#	ARTICLE	IF	CITATIONS
1	EnTraP: A factorial randomised controlled trial embedded within world hip trauma evaluation eight COPAL investigating the effect of an enhanced trainee principal investigator package and digital nudge on recruitment rates. <i>Research Methods in Medicine &amp; Health Sciences</i> , 2022, 3, 33-41.	1.2	1
2	The effectiveness of behaviour change interventions delivered by non-dental health workers in promoting children's oral health: A systematic review and meta-analysis. <i>PLoS ONE</i> , 2022, 17, e0262118.	2.5	4
3	Recruitment patterns in multicentre randomised trials fit more closely to Price's Law than the Pareto Principle: A review of trials funded and published by the United Kingdom Health Technology Assessment Programme. <i>Contemporary Clinical Trials</i> , 2022, 113, 106665.	1.8	6
4	Scaling up Quality Improvement for Surgical Teams (QIST) – avoiding surgical site infection and anaemia at the time of surgery: a cluster randomised controlled trial of the effectiveness of quality improvement collaboratives to introduce change in the NHS. <i>Implementation Science</i> , 2022, 17, 22.	6.9	1
5	Relationship between age, workplace slips and the effectiveness of slip-resistant footwear among healthcare workers. <i>Injury Prevention</i> , 2022, 28, 256-258.	2.4	0
6	The PROMoting the USE of SWATs (PROMETHEUS) programme: Lessons learnt and future developments for SWATs. <i>Research Methods in Medicine &amp; Health Sciences</i> , 2022, 3, 100-106.	1.2	7
7	Envelope use and reporting in randomised controlled trials: A guide for researchers. <i>Research Methods in Medicine &amp; Health Sciences</i> , 2021, 2, 2-11.	1.2	4
8	Evaluating – Enhancing Pragmatic Language skills for Young children with Social communication impairments – (E-PLAYS): a feasibility cluster-randomised controlled trial. <i>Pilot and Feasibility Studies</i> , 2021, 7, 5.	1.2	3
9	Slip-resistant footwear to reduce slips among health-care workers: the SSHeW RCT. <i>Public Health Research</i> , 2021, 9, 1-150.	1.3	1
10	A multicentre, randomized, parallel group, superiority study to compare the clinical effectiveness and cost-effectiveness of external frame versus internal locking plate for complete articular pilon fracture fixation in adults. <i>Bone &amp; Joint Open</i> , 2021, 2, 150-163.	2.6	10
11	CONSORT extension for the reporting of randomised controlled trials conducted using cohorts and routinely collected data (CONSORT-ROUTINE): checklist with explanation and elaboration. <i>BMJ</i> , The, 2021, 373, n857.	6.0	65
12	Methods and results used in the development of a consensus-driven extension to the Consolidated Standards of Reporting Trials (CONSORT) statement for trials conducted using cohorts and routinely collected data (CONSORT-ROUTINE). <i>BMJ Open</i> , 2021, 11, e049093.	1.9	9
13	Yoga for older adults with multimorbidity (the Gentle Years Yoga Trial): study protocol for a randomised controlled trial. <i>Trials</i> , 2021, 22, 269.	1.6	5
14	A 2x2 randomised factorial SWAT of the use of a pen and small, financial incentive to improve recruitment rates in a randomised controlled trial of yoga for older adults with multimorbidity. <i>F1000Research</i> , 2021, 10, 326.	1.6	2
15	Randomised study within a trial (SWAT) to evaluate personalised versus standard text message prompts for increasing trial participant response to postal questionnaires (PROMPTS). <i>Trials</i> , 2021, 22, 502.	1.6	6
16	Home environmental assessments and modification delivered by occupational therapists to reduce falls in people aged 65 years and over: the OTIS RCT. <i>Health Technology Assessment</i> , 2021, 25, 1-118.	2.8	8
17	Cost-effectiveness of hydroxychloroquine versus placebo for hand osteoarthritis: economic evaluation of the HERO trial. <i>F1000Research</i> , 2021, 10, 821.	1.6	2
18	Cost-effectiveness of surgical treatments compared with early structured physiotherapy in secondary care for adults with primary frozen shoulder. <i>Bone &amp; Joint Open</i> , 2021, 2, 685-695.	2.6	2

#	ARTICLE	IF	CITATIONS
19	A review found small variable blocking schemes may not protect against selection bias in randomised controlled trials. <i>Journal of Clinical Epidemiology</i> , 2021, 141, 90-98.	5.0	2
