#	ARTICLE	IF	CITATIONS
1	Worldwide time trends in prevalence of symptoms of rhinoconjunctivitis in children: Global Asthma Network Phase I. <i>Pediatric Allergy and Immunology</i> , 2022, 33, .	2.6	29
2	Infection with SARS-CoV-2 among children with asthma: evidence from Global Asthma Network. <i>Pediatric Allergy and Immunology</i> , 2022, 33, .	2.6	8
3	The burden of asthma, hay fever and eczema in children in 25 countries: GAN Phase I study. <i>European Respiratory Journal</i> , 2022, 60, 2102866.	6.7	59
4	The burden of asthma, hay fever and eczema in adults in 17 countries: GAN Phase I study. <i>European Respiratory Journal</i> , 2022, 60, 2102865.	6.7	40
5	Parental education moderates the association between indoor moisture environment and asthma in adolescents: the Greek Global Asthma Network (GAN) cross-sectional study. <i>BMC Public Health</i> , 2022, 22, 597.	2.9	1
6	Parental Education Moderates the Relation between Physical Activity, Dietary Patterns and Atopic Diseases in Adolescents. <i>Children</i> , 2022, 9, 686.	1.5	1
7	Prevalence and risk factors associated with allergic rhinitis in Mexican school children: Global Asthma Network Phase I. <i>World Allergy Organization Journal</i> , 2021, 14, 100492.	3.5	10
8	Prevalence of asthma symptoms and associated factors in adolescents and adults in southern Brazil: A Global Asthma Network Phase I study. <i>World Allergy Organization Journal</i> , 2021, 14, 100529.	3.5	3
9	Parental Education and the Association between Fruit and Vegetable Consumption and Asthma in Adolescents: The Greek Global Asthma Network (GAN) Study. <i>Children</i> , 2021, 8, 304.	1.5	7
10	Exploring the Relation between Atopic Diseases and Lifestyle Patterns among Adolescents Living in Greece: Evidence from the Greek Global Asthma Network (GAN) Cross-Sectional Study. <i>Children</i> , 2021, 8, 932.	1.5	9
11	Worldwide trends in the burden of asthma symptoms in school-aged children: Global Asthma Network Phase I cross-sectional study. <i>Lancet, The</i> , 2021, 398, 1569-1580.	13.7	169
12	Global Asthma Network Phase I Surveillance: Geographical Coverage and Response Rates. <i>Journal of Clinical Medicine</i> , 2020, 9, 3688.	2.4	28
13	Global Asthma Network Phase I study in Mexico: prevalence of asthma symptoms, risk factors and altitude associations—a cross-sectional study. <i>BMJ Open Respiratory Research</i> , 2020, 7, e000658.	3.0	14
14	Comparison of individual-level and population-level risk factors for rhinoconjunctivitis, asthma, and eczema in the International Study of Asthma and Allergies in Childhood (ISAAC) Phase Three. <i>World Allergy Organization Journal</i> , 2020, 13, 100123.	3.5	14
15	Are Environmental Factors for Atopic Eczema in ISAAC Phase Three due to Reverse Causation?. <i>Journal of Investigative Dermatology</i> , 2019, 139, 1023-1036.	0.7	15
16	Combined impact of healthy lifestyle factors on risk of asthma, rhinoconjunctivitis and eczema in school children: ISAAC phase III. <i>Thorax</i> , 2019, 74, 531-538.	5.6	18
17	Essential Medicines at the National Level: The Global Asthma Network's Essential Asthma Medicines Survey 2014. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 605.	2.6	14
18	Calling time on asthma deaths in tropical regions—how much longer must people wait for essential medicines?. <i>Lancet Respiratory Medicine</i> , 2019, 7, 13-15.	10.7	28

#	ARTICLE	IF	CITATIONS
19	The Global Asthma Network rationale and methods for Phase I global surveillance: prevalence, severity, management and risk factors. <i>European Respiratory Journal</i> , 2017, 49, 1601605.	6.7	113
20	Association between paracetamol use in infancy or childhood with body mass index. <i>Obesity</i> , 2015, 23, 1030-1038.	3.0	5
