#	Article	IF	CITATIONS
1	Healthcare professional behaviour: health impact, prevalence of evidence-based behaviours, correlates and interventions. Psychology and Health, 2023, 38, 766-794.	1.2	14
2	Barriers and enablers to providing community-based occupational therapy to people with functional neurological disorder: An interview study with occupational therapists in the United Kingdom. British Journal of Occupational Therapy, 2022, 85, 262-273.	0.5	3
3	Impact of an allied health prehabilitation service for haematologic patients receiving high-dose chemotherapy in a large cancer centre. Supportive Care in Cancer, 2022, 30, 1841-1852.	1.0	9
4	Implementability of healthcare interventions: an overview of reviews and development of a conceptual framework. Implementation Science, 2022, 17, 10.	2.5	72
5	Improving adherence to acute low back pain guideline recommendations with chiropractors and physiotherapists: the ALIGN cluster randomised controlled trial. Trials, 2022, 23, 142.	0.7	4
6	Effectiveness of Enhanced Performance Feedback on Appropriate Use of Blood Transfusions. JAMA Network Open, 2022, 5, e220364.	2.8	6
7	Enhanced feedback interventions to promote evidence-based blood transfusion guidance and reduce unnecessary use of blood components: the AFFINITIE research programme including two cluster factorial RCTs. Programme Grants for Applied Research, 2022, 10, 1-112.	0.4	0
8	Development of a theory-informed questionnaire to assess the acceptability of healthcare interventions. BMC Health Services Research, 2022, 22, 279.	0.9	78
9	Embedded trials within national clinical audit programmes: A qualitative interview study of enablers and barriers. Journal of Health Services Research and Policy, 2022, 27, 50-61.	0.8	1
10	Blood transfusion in haematology: A qualitative exploration of patients' and healthcare professionals' perceptions. British Journal of Health Psychology, 2022, , .	1.9	1
11	Exploring patient acceptability of a shortâ€stay care pathway in hospital post arthroplasty: A theoryâ€informed qualitative study. Health Expectations, 2022, 25, 2002-2014.	1.1	3
12	Changing behaviour, †more or less': do implementation and de-implementation interventions include different behaviour change techniques?. Implementation Science, 2021, 16, 20.	2.5	30
13	Does prospective acceptability of an intervention influence refusal to participate in a randomised controlled trial? An interview study. Contemporary Clinical Trials Communications, 2021, 21, 100698.	0.5	15
14	Implementing a telehealth prehabilitation education session for patients preparing for major cancer surgery. BMC Health Services Research, 2021, 21, 443.	0.9	21
15	Stakeholder Perspectives of Attributes and Features of Context Relevant to Knowledge Translation in Health Settings: A Multi-Country Analysis. International Journal of Health Policy and Management, 2021, , .	0.5	17
16	Identifying ways to maximise cervical screening uptake: a qualitative study of GPs' and practice nurses' cervical cancer screening-related behaviours. HRB Open Research, 2021, 4, 44.	0.3	3
17	Antibiotic prescribing for respiratory tract infection: exploring drivers of cognitive effort and factors associated with inappropriate prescribing. Family Practice, 2021, 38, 740-750.	0.8	3
18	Behaviour change: The key to implementing evidence on <scp>COPD</scp> prevention, diagnosis and management. Respirology, 2021, 26, 1021-1023.	1.3	2

#	Article	IF	Citations
19	Why trials lose participants: A multitrial investigation of participants' perspectives using the theoretical domains framework. Journal of Clinical Epidemiology, 2021, 137, 1-13.	2.4	16
20	Description and Effectiveness of Communication Partner Training in TBI: A Systematic Review. Journal of Head Trauma Rehabilitation, 2021, 36, 56-71.	1.0	19
21	Patient-Facing Mobile Apps to Support Physiotherapy Care: Protocol for a Systematic Review of Apps Within App Stores. JMIR Research Protocols, 2021, 10, e29047.	0.5	9
22	How can behavioural science help us design better trials?. Trials, 2021, 22, 882.	0.7	11
23	The use of theory in process evaluations conducted alongside randomized trials of implementation interventions: A systematic review. Translational Behavioral Medicine, 2020, 10, 168-178.	1.2	26
24	Repeated analyses of national clinical audit reports demonstrate improvements in feedback methods. Implementation Science Communications, 2020, 1, 106.	0.8	9
25	The Help for Hay Fever community pharmacy-based pilot randomised controlled trial for intermittent allergic rhinitis. Npj Primary Care Respiratory Medicine, 2020, 30, 23.	1.1	2
