#	ARTICLE	IF	CITATIONS
1	Multiple-micronutrient supplementation in pregnant adolescents in low- and middle-income countries: a systematic review and a meta-analysis of individual participant data. <i>Nutrition Reviews</i> , 2022, 80, 141-156.	5.8	10
2	Effects of prenatal and postnatal maternal multiple micronutrient supplementation on child growth and morbidity in Tanzania: a double-blind, randomizedâ€“controlled trial. <i>International Journal of Epidemiology</i> , 2022, 51, 1761-1774.	1.9	3
3	Comparing Attained Weight and Weight Velocity during the First 6 Months in Predicting Child Undernutrition and Mortality. <i>Journal of Nutrition</i> , 2022, 152, 319-330.	2.9	0
4	Postnatal Stature Does Not Largely Mediate the Relation between Adverse Birth Outcomes and Cognitive Development in Mid-Childhood and Early Adolescence in Rural Western China. <i>Journal of Nutrition</i> , 2022, 152, 302-309.	2.9	1
5	The High Burden and Predictors of Anemia Among Infants Aged 6 to 12 Months in Dar es Salaam, Tanzania. <i>Food and Nutrition Bulletin</i> , 2022, 43, 68-83.	1.4	1
6	Anemia Etiology in Ethiopia: Assessment of Nutritional, Infectious Disease, and Other Risk Factors in a Population-Based Cross-Sectional Survey of Women, Men, and Children. <i>Journal of Nutrition</i> , 2022, 152, 501-512.	2.9	7
7	Gender and Age Differences in Meal Structures, Food Away from Home, Chrono-Nutrition, and Nutrition Intakes among Adults and Children in Tanzania Using a Newly Developed Tablet-Based 24-Hour Recall Tool. <i>Current Developments in Nutrition</i> , 2022, 6, nzac015.	0.3	3
8	Caregivers Systematically Overestimate Their Child's Height-for-Age Relative to Other Children in Rural Ethiopia. <i>Journal of Nutrition</i> , 2022, 152, 1327-1335.	2.9	0
9	Calcium supplementation for the prevention of hypertensive disorders of pregnancy: current evidence and programmatic considerations. <i>Annals of the New York Academy of Sciences</i> , 2022, 1510, 52-67.	3.8	16
10	Iron supplementation and paediatric HIV disease progression: a cohort study among children receiving routine HIV care in Dar es Salaam, Tanzania. <i>International Journal of Epidemiology</i> , 2022, 51, 1533-1543.	1.9	1
11	Characteristics and birth outcomes of pregnant adolescents compared to older women: An analysis of individual level data from 140,000 mothers from 20 RCTs. <i>EClinicalMedicine</i> , 2022, 45, 101309.	7.1	15
12	Role of dietary quality and diversity on overweight and obesity among women of reproductive age in Tanzania. <i>PLoS ONE</i> , 2022, 17, e0266344.	2.5	7
13	Are home gardening programs a sustainable way to improve nutrition? Lessons from a cluster-randomized controlled trial in Rufiji, Tanzania. <i>Food Policy</i> , 2022, 109, 102248.	6.0	6
14	Multivitamin Supplementation Is Associated with Greater Adequacy of Gestational Weight Gain among Pregnant Women in Tanzania. <i>Journal of Nutrition</i> , 2022, 152, 1091-1098.	2.9	3
15	Lifestyle Changes and Long-term Weight Gain in Women With and Without a History of Gestational Diabetes Mellitus: A Prospective Study of 54,062 Women in the Nursesâ€™ Health Study II. <i>Diabetes Care</i> , 2022, 45, 348-356.	8.6	6
16	Child diet and motherâ€™child interactions mediate intervention effects on child growth and development. <i>Maternal and Child Nutrition</i> , 2022, 18, e13308.	3.0	2
17	Dietary diversity and diet quality with gestational weight gain and adverse birth outcomes, results from a prospective pregnancy cohort study in urban Tanzania. <i>Maternal and Child Nutrition</i> , 2022, 18, e13300.	3.0	14
18	Vitamin D3 supplementation during pregnancy and lactation for women living with HIV in Tanzania: A randomized controlled trial. <i>PLoS Medicine</i> , 2022, 19, e1003973.	8.4	7

#	ARTICLE	IF	CITATIONS
19	Cholecalciferol Supplementation Does Not Affect the Risk of HIV Progression, Viral Suppression, Comorbidities, Weight Loss, and Depression Among Tanzanian Adults Initiating Antiretroviral Therapy: Secondary Outcomes of a Randomized Trial. <i>Journal of Nutrition</i> , 2022, , .	2.9	0
