#	ARTICLE	IF	CITATIONS
1	β-Blocker Therapy in Heart Failure. JAMA - Journal of the American Medical Association, 2002, 287, 883.	7.4	278
2	Newborn screening for cystic fibrosis: ensuring more good than harm. Journal of Pediatrics, 2003, 143, 707-712.	1.8	86
3	Genetic Counseling and Risk Communication Services of Newborn Screening Programs. JAMA Pediatrics, 2001, 155, 120.	3.0	66
4	Sources of ethical conflict in medical housestaff training: a qualitative study. American Journal of Medicine, 2004, 116, 402-407.	1.5	62
5	Initially Misleading Communication of Carrier Results After Newborn Genetic Screening. Pediatrics, 2005, 116, 1499-1505.	2.1	47
6	β-Blockers in Heart Failure. JAMA - Journal of the American Medical Association, 2002, 287, 890.	7.4	40
7	Assessment of Parental Understanding by Pediatric Residents During Counseling After Newborn Genetic Screening. JAMA Pediatrics, 2008, 162, 199.	3.0	40
8	Content of Communication by Pediatric Residents After Newborn Genetic Screening. Pediatrics, 2005, 116, 1492-1498.	2.1	32
9	Factors that influence parents' experiences with results disclosure after newborn screening identifies genetic carrier status for cystic fibrosis or sickle cell hemoglobinopathy. Patient Education and Counseling, 2013, 90, 378-385.	2.2	32
10	A method to quantify and compare clinicians' assessments of patient understanding during counseling of standardized patients. Patient Education and Counseling, 2009, 77, 128-135.	2.2	31
11	How underlying patient beliefs can affect physician-patient communication about prostate-specific antigen testing. Effective Clinical Practice: ECP, 2002, 5, 120-9.	0.2	25
12	Frequency of high-quality communication behaviors used by primary care providers of heterozygous infants after newborn screening. Patient Education and Counseling, 2013, 90, 226-232.	2.2	20
13	Applying CFTR molecular genetics to facilitate the diagnosis of cystic fibrosis through screening. Advances in Pediatrics, 2002, 49, 131-90.	1.4	20
14	Experience with Parent Follow-Up for Communication Outcomes after Newborn Screening Identifies Carrier Status. Journal of Pediatrics, 2020, 224, 37-43.e2.	1.8	16
15	Improving communication between doctors and parents after newborn screening. Wisconsin Medical Journal, 2011, 110, 221-7.	0.3	16
16	Improving the quality of physician communication with rapid-throughput analysis and report cards. Patient Education and Counseling, 2014, 97, 248-255.	2.2	14
17	A qualitative secondary evaluation of statewide follow-up interviews for abnormal newborn screening results for cystic fibrosis and sickle cell hemoglobinopathy. Genetics in Medicine, 2012, 14, 207-214.	2.4	13
18	Child Health Providers' Precautionary Discussion of Emotions During Communication About Results of Newborn Genetic Screening. JAMA Pediatrics, 2012, 166, 62.	3.0	13

#	ARTICLE	IF	CITATIONS
19	Vulnerable Child Syndrome and Newborn Screening Carrier Results for Cystic Fibrosis or Sickle Cell. Journal of Pediatrics, 2020, 224, 44-50.e1.	1.8	13
20	Linguistic markers of emotion in mothers of sickle cell carrier infants: What are they and what do they mean?. Patient Education and Counseling, 2014, 94, 128-133.	2.2	11
21	Effort Required to Contact Primary Care Providers After Newborn Screening Identifies Sickle Cell Trait. Journal of the National Medical Association, 2012, 104, 528-534.	0.8	10
22	Use of social support during communication about sickle cell carrier status. Patient Education and Counseling, 2012, 88, 203-208.	2.2	10
23	Internet searching after parents receive abnormal newborn screening results. Journal of Communication in Healthcare, 2015, 8, 303-315.	1.5	7
24	A structured implicit abstraction method to evaluate whether content of counseling before prostate cancer screening is consistent with recommendations by experts. Patient Education and Counseling, 2009, 77, 322-327.	2.2	6
25	Effects of Immediate Telephone Follow-Up with Providers on Sweat Chloride Test Timing after Cystic Fibrosis Newborn Screening Identifies a Single Mutation. Journal of Pediatrics, 2013, 162, 522-529.	1.8	6
26	A method to assess the organizing behaviors used in physicians' counseling of standardized parents after newborn genetic screening. Communication and Medicine, 2013, 9, 101-111.	0.2	6
27	Information, Decisions, and the Limits of Informed Consent. , 2000, , 108-126.		3
28	Benefit of Report Card Feedback After Point-of-Care Assessment of Communication Quality Indicators. Journal of Patient-centered Research and Reviews, 2017, 4, 7-17.	0.9	0