26	Communication partner training in traumatic brain injury: a UK survey of Speech and Language Therapists' clinical practice. Brain Injury, 2020, 34, 934-944.	0.6	8
27	Barriers and Facilitators to Implementation of Antibiotic Stewardship Programmes in Hospitals in Developed Countries: Insights From Transnational Studies. Frontiers in Sociology, 2020, 5, 41.	1.0	22
28	A behavioural approach to specifying interventions: what insights can be gained for the reporting and implementation of interventions to reduce antibiotic use in hospitals?. Journal of Antimicrobial Chemotherapy, 2020, 75, 1338-1346.	1.3	22
29	Barriers and Facilitators to Early Rehabilitation in the ICU: A Theory Driven Delphi Study. Critical Care Medicine, 2020, 48, e1171-e1178.	0.4	8
30	Implementing a psychosocial intervention DIALOG+ for patients with psychotic disorders in low and middle income countries in South Eastern Europe: protocol for a hybrid effectiveness-implementation cluster randomized clinical trial (IMPULSE). Global Psychiatry, 2020, 3, 83-96.	2.0	17
31	How actionable are staff behaviours specified in policy documents? A document analysis of protocols for managing deteriorating patients. Journal of Clinical Nursing, 2019, 28, 4139-4149.	1.4	15
32	Understanding context: A concept analysis. Journal of Advanced Nursing, 2019, 75, 3448-3470.	1.5	27
33	Rethinking Strategies for Positive Newborn Screening Result (NBS+) Delivery (ReSPoND): a process evaluation of co-designing interventions to minimise impact on parental emotional well-being and stress. Pilot and Feasibility Studies, 2019, 5, 108.	0.5	8
34	Five-Year Outcomes of a Randomized Trial of Treatments for Varicose Veins. New England Journal of Medicine, 2019, 381, 912-922.	13.9	75
35	Evaluation of a targeted, theory-informed implementation intervention designed to increase uptake of emergency management recommendations regarding adult patients with mild traumatic brain injury: results of the NET cluster randomised trial. Implementation Science, 2019, 14, 4.	2.5	20
36	Attributes of context relevant to healthcare professionals' use of research evidence in clinical practice: a multi-study analysis. Implementation Science, 2019, 14, 52.	2.5	50

#	Article	IF	Citations
37	DEveloping a Complex Intervention for DEteriorating patients using theoretical modelling (DECIDE) Tj ETQq1	1 0.784314 rg	gBT /Overloc
38	Clinical Performance Feedback Intervention Theory (CP-FIT): a new theory for designing, implementing, and evaluating feedback in health care based on a systematic review and meta-synthesis of qualitative research. Implementation Science, 2019, 14, 40.	2.5	164
39	Reinvigorating stagnant science: implementation laboratories and a meta-laboratory to efficiently advance the science of audit and feedback. BMJ Quality and Safety, 2019, 28, 416-423.	1.8	92
40	Action, actor, context, target, time (AACTT): a framework for specifying behaviour. Implementation Science, 2019, 14, 102.	2.5	160
41	Can we do better? Bridging the research to practice gap in patient blood management–optimizing â€~audit & feedback' and the challenges of undertaking a national clusterâ€randomized controlled trial. ISBT Science Series, 2019, 14, 129-135.	1.1	6
42	Seeing New Opportunities to Help Smokers Quit: A UK National Survey of Optometrist-Delivered Smoking Cessation Behavioral Support Interventions. Nicotine and Tobacco Research, 2019, 21, 655-662.	1.4	2
43	Patients' and health care professionals' perceptions of blood transfusion: a systematic review. Transfusion, 2018, 58, 446-455.	0.8	6
44	Systematic Techniques to Enhance rEtention in Randomised controlled trials: the STEER study protocol. Trials, 2018, 19, 197.	0.7	14
45	Acceptability of health care interventions: AÂtheoretical framework and proposed research agenda. British Journal of Health Psychology, 2018, 23, 519-531.	1.9	124
46	Communication of behaviour change interventions: Can they be recognised from written descriptions?. Psychology and Health, 2018, 33, 713-723.	1.2	57
47	Improving adherence to multiple medications in older people in primary care: Selecting intervention components to address patientâ€reported barriers and facilitators. Health Expectations, 2018, 21, 138-148.	1.1	50
48	Which primary care practitioners have poor human papillomavirus (HPV) knowledge? A step towards informing the development of professional education initiatives. PLoS ONE, 2018, 13, e0208482.	1.1	20