20	Can we achieve better recruitment by providing better information? Meta-analysis of "studies within a trial" (SWATs) of optimised participant information sheets. <i>BMC Medicine</i> , 2021, 19, 218.	5.5	12
21	Slip-resistant footwear reduces slips among National Health Service workers in England: a randomised controlled trial. <i>Occupational and Environmental Medicine</i> , 2021, 78, 472-478.	2.8	6
22	Negative pressure wound therapy versus usual care for surgical wounds healing by secondary intention (SWHSI-2 trial): study protocol for a pragmatic, multicentre, cross surgical specialty, randomised controlled trial. <i>Trials</i> , 2021, 22, 739.	1.6	2
23	Surgery versus conservative management of stable thoracolumbar fracture: the PRESTO feasibility RCT. <i>Health Technology Assessment</i> , 2021, 25, 1-126.	2.8	4
24	Bah humbug! Association between sending Christmas cards to trial participants and trial retention: randomised study within a trial conducted simultaneously across eight host trials. <i>BMJ, The</i> , 2021, 375, e067742.	6.0	6
25	Trial Forge Guidance 2: how to decide if a further Study Within A Trial (SWAT) is needed. <i>Trials</i> , 2020, 21, 33.	1.6	29
26	Poor allocation concealment methods are associated with heterogeneity in age and statistical significance of the primary outcome: Review of recent trials published in four general medical journals. <i>Journal of Evaluation in Clinical Practice</i> , 2020, 26, 1316-1319.	1.8	2
27	Using pairwise randomisation to reduce the risk of bias. <i>Research Methods in Medicine &amp; Health Sciences</i> , 2020, 1, 2-6.	1.2	3
28	Management of adults with primary frozen shoulder in secondary care (UK FROST): a multicentre, pragmatic, three-arm, superiority randomised clinical trial. <i>Lancet, The</i> , 2020, 396, 977-989.	13.7	97
29	Surgery versus cast immobilisation for adults with a bicortical fracture of the scaphoid waist (SWIFFT): a pragmatic, multicentre, open-label, randomised superiority trial. <i>Lancet, The</i> , 2020, 396, 390-401.	13.7	62
30	Yorkshire Lung Screening Trial (YLST): protocol for a randomised controlled trial to evaluate invitation to community-based low-dose CT screening for lung cancer versus usual care in a targeted population at risk. <i>BMJ Open</i> , 2020, 10, e037075.	1.9	48
31	Does time to surgery affect patient-reported outcome in proximal humeral fractures? A subanalysis of the PROFHER randomized clinical trial. <i>Bone and Joint Journal</i> , 2020, 102-B, 33-41.	4.4	7
32	Pragmatic randomised evaluation of stable thoracolumbar fracture treatment outcomes (PRESTO): study protocol for a randomised controlled feasibility trial combined with a qualitative study and survey. <i>Pilot and Feasibility Studies</i> , 2020, 6, 38.	1.2	3
33	Timing of electronic reminders did not improve trial participant questionnaire response: a randomized trial and meta-analyses. <i>Journal of Clinical Epidemiology</i> , 2020, 122, 70-77.	5.0	9
34	The smoking cessation in pregnancy incentives trial (CPIT): study protocol for a phase III randomised controlled trial. <i>Trials</i> , 2020, 21, 183.	1.6	14
35	Avoiding biased exclusions in cluster trials. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2020, 99, 145-146.	2.8	2
36	Scaling up Quality Improvement for Surgical Teams (QIST) "avoiding surgical site infection and anaemia at the time of surgery: protocol for a cluster randomised controlled trial. <i>Trials</i> , 2020, 21, 234.	1.6	4

#	ARTICLE	IF	CITATIONS
37	Qualitative research to inform hypothesis testing for fidelity-based sub-group analysis in clinical trials: lessons learnt from the process evaluation of a multifaceted podiatry intervention for falls prevention. <i>Trials</i> , 2020, 21, 348.	1.6	2
38	Effectiveness of pre-operative anaemia screening and increased Tranexamic acid dose policies on outcomes following unilateral primary, elective total hip or knee replacement: a statistical analysis plan for an interrupted time series and regression discontinuity study. <i>F1000Research</i> , 2020, 9, 224.	1.6	0
