| #  | ARTICLE  | IF   | CITATIONS |
|----|--|------|-----------|
| 1  | Associations with Post-Consultation Health-Status in Primary Care Managed Acute Exacerbation of COPD. <i>International Journal of COPD</i> , 2022, Volume 17, 383-394.   | 2.3  | 0         |
| 2  | Spotlight on primary care management of COPD: Electronic health records. <i>Chronic Respiratory Disease</i> , 2021, 18, 147997312098559.   | 2.4  | 5         |
| 3  | Associations with antibiotic prescribing for acute exacerbation of COPD in primary care: secondary analysis of a randomised controlled trial. <i>British Journal of General Practice</i> , 2021, 71, e266-e272.  | 1.4  | 6         |
| 4  | Influence of prior antibiotic use on risk of rheumatoid arthritis: case control study in general practice. <i>Rheumatology</i> , 2020, 59, 1281-1287.  | 1.9  | 16        |
| 5  | <p>Inhaled Corticosteroids Prescribed for COPD Patients with Mild or Moderate Airflow Limitation: Who Warrants a Trial of Withdrawal?</p>. <i>International Journal of COPD</i> , 2020, Volume 14, 3063-3066.  | 2.3  | 6         |
| 6  | Blood eosinophil count, a marker of inhaled corticosteroid effectiveness in preventing COPD exacerbations in post-hoc RCT and observational studies: systematic review and meta-analysis. <i>Respiratory Research</i> , 2020, 21, 3.                                     | 3.6  | 49        |
| 7  | The family physicianâ€™s role in palliative care: Views and experiences of patients with cancer. <i>Progress in Palliative Care</i> , 2020, 28, 192-200.   | 1.2  | 3         |
| 8  | Lean implementation within healthcare: imaging as fertile ground. <i>Journal of Health Organization and Management</i> , 2020, 34, 869-884.  | 1.3  | 4         |
| 9  | A Lay Health Worker Intervention to Increase Uptake and Completion of Pulmonary Rehabilitation in Chronic Obstructive Pulmonary Disease: Assessing Fidelity of Intervention Delivery. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2020, 17, 557-561. | 1.6  | 1         |
| 10 | &lt;p&gt;Clinical Features and C-Reactive Protein as Predictors of Bacterial Exacerbations of COPD&lt;/p&gt;. <i>International Journal of COPD</i> , 2020, Volume 15, 3147-3158.   | 2.3  | 12        |
| 11 | C-reactive protein-guided antibiotic prescribing for COPD exacerbations: a qualitative evaluation. <i>British Journal of General Practice</i> , 2020, 70, e505-e513.   | 1.4  | 5         |
| 12 | COPD and asthma in patients with opioid dependency: a cross-sectional study in primary care. <i>Npj Primary Care Respiratory Medicine</i> , 2020, 30, 4.   | 2.6  | 17        |
| 13 | C-reactive protein point-of-care testing for safely reducing antibiotics for acute exacerbations of chronic obstructive pulmonary disease: the PACE RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-108.  | 2.8  | 26        |
| 14 | C-Reactive Protein Testing to Guide Antibiotic Prescribing for COPD Exacerbations. <i>New England Journal of Medicine</i> , 2019, 381, 111-120.  | 27.0 | 168       |
| 15 | The lay health workerâ€™patient relationship in promoting pulmonary rehabilitation (PR) in COPD: What makes it work?. <i>Chronic Respiratory Disease</i> , 2019, 16, 147997311986932.  | 2.4  | 8         |
| 16 | Perceptions of COPD patients of the proposed withdrawal of inhaled corticosteroids prescribed outside guidelines: A qualitative study. <i>Chronic Respiratory Disease</i> , 2019, 16, 147997311985588.   | 2.4  | 6         |
| 17 | Palliative Care of Respiratory Disease in Primary Care. , 2019, , 1125-1136.   |      | 0         |
| 18 | &lt;p&gt;Improving uptake and completion of pulmonary rehabilitation in COPD with lay health workers: feasibility of a clinical trial&lt;/p&gt;. <i>International Journal of COPD</i> , 2019, Volume 14, 631-643.  | 2.3  | 17        |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 19 | Exploring the concept of need in people with very severe chronic obstructive pulmonary disease: a qualitative study. <i>BMJ Supportive and Palliative Care</i> , 2018, 8, 468-474.   | 1.6 | 22        |