49	Changing behaviour â€~more or less'—do theories of behaviour inform strategies for implementation and de-implementation? A critical interpretive synthesis. Implementation Science, 2018, 13, 134.	2.5	48
50	How do hospitals respond to feedback about blood transfusion practice? A multiple case study investigation. PLoS ONE, 2018, 13, e0206676.	1.1	16
51	Barriers to and enablers of diabetic retinopathy screening attendance: a systematic review of published and grey literature. Diabetic Medicine, 2018, 35, 1308-1319.	1.2	95
52	Cluster randomised controlled trial of a theory-based multiple behaviour change intervention aimed at healthcare professionals to improve their management of type 2 diabetes in primary care. Implementation Science, 2018, 13, 65.	2.5	26
53	Barriers and facilitators to early rehabilitation in mechanically ventilated patients—a theory-driven interview study. Journal of Intensive Care, 2018, 6, 4.	1.3	20
54	A feasibility study of a theory-based intervention to improve appropriate polypharmacy for older people in primary care. Pilot and Feasibility Studies, 2018, 4, 23.	0.5	15

#	Article	IF	CITATIONS
55	What works to increase attendance for diabetic retinopathy screening? An evidence synthesis and economic analysis. Health Technology Assessment, 2018, 22, 1-160.	1.3	35
56	Acceptability of healthcare interventions: an overview of reviews and development of a theoretical framework. BMC Health Services Research, 2017, 17, 88.	0.9	1,648
57	A guide to using the Theoretical Domains Framework of behaviour change to investigate implementation problems. Implementation Science, 2017, 12, 77.	2.5	1,734
58	"Better―clinical decisions do not necessarily require more time to make. Journal of Clinical Epidemiology, 2017, 82, 173-174.	2.4	3
59	Intermittent auscultation versus continuous fetal monitoring: exploring factors that influence birthing unit nurses' fetal surveillance practice using theoretical domains framework. BMC Pregnancy and Childbirth, 2017, 17, 320.	0.9	18
60	Combined use of the Consolidated Framework for Implementation Research (CFIR) and the Theoretical Domains Framework (TDF): a systematic review. Implementation Science, 2017, 12, 2.	2.5	202
61	The evaluation of enhanced feedback interventions to reduce unnecessary blood transfusions (AFFINITIE): protocol for two linked cluster randomised factorial controlled trials. Implementation Science, 2017, 12, 84.	2.5	22
62	A survey of UK optometry trainees' smoking cessation training. Ophthalmic and Physiological Optics, 2016, 36, 494-502.	1.0	6
63	A primary care Web-based Intervention Modeling Experiment replicated behavior changes seen in earlier paper-based experiment. Journal of Clinical Epidemiology, 2016, 80, 116-122.	2.4	7
64	Methods used to address fidelity of receipt in health intervention research: a citation analysis and systematic review. BMC Health Services Research, 2016, 16, 663.	0.9	102
65	Development of an intervention to improve appropriate polypharmacy in older people in primary care using a theory-based method. BMC Health Services Research, 2016, 16, 661.	0.9	72
66	A multidimensional approach to assessing intervention fidelity in a process evaluation of audit and feedback interventions to reduce unnecessary blood transfusions: a study protocol. Implementation Science, 2016, 11, 163.	2.5	36
67	Barriers and enablers to diabetic retinopathy screening attendance: Protocol for a systematic review. Systematic Reviews, 2016, 5, 134.	2.5	25
68	The ethics of future trials: qualitative analysis of physicians' decision making. Trials, 2016, 17, 12.	0.7	4
69	Supporting genetics in primary care: investigating how theory can inform professional education. European Journal of Human Genetics, 2016, 24, 1541-1546.	1.4	9
70	An online study combining the constructs from the theory of planned behaviour and protection motivation theory in predicting intention to test for chlamydia in two testing contexts. Psychology, Health and Medicine, 2016, 21, 38-51.	1.3	8
71	Printed educational messages fail to increase use of thiazides as first-line medication for hypertension in primary care: a cluster randomized controlled trial [ISRCTN72772651]. Implementation Science, 2015, 11, 124.	2.5	14
72	A theory-based process evaluation alongside a randomised controlled trial of printed educational messages to increase primary care physicians' prescription of thiazide diuretics for hypertension [ISRCTN72772651]. Implementation Science, 2015, 11, 121.	2,5	23

