#	ARTICLE	IF	CITATIONS
1	Family Characteristics Associated with Preparing and Eating More Family Evening Meals at Home. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2022, 122, 121-128.	0.8	6
2	Childhood Abuse-Related Weight Gain: An Investigation of Potential Resilience Factors. <i>American Journal of Preventive Medicine</i> , 2022, 62, 77-86.	3.0	3
3	Are patterns of family evening meal practices associated with child and parent diet quality and weight-related outcomes?. <i>Appetite</i> , 2022, 171, 105937.	3.7	2
4	Exploring Associations of Household Chaos and Child Health Behaviors in Rural Families. <i>American Journal of Health Behavior</i> , 2022, 46, 49-59.	1.4	1
5	Weight outcomes of NU-HOME: a randomized controlled trial to prevent obesity among rural children. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022, 19, 29.	4.6	5
6	Associations of parent dietary role modeling with children's diet quality in a rural setting: Baseline data from the NU-HOME study. <i>Appetite</i> , 2022, 174, 106007.	3.7	5
7	What Brings Young Adults to the Yoga Mat? Cross-Sectional Associations Between Motivational Profiles and Physical and Psychological Health Among Participants in the Project EAT-IV Survey. , 2022, , .		0
8	Universal childhood obesity prevention in a rural community: Study design, methods and baseline participant characteristics of the NU-HOME randomized controlled trial. <i>Contemporary Clinical Trials</i> , 2021, 100, 106160.	1.8	15
9	66534 Evaluation plans for a summer child nutrition assistance program to better understand translation of policy to community health. <i>Journal of Clinical and Translational Science</i> , 2021, 5, 135-136.	0.6	0
10	School-Based Secondary Obesity Prevention for Eight- to Twelve-Year-Olds: Results from the Students, Nurses, and Parents Seeking Healthy Options Together Randomized Trial. <i>Childhood Obesity</i> , 2021, 17, 185-195.	1.5	3
11	Fruit and Vegetable Snack Consumption Among Children With a Body Mass Index at or Above the 75th Percentile. <i>Journal of Nutrition Education and Behavior</i> , 2021, 53, 619-624.	0.7	0
12	Family-focused obesity prevention program implementation in urban versus rural communities: a case study. <i>BMC Public Health</i> , 2021, 21, 1915.	2.9	5
13	Mechanisms Explaining the Relationship Between Maternal Torture Exposure and Youth Adjustment In Resettled Refugees: A Pilot Examination of Generational Trauma Through Moderated Mediation. <i>Journal of Immigrant and Minority Health</i> , 2020, 22, 1232-1239.	1.6	7
14	Does exposure to controlling parental feeding practices during adolescence predict disordered eating behaviors 8 years later in emerging adulthood?. <i>Pediatric Obesity</i> , 2020, 15, e12709.	2.8	13
15	The Identification of Family Social Environment Typologies Using Latent Class Analysis: Implications for Future Family-Focused Research. <i>Journal of Family Nursing</i> , 2020, 26, 26-37.	1.9	2
16	Do Parents Perceive That Organized Activities Interfere with Family Meals? Associations between Parent Perceptions and Aspects of the Household Eating Environment. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2020, 120, 414-423.	0.8	3
17	Service learning within community-engaged research: Facilitating nursing student learning outcomes. <i>Journal of Professional Nursing</i> , 2020, 36, 510-513.	2.8	9
18	The Association between Parents and Children Meeting Physical Activity Guidelines. <i>Journal of Pediatric Nursing</i> , 2020, 52, 70-75.	1.5	17

#	ARTICLE	IF	CITATIONS
19	Self-Efficacy, Not Peer or Parent Support, Is Associated With More Physical Activity and Less Sedentary Time Among 8- to 12-Year-Old Youth With Elevated Body Mass Index. <i>Journal of Physical Activity and Health</i> , 2020, 17, 74-79.	2.0	8
20	Leveraging Interdisciplinary Teams to Develop and Implement Secure Websites for Behavioral Research: Applied Tutorial. <i>Journal of Medical Internet Research</i> , 2020, 22, e19217.	4.3	1
21	Sleep is Inversely Associated with Sedentary Time among Youth with Obesity. <i>American Journal of Health Behavior</i> , 2020, 44, 756-764.	1.4	0
22	Sleep is Inversely Associated with Sedentary Time among Youth with Obesity. <i>American Journal of Health Behavior</i> , 2020, 44, 756-764.	1.4	22
23	A healthful home food environment: Is it possible amidst household chaos and parental stress?. <i>Appetite</i> , 2019, 142, 104391.	3.7	30