21	Siblings, asthma, rhinoconjunctivitis and eczema: a worldwide perspective from the International Study of Asthma and Allergies in Childhood. <i>Clinical and Experimental Allergy</i> , 2015, 45, 126-136.	2.9	105
22	Association between breastfeeding and body mass index at age 6-7 years in an international survey. <i>Pediatric Obesity</i> , 2015, 10, 283-287.	2.8	23
23	Respiratory effects in children from passive smoking of cigarettes and <i>narghile</i>: ISAAC Phase Three in Syria. <i>International Journal of Tuberculosis and Lung Disease</i> , 2014, 18, 1279-1284.	1.2	15
24	Birthweight and the risk of atopic diseases: the ISAAC Phase III study. <i>Pediatric Allergy and Immunology</i> , 2014, 25, 264-270.	2.6	17
25	Does migration affect asthma, rhinoconjunctivitis and eczema prevalence? Global findings from the international study of asthma and allergies in childhood. <i>International Journal of Epidemiology</i> , 2014, 43, 1846-1854.	1.9	47
26	Childhood intermittent and persistent rhinitis prevalence and climate and vegetation: a global ecologic analysis. <i>Annals of Allergy, Asthma and Immunology</i> , 2014, 113, 386-392.e9.	1.0	31
27	How are "urban" and "rural" defined in publications regarding asthma and related diseases?. <i>Allergologia Et Immunopathologia</i> , 2014, 42, 157-161.	1.7	9
28	Antibiotic treatment during infancy and increased body mass index in boys: an international cross-sectional study. <i>International Journal of Obesity</i> , 2014, 38, 1115-1119.	3.4	141
29	Fast-food consumption and body mass index in children and adolescents: an international cross-sectional study. <i>BMJ Open</i> , 2014, 4, e005813.	1.9	118
30	Overweight/Obesity and Respiratory and Allergic Disease in Children: International Study of Asthma and Allergies in Childhood (ISAAC) Phase Two. <i>PLoS ONE</i> , 2014, 9, e113996.	2.5	96
31	Do fast foods cause asthma, rhinoconjunctivitis and eczema? Global findings from the International Study of Asthma and Allergies in Childhood (ISAAC) Phase Three. <i>Thorax</i> , 2013, 68, 351-360.	5.6	175
32	The International Study of Asthma and Allergies in Childhood (ISAAC) Phase Three: A global synthesis. <i>Allergologia Et Immunopathologia</i> , 2013, 41, 73-85.	1.7	465
33	Cooking fuels and prevalence of asthma: a global analysis of phase three of the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Lancet Respiratory Medicine</i> , 2013, 1, 386-394.	10.7	67
34	Asthma in the global NCD agenda: a neglected epidemic. <i>Lancet Respiratory Medicine</i> , 2013, 1, 96-98.	10.7	20
35	The association between <sc>BMI</sc>, vigorous physical activity and television viewing and the risk of symptoms of asthma, rhinoconjunctivitis and eczema in children and adolescents: <sc>ISAAC</sc> Phase Three. <i>Clinical and Experimental Allergy</i> , 2013, 43, 73-84.	2.9	110
36	Time trends, ethnicity and risk factors for eczema in New Zealand children: ISAAC Phase Three. <i>Asia Pacific Allergy</i> , 2013, 3, 161-178.	1.3	13

#	ARTICLE	IF	CITATIONS
37	Satellite-based Estimates of Ambient Air Pollution and Global Variations in Childhood Asthma Prevalence. <i>Environmental Health Perspectives</i> , 2012, 120, 1333-1339.	6.0	57
38	Exposure to Cats and Dogs, and Symptoms of Asthma, Rhinoconjunctivitis, and Eczema. <i>Epidemiology</i> , 2012, 23, 742-750.	2.7	68
39	The association between tobacco and the risk of asthma, rhinoconjunctivitis and eczema in children and adolescents: analyses from Phase Three of the ISAAC programme. <i>Thorax</i> , 2012, 67, 941-949.	5.6	104
40	Early life exposure to farm animals and symptoms of asthma, rhinoconjunctivitis and eczema: an ISAAC Phase Three Study. <i>International Journal of Epidemiology</i> , 2012, 41, 753-761.	1.9	48
