#	ARTICLE	IF	CITATIONS
1	Small Intestinal Bacterial Overgrowth Syndrome: A Guide for the Appropriate Use of Breath Testing. <i>Digestive Diseases and Sciences</i> , 2021, 66, 338-347.	2.3	21
2	Motility Patterns Following Esophageal Pharmacologic Provocation With Amyl Nitrite or Cholecystokinin During High-Resolution Manometry Distinguish Idiopathic vs Opioid-Induced Type 3 Achalasia. <i>Clinical Gastroenterology and Hepatology</i> , 2020, 18, 813-821.e1.	4.4	24
3	Esophageal hypercontractility is abolished by cholinergic blockade. <i>Neurogastroenterology and Motility</i> , 2020, 33, e14017.	3.0	3
4	Clinical Functional Lumen Imaging Probe Testing in Esophageal Disorders: A Need for Better Quality Evidence. <i>American Journal of Gastroenterology</i> , 2020, 115, 1799-1801.	0.4	4
5	Flip Technology for Assessing Esophageal Structural and Motor Disorders: a Sceptic's View. <i>Current Gastroenterology Reports</i> , 2020, 22, 44.	2.5	1
6	Diagnostic differences in the pharmacologic response to cholecystokinin and amyl nitrite in patients with absent contractility vs type I Achalasia. <i>Neurogastroenterology and Motility</i> , 2020, 32, e13857.	3.0	14
7	Pharmacologic interrogation of patients with esophagogastric junction outflow obstruction using amyl nitrite. <i>Neurogastroenterology and Motility</i> , 2019, 31, e13668.	3.0	30
8	Chronic daily opioid exposure is associated with dysphagia, esophageal outflow obstruction, and disordered peristalsis. <i>Neurogastroenterology and Motility</i> , 2019, 31, e13601.	3.0	59
9	Presence of Irritable Bowel Syndrome Symptoms in Quiescent Inflammatory Bowel Disease Is Associated with High Rate of Anxiety and Depression. <i>Digestive Diseases and Sciences</i> , 2019, 64, 1923-1928.	2.3	33
10	Reply. <i>Clinical Gastroenterology and Hepatology</i> , 2016, 14, 1363-1364.	4.4	1
11	Reply. <i>Clinical Gastroenterology and Hepatology</i> , 2016, 14, 1224.	4.4	0
12	Clinical Conundrum: Killian-Jamieson Diverticulum with Paraesophageal Hernia. <i>Dysphagia</i> , 2016, 31, 587-591.	1.8	6
13	Reply. <i>Clinical Gastroenterology and Hepatology</i> , 2016, 14, 1512.	4.4	0
14	Identification of Quality Measures for Performance of and Interpretation of Data From Esophageal Manometry. <i>Clinical Gastroenterology and Hepatology</i> , 2016, 14, 526-534.e1.	4.4	27
15	Scintigraphy Demonstrates High Rate of False-positive Results From Glucose Breath Tests for Small Bowel Bacterial Overgrowth. <i>Clinical Gastroenterology and Hepatology</i> , 2016, 14, 203-208.	4.4	69
16	Impaired Upper Esophageal Sphincter Reflexes in Patients With Supraesophageal Reflux Disease. <i>Gastroenterology</i> , 2015, 149, 1381-1391.	1.3	48
17	Transmission of carbapenem-resistant Enterobacteriaceae during ERCP: time to revisit the current reprocessing guidelines. <i>Gastrointestinal Endoscopy</i> , 2015, 81, 1041-1045.	1.0	82
18	The Presence of Methanogenic Bacteria, Identified During Clinical Breath Testing, Is Not Associated with a Higher Body Mass Index in a U.S. Midwestern Population. <i>Bariatric Surgical Patient Care</i> , 2014, 9, 169-172.	0.5	1

#	ARTICLE	IF	CITATIONS
19	EndoFLIP Assessment of Achalasia Therapy: Interpreting the Distensibility Data Is a Bit of a Stretch. <i>Gastroenterology</i> , 2013, 144, e17-e18.	1.3	10
20	Dyssynergic Defecation: A Treatable Cause of Persistent Symptoms When Inflammatory Bowel Disease Is in Remission. <i>Digestive Diseases and Sciences</i> , 2013, 58, 3600-3605.	2.3	32
21	Review: Evidence on PPIs for nonspecific chronic cough in adults with gastroesophageal reflux disease is inconsistent. <i>Annals of Internal Medicine</i> , 2011, 154, JC6.	3.9	2
22	2009 Dysphagia Research Society President's Report: Dysphagia Week Declared in New Orleans for the 17th Annual DRS Meeting. <i>Dysphagia</i> , 2009, 24, 447-448.	1.8	0
23	Rapid Gastric Emptying Is More Common than Gastroparesis in Patients With Autonomic Dysfunction. <i>American Journal of Gastroenterology</i> , 2007, 102, 618-623.	0.4	53
24	Esophageal Motor and Sensory Disorders: Presentation, Evaluation, and Treatment. <i>Gastroenterology Clinics of North America</i> , 2007, 36, 553-575.	2.2	4
25	Transient Lower Esophageal Sphincter Relaxations Do Not Result From Passive Opening of the Cardia by Gastric Distention. <i>Gastroenterology</i> , 2006, 130, 89-95.	1.3	26
26	Effect of lower esophageal sphincter tone and crural diaphragm contraction on distensibility of the gastroesophageal junction in humans. <i>American Journal of Physiology - Renal Physiology</i> , 2004, 287, G815-G821.	3.4	24
27	The implications of <i>Helicobacter pylori</i> infection for gastroesophageal reflux disease: Studies presented at Digestive Disease Week 2003. <i>Current Gastroenterology Reports</i> , 2004, 6, 191-195.	2.5	1
28	Eosinophilic esophagitis in adults: An emerging problem with unique esophageal features. <i>Gastrointestinal Endoscopy</i> , 2004, 59, 355-361.	1.0	274
29	Management of idiopathic achalasia: Short-term and long-term outcomes. <i>Current Gastroenterology Reports</i> , 2000, 2, 196-200.	2.5	11
30	Epidemiology of hospitalization for achalasia in the United States. <i>Digestive Diseases and Sciences</i> , 1993, 38, 233-244.	2.3	63
31	Abnormal esophageal motility. <i>Gastroenterology</i> , 1991, 101, 344-354.	1.3	101
32	Timing of videofluoroscopic, manometric events, and bolus transit during the oral and pharyngeal phases of swallowing. <i>Dysphagia</i> , 1989, 4, 8-15.	1.8	254