#	Article	IF	CITATIONS
73	Improving appropriate polypharmacy for older people in primary care: selecting components of an evidence-based intervention to target prescribing and dispensing. Implementation Science, 2015, 10, 161.	2.5	56
74	Developing a targeted, theory-informed implementation intervention using two theoretical frameworks to address health professional and organisational factors: a case study to improve the management of mild traumatic brain injury in the emergency department. Implementation Science, 2015, 10, 74.	2.5	42
75	Identifying the domains of context important to implementation science: a study protocol. Implementation Science, 2015, 10, 135.	2.5	66
76	Specifying active components of educational interventions to promote adherence to treatment in glaucoma patients: application of a taxonomy of behavior change techniques. Psychology Research and Behavior Management, 2015, 8, 201.	1.3	3
77	Reporting behaviour change interventions: do the behaviour change technique taxonomy v1, and training in its use, improve the quality of intervention descriptions? Implementation Science, 2015, 11, 84.	2.5	34
78	Evaluation of the fidelity of an interactive face-to-face educational intervention to improve general practitioner management of back pain. BMJ Open, 2015, 5, e007886.	0.8	27
79	Reliability of Identification of Behavior Change Techniques in Intervention Descriptions. Annals of Behavioral Medicine, 2015, 49, 885-900.	1.7	51
80	Mobilization of ventilated patients in the intensive care unit: An elicitation study using the theory of planned behavior. Journal of Critical Care, 2015, 30, 1243-1250.	1.0	33
81	Applying the behaviour change technique (BCT) taxonomy v1: a study of coder training. Translational Behavioral Medicine, 2015, 5, 134-148.	1.2	74
82	Goal conflict and goal facilitation in community-based cardiac rehabilitation: A theory-based interview study. Psychology, Health and Medicine, 2015, 20, 227-238.	1.3	14
83	Participation in Physical Play and Leisure in Children With Motor Impairments: Mixed-Methods Study to Generate Evidence for Developing an Intervention. Physical Therapy, 2015, 95, 1374-1386.	1.1	19
84	Clinical effectiveness and cost-effectiveness of foam sclerotherapy, endovenous laser ablation and surgery for varicose veins: results from the Comparison of LAser, Surgery and foam Sclerotherapy (CLASS) randomised controlled trial. Health Technology Assessment, 2015, 19, 1-342.	1.3	67
85	Behaviour change techniques: the development and evaluation of a taxonomic method for reporting and describing behaviour change interventions (a suite of five studies involving consensus methods,) Tj ETQq1 19. 1-188.	1 0.78431 1.3	4 rgBT/Overl
86	Understanding diagnosis and management of dementia and guideline implementation in general practice: a qualitative study using the theoretical domains framework. Implementation Science, 2014, 9, 31.	2.5	69
87	Views of healthcare professionals to linkage of routinely collected healthcare data: a systematic literature review: Figure 1. Journal of the American Medical Informatics Association: JAMIA, 2014, 21, e6-e10.	2.2	17
88	Environmental and individual correlates of distress: Testing <scp>K</scp> arasek's Demandâ€Control model in 99 primary care clinical environments. British Journal of Health Psychology, 2014, 19, 292-310.	1.9	17
89	Linked health data for pharmacovigilance in children: perceived legal and ethical issues for stakeholders and data guardians: TableÂ1. BMJ Open, 2014, 4, e003875.	0.8	4
90	Is it worthwhile to conduct a randomized controlled trial of glaucoma screening in the United Kingdom?. Journal of Health Services Research and Policy, 2014, 19, 42-51.	0.8	25

#	Article	IF	Citations
91	Looking inside the black box: results of a theory-based process evaluation exploring the results of a randomized controlled trial of printed educational messages to increase primary care physicians' diabetic retinopathy referrals [Trial registration number ISRCTN72772651]. Implementation Science, 2014, 9, 86.	2.5	34
92	The views of health care professionals about selective decontamination of the digestive tract: An international, theoretically informed interview study. Journal of Critical Care, 2014, 29, 634-640.	1.0	16
93	Theory-based predictors of multiple clinician behaviors in the management of diabetes. Journal of Behavioral Medicine, 2014, 37, 607-620.	1.1	43
94	Understanding practice: the factors that influence management of mild traumatic brain injury in the emergency department-a qualitative study using the Theoretical Domains Framework. Implementation Science, 2014, 9, 8.	2.5	82