39	An evaluation of a personalised text message reminder compared to a standard text message on postal questionnaire response rates: an embedded randomised controlled trial. <i>F1000Research</i> , 2020, 9, 154.	1.6	14
40	Enclosing a pen to improve response rate to postal questionnaire: an embedded randomised controlled trial. <i>F1000Research</i> , 2020, 9, 577.	1.6	10
41	Including a pen and/or cover letter, containing social incentive text, had no effect on questionnaire response rate: a factorial randomised controlled Study within a Trial. <i>F1000Research</i> , 2020, 9, 623.	1.6	5
42	Optimised patient information materials and recruitment to a study of behavioural activation in older adults: an embedded study within a trial. <i>F1000Research</i> , 2020, 9, 417.	1.6	3
43	Surgical fixation compared with cast immobilisation for adults with a bicortical fracture of the scaphoid waist: the SWIFFT RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-234.	2.8	11
44	Surgical treatments compared with early structured physiotherapy in secondary care for adults with primary frozen shoulder: the UK FROST three-arm RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-162.	2.8	11
45	Effects of rapid recruitment and dissemination on Covid-19 mortality: the RECOVERY trial. <i>F1000Research</i> , 2020, 9, 1017.	1.6	2
46	Effects of rapid recruitment and dissemination on Covid-19 mortality: the RECOVERY trial. <i>F1000Research</i> , 2020, 9, 1017.	1.6	8
47	Effectiveness of pre-operative anaemia screening and increased Tranexamic acid dose on outcomes following unilateral primary, elective total hip or knee replacement: a statistical analysis plan for an interrupted time series and regression discontinuity study. <i>F1000Research</i> , 2020, 9, 224.	1.6	0
48	The epidemiology, management and impact of surgical wounds healing by secondary intention: a research programme including the SWHSI feasibility RCT. <i>Programme Grants for Applied Research</i> , 2020, 8, 1-122.	1.0	0
49	Oral modified release morphine for breathlessness in chronic heart failure: a randomized placebo-controlled trial. <i>ESC Heart Failure</i> , 2019, 6, 1149-1160.	3.1	28
50	Brushing RemInder 4 Good oral HealTh (BRIGHT) trial: does an SMS behaviour change programme with a classroom-based session improve the oral health of young people living in deprived areas? A study protocol of a randomised controlled trial. <i>Trials</i> , 2019, 20, 452.	1.6	15
51	The impact of surgeon and patient treatment preferences in an orthopaedic trauma surgery trial. <i>Trials</i> , 2019, 20, 570.	1.6	8
52	Baseline testing in cluster randomised controlled trials: should this be done?. <i>BMC Medical Research Methodology</i> , 2019, 19, 106.	3.1	26
53	Evaluating "enhancing pragmatic language skills for young children with social communication impairments" (E-PLAYS): protocol for a feasibility randomised controlled trial study. <i>Pilot and Feasibility Studies</i> , 2019, 5, 75.	1.2	4
54	Knee Replacement Bandaging Study (KReBS) evaluating the effect of a two-layer compression bandage system on knee function following total knee arthroplasty: study protocol for a randomised controlled trial. <i>Trials</i> , 2019, 20, 261.	1.6	6

#	ARTICLE	IF	CITATIONS
55	What type of environmental assessment and modification prevents falls in community dwelling older people?. <i>BMJ: British Medical Journal</i> , 2019, 364, l880.	2.3	14
56	SWATted away: the challenging experience of setting up a programme of SWATs in paediatric trials. <i>Trials</i> , 2019, 20, 141.	1.6	12
57	Assessing the impact of retraction on the citation of randomized controlled trial reports: an interrupted time-series analysis. <i>Journal of Health Services Research and Policy</i> , 2019, 24, 44-51.	1.7	24
58	Using pens as an incentive for trial recruitment of older adults: An embedded randomised controlled trial. <i>F1000Research</i> , 2019, 8, 315.	1.6	11
59	Does handwriting the name of a potential trial participant on an invitation letter improve recruitment rates? A randomised controlled study within a trial. <i>F1000Research</i> , 2019, 8, 659.	1.6	6