24	Missed Work Among Caregivers of Children With a High Body Mass Index: Child, Parent, and Household Characteristics. <i>Journal of School Nursing</i> , 2019, 37, 105984051987550.	1.4	2
25	Diet Quality and Fruit, Vegetable, and Sugar-Sweetened Beverage Consumption by Household Food Insecurity among 8- to 12-Year-Old Children during Summer Months. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019, 119, 1695-1702.	0.8	36
26	Fill "half your child's plate with fruits and vegetables": Correlations with food-related practices and the home food environment. <i>Appetite</i> , 2019, 133, 77-82.	3.7	19
27	Description of the home food environment in Black, White, Hmong, Latino, Native American and Somali homes with "7-year-old children. <i>Public Health Nutrition</i> , 2019, 22, 882-893.	2.2	13
28	Case study: Behavior changes in the family-focused obesity prevention <sc>HOME</sc> Plus program. <i>Public Health Nursing</i> , 2018, 35, 299-306.	1.5	3
29	Fast food in the diet: Implications and solutions for families. <i>Physiology and Behavior</i> , 2018, 193, 252-256.	2.1	11
30	Family Home Food Environment and Nutrition-Related Parent and Child Personal and Behavioral Outcomes of the Healthy Home Offerings via the Mealtime Environment (HOME) Plus Program: A Randomized Controlled Trial. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2018, 118, 240-251.	0.8	79
31	School-based secondary prevention of overweight and obesity among 8- to 12-year old children: Design and sample characteristics of the SNAPSHOT trial. <i>Contemporary Clinical Trials</i> , 2018, 75, 9-18.	1.8	12
32	Session 4 discussion: The built environment. <i>Physiology and Behavior</i> , 2018, 193, 268-269.	2.1	0
33	Family meals among parents: Associations with nutritional, social and emotional wellbeing. <i>Preventive Medicine</i> , 2018, 113, 7-12.	3.4	57
34	Media Devices in Parents' and Children's Bedrooms and Children's Media Use. <i>American Journal of Health Behavior</i> , 2018, 42, 135-143.	1.4	7
35	Reasons Parents Buy Prepackaged, Processed Meals: It Is More Complicated Than "I Don't Have Time". <i>Journal of Nutrition Education and Behavior</i> , 2017, 49, 60-66.e1.	0.7	64
36	Association Between Parent Television-Viewing Practices and Setting Rules to Limit the Television-Viewing Time of Their 8- to 12-Year-Old Children, Minnesota, 2011-2015. <i>Preventing Chronic Disease</i> , 2017, 14, E06.	3.4	9

#	ARTICLE	IF	CITATIONS
37	Family dinner frequency interacts with dinnertime context in associations with child and parent BMI outcomes.. Journal of Family Psychology, 2017, 31, 945-951.	1.3	24
38	An Example of How to Supplement Goal Setting to Promote Behavior Change for Families Using Motivational Interviewing. Health Communication, 2016, 31, 1276-1283.	3.1	17
39	Directive and non-directive food-related parenting practices: Associations between an expanded conceptualization of food-related parenting practices and child dietary intake and weight outcomes. Appetite, 2016, 107, 188-195.	3.7	29
40	Associations among Nine Family Dinner Frequency Measures and Child Weight, Dietary, and Psychosocial Outcomes. Journal of the Academy of Nutrition and Dietetics, 2016, 116, 991-999.	0.8	26
41	Promoting healthful family meals to prevent obesity: HOME Plus, a randomized controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2015, 12, 154.	4.6	71
42	A Systematic Review on the Affordability of a Healthful Diet for Families in the United States. Public Health Nursing, 2015, 32, 68-80.	1.5	29
43	HOME Plus: Program design and implementation of a family-focused, community-based intervention to promote the frequency and healthfulness of family meals, reduce children's sedentary behavior, and prevent obesity. International Journal of Behavioral Nutrition and Physical Activity, 2015, 12, 53.	4.6	52
44	The Protective Role of Family Meals for Youth Obesity: 10-Year Longitudinal Associations. Journal of Pediatrics, 2015, 166, 296-301.	1.8	133
45	Parent-adolescent conversations about eating, physical activity and weight: prevalence across sociodemographic characteristics and associations with adolescent weight and weight-related behaviors. Journal of Behavioral Medicine, 2015, 38, 122-135.	2.1	70
46	Comparing childhood meal frequency to current meal frequency, routines, and expectations among parents.. Journal of Family Psychology, 2015, 29, 136-140.	1.3	24
47	Calorie Awareness Related to Weight Control. Journal of Continuing Education in Nursing, 2014, 45, 10-11.	0.6	1