| 20 | Patientsâ€™ and carersâ€™ perspectives of palliative care in general practice: A systematic review with narrative synthesis. <i>Palliative Medicine</i> , 2018, 32, 838-850.   | 3.1 | 26        |
| 21 | Association between prior antibiotic therapy and subsequent risk of community-acquired infections: a systematic review. <i>Journal of Antimicrobial Chemotherapy</i> , 2018, 73, 287-296.  | 3.0 | 28        |
| 22 | Do patients and carers agree on symptom burden in advanced COPD?. <i>International Journal of COPD</i> , 2018, Volume 13, 969-977.   | 2.3 | 7         |
| 23 | Palliative Care of Respiratory Disease in Primary Care. , 2018, , 1-12.  |     | 0         |
| 24 | Is individual smoking behaviour influenced by area-level ethnic density? A cross-sectional electronic health database study of inner south-east London. <i>ERJ Open Research</i> , 2017, 3, 00130-2016.  | 2.6 | 8         |
| 25 | National disparities in the relationship between antimicrobial resistance and antimicrobial consumption in Europe: an observational study in 29 countriesâ€™ authorsâ€™ response. <i>Journal of Antimicrobial Chemotherapy</i> , 2017, 72, 3500-3500.                                      | 3.0 | 1         |
| 26 | Impact of primary care funding on secondary care utilisation and patient outcomes: a retrospective cross-sectional study of English general practice. <i>British Journal of General Practice</i> , 2017, 67, e792-e799.  | 1.4 | 11        |
| 27 | Ethnic differences in smoking intensity and COPD risk: an observational study in primary care. <i>Npj Primary Care Respiratory Medicine</i> , 2017, 27, 50.  | 2.6 | 23        |
| 28 | General practitioner use of a C-reactive protein point-of-care test to help target antibiotic prescribing in patients with acute exacerbations of chronic obstructive pulmonary disease (the PACE study): study protocol for a randomised controlled trial. <i>Trials</i> , 2017, 18, 442. | 1.6 | 16        |
| 29 | National disparities in the relationship between antimicrobial resistance and antimicrobial consumption in Europe: an observational study in 29 countries. <i>Journal of Antimicrobial Chemotherapy</i> , 2017, 72, 3199-3204.   | 3.0 | 22        |
| 30 | Does COPD risk vary by ethnicity? A retrospective cross-sectional study. <i>International Journal of COPD</i> , 2016, 11, 739.   | 2.3 | 36        |
| 31 | The relationship between prior antimicrobial prescription and meningitis: a caseâ€™control study. <i>British Journal of General Practice</i> , 2016, 66, e228-e233.  | 1.4 | 8         |
| 32 | Long term condition morbidity in English general practice: a cross-sectional study using three composite morbidity measures. <i>BMC Family Practice</i> , 2016, 17, 166.   | 2.9 | 6         |
| 33 | Antibiotic prescribing and patient satisfaction in primary care in England: cross-sectional analysis of national patient survey data and prescribing data. <i>British Journal of General Practice</i> , 2016, 66, e40-e46.   | 1.4 | 98        |
| 34 | HELPing older people with very severe chronic obstructive pulmonary disease (HELP-COPD): mixed-method feasibility pilot randomised controlled trial of a novel intervention. <i>Npj Primary Care Respiratory Medicine</i> , 2015, 25, 15020.   | 2.6 | 33        |
| 35 | Length of stay of COPD hospital admissions between 2006 and 2010: a retrospective longitudinal study. <i>International Journal of COPD</i> , 2015, 10, 603.  | 2.3 | 16        |
| 36 | Hypertension: a cross-sectional study of the role of multimorbidity in blood pressure control. <i>BMC Family Practice</i> , 2015, 16, 98.  | 2.9 | 19        |

| #  | ARTICLE   | IF   | CITATIONS |
|----|---|------|-----------|