95	No more †business as usual†with audit and feedback interventions: towards an agenda for a reinvigorated intervention. Implementation Science, 2014, 9, 14.	2.5	271
96	Comparison of four methods for assessing the importance of attitudinal beliefs: An international <scp>D</scp> elphi study in intensive care settings. British Journal of Health Psychology, 2014, 19, 274-291.	1.9	13
97	â€The more you link, the more you risk â€ $ $ â€ $^{\text{IM}}$ â€ $^{\text{IM}}$ a focus group study exploring views about data linkage for pharmacovigilance. British Journal of Clinical Pharmacology, 2014, 78, 1143-1150.	1.1	4
98	A Randomized Trial Comparing Treatments for Varicose Veins. New England Journal of Medicine, 2014, 371, 1218-1227.	13.9	170
99	Implementing evidence-based recommended practices for the management of patients with mild traumatic brain injuries in Australian emergency care departments: study protocol for a cluster randomised controlled trial. Trials, 2014, 15, 281.	0.7	21
100	Application of theory to enhance audit and feedback interventions to increase the uptake of evidence-based transfusion practice: an intervention development protocol. Implementation Science, 2014, 9, 92.	2.5	48
101	Reflective and Automatic Processes in Health Care Professional Behaviour: a Dual Process Model Tested Across Multiple Behaviours. Annals of Behavioral Medicine, 2014, 48, 347-358.	1.7	132
102	Improving Diabetes care through Examining, Advising, and prescribing (IDEA): protocol for a theory-based cluster randomised controlled trial of a multiple behaviour change intervention aimed at primary healthcare professionals. Implementation Science, 2014, 9, 61.	2.5	27
103	Paper-based and web-based intervention modeling experiments identifiedÂthe same predictors of general practitioners' antibiotic-prescribing behavior. Journal of Clinical Epidemiology, 2014, 67, 296-304.	2.4	10
104	Valuing patients' experiences of healthcare processes: Towards broader applications of existing methods. Social Science and Medicine, 2014, 106, 194-203.	1.8	35
105	Implementing selective digestive tract decontamination in the intensive care unit: A qualitative analysis of nurse-identified considerations. Heart and Lung: Journal of Acute and Critical Care, 2014, 43, 13-18.	0.8	7
106	Prevalence and Causes of Prescribing Errors: The PRescribing Outcomes for Trainee Doctors Engaged in Clinical Training (PROTECT) Study. PLoS ONE, 2014, 9, e79802.	1.1	147
107	Selective decontamination of the digestive tract in critically ill patients treated in intensive care units: a mixed-methods feasibility study (the SuDDICU study). Health Technology Assessment, 2014, 18, 1-170.	1.3	28
108	â€~Help for Hay Fever', a goal-focused intervention for people with intermittent allergic rhinitis, delivered in Scottish community pharmacies: study protocol for a pilot cluster randomized controlled trial. Trials, 2013, 14, 217.	0.7	10

#	Article	IF	CITATIONS
109	Active ingredients are reported more often for pharmacologic than non-pharmacologic interventions: an illustrative review of reporting practices in titles and abstracts. Trials, 2013, 14, 146.	0.7	40
110	The Behavior Change Technique Taxonomy (v1) of 93 Hierarchically Clustered Techniques: Building an International Consensus for the Reporting of Behavior Change Interventions. Annals of Behavioral Medicine, 2013, 46, 81-95.	1.7	4,927
111	Junior doctors' perceptions of their selfâ€efficacy in prescribing, their prescribing errors and the possible causes of errors. British Journal of Clinical Pharmacology, 2013, 76, 980-987.	1.1	37
112	Evidence-based care of older people with suspected cognitive impairment in general practice: protocol for the IRIS cluster randomised trial. Implementation Science, 2013, 8, 91.	2.5	6
113	Feedback GAP: pragmatic, cluster-randomized trial of goal setting and action plans to increase the effectiveness of audit and feedback interventions in primary care. Implementation Science, 2013, 8, 142.	2.5	31
114	Clinicians' actions associated with the successful patient care process: a content analysis of interviews with paediatric occupational therapists. Disability and Rehabilitation, 2013, 35, 388-396.	0.9	7
115	Clinical components and associated behavioural aspects of a complex healthcare intervention: Multi-methods study of selective decontamination of the digestive tract in critical care. Australian Critical Care, 2013, 26, 173-179.	0.6	7
