#	ARTICLE	IF	CITATIONS
1	What do we know about patients' perceptions of continuity of care? A meta-synthesis of qualitative studies. <i>International Journal for Quality in Health Care</i> , 2012, 24, 39-48.	1.8	160
2	Barriers in access to healthcare in countries with different health systems. A cross-sectional study in municipalities of central Colombia and north-eastern Brazil. <i>Social Science and Medicine</i> , 2014, 106, 204-213.	3.8	111
3	Changes in Access to Health Services during the COVID-19 Pandemic: A Scoping Review. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 1749.	2.6	81
4	Inequities in access to health care in different health systems: a study in municipalities of central Colombia and north-eastern Brazil. <i>International Journal for Equity in Health</i> , 2014, 13, 10.	3.5	66
5	Barriers to healthcare coordination in market-based and decentralized public health systems: a qualitative study in healthcare networks of Colombia and Brazil. <i>Health Policy and Planning</i> , 2016, 31, 736-748.	2.7	65
6	Barriers of access to care in a managed competition model: lessons from Colombia. <i>BMC Health Services Research</i> , 2010, 10, 297.	2.2	53
7	Evaluating the effectiveness of care integration strategies in different healthcare systems in Latin America: the EQUITY-LA II quasi-experimental study protocol. <i>BMJ Open</i> , 2015, 5, e007037.	1.9	48
8	Integrated health care networks in Latin America: toward a conceptual framework for analysis. <i>Revista Panamericana De Salud Publica/Pan American Journal of Public Health</i> , 2009, 26, 360-7.	1.1	43
9	Doctors' experience of coordination across care levels and associated factors. A cross-sectional study in public healthcare networks of six Latin American countries. <i>Social Science and Medicine</i> , 2017, 182, 10-19.	3.8	40
10	Regional-based Integrated Healthcare Network policy in Brazil: from formulation to practice. <i>Health Policy and Planning</i> , 2015, 30, 705-717.	2.7	36
11	Do existing mechanisms contribute to improvements in care coordination across levels of care in health services networks? Opinions of the health personnel in Colombia and Brazil. <i>BMC Health Services Research</i> , 2015, 15, 213.	2.2	35
12	Understanding communication breakdown in the outpatient referral process in Latin America: a cross-sectional study on the use of clinical correspondence in public healthcare networks of six countries. <i>Health Policy and Planning</i> , 2018, 33, 494-504.	2.7	32
13	A comprehensive analysis of patients' perceptions of continuity of care and their associated factors. <i>International Journal for Quality in Health Care</i> , 2013, 25, 291-299.	1.8	31
14	Changes in Access to Health Services of the Immigrant and Native-Born Population in Spain in the Context of Economic Crisis. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 10182-10201.	2.6	31
15	Health policies for migrant populations in three European countries: England; Italy and Spain. <i>Health Policy</i> , 2011, 101, 70-78.	3.0	30
16	Was access to health care easy for immigrants in Spain? The perspectives of health personnel in Catalonia and Andalusia. <i>Health Policy</i> , 2016, 120, 396-405.	3.0	29
17	A tool for assessing continuity of care across care levels: an extended psychometric validation of the CCAENA questionnaire. <i>International Journal of Integrated Care</i> , 2013, 13, e050.	0.2	25
18	Relational continuity with primary and secondary care doctors: a qualitative study of perceptions of users of the Catalan national health system. <i>BMC Health Services Research</i> , 2018, 18, 257.	2.2	23

#	ARTICLE	IF	CITATIONS
19	Perception of the Ecuadorian population living in Barcelona regarding access to health services. <i>International Journal of Public Health</i> , 2010, 55, 381-390.	2.3	22
20	Development and testing of indicators to measure coordination of clinical information and management across levels of care. <i>BMC Health Services Research</i> , 2015, 15, 323.	2.2	21
21	Doctors's opinion on the contribution of coordination mechanisms to improving clinical coordination between primary and outpatient secondary care in the Catalan national health system. <i>BMC Health Services Research</i> , 2017, 17, 842.	2.2	21