60	Costs and consequences of the Family Nurse Partnership (FNP) programme in England: evidence from the Building Blocks trial. <i>F1000Research</i> , 2019, 8, 1640.	1.6	4
61	Protocol for a factorial randomised controlled trial, embedded within WHITE 8 COPAL, of an Enhanced Trainee Principal Investigator Package and Additional Digital Nudge to increase recruitment rates. <i>F1000Research</i> , 2019, 8, 1153.	1.6	3
62	The Cost-Effectiveness of Screening in the Community to Reduce Osteoporotic Fractures in Older Women in the UK: Economic Evaluation of the SCOOP Study. <i>Journal of Bone and Mineral Research</i> , 2018, 33, 845-851.	2.8	58
63	Management of Patients With High Baseline Hip Fracture Risk by FRAX Reduces Hip Fracturesâ€”A Post Hoc Analysis of the SCOOP Study. <i>Journal of Bone and Mineral Research</i> , 2018, 33, 1020-1026.	2.8	45
64	Remote or on-site visits were feasible for the initial setup meetings with hospitals in a multicenter surgical trial: an embedded randomized trial. <i>Journal of Clinical Epidemiology</i> , 2018, 100, 13-21.	5.0	8
65	Trial Forge Guidance 1: what is a Study Within A Trial (SWAT)?. <i>Trials</i> , 2018, 19, 139.	1.6	168
66	A review of cluster randomized trials found statistical evidence of selection bias. <i>Journal of Clinical Epidemiology</i> , 2018, 99, 106-112.	5.0	27
67	Caution to Readers About Systematic Review on Vitamin K and Prevention of Fractures That Included Problematic Trials. <i>JAMA Internal Medicine</i> , 2018, 178, 863.	5.1	13
68	Determining the optimal approach to identifying individuals with chronic obstructive pulmonary disease: The DOC study. <i>Journal of Evaluation in Clinical Practice</i> , 2018, 24, 487-495.	1.8	9
69	A simple technique investigating baseline heterogeneity helped to eliminate potential bias in meta-analyses. <i>Journal of Clinical Epidemiology</i> , 2018, 95, 55-62.	5.0	14
70	Screening in the community to reduce fractures in older women (SCOOP): a randomised controlled trial. <i>Lancet, The</i> , 2018, 391, 741-747.	13.7	206
71	Protocol for the development of a CONSORT extension for RCTs using cohorts and routinely collected health data. <i>Research Integrity and Peer Review</i> , 2018, 3, 9.	5.2	28
72	SSHeW study protocol: does slip resistant footwear reduce slips among healthcare workers? A randomised controlled trial. <i>BMJ Open</i> , 2018, 8, e026023.	1.9	6

#	ARTICLE	IF	CITATIONS
73	Can occupational therapist-led home environmental assessment prevent falls in older people? A modified cohort randomised controlled trial protocol. <i>BMJ Open</i> , 2018, 8, e022488.	1.9	18
74	Cost-Effectiveness of a Multifaceted Podiatry Intervention for the Prevention of Falls in Older People: The REducing Falls with Orthoses and a Multifaceted Podiatry Intervention Trial Findings. <i>Gerontology</i> , 2018, 64, 503-512.	2.8	10
75	Revised Meta-analysis of Vitamin K and Fracturesâ€”Reply. <i>JAMA Internal Medicine</i> , 2018, 178, 1135.	5.1	1
76	Hydroxychloroquine Effectiveness in Reducing Symptoms of Hand Osteoarthritis. <i>Annals of Internal Medicine</i> , 2018, 168, 385.	3.9	63
77	Commentary: considerations for using the â€”Trials within Cohortsâ€”™ design in a clinical trial of an investigational medicinal product. <i>Trials</i> , 2018, 19, 18.	1.6	9
78	The impact of pre and perinatal lifestyle factors on child long term health and social outcomes: a systematic review. <i>Health Economics Review</i> , 2018, 8, 2.	2.0	19
79	The impact of lung function caseâ€”finding tests on smoking behaviour: A nested randomised trial within a caseâ€”finding cohort. <i>Health Science Reports</i> , 2018, 1, e41.	1.5	3
80	A study update newsletter or Post-itÂ® note did not increase postal questionnaire response rates in a falls prevention trial: an embedded randomised factorial trial. <i>F1000Research</i> , 2018, 7, 1083.	1.6	3
81	AVURT: aspirin versus placebo for the treatment of venous leg ulcers â€” a Phase II pilot randomised controlled trial. <i>Health Technology Assessment</i> , 2018, 22, 1-138.	2.8	3