41	The challenges of replicating the methodology between Phases I and III of the ISAAC programme. <i>International Journal of Tuberculosis and Lung Disease</i> , 2012, 16, 687-693.	1.2	11
42	Association of pertussis and measles infections and immunizations with asthma and allergic sensitization in ISAAC Phase Two. <i>Pediatric Allergy and Immunology</i> , 2012, 23, 736-745.	2.6	16
43	Time trends and risk factors for rhinoconjunctivitis in New Zealand children: An International Study of Asthma and Allergies in Childhood (ISAAC) survey. <i>Journal of Paediatrics and Child Health</i> , 2012, 48, 913-920.	0.8	12
44	Changes over time in the relationship between symptoms of asthma, rhinoconjunctivitis and eczema: A global perspective from the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Allergologia Et Immunopathologia</i> , 2012, 40, 267-274.	1.7	32
45	Tuberculosis, bacillus Calmette-Guérin vaccination, and allergic disease: Findings from the International Study of Asthma and Allergies in Childhood Phase Two. <i>Pediatric Allergy and Immunology</i> , 2012, 23, 324-331.	2.6	24
46	Zusammenhang zwischen Rhinitissymptomen und allergischer Sensibilisierung in der Phase 2 der Internationalen Studie zu Asthma und Allergien im Kindesalter (ISAAC). <i>Allergologie</i> , 2012, 35, 11-19.	0.1	0
47	Acetaminophen Use and Risk of Asthma, Rhinoconjunctivitis, and Eczema in Adolescents. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2011, 183, 171-178.	5.6	122
48	Global analysis of breast feeding and risk of symptoms of asthma, rhinoconjunctivitis and eczema in 6-7 year old children: ISAAC Phase Three. <i>Allergologia Et Immunopathologia</i> , 2011, 39, 318-325.	1.7	37
49	Which population level environmental factors are associated with asthma, rhinoconjunctivitis and eczema? Review of the ecological analyses of ISAAC Phase One. <i>Respiratory Research</i> , 2010, 11, 8.	3.6	100
50	International variations in bronchial responsiveness in children: Findings from ISAAC phase two. <i>Pediatric Pulmonology</i> , 2010, 45, 796-806.	2.0	13
51	Effect of diet on asthma and allergic sensitisation in the International Study on Allergies and Asthma in Childhood (ISAAC) Phase Two. <i>Thorax</i> , 2010, 65, 516-522.	5.6	193
52	Ambient particulate pollution and the world-wide prevalence of asthma, rhinoconjunctivitis and eczema in children: Phase One of the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Occupational and Environmental Medicine</i> , 2010, 67, 293-300.	2.8	76
53	Global variation in the prevalence and severity of asthma symptoms: Phase Three of the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Thorax</i> , 2009, 64, 476-483.	5.6	806
54	Self-Reported Truck Traffic on the Street of Residence and Symptoms of Asthma and Allergic Disease: A Global Relationship in ISAAC Phase 3. <i>Environmental Health Perspectives</i> , 2009, 117, 1791-1798.	6.0	118

#	ARTICLE	IF	CITATIONS
55	A multi-centre study of candidate genes for wheeze and allergy: the International Study of Asthma and Allergies in Childhood Phase 2. <i>Clinical and Experimental Allergy</i> , 2009, 39, 1875-1888.	2.9	51
56	Cross-sectional survey of risk factors for asthma in 6-7-year-old children in New Zealand: International Study of Asthma and Allergies in Childhood Phase Three. <i>Journal of Paediatrics and Child Health</i> , 2009, 45, 375-383.	0.8	13
57	The prevalence of atopic symptoms in children with otitis media with effusion. <i>Otolaryngology - Head and Neck Surgery</i> , 2009, 141, 104-107.	1.9	17
58	Antibiotic use in infancy and symptoms of asthma, rhinoconjunctivitis, and eczema in children 6 and 7 years old: International Study of Asthma and Allergies in Childhood Phase III. <i>Journal of Allergy and Clinical Immunology</i> , 2009, 124, 982-989.	2.9	123