22	Continuity of clinical management and information across care levels: perceptions of users of different healthcare areas in the Catalan national health system. <i>BMC Health Services Research</i> , 2016, 16, 466.	2.2	19
23	Factors associated to experienced continuity of care between primary and outpatient secondary care in the Catalan public healthcare system. <i>Gaceta Sanitaria</i> , 2013, 27, 207-213.	1.5	18
24	Has the quality of health care for the immigrant population changed during the economic crisis in Catalonia (Spain)? Opinions of health professionals and immigrant users. <i>Gaceta Sanitaria</i> , 2018, 32, 425-432.	1.5	17
25	Are migrants health policies aimed at improving access to quality healthcare? An analysis of Spanish policies. <i>Health Policy</i> , 2013, 113, 236-246.	3.0	14
26	Understanding the factors influencing the implementation of participatory interventions to improve care coordination. An analytical framework based on an evaluation in Latin America. <i>Health Policy and Planning</i> , 2020, 35, 962-972.	2.7	13
27	Changes in access to health care for immigrants in Catalonia during the economic crisis: Opinions of health professionals and immigrant users. <i>Health Policy</i> , 2016, 120, 1293-1303.	3.0	12
28	Do primary and secondary care doctors have a different experience and perception of cross-level clinical coordination? Results of a cross-sectional study in the Catalan National Health System (Spain). <i>BMC Family Practice</i> , 2020, 21, 135.	2.9	12
29	Effects of managed care mechanisms on access to healthcare: results from a qualitative study in Colombia. <i>International Journal of Health Planning and Management</i> , 2013, 28, e13-33.	1.7	10
30	Patient perceptions of continuity of health care and associated factors. Cross-sectional study in municipalities of central Colombia and north-eastern Brazil. <i>Health Policy and Planning</i> , 2017, 32, czw168.	2.7	10
31	Doctors's opinions on clinical coordination between primary and secondary care in the Catalan healthcare system. <i>Gaceta Sanitaria</i> , 2019, 33, 66-73.	1.5	9
32	Care continuity across levels of care perceived by patients with chronic conditions in six Latin-American countries. <i>Gaceta Sanitaria</i> , 2021, 35, 411-419.	1.5	8
33	Can care coordination across levels be improved through the implementation of participatory action research interventions? Outcomes and conditions for sustaining changes in five Latin American countries. <i>BMC Health Services Research</i> , 2020, 20, 941.	2.2	8
34	Changes in knowledge and use of clinical coordination mechanisms between care levels in healthcare networks of Colombia. <i>International Journal of Health Planning and Management</i> , 2021, 36, 134-150.	1.7	7
35	Understanding How to Improve the Use of Clinical Coordination Mechanisms between Primary and Secondary Care Doctors: Clues from Catalonia. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3224.	2.6	6
36	Assessing the Impact of Clinical Coordination Interventions on the Continuity of Care for Patients With Chronic Conditions: Participatory Action Research in Five Latin American Countries. <i>Health Policy and Planning</i> , 2021, , .	2.7	5

#	ARTICLE	IF	CITATIONS
37	Evaluating the effectiveness of care coordination interventions designed and implemented through a participatory action research process: Lessons learned from a quasi-experimental study in public healthcare networks in Latin America. PLoS ONE, 2022, 17, e0261604.	2.5	5
38	Care coordination in two of Bogotá's public healthcare networks: A cross-sectional study among doctors. International Journal of Care Coordination, 2019, 22, 127-139.	0.4	4
39	Implementing joint training sessions of general practitioners and specialists aimed at improving clinical coordination in Colombia: Contributions from participatory action research. Journal of Health Services Research and Policy, 2022, 27, 261-268.	1.7	2
40	Interventions to Improve Clinical Coordination between Levels: Participatory Experience in a Public Healthcare Network in Xalapa, Mexico. International Journal of Integrated Care, 2021, 21, 12.	0.2	1