82	A nested randomised controlled trial of a newsletter and Post-itÂ® note did not increase postal questionnaire response rates in a falls prevention trial. <i>F1000Research</i> , 2018, 7, 1083.	1.6	3
83	A randomized, embedded trial of preâ€”notification of trial participation did not increase recruitment rates to a falls prevention trial. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 73-78.	1.8	5
84	Cost-effectiveness of antibiotics for COPD management: observational analysis using CPRD data. <i>ERJ Open Research</i> , 2017, 3, 00085-2016.	2.6	7
85	Costâ€”effectiveness of the Family Nurse Partnership (FNP) programme in England: Evidence from the building blocks trial. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 1367-1374.	1.8	17
86	An randomized controlled trial of Postâ€”itÂ® notes did not increase postal response rates in older depressed participants. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 102-107.	1.8	6
87	The effect of digital technology on prisoner behavior and reoffending: a natural stepped-wedge design. <i>Journal of Experimental Criminology</i> , 2017, 13, 455-482.	2.9	27
88	An optimised patient information sheet did not significantly increase recruitment or retention in a falls prevention study: an embedded randomised recruitment trial. <i>Trials</i> , 2017, 18, 144.	1.6	30
89	Subversion of allocation concealment in a randomised controlled trial: a historical case study. <i>Trials</i> , 2017, 18, 204.	1.6	25
90	Cost effectiveness of public health interventions may be overestimated. <i>BMJ: British Medical Journal</i> , 2017, 357, j2100.	2.3	0

#	ARTICLE	IF	CITATIONS
91	Cohort Randomised Controlled Trial of a Multifaceted Podiatry Intervention for the Prevention of Falls in Older People (The REFORM Trial). PLoS ONE, 2017, 12, e0168712.	2.5	37
92	An economic evaluation of Alexander Technique lessons or acupuncture sessions for patients with chronic neck pain: A randomized trial (ATLAS). PLoS ONE, 2017, 12, e0178918.	2.5	13
93	Identifying the primary outcome for a randomised controlled trial in rheumatoid arthritis: the role of a discrete choice experiment. Journal of Foot and Ankle Research, 2017, 10, 57.	1.9	16
94	United Kingdom Frozen Shoulder Trial (UK FROST), multi-centre, randomised, 12 month, parallel group, superiority study to compare the clinical and cost-effectiveness of Early Structured Physiotherapy versus manipulation under anaesthesia versus arthroscopic capsular release for patients referred to secondary care with a primary frozen shoulder: study protocol for a randomised controlled trial. Trials, 2017, 18, 614.	1.6	25
95	Undertaking a randomised controlled trial in the police setting: methodological and practical challenges. Trials, 2017, 18, 615.	1.6	5
96	Effectiveness of a training program for police officers who come into contact with people with mental health problems: A pragmatic randomised controlled trial. PLoS ONE, 2017, 12, e0184377.	2.5	17
97	Collaborative care and active surveillance for Screen-Positive Elders with subthreshold depression (CASPER): a multicentred randomised controlled trial of clinical effectiveness and cost-effectiveness. Health Technology Assessment, 2017, 21, 1-196.	2.8	12
98	Clinical effectiveness and cost-effectiveness of a multifaceted podiatry intervention for falls prevention in older people: a multicentre cohort randomised controlled trial (the REducing Falls) Tj ETQq0 0 0 rgBT /Qverlock, 10 Tf 50 4 21, 1-198.	2.8	17
99	Collaborative care for Screen-Positive Elders with major depression (CASPER plus): a multicentred randomised controlled trial of clinical effectiveness and cost-effectiveness. Health Technology Assessment, 2017, 21, 1-252.	2.8	56
100	Acupuncture for chronic pain and depression in primary care: a programme of research. Programme Grants for Applied Research, 2017, 5, 1-316.	1.0	27
101	Effectiveness of a Nurse-Led Intensive Home-Visitation Program for First-Time Teenage Mothers (Building Blocks). Obstetrical and Gynecological Survey, 2016, 71, 263-265.	0.4	0
102	Cost effectiveness of surgical <i>versus</i> non-surgical treatment of adults with displaced fractures of the proximal humerus. Bone and Joint Journal, 2016, 98-B, 152-159.	4.4	30