20	Iron, folic acid, and multiple micronutrient supplementation strategies during pregnancy and adverse birth outcomes in Botswana. <i>The Lancet Global Health</i> , 2022, 10, e850-e861.	6.3	13
21	Associations of percentage energy intake from total, animal and plant protein with overweight/obesity and underweight among adults in Addis Ababa, Ethiopia. <i>Public Health Nutrition</i> , 2022, 25, 3107-3120.	2.2	3
22	Biomarkers of Environmental Enteric Dysfunction in Pregnancy and Adverse Birth Outcomes: An Observational Study Among Women Living With HIV in Tanzania. <i>Current Developments in Nutrition</i> , 2022, 6, 676.	0.3	0
23	Timing of Antiretroviral Therapy. <i>Journal of Infectious Diseases</i> , 2022, 226, 687-695.	4.0	3
24	Prevalence of Elevated Blood Pressure and Risk Factors Among Men and Women in Six Regions of Ethiopia. <i>Current Developments in Nutrition</i> , 2022, 6, 575.	0.3	0
25	Assessing Environmental Enteric Dysfunction via Multiplex Assay and its Relation to Infant Growth Among HIV-Exposed Infants in Dar es Salaam, Tanzania. <i>Current Developments in Nutrition</i> , 2022, 6, 589.	0.3	0
26	Meals, Education, and Gardens for In-School Adolescents (MEGA): study protocol for a cluster randomised trial of an integrated adolescent nutrition intervention in Dodoma, Tanzania. <i>BMJ Open</i> , 2022, 12, e062085.	1.9	1
27	Men's nutrition knowledge is important for women's and children's nutrition in Ethiopia. <i>Maternal and Child Nutrition</i> , 2021, 17, e13062.	3.0	19
28	Changes and challenges in markets for animal source foods: a qualitative study among market vendors in Addis Ababa, Ethiopia. <i>Food Security</i> , 2021, 13, 583-595.	5.3	1
29	Home gardening improves dietary diversity, a cluster-randomized controlled trial among Tanzanian women. <i>Maternal and Child Nutrition</i> , 2021, 17, e13096.	3.0	23
30	Willingness to pay for community delivery of antiretroviral treatment in urban Tanzania: a cross-sectional survey. <i>Health Policy and Planning</i> , 2021, 35, 1300-1308.	2.7	2
31	Exploration of Machine Learning and Statistical Techniques in Development of a Low-Cost Screening Method Featuring the Global Diet Quality Score for Detecting Prediabetes in Rural India. <i>Journal of Nutrition</i> , 2021, 151, 110S-118S.	2.9	9
32	The Global Diet Quality Score Is Inversely Associated with Nutrient Inadequacy, Low Midupper Arm Circumference, and Anemia in Rural Adults in Ten Sub-Saharan African Countries. <i>Journal of Nutrition</i> , 2021, 151, 119S-129S.	2.9	13
33	Development and Validation of a Novel Food-Based Global Diet Quality Score (GDQS). <i>Journal of Nutrition</i> , 2021, 151, 75S-92S.	2.9	54
34	Validation of Global Diet Quality Score Among Nonpregnant Women of Reproductive Age in India: Findings from the Andhra Pradesh Children and Parents Study (APCAPS) and the Indian Migration Study (IMS). <i>Journal of Nutrition</i> , 2021, 151, 101S-109S.	2.9	9
35	The Global Diet Quality Score is Associated with Higher Nutrient Adequacy, Midupper Arm Circumference, Venous Hemoglobin, and Serum Folate Among Urban and Rural Ethiopian Adults. <i>Journal of Nutrition</i> , 2021, 151, 130S-142S.	2.9	11
36	Anemia and associated factors among adolescent girls and boys at 10–14 years in rural western China. <i>BMC Public Health</i> , 2021, 21, 218.	2.9	19

#	ARTICLE	IF	CITATIONS
37	Prenatal dietary diversity may influence underweight in infants in a Ugandan birth cohort. Maternal and Child Nutrition, 2021, 17, e13127.	3.0	11
38	Methodological approaches to imputing early-pregnancy weight based on weight measures collected during pregnancy. BMC Medical Research Methodology, 2021, 21, 24.	3.1	10
39	Receipt of Weekly Iron Supplementation among Indian Children, 2005–2016. Current Developments in Nutrition, 2021, 5, n2ab020.	0.3	6
40	Prevalence and determinants of concurrent wasting and stunting and other indicators of malnutrition among children 6–59 months old in Kersa, Ethiopia. Maternal and Child Nutrition, 2021, 17, e13172.	3.0	25
41	When should universal distribution of periodic high-dose vitamin A to children cease?. American Journal of Clinical Nutrition, 2021, 113, 769-771.	4.7	10
