#	ARTICLE	IF	CITATIONS
1	Examining risk and protective factors for psychological health during the COVID-19 pandemic. <i>Anxiety, Stress and Coping</i> , 2022, 35, 124-140.	2.9	18
2	Impact of the COVID-19 pandemic on the psychological health of individuals with mental health conditions: A mixed methods study. <i>Journal of Clinical Psychology</i> , 2022, 78, 710-728.	1.9	9
3	Protection versus risk? The relative roles of compassionate and uncompassionate self-responding for eating disorder behaviors. <i>Eating Behaviors</i> , 2022, 44, 101592.	2.0	4
4	“Feeling fat” amid the COVID-19 pandemic: Examining the role of emotion dysregulation in the body displacement hypothesis. <i>Eating Behaviors</i> , 2022, 44, 101597.	2.0	3
5	The roles of negative emotion intensity, negative emotion differentiation, and self-compassion in loss of control eating. <i>International Journal of Eating Disorders</i> , 2022, 55, 966-976.	4.0	5
6	Eating disorders and the nine symptoms of borderline personality disorder: A systematic review and series of meta-analyses. <i>International Journal of Eating Disorders</i> , 2022, 55, 993-1011.	4.0	6
7	Associations between different facets of anhedonia and neural response to monetary, social, and food reward in emerging adults. <i>Biological Psychology</i> , 2022, 172, 108363.	2.2	13
8	Symptoms of anorexia nervosa and bulimia nervosa have differential relationships to borderline personality disorder symptoms. <i>Eating Disorders</i> , 2021, 29, 161-174.	3.0	18
9	“Feeling fat,” eating pathology, and eating pathology-related impairment in young men and women. <i>Eating Disorders</i> , 2021, 29, 523-538.	3.0	10
10	Implicit and explicit motivational responses to high- and low-calorie food in women with disordered eating. <i>International Journal of Psychophysiology</i> , 2021, 159, 37-46.	1.0	6
11	“Feeling fat” is associated with specific eating disorder symptom dimensions in young men and women. <i>Eating and Weight Disorders</i> , 2021, 26, 2345-2351.	2.5	5
12	Hunger games: Associations between core eating disorder symptoms and responses to rejection by peers during competition. <i>International Journal of Eating Disorders</i> , 2021, 54, 802-811.	4.0	8
13	Emotion dysregulation moderates the relationship between alcohol use and eating pathology among heavy-drinking college men. <i>Journal of Clinical Psychology</i> , 2021, 77, 1763-1775.	1.9	2
14	The effects of puberty on associations between mood/personality factors and disordered eating symptoms in girls. <i>International Journal of Eating Disorders</i> , 2021, 54, 1619-1631.	4.0	7
15	Extending the scope of the interpersonal psychotherapy model of eating disorders: Integrating the role of “feeling fat”. <i>Appetite</i> , 2021, 166, 105441.	3.7	3
16	Emotion dysregulation as a correlate of food and alcohol disturbance in undergraduate students. <i>Eating Behaviors</i> , 2020, 38, 101409.	2.0	11
17	Emotion regulation difficulties as common and unique predictors of impulsive behaviors in university students. <i>Journal of American College Health</i> , 2020, , 1-9.	1.5	16
18	Dimensions of unhealthy exercise and their associations with restrictive eating and binge eating. <i>Eating Behaviors</i> , 2020, 39, 101436.	2.0	6

#	ARTICLE	IF	CITATIONS
19	Examining associations between emotion-based rash action and dysregulated eating symptoms in men and women. <i>Eating Behaviors</i> , 2020, 37, 101379.	2.0	7
20	Understanding "feeling fat" and its underlying mechanisms: The importance of multimethod measurement. <i>International Journal of Eating Disorders</i> , 2020, 53, 1400-1404.	4.0	15
21	Risk and Resilience in an Acute Stress Paradigm: Evidence From Salivary Cortisol and Time-Frequency Analysis of the Reward Positivity. <i>Clinical Psychological Science</i> , 2020, 8, 872-889.	4.0	21
22	Convergence in maternal and child reports of impulsivity, depressive symptoms, and trait anxiety, and their predictive utility for binge eating behaviors. <i>International Journal of Eating Disorders</i> , 2019, 52, 1058-1064.	4.0	3
23	Associations between self-report and physiological measures of emotional reactions to food among women with disordered eating. <i>International Journal of Psychophysiology</i> , 2019, 144, 40-46.	1.0	5
24	Extending the Acquired Preparedness model of binge eating: Testing the indirect effects of high-risk personality traits on binge eating via positive and negative reinforcement expectancies. <i>Appetite</i> , 2019, 140, 206-212.	3.7	9
25	Effort expenditure for rewards task modified for food: A novel behavioral measure of willingness to work for food. <i>International Journal of Eating Disorders</i> , 2019, 52, 71-78.	4.0	13
26	Is all nonhomeostatic eating the same? Examining the latent structure of nonhomeostatic eating processes in women and men.. <i>Psychological Assessment</i> , 2019, 31, 1220-1233.	1.5	19
27	Emotion dysregulation across the spectrum of pathological eating: Comparisons among women with binge eating, overeating, and loss of control eating. <i>Eating Disorders</i> , 2018, 26, 13-25.	3.0	39
28	Emotional ratings of high- and low-calorie food are differentially associated with cognitive restraint and dietary restriction. <i>Appetite</i> , 2018, 121, 302-308.	3.7	24
29	Emotional Reactivity and Appraisal of Food in Relation to Eating Disorder Cognitions and Behaviours: Evidence to Support the Motivational Conflict Hypothesis. <i>European Eating Disorders Review</i> , 2018, 26, 3-10.	4.1	22
30	Integrating eating disorder-specific risk factors into the acquired preparedness model of dysregulated eating: A moderated mediation analysis. <i>Eating Behaviors</i> , 2017, 24, 54-60.	2.0	21
31	Personality traits and appearance-ideal internalization: Differential associations with body dissatisfaction and compulsive exercise. <i>Eating Behaviors</i> , 2017, 27, 39-44.	2.0	23
32	A systematic review and secondary data analysis of the interactions between the serotonin transporter 5-HTTLPR polymorphism and environmental and psychological factors in eating disorders. <i>Journal of Psychiatric Research</i> , 2017, 84, 62-72.	3.1	35
33	Eating disorder-specific risk factors moderate the relationship between negative urgency and binge eating: A behavioral genetic investigation.. <i>Journal of Abnormal Psychology</i> , 2017, 126, 481-494.	1.9	18
34	Examining weight suppression as a predictor of eating disorder symptom trajectories in anorexia nervosa. <i>International Journal of Eating Disorders</i> , 2016, 49, 753-763.	4.0	26
35	Voluntary emotion regulation in anorexia nervosa: A preliminary emotion-modulated startle investigation. <i>Journal of Psychiatric Research</i> , 2016, 77, 1-7.	3.1	15
36	Hormonal Factors and Disturbances in Eating Disorders. <i>Current Psychiatry Reports</i> , 2016, 18, 65.	4.5	73