| 37 | Emergency Admissions for COPD in an Urban Population: The Role of Population and Primary Care Factors. COPD: Journal of Chronic Obstructive Pulmonary Disease, 2015, 12, 606-12.  | 1.6  | 4         |
| 38 | Inhaled fluticasone and budesonide increased the risk of serious pneumonia in COPD. Evidence-Based Medicine, 2014, 19, 116-116.   | 0.6  | 5         |
| 39 | Primary healthcare factors and hospital admission rates for COPD: no association. Thorax, 2014, 69, 588.1-589.  | 5.6  | 1         |
| 40 | HELPING PEOPLE WITH VERY SEVERE COPD: FEASIBILITY STUDY OF A NOVEL HOLISTIC INTERVENTION. BMJ Supportive and Palliative Care, 2014, 4, A9.1-A9.   | 1.6  | 0         |
| 41 | Pulmonary rehabilitation and sleep quality: a before and after controlled study of patients with chronic obstructive pulmonary disease. Npj Primary Care Respiratory Medicine, 2014, 24, 14028.                               | 2.6  | 24        |
| 42 | Dangerous Ideas: resistant superbugs and the potential of the microbiome. British Journal of General Practice, 2014, 64, 637-637.   | 1.4  | 0         |
| 43 | Chronic obstructive pulmonary disease hospital admissions and drugsâ€™ unexpected positive associations: a retrospective general practice cohort study. Npj Primary Care Respiratory Medicine, 2014, 24, 14006.               | 2.6  | 16        |
| 44 | Tobacco industry lobbyists and their health-care clients. Lancet, The, 2013, 381, 445.  | 13.7 | 3         |
| 45 | A Longitudinal Assessment of Acute Cough. American Journal of Respiratory and Critical Care Medicine, 2013, 187, 991-997.   | 5.6  | 65        |
| 46 | Evidence-based intervention for chronic refractory breathlessness: practical therapies that make a difference. British Journal of General Practice, 2013, 63, 609-610.  | 1.4  | 14        |
| 47 | Overtreatment of COPD with Inhaled Corticosteroids - Implications for Safety and Costs: Cross-Sectional Observational Study. PLoS ONE, 2013, 8, e75221.   | 2.5  | 116       |
| 48 | Acceptability and feasibility of pulmonary rehabilitation for COPD: a community qualitative study. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2012, 21, 419-424.                        | 2.3  | 31        |
| 49 | Effectiveness, Attendance, and Completion of an Integrated, System-Wide Pulmonary Rehabilitation Service for COPD: Prospective Observational Study. COPD: Journal of Chronic Obstructive Pulmonary Disease, 2012, 9, 546-554. | 1.6  | 81        |
| 50 | Effectiveness of Holistic Interventions for People with Severe Chronic Obstructive Pulmonary Disease: Systematic Review of Controlled Clinical Trials. PLoS ONE, 2012, 7, e46433.   | 2.5  | 16        |
| 51 | Palliative care or end-of-life care in advanced chronic obstructive pulmonary disease A prospective community survey. British Journal of General Practice, 2011, 61, e362-e370.   | 1.4  | 49        |
| 52 | Detecting mild COPD: don't waste resources. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2011, 20, 6-8.   | 2.3  | 17        |
| 53 | Summary of the Consultation on a Strategy for Services for Chronic Obstructive Pulmonary Disease (COPD) in England. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2010, 19, S1-S17.        | 2.3  | 23        |
| 54 | COPD in primary care: a time of opportunity. British Journal of General Practice, 2010, 60, 477-478.  | 1.4  | 3         |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 55 | GPs' views on the practice of physician-assisted suicide and their role in proposed UK legalisation: a qualitative study. <i>British Journal of General Practice</i> , 2009, 59, 844-849.   | 1.4 | 12        |
| 56 | Experience of continuity of care of patients with multiple long-term conditions in England. <i>Journal of Health Services Research and Policy</i> , 2009, 14, 82-87.  | 1.7 | 60        |
