#	ARTICLE	IF	CITATIONS
1	What fosters or prevents interprofessional teamworking in primary and community care? A literature review. <i>International Journal of Nursing Studies</i> , 2008, 45, 140-153.	5.6	424
2	Teamwork: a concept analysis. <i>Journal of Advanced Nursing</i> , 2008, 61, 232-241.	3.3	322
3	Teamwork, collaboration, coordination, and networking: Why we need to distinguish between different types of interprofessional practice. <i>Journal of Interprofessional Care</i> , 2018, 32, 1-3.	1.7	212
4	Communication and Virtual Visiting for Families of Patients in Intensive Care during the COVID-19 Pandemic: A UK National Survey. <i>Annals of the American Thoracic Society</i> , 2021, 18, 1685-1692.	3.2	106
5	Can Schwartz Center Rounds support healthcare staff with emotional challenges at work, and how do they compare with other interventions aimed at providing similar support? A systematic review and scoping reviews. <i>BMJ Open</i> , 2018, 8, e024254.	1.9	79
6	Examining the nature of interprofessional practice: An initial framework validation and creation of the InterProfessional Activity Classification Tool (InterPACT). <i>Journal of Interprofessional Care</i> , 2018, 32, 416-425.	1.7	76
7	Doing interprofessional research in the COVID-19 era: a discussion paper. <i>Journal of Interprofessional Care</i> , 2020, 34, 600-606.	1.7	53
8	The COVID-19 crisis silver lining: interprofessional education to guide future innovation. <i>Journal of Interprofessional Care</i> , 2020, 34, 587-592.	1.7	48
9	Interprofessional education and collaborative practice research during the COVID-19 pandemic: Considerations to advance the field. <i>Journal of Interprofessional Care</i> , 2020, 34, 583-586.	1.7	41
10	Intensive care discharge summaries for general practice staff: a focus group study. <i>British Journal of General Practice</i> , 2016, 66, e904-e912.	1.4	35
11	Telemedicine with clinical decision support for critical care: a systematic review. <i>Systematic Reviews</i> , 2016, 5, 176.	5.3	33
12	Accomplishing professional jurisdiction in intensive care: An ethnographic study of three units. <i>Social Science and Medicine</i> , 2017, 181, 102-111.	3.8	28
13	Interprofessional working during the COVID-19 pandemic: sociological insights. <i>Journal of Interprofessional Care</i> , 2020, 34, 580-582.	1.7	26
14	Interprofessional science: an international field of study reaching maturity. <i>Journal of Interprofessional Care</i> , 2020, 34, 1-3.	1.7	25
15	Noise pollution in hospitals. <i>BMJ: British Medical Journal</i> , 2018, 363, k4808.	2.3	22
16	The long-term outcomes and health-related quality of life of patients following blunt thoracic injury: a narrative literature review. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2018, 26, 67.	2.6	22
17	Enhancing the provision of health and social care in Europe through <sc>eH</sc>ealth. <i>International Nursing Review</i> , 2017, 64, 33-41.	3.3	21
18	Burnout and job satisfaction among critical care nurses in Saudi Arabia and their contributing factors: A scoping review. <i>Nursing Open</i> , 2021, 8, 2331-2344.	2.4	20

#	ARTICLE	IF	CITATIONS
19	Cognitive Behavioral Therapy Compared with Non-specialized Therapy for Alleviating the Effect of Auditory Hallucinations in People with Reoccurring Schizophrenia: A Systematic Review and Meta-analysis. <i>Community Mental Health Journal</i> , 2017, 53, 127-133.	2.0	15
20	How does the implementation of a patient pathway-based intervention in the acute care of blunt thoracic injury impact on patient outcomes? A systematic review of the literature. <i>Injury</i> , 2020, 51, 1733-1743.	1.7	15
21	Healthcare stakeholders's perceptions and experiences of factors affecting the implementation of critical care telemedicine (CCT): qualitative evidence synthesis. <i>The Cochrane Library</i> , 2021, 2021, CD012876.	2.8	15
22	Beyond restraint: Raising awareness of restrictive practices in acute care settings. <i>International Journal of Nursing Studies</i> , 2018, 86, A1-A2.	5.6	14
23	Forecasting interprofessional education and collaborative practice: towards a dystopian or utopian future?. <i>Journal of Interprofessional Care</i> , 2022, 36, 165-167.	1.7	12
24	Interventions to promote family member involvement in adult critical care settings: a systematic review. <i>BMJ Open</i> , 2021, 11, e042556.	1.9	11
25	The impact of the COVID-19 pandemic on nurses in Europe: A critical discussion of policy failures and opportunities for future preparedness. <i>International Journal of Nursing Studies Advances</i> , 2021, 3, 100032.	2.1	10
26	Virtual visiting in intensive care during the COVID-19 pandemic: a qualitative descriptive study with ICU clinicians and non-ICU family team liaison members. <i>BMJ Open</i> , 2022, 12, e055679.	1.9	10