#	ARTICLE	IF	CITATIONS
37	Exploring divergent trajectories: Disorder-specific moderators of the association between negative urgency and dysregulated eating. <i>Appetite</i> , 2016, 103, 45-53.	3.7	21
38	Dynamic longitudinal relations between emotion regulation difficulties and anorexia nervosa symptoms over the year following intensive treatment.. <i>Journal of Consulting and Clinical Psychology</i> , 2015, 83, 785-795.	2.0	60
39	Examining associations between negative urgency and key components of objective binge episodes. <i>International Journal of Eating Disorders</i> , 2015, 48, 527-531.	4.0	39
40	Research Review: What we have learned about the causes of eating disorders – a synthesis of sociocultural, psychological, and biological research. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2015, 56, 1141-1164.	5.2	379
41	The effects of ovarian hormones and emotional eating on changes in weight preoccupation across the menstrual cycle. <i>International Journal of Eating Disorders</i> , 2015, 48, 477-486.	4.0	29
42	Behavior Genetics and the Within-Person Variability of Daily Interpersonal Styles. <i>Social Psychological and Personality Science</i> , 2015, 6, 300-308.	3.9	7
43	Emotion dysregulation and anorexia nervosa: An exploration of the role of childhood abuse. <i>International Journal of Eating Disorders</i> , 2015, 48, 55-58.	4.0	70
44	Influences of Ovarian Hormones on Dysregulated Eating. <i>Clinical Psychological Science</i> , 2014, 2, 545-559.	4.0	78
45	Do emotional eating urges regulate affect? Concurrent and prospective associations and implications for risk models of binge eating. <i>International Journal of Eating Disorders</i> , 2014, 47, 874-877.	4.0	55
46	Advanced paternal age at birth: phenotypic and etiologic associations with eating pathology in offspring. <i>Psychological Medicine</i> , 2014, 44, 1029-1041.	4.5	18
47	Differential strain vulnerability to binge eating behaviors in rats. <i>Physiology and Behavior</i> , 2014, 127, 81-86.	2.1	27
48	A further validation of the Minnesota Borderline Personality Disorder Scale.. <i>Personality Disorders: Theory, Research, and Treatment</i> , 2014, 5, 146-153.	1.3	8
49	Individual differences in the relationship between ovarian hormones and emotional eating across the menstrual cycle: A role for personality?. <i>Eating Behaviors</i> , 2013, 14, 161-166.	2.0	28
50	Exploring the relationship between negative urgency and dysregulated eating: Etiologic associations and the role of negative affect.. <i>Journal of Abnormal Psychology</i> , 2013, 122, 433-444.	1.9	99
51	The interactive effects of estrogen and progesterone on changes in emotional eating across the menstrual cycle.. <i>Journal of Abnormal Psychology</i> , 2013, 122, 131-137.	1.9	160
52	Sex differences in binge eating patterns in male and female adult rats. <i>International Journal of Eating Disorders</i> , 2013, 46, 729-736.	4.0	105
53	Emotion dysregulation and symptoms of anorexia nervosa: The unique roles of lack of emotional awareness and impulse control difficulties when upset. <i>International Journal of Eating Disorders</i> , 2013, 46, 713-720.	4.0	95
54	Ovarian hormones and emotional eating associations across the menstrual cycle: An examination of the potential moderating effects of body mass index and dietary restraint. <i>International Journal of Eating Disorders</i> , 2013, 46, 256-263.	4.0	27

#	ARTICLE	IF	CITATIONS
55	Differential associations between ovarian hormones and disordered eating symptoms across the menstrual cycle in women. <i>International Journal of Eating Disorders</i> , 2012, 45, 333-344.	4.0	53
56	Dietary restraint moderates genetic risk for binge eating.. <i>Journal of Abnormal Psychology</i> , 2011, 120, 119-128.	1.9	45
57	Examining the relationship between dietary restraint and binge eating: Differential effects of major and minor stressors. <i>Eating Behaviors</i> , 2010, 11, 276-280.	2.0	37
58	The possible influence of impulsivity and dietary restraint on associations between serotonin genes and binge eating. <i>Journal of Psychiatric Research</i> , 2009, 43, 1278-1286.	3.1	68