116	Perceived causes of prescribing errors by junior doctors in hospital inpatients: a study from the PROTECT programme. BMJ Quality and Safety, 2013, 22, 97-102.	1.8	106
117	Why do people present late with advanced glaucoma? A qualitative interview study. British Journal of Ophthalmology, 2013, 97, 1574-1578.	2.1	25
118	Is organizational justice associated with clinical performance in the care for patients with diabetes in primary care? Evidence from the improving Quality of care in Diabetes study. Family Practice, 2013, 30, 31-39.	0.8	17
119	Goal conflict and goal facilitation as predictors of daily accelerometer-assessed physical activity Health Psychology, 2013, 32, 1179-1187.	1.3	61
120	Clinical stakeholders' opinions on the use of selective decontamination of the digestive tract in critically ill patients in intensive care units: an international Delphi study. Critical Care, 2013, 17, R266.	2.5	35
121	Evaluation of a Theory-Informed Implementation Intervention for the Management of Acute Low Back Pain in General Medical Practice: The IMPLEMENT Cluster Randomised Trial. PLoS ONE, 2013, 8, e65471.	1.1	88
122	Which Experiences of Health Care Delivery Matter to Service Users and Why? A Critical Interpretive Synthesis and Conceptual Map. Journal of Health Services Research and Policy, 2012, 17, 70-78.	0.8	112
123	Evidence base for an intervention to maximise uptake of glaucoma testing: a theory-based cross-sectional survey. BMJ Open, 2012, 2, e000710.	0.8	6
124	E-mail invitations to general practitioners were as effective as postal invitations and were more efficient. Journal of Clinical Epidemiology, 2012, 65, 793-797.	2.4	16
125	Specifying content and mechanisms of change in interventions to change professionals' practice: an illustration from the Good Goals study in occupational therapy. Implementation Science, 2012, 7, 100.	2.5	22
126	Theories of behaviour change synthesised into a set of theoretical groupings: introducing a thematic series on the theoretical domains framework. Implementation Science, 2012, 7, 35.	2.5	325

#	Article	IF	CITATIONS
127	Developing theory-informed behaviour change interventions to implement evidence into practice: a systematic approach using the Theoretical Domains Framework. Implementation Science, 2012, 7, 38.	2.5	928
128	Anesthesiologists' and surgeons' perceptions about routine pre-operative testing in low-risk patients: application of the Theoretical Domains Framework (TDF) to identify factors that influence physicians' decisions to order pre-operative tests. Implementation Science, 2012, 7, 52.	2.5	159
129	â€Ît's a can of worms': understanding primary care practitioners' behaviours in relation to HPV using the theoretical domains framework. Implementation Science, 2012, 7, 73.	2.5	106
130	Using shared goal setting to improve access and equity: a mixed methods study of the Good Goals intervention in children's occupational therapy. Implementation Science, 2012, 7, 76.	2.5	29
131	Identifying factors likely to influence compliance with diagnostic imaging guideline recommendations for spine disorders among chiropractors in North America: a focus group study using the Theoretical Domains Framework. Implementation Science, 2012, 7, 82.	2.5	106
132	Learning curves, taking instructions, and patient safety: using a theoretical domains framework in an interview study to investigate prescribing errors among trainee doctors. Implementation Science, 2012, 7, 86.	2.5	120
133	A cross-country comparison of intensive care physicians' beliefs about their transfusion behaviour: A qualitative study using the theoretical domains framework. Implementation Science, 2012, 7, 93.	2.5	134
134	Diabetes Care Provision in UK Primary Care Practices. PLoS ONE, 2012, 7, e41562.	1.1	11
135	Beliefs about responsibilities, the aims of therapy and the structure of the therapy process: a qualitative study of caseload management issues in child health occupational therapy. Child: Care, Health and Development, 2012, 38, 108-116.	0.8	8
136	A framework for the evaluation of patient information leaflets. Health Expectations, 2012, 15, 283-294.	1.1	54
137	Strengthening evaluation and implementation by specifying components of behaviour change interventions: a study protocol. Implementation Science, 2011, 6, 10.	2.5	226
138	Goal conflict, goal facilitation, and health professionals' provision of physical activity advice in primary care: An exploratory prospective study. Implementation Science, 2011, 6, 73.	2.5	29
