intermittent explosive disorder. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2011, 156, 808-816.	1.1	11
108	Lifetime History of Cigarette Smoking Associated with Aggression and Impulsivity in Both Healthy and Personality Disordered Volunteers. <i>Journal of Personality Disorders</i> , 2011, 25, 645-655.	0.8	11

#	ARTICLE	IF	CITATIONS
109	Multivariate Behavior Genetic Analyses of Aggressive Behavior Subtypes. <i>Behavior Genetics</i> , 2010, 40, 603-617.	1.4	39
110	Cerebrospinal fluid 5-hydroxyindolacetic acid and homovanillic acid: reciprocal relationships with impulsive aggression in human subjects. <i>Journal of Neural Transmission</i> , 2010, 117, 241-248.	1.4	46
111	Inverse relationship between numbers of 5-HT transporter binding sites and life history of aggression and intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2010, 44, 137-142.	1.5	37
112	Proactive, reactive, and romantic relational aggression in adulthood: Measurement, predictive validity, gender differences, and association with Intermittent Explosive Disorder. <i>Journal of Psychiatric Research</i> , 2010, 44, 393-404.	1.5	149
113	Cortisol responses to ipsapirone challenge correlate with aggression, while basal cortisol levels correlate with impulsivity, in personality disorder and healthy volunteer subjects. <i>Journal of Psychiatric Research</i> , 2010, 44, 874-880.	1.5	23
114	A family history study of intermittent explosive disorder. <i>Journal of Psychiatric Research</i> , 2010, 44, 1101-1105.	1.5	24
115	Aggression, Suicidality, and Intermittent Explosive Disorder: Serotonergic Correlates in Personality Disorder and Healthy Control Subjects. <i>Neuropsychopharmacology</i> , 2010, 35, 435-444.	2.8	75
116	GH response to intravenous clonidine challenge: Absence of relationship with behavioral irritability, aggression, or impulsivity in human subjects. <i>Psychiatry Research</i> , 2010, 178, 443-445.	1.7	5
117	Evaluation of behavioral impulsivity and aggression tasks as endophenotypes for borderline personality disorder. <i>Journal of Psychiatric Research</i> , 2009, 43, 1036-1048.	1.5	111
118	Attributional and emotional responses to socially ambiguous cues: Validation of a new assessment of social/emotional information processing in healthy adults and impulsive aggressive patients. <i>Journal of Psychiatric Research</i> , 2009, 43, 915-925.	1.5	116
119	Cerebrospinal fluid oxytocin, life history of aggression, and personality disorder. <i>Psychoneuroendocrinology</i> , 2009, 34, 1567-1573.	1.3	144
120	Acute tryptophan depletion and self-injurious behavior in aggressive patients and healthy volunteers. <i>Psychopharmacology</i> , 2009, 203, 53-61.	1.5	32
121	Effects of Acute Alcohol Intoxication and Paroxetine on Aggression in Men. <i>Alcoholism: Clinical and Experimental Research</i> , 2009, 33, 581-590.	1.4	15
122	Serotonin Augmentation Reduces Response to Attack in Aggressive Individuals. <i>Psychological Science</i> , 2009, 20, 714-720.	1.8	67
123	A Double-Blind, Randomized, Placebo-Controlled Trial of Fluoxetine in Patients With Intermittent Explosive Disorder. <i>Journal of Clinical Psychiatry</i> , 2009, 70, 653-662.	1.1	135
124	Initial association of <i>NR2E1</i> with bipolar disorder and identification of candidate mutations in bipolar disorder, schizophrenia, and aggression through resequencing. <i>American Journal of Medical Genetics Part B: Neuropsychiatric Genetics</i> , 2008, 147B, 880-889.	1.1	36
125	The relationship between impulsive verbal aggression and intermittent explosive disorder. <i>Aggressive Behavior</i> , 2008, 34, 51-60.	1.5	41
126	Prevalence of suicidal and self-injurious behavior among subjects with intermittent explosive disorder. <i>Psychiatry Research</i> , 2008, 158, 248-250.	1.7	28

#	ARTICLE	IF	CITATIONS
127	Placebo-controlled, randomized trial of fluoxetine in the treatment of aggression in male intimate partner abusers. <i>International Clinical Psychopharmacology</i> , 2008, 23, 337-341.	0.9	17
128	Cognitive-behavioral therapy for intermittent explosive disorder: A pilot randomized clinical trial.. <i>Journal of Consulting and Clinical Psychology</i> , 2008, 76, 876-886.	1.6	89
129	Plasma homovanillic acid correlates inversely with history of learning problems in healthy volunteer and personality disordered subjects. <i>Psychiatry Research</i> , 2007, 149, 297-302.	1.7	6
130	Consensus Report on Impulsive Aggression as a Symptom Across Diagnostic Categories in Child Psychiatry. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2007, 46, 309-322.	0.3	142
131	Amygdala and Orbitofrontal Reactivity to Social Threat in Individuals with Impulsive Aggression. <i>Biological Psychiatry</i> , 2007, 62, 168-178.	0.7	494
132	CSF testosterone: Relationship to aggression, impulsivity, and venturesomeness in adult males with personality disorder. <i>Journal of Psychiatric Research</i> , 2007, 41, 488-492.	1.5	63
133	Association of C-reactive protein elevation with trait aggression and hostility in personality disordered subjects: A pilot study. <i>Journal of Psychiatric Research</i> , 2006, 40, 460-465.	1.5	64
134	Intermittent explosive disorder-integrated research diagnostic criteria: Convergent and discriminant validity. <i>Journal of Psychiatric Research</i> , 2006, 40, 231-242.	1.5	71
135	The Prevalence and Correlates of DSM-IV Intermittent Explosive Disorder in the National Comorbidity Survey Replication. <i>Archives of General Psychiatry</i> , 2006, 63, 669.	13.8	327
136	PennTwins: A Population-Based Cohort for Twin Studies. <i>Twin Research and Human Genetics</i> , 2006, 9, 998-1005.	0.3	16
137	PennTwins: a population-based cohort for twin studies. <i>Twin Research and Human Genetics</i> , 2006, 9, 998-1005.	0.3	8
138	Developmental psychopathology and neurobiology of aggression. <i>Development and Psychopathology</i> , 2005, 17, 1151-71.	1.4	47
139	High prevalence of personality disorders among healthy volunteers for research: implications for control group bias. <i>Journal of Psychiatric Research</i> , 2005, 39, 421-430.	1.5	25
140	Memories of childhood abuse in borderline personality disorder. <i>Current Psychiatry Reports</i> , 2005, 7, 39-39.	2.1	0
141	Striatal amphetamine-induced dopamine release in schizotypal personality disorder. <i>Current Psychiatry Reports</i> , 2005, 7, 40-40.	2.1	0
142	Neuroimaging and personality disorders. <i>Current Psychiatry Reports</i> , 2005, 7, 65-72.	2.1	49
143	Molecular genetics of personality. <i>Current Psychiatry Reports</i> , 2005, 7, 73-80.	2.1	41