| 57 | Access to care in advanced COPD: factors that influence contact with general practice services. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2009, 18, 273-278.                         | 2.3 | 28        |
| 58 | Nursing the dying within a generalist caseload: A focus group study of district nurses. <i>International Journal of Nursing Studies</i> , 2008, 45, 1470-1478.  | 5.6 | 62        |
| 59 | Prevalence of COPD in primary care: no room for complacency. <i>Family Practice</i> , 2008, 26, 1-2.  | 1.9 | 9         |
| 60 | Improving generalist end of life care: national consultation with practitioners, commissioners, academics, and service user groups. <i>BMJ: British Medical Journal</i> , 2008, 337, a1720-a1720.                                   | 2.3 | 174       |
| 61 | Swimming pool-based exercise as pulmonary rehabilitator for COPD patients in primary care: feasibility and acceptability. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2008, 18, 90-94. | 2.3 | 23        |
| 62 | Parental attitudes towards the management of asthma in ethnic minorities. <i>Archives of Disease in Childhood</i> , 2007, 92, 1082-1087.  | 1.9 | 34        |
| 63 | Spirometric screening for COPD: wishful thinking, not evidence. <i>Thorax</i> , 2007, 62, 742-3; author reply 743.  | 5.6 | 5         |
| 64 | Primary care spirometry: test quality and the feasibility and usefulness of specialist reporting. <i>British Journal of General Practice</i> , 2007, 57, 701-5.   | 1.4 | 24        |
| 65 | Roles, service knowledge and priorities in the provision of palliative care: a postal survey of London GPs. <i>Palliative Medicine</i> , 2006, 20, 487-492.   | 3.1 | 35        |
| 66 | Should we use spirometry in the early detection of COPD?. <i>European Respiratory Journal</i> , 2005, 26, 558-559.  | 6.7 | 12        |
| 67 | The healthcare needs of chronic obstructive pulmonary disease patients in the last year of life. <i>Palliative Medicine</i> , 2005, 19, 485-491.  | 3.1 | 232       |
| 68 | GPs' attitudes to discussing prognosis in severe COPD: an Auckland (NZ) to London (UK) comparison. <i>Family Practice</i> , 2005, 22, 538-540.  | 1.9 | 30        |
| 69 | Should we try to detect mild COPD?. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2005, 14, 221-221.   | 2.3 | 1         |
| 70 | COPD: Challenges and opportunities for primary care. <i>Respiratory Medicine: COPD Update</i> , 2005, 1, 43-52.   | 0.0 | 1         |
| 71 | Response to: The necessity for spirometry in the primary care management of COPD. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2004, 13, 15-16.   | 2.3 | 2         |
| 72 | Spirometry and peak expiratory flow in the primary care management of COPD. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2004, 13, 5-8.   | 2.3 | 21        |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 73 | Re: Spirometry and peak flow in COPD. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2004, 13, 227-228.                      | 2.3 | 0         |
| 74 | The last year of life of COPD: a qualitative study of symptoms and services. Respiratory Medicine, 2004, 98, 439-445.  | 2.9 | 182       |
| 75 | Symptomatic asthma: attendance and prescribing in general practice. Respiratory Medicine, 2002, 96, 102-109.   | 2.9 | 7         |
| 76 | GPs' views of discussions of prognosis in severe COPD. Family Practice, 2001, 18, 440-444.   | 1.9 | 84        |
| 77 | Doctors and nurses. BMJ: British Medical Journal, 2000, 321, 698-698.  | 2.3 | 8         |
| 78 | Access to and use of out-of-hours services by members of Vietnamese community groups in South London: a focus group study. Family Practice, 1999, 16, 369-374. | 1.9 | 28        |
| 79 | Using information from asthma patients: a trial of information feedback in primary care. BMJ: British Medical Journal, 1995, 311, 1065-1069.                   | 2.3 | 28        |