103	Negative pressure wound therapy versus usual care for Surgical Wounds Healing by Secondary Intention (SWHSI trial): study protocol for a randomised controlled pilot trial. Trials, 2016, 17, 535.	1.6	14
104	Missing data in randomized controlled trials testing palliative interventions pose a significant risk of bias and loss of power: A systematic review and meta-analyses. Journal of Clinical Epidemiology, 2016, 74, 57-65.	5.0	33
105	Text message reminders to improve questionnaire response rates. Journal of Clinical Epidemiology, 2016, 79, 90-95.	5.0	22
106	Allocation concealment in randomised controlled trials: are we getting better?: Table 1. BMJ, The, 2016, 355, i5663.	6.0	44
107	Implementation of blinded outcome assessment in the Effective Verruca Treatments trial (EverT) â€“ lessons learned. Journal of Foot and Ankle Research, 2016, 9, 21.	1.9	1
108	Scaphoid Waist Internal Fixation for Fractures Trial (SWIFFT) protocol: a pragmatic multi-centre randomised controlled trial of cast treatment versus surgical fixation for the treatment of bi-cortical, minimally displaced fractures of the scaphoid waist in adults. BMC Musculoskeletal Disorders, 2016, 17, 248.	1.9	25

#	ARTICLE	IF	CITATIONS
109	Enclosing a pen reduced time to response to questionnaire mailings. <i>Journal of Clinical Epidemiology</i> , 2016, 74, 144-150.	5.0	18
110	Evaluation of the Citizenship Evidence-Based Probation Supervision Program Using a Stepped Wedge Cluster Randomized Controlled Trial. <i>Crime and Delinquency</i> , 2016, 62, 899-924.	1.7	18
111	Questioning the outcome of the Building Blocks trial – Authors' reply. <i>Lancet</i> , The, 2016, 387, 1616-1617.	13.7	2
112	Effectiveness of a nurse-led intensive home-visitation programme for first-time teenage mothers (Building Blocks): a pragmatic randomised controlled trial. <i>Lancet</i> , The, 2016, 387, 146-155.	13.7	217
113	A cluster randomised trial of strategies to increase cervical screening uptake at first invitation (STRATEGIC). <i>Health Technology Assessment</i> , 2016, 20, 1-138.	2.8	36
114	A randomised controlled trial of three or one breathing technique training sessions for breathlessness in people with malignant lung disease. <i>BMC Medicine</i> , 2015, 13, 213.	5.5	44
115	Skill-sharing between allied health professionals in a community setting: A randomised controlled trial. <i>International Journal of Therapy and Rehabilitation</i> , 2015, 22, 524-534.	0.3	7
116	EverT2™ needling versus non-surgical debridement for the treatment of verrucae: study protocol for a single-centre randomised controlled trial. <i>BMJ Open</i> , 2015, 5, e009406.	1.9	6
117	Alexander Technique Lessons or Acupuncture Sessions for Persons With Chronic Neck Pain. <i>Annals of Internal Medicine</i> , 2015, 163, 653-662.	3.9	126
118	Scoop pen sub-study-a trial within a trial™ of enclosing a pen in questionnaire mailings to increase response rate. <i>Trials</i> , 2015, 16, .	1.6	3
119	Trials within trials of interventions to improve recruitment and retention: the experience of York Trials Unit. <i>Trials</i> , 2015, 16, .	1.6	0
120	The use of hospital episode statistics (HES) records alongside clinical trials. <i>Trials</i> , 2015, 16, .	1.6	0
121	Muslim communities learning about second-hand smoke: a pilot cluster randomised controlled trial and cost-effectiveness analysis. <i>Npj Primary Care Respiratory Medicine</i> , 2015, 25, 15052.	2.6	9
122	Aspirin for Venous Ulcers: Randomised Trial (AVURT): study protocol for a randomised controlled trial. <i>Trials</i> , 2015, 16, 513.	1.6	5
123	Post-it notes to improve questionnaire response rates in RCTs - findings from a randomised sub-study. <i>Trials</i> , 2015, 16, .	1.6	0
124	Text message reminders to improve questionnaire response rates in RCTs: findings from three randomised sub-studies. <i>Trials</i> , 2015, 16, .	1.6	2
125	The reform study: a case study of embedded trials. <i>Trials</i> , 2015, 16, .	1.6	0
126	Testing the effectiveness of user-tested patient information on recruitment rates across multiple trials: meta-analysis of data from the start programme. <i>Trials</i> , 2015, 16, .	1.6	0