27	Reducing restrictive practice in adult services: not only an issue for mental health professionals. <i>British Journal of Nursing</i> , 2018, 27, 479-485.	0.7	9
28	Strengthening health systems response to COVID-19: interprofessional science rising to the challenge. <i>Journal of Interprofessional Care</i> , 2020, 34, 577-579.	1.7	9
29	Mapping the impact of ICU design on patients, families and the ICU team: A scoping review. <i>Journal of Critical Care</i> , 2022, 67, 3-13.	2.2	9
30	Family perspectives on facilitators and barriers to the set up and conduct of virtual visiting in intensive care during the COVID-19 pandemic: A qualitative interview study. <i>Intensive and Critical Care Nursing</i> , 2022, 72, 103264.	2.9	9
31	Cochrane Effective Practice and Organisation of Care (EPOC) Qualitative Evidence Syntheses, Differences From Reviews of Intervention Effectiveness and Implications for Guidance. <i>International Journal of Qualitative Methods</i> , The, 2022, 21, 160940692110619.	2.8	8
32	Does nurse-led initiation of Ottawa ankle rules reduce ED length of stay?. <i>International Emergency Nursing</i> , 2015, 23, 317-322.	1.5	7
33	Healthcare stakeholders's perceptions and experiences of factors affecting the implementation of critical care telemedicine (CCT): qualitative evidence synthesis. <i>The Cochrane Library</i> , 2017, , .	2.8	7
34	Interventions to promote patients and families's involvement in adult intensive care settings: a protocol for a mixed-method systematic review. <i>Systematic Reviews</i> , 2019, 8, 185.	5.3	7
35	Does topical Amethocaine cream increase first-time successful cannulation in children compared with a eutectic mixture of local anaesthetics (EMLA) cream? A systematic review and meta-analysis of randomised controlled trials. <i>Emergency Medicine Journal</i> , 2015, 32, 733-737.	1.0	6
36	Top tips for interprofessional education and collaborative practice research: a guide for students and early career researchers. <i>Journal of Interprofessional Care</i> , 2021, 35, 328-333.	1.7	6

#	ARTICLE	IF	CITATIONS
37	The effectiveness of faculty development activities for interprofessional education : A systematic review protocol. <i>Journal of Interprofessional Care</i> , 2022, 36, 630-633.	1.7	6
38	Qualitative Evidence Syntheses Within Cochrane Effective Practice and Organisation of Care: Developing a Template and Guidance. <i>International Journal of Qualitative Methods</i> , The, 2021, 20, 160940692110419.	2.8	6
39	Still too noisy â€œ An audit of sleep quality in trauma and orthopaedic patients. <i>International Emergency Nursing</i> , 2020, 49, 100812.	1.5	6
40	A longitudinal survey on the impact of the COVID-19 pandemic on interprofessional education and collaborative practice: a study protocol. <i>Journal of Interprofessional Care</i> , 2020, 34, 691-693.	1.7	5
41	Intensive care unit visiting using virtual technology: Barriers, solutions, and opportunities. <i>Intensive and Critical Care Nursing</i> , 2022, 70, 103215.	2.9	5
42	Collective leadership to improve professional practice, healthcare outcomes, and staff well-being. <i>The Cochrane Library</i> , 0, , .	2.8	4
43	The processes of hospital discharge and recovery after blunt thoracic injuries: The patientâ€™s perspective. <i>Nursing Open</i> , 2022, 9, 1832-1843.	2.4	4
44	Prospective observational study to examine health-related quality of life and develop models to predict long-term patient-reported outcomes 6 months after hospital discharge with blunt thoracic injuries. <i>BMJ Open</i> , 2021, 11, e049292.	1.9	4
45	Video-reflexive ethnography (VRE): a promising methodology for interprofessional collaborative practice research. <i>Journal of Interprofessional Care</i> , 2021, 35, 487-489.	1.7	3
46	Building consensus on inpatient discharge pathway components in the management of blunt thoracic injuries: An e-Delphi study amongst an international professional expert panel. <i>Injury</i> , 2021, 52, 2551-2559.	1.7	2
47	Interprofessional educatorsâ€™ competencies, assessment, and training â€œ IPEcat: protocol of a global consensus study. <i>Journal of Interprofessional Care</i> , 2022, , 1-5.	1.7	2
48	Challenges associated with recovery from blunt thoracic injuries from hospital admission to six-months after discharge: A qualitative interview study. <i>International Emergency Nursing</i> , 2021, 57, 101045.	1.5	1
49	Resilient healthcare theory as a lens to research emergency department operations: a protocol for a scoping review. <i>BMJ Open</i> , 2021, 11, e053701.	1.9	0
50	Interprofessional education: Lessons learned from a Brazilian experience. <i>Medical Education</i> , 0, , .	2.1	0
