#	ARTICLE	IF	CITATIONS
1	Vulnerable Child Syndrome and Newborn Screening Carrier Results for Cystic Fibrosis or Sickle Cell. Journal of Pediatrics, 2020, 224, 44-50.e1.	1.8	13
2	Experience with Parent Follow-Up for Communication Outcomes after Newborn Screening Identifies Carrier Status. Journal of Pediatrics, 2020, 224, 37-43.e2.	1.8	16
3	Benefit of Report Card Feedback After Point-of-Care Assessment of Communication Quality Indicators. Journal of Patient-centered Research and Reviews, 2017, 4, 7-17.	0.9	0
4	Internet searching after parents receive abnormal newborn screening results. Journal of Communication in Healthcare, 2015, 8, 303-315.	1.5	7
5	Linguistic markers of emotion in mothers of sickle cell carrier infants: What are they and what do they mean?. Patient Education and Counseling, 2014, 94, 128-133.	2.2	11
6	Improving the quality of physician communication with rapid-throughput analysis and report cards. Patient Education and Counseling, 2014, 97, 248-255.	2.2	14
7	Frequency of high-quality communication behaviors used by primary care providers of heterozygous infants after newborn screening. Patient Education and Counseling, 2013, 90, 226-232.	2.2	20
8	Factors that influence parents' experiences with results disclosure after newborn screening identifies genetic carrier status for cystic fibrosis or sickle cell hemoglobinopathy. Patient Education and Counseling, 2013, 90, 378-385.	2.2	32
9	Effects of Immediate Telephone Follow-Up with Providers on Sweat Chloride Test Timing after Cystic Fibrosis Newborn Screening Identifies a Single Mutation. Journal of Pediatrics, 2013, 162, 522-529.	1.8	6
10	A method to assess the organizing behaviors used in physicians' counseling of standardized parents after newborn genetic screening. Communication and Medicine, 2013, 9, 101-111.	0.2	6
11	A qualitative secondary evaluation of statewide follow-up interviews for abnormal newborn screening results for cystic fibrosis and sickle cell hemoglobinopathy. Genetics in Medicine, 2012, 14, 207-214.	2.4	13
12	Effort Required to Contact Primary Care Providers After Newborn Screening Identifies Sickle Cell Trait. Journal of the National Medical Association, 2012, 104, 528-534.	0.8	10
13	Child Health Providers' Precautionary Discussion of Emotions During Communication About Results of Newborn Genetic Screening. JAMA Pediatrics, 2012, 166, 62.	3.0	13
14	Use of social support during communication about sickle cell carrier status. Patient Education and Counseling, 2012, 88, 203-208.	2.2	10
15	Improving communication between doctors and parents after newborn screening. Wisconsin Medical Journal, 2011, 110, 221-7.	0.3	16
16	A method to quantify and compare clinicians' assessments of patient understanding during counseling of standardized patients. Patient Education and Counseling, 2009, 77, 128-135.	2.2	31
17	A structured implicit abstraction method to evaluate whether content of counseling before prostate cancer screening is consistent with recommendations by experts. Patient Education and Counseling, 2009, 77, 322-327.	2.2	6
18	Assessment of Parental Understanding by Pediatric Residents During Counseling After Newborn Genetic Screening. JAMA Pediatrics, 2008, 162, 199.	3.0	40

#	ARTICLE	IF	CITATIONS
19	Initially Misleading Communication of Carrier Results After Newborn Genetic Screening. Pediatrics, 2005, 116, 1499-1505.	2.1	47
20	Content of Communication by Pediatric Residents After Newborn Genetic Screening. Pediatrics, 2005, 116, 1492-1498.	2.1	32
21	Sources of ethical conflict in medical housestaff training: a qualitative study. American Journal of Medicine, 2004, 116, 402-407.	1.5	62
22	Newborn screening for cystic fibrosis: ensuring more good than harm. Journal of Pediatrics, 2003, 143, 707-712.	1.8	86
23	β-Blocker Therapy in Heart Failure. JAMA - Journal of the American Medical Association, 2002, 287, 883.	7.4	278
24	β-Blockers in Heart Failure. JAMA - Journal of the American Medical Association, 2002, 287, 890.	7.4	40
25	How underlying patient beliefs can affect physician-patient communication about prostate-specific antigen testing. Effective Clinical Practice: ECP, 2002, 5, 120-9.	0.2	25
26	Applying CFTR molecular genetics to facilitate the diagnosis of cystic fibrosis through screening. Advances in Pediatrics, 2002, 49, 131-90.	1.4	20
27	Genetic Counseling and Risk Communication Services of Newborn Screening Programs. JAMA Pediatrics, 2001, 155, 120.	3.0	66
28	Information, Decisions, and the Limits of Informed Consent. , 2000, , 108-126.		3