59	Diet and asthma: looking back, moving forward. <i>Respiratory Research</i> , 2009, 10, 49.	3.6	86
60	Translation of questions: the International Study of Asthma and Allergies in Childhood (ISAAC) experience. <i>International Journal of Tuberculosis and Lung Disease</i> , 2009, 13, 1174-82.	1.2	51
61	Worldwide time trends for symptoms of rhinitis and conjunctivitis: Phase III of the International Study of Asthma and Allergies in Childhood. <i>Pediatric Allergy and Immunology</i> , 2008, 19, 110-124.	2.6	321
62	International correlations between indicators of prevalence, hospital admissions and mortality for asthma in children. <i>International Journal of Epidemiology</i> , 2008, 37, 573-582.	1.9	62
63	Worldwide trends in the prevalence of asthma symptoms: phase III of the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Thorax</i> , 2007, 62, 758-766.	5.6	988
64	Asthma prevalence in European, Maori, and Pacific children in New Zealand: ISAAC study. <i>Pediatric Pulmonology</i> , 2004, 37, 433-442.	2.0	29
65	Climate and the prevalence of symptoms of asthma, allergic rhinitis, and atopic eczema in children. <i>Occupational and Environmental Medicine</i> , 2004, 61, 609-615.	2.8	263
66	Antibiotic sales and the prevalence of symptoms of asthma, rhinitis, and eczema: The International Study of Asthma and Allergies in Childhood (ISAAC). <i>International Journal of Epidemiology</i> , 2004, 33, 558-563.	1.9	40
67	Pollen counts in relation to the prevalence of allergic rhinoconjunctivitis, asthma and atopic eczema in the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Clinical and Experimental Allergy</i> , 2003, 33, 1675-1680.	2.9	77
68	International patterns of the prevalence of pediatric asthma. <i>Pediatric Clinics of North America</i> , 2003, 50, 539-553.	1.8	88
69	Agreement between written and video questions for comparing asthma symptoms in ISAAC. <i>European Respiratory Journal</i> , 2003, 21, 455-461.	6.7	77
70	Immunization and symptoms of atopic disease in children: results from the International Study of Asthma and Allergies in Childhood. <i>American Journal of Public Health</i> , 2001, 91, 1126-1129.	2.7	103
71	The relationship of per capita gross national product to the prevalence of symptoms of asthma and other atopic diseases in children (ISAAC). <i>International Journal of Epidemiology</i> , 2001, 30, 173-179.	1.9	124
72	Comparison of asthma prevalence in the ISAAC and the ECRHS. <i>European Respiratory Journal</i> , 2000, 16, 420-426.	6.7	160

#	ARTICLE	IF	CITATIONS
73	International patterns of tuberculosis and the prevalence of symptoms of asthma, rhinitis, and eczema. <i>Thorax</i> , 2000, 55, 449-453.	5.6	173
74	Intake of trans fatty acids and prevalence of childhood asthma and allergies in Europe. <i>Lancet</i> , The, 1999, 353, 2040-2041.	13.7	149
75	Worldwide variations in the prevalence of symptoms of atopic eczema in the international study of asthma and allergies in childhood. <i>Journal of Allergy and Clinical Immunology</i> , 1999, 103, 125-138.	2.9	831
76	Worldwide variation in prevalence of symptoms of asthma, allergic rhinoconjunctivitis, and atopic eczema: ISAAC. <i>Lancet</i> , The, 1998, 351, 1225-1232.	13.7	3,158
77	The effect of season-of-response to ISAAC questions about asthma, rhinitis and eczema in children.. <i>International Journal of Epidemiology</i> , 1997, 26, 126-136.	1.9	53
78	Worldwide variations in prevalence of symptoms of allergic rhinoconjunctivitis in children: the International Study of Asthma and Allergies in Childhood (ISAAC). <i>Pediatric Allergy and Immunology</i> , 1997, 8, 161-168.	2.6	513