48	Food-related parenting practices and child and adolescent weight and weight-related behaviors. Clinical Practice (London, England), 2014, 11, 207-220.	0.1	31
49	Are food restriction and pressure-to-eat parenting practices associated with adolescent disordered eating behaviors?. International Journal of Eating Disorders, 2014, 47, 310-314.	4.0	79
50	Food-related parenting: issues and challenges. Public Health Nutrition, 2014, 17, 957-959.	2.2	1
51	What's for dinner? Types of food served at family dinner differ across parent and family characteristics. Public Health Nutrition, 2014, 17, 145-155.	2.2	107
52	Time 2 talk 2nite: Use of Electronic Media by Adolescents during Family Meals and Associations with Demographic Characteristics, Family Characteristics, and Foods Served. Journal of the Academy of Nutrition and Dietetics, 2014, 114, 1053-1058.	0.8	50
53	Relationships Between Sports Team Participation and Health-Risk Behaviors Among Alternative High School Students. American Journal of Health Education, 2014, 45, 158-165.	0.6	7
54	The Healthy Home Offerings via the Mealtime Environment (HOME) Plus study: Design and methods. Contemporary Clinical Trials, 2014, 38, 59-68.	1.8	44

#	ARTICLE	IF	CITATIONS
55	Parental role modeling of fruits and vegetables at meals and snacks is associated with children's adequate consumption. <i>Appetite</i> , 2014, 78, 1-7.	3.7	166
56	A Review of Associations Between Family or Shared Meal Frequency and Dietary and Weight Status Outcomes Across the Lifespan. <i>Journal of Nutrition Education and Behavior</i> , 2014, 46, 2-19.	0.7	177
57	Studying the playbook: Which pathways mediate relationships between sports team participation and health-risk behaviors among alternative high school students?. <i>Children and Youth Services Review</i> , 2014, 44, 217-224.	1.9	9
58	Secular Trends in Fast-Food Restaurant Use Among Adolescents and Maternal Caregivers From 1999 to 2010. <i>American Journal of Public Health</i> , 2014, 104, e62-e69.	2.7	23
59	Eating Breakfast and Dinner Together as a Family: Associations with Sociodemographic Characteristics and Implications for Diet Quality and Weight Status. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2013, 113, 1601-1609.	0.8	99
60	Intervention Effects on Kindergarten and First-Grade Teachers' Classroom Food Practices and Food-Related Beliefs in American Indian Reservation Schools. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2013, 113, 1076-1083.	0.8	25
61	Eat this, not that! Parental demographic correlates of food-related parenting practices. <i>Appetite</i> , 2013, 60, 140-147.	3.7	103
62	Perspectives and Observations of Graduate Nursing Students Related to Family Meals. <i>Journal for Nurse Practitioners</i> , 2013, 9, 17-27.	0.8	0
63	Perspectives of Community Health Advocates: Barriers to Healthy Family Eating Patterns. <i>Journal for Nurse Practitioners</i> , 2013, 9, 416-421.	0.8	2
64	Changes in the Frequency of Family Meals From 1999 to 2010 in the Homes of Adolescents: Trends by Sociodemographic Characteristics. <i>Journal of Adolescent Health</i> , 2013, 52, 201-206.	2.5	77
65	Shared meals among young adults are associated with better diet quality and predicted by family meal patterns during adolescence. <i>Public Health Nutrition</i> , 2013, 16, 883-893.	2.2	45
66	Validation of a home food inventory among low-income Spanish- and Somali-speaking families. <i>Public Health Nutrition</i> , 2013, 16, 1151-1158.	2.2	18
67	Food-Related Parenting Practices and Adolescent Weight Status: A Population-Based Study. <i>Pediatrics</i> , 2013, 131, e1443-e1450.	2.1	115
68	Associations of home food availability, dietary intake, screen time and physical activity with BMI in young American-Indian children. <i>Public Health Nutrition</i> , 2013, 16, 146-155.	2.2	34
69	Food responsiveness, parental food control and anthropometric outcomes among young American Indian children: cross-sectional and prospective findings. <i>Ethnicity and Disease</i> , 2013, 23, 136-42.	2.3	4
70	Alternative High School Students' Physical Activity: Role of Self-efficacy. <i>American Journal of Health Behavior</i> , 2012, 36, 300-10.	1.4	11
71	Stressed Out and Overcommitted! The Relationships Between Time Demands and Family Rules and Parents' and Their Children's Weight Status. <i>Health Education and Behavior</i> , 2012, 39, 446-454.	2.5	17