42	Life expectancy and agricultural environmental impacts in Addis Ababa can be improved through optimized plant and animal protein consumption. Nature Food, 2021, 2, 291-298.	14.0	5
43	Food Systems as Drivers of Optimal Nutrition and Health: Complexities and Opportunities for Research and Implementation. Current Developments in Nutrition, 2021, 5, n2ab062.	0.3	6
44	Association of Iron Supplementation and Dietary Diversity With Nutritional Status and Learning Outcomes Among Adolescents: Results From a Longitudinal Study in India. Current Developments in Nutrition, 2021, 5, 181.	0.3	0
45	Associations of Percent Energy Intake From Total, Animal and Plant Protein With Overweight/Obesity and Underweight Among Adults in Addis Ababa, Ethiopia. Current Developments in Nutrition, 2021, 5, 649.	0.3	1
46	Associations Between Gestational Weight Gain Adequacy and Perinatal Outcomes in Tanzania. Current Developments in Nutrition, 2021, 5, 677.	0.3	0
47	Design and Field Methods of the ARISE Network COVID-19 Rapid Monitoring Survey. American Journal of Tropical Medicine and Hygiene, 2021, , .	1.4	15
48	School-Based Nutrition Programs for Adolescents in Dodoma, Tanzania: A Situation Analysis. Food and Nutrition Bulletin, 2021, 42, 378-388.	1.4	3
49	Effects of Prenatal and Postnatal Maternal Multiple Micronutrient Supplementation on Child Growth and Morbidity in Tanzania: A Double-Blind, Randomized Controlled Trial. Current Developments in Nutrition, 2021, 5, 828.	0.3	0
50	Impact of COVID-19 on Nutrition, Food Security and Dietary Diversity and Quality in Burkina Faso, Ethiopia and Nigeria. Current Developments in Nutrition, 2021, 5, 234.	0.3	8
51	Association of iron supplementation and dietary diversity with nutritional status and learning outcomes among adolescents: Results from a longitudinal study in Uttar Pradesh and Bihar, India. Journal of Global Health, 2021, 11, 04037.	2.7	5
52	School-based interventions targeting double burden of malnutrition and educational outcomes of adolescents in low- and middle-income countries: protocol for a systematic review. Systematic Reviews, 2021, 10, 204.	5.3	5
53	Risk factors for overweight and obesity among women of reproductive age in Dar es Salaam, Tanzania. BMC Nutrition, 2021, 7, 37.	1.6	10
54	Knowledge and Practice Related to COVID-19 and Mental Health among Adults in Sub-Saharan Africa. American Journal of Tropical Medicine and Hygiene, 2021, 105, 351-362.	1.4	20

#	ARTICLE	IF	CITATIONS
55	Reported Barriers to Healthcare Access and Service Disruptions Caused by COVID-19 in Burkina Faso, Ethiopia, and Nigeria: A Telephone Survey. American Journal of Tropical Medicine and Hygiene, 2021, 105, 323-330.	1.4	53
56	COVID-19 Knowledge, Perception, Preventive Measures, Stigma, and Mental Health Among Healthcare Workers in Three Sub-Saharan African Countries: A Phone Survey. American Journal of Tropical Medicine and Hygiene, 2021, 105, 342-350.	1.4	18
57	The COVID-19 Pandemic and Adolescents's Experience in Sub-Saharan Africa: A Cross-Country Study Using a Telephone Survey. American Journal of Tropical Medicine and Hygiene, 2021, 105, 331-341.	1.4	17
58	Impact of COVID-19 on Nutrition, Food Security, and Dietary Diversity and Quality in Burkina Faso, Ethiopia and Nigeria. American Journal of Tropical Medicine and Hygiene, 2021, 105, 295-309.	1.4	22
59	Household-level double burden of malnutrition in Ethiopia: a comparison of Addis Ababa and the rural district of Kersa. Public Health Nutrition, 2021, 24, 6354-6368.	2.2	13
60	Associations between women's empowerment and child development, growth, and nurturing care practices in sub-Saharan Africa: A cross-sectional analysis of demographic and health survey data. PLoS Medicine, 2021, 18, e1003781.	8.4	15
61	Gestational Age, Birth Weight, and Neurocognitive Development in Adolescents in Tanzania. Journal of Pediatrics, 2021, 236, 194-203.e6.	1.8	11
62	Physical fighting among adolescents in eastern Ethiopia: a cross-sectional study. BMC Public Health, 2021, 21, 1732.	2.9	1
63	Impacts of school feeding on educational and health outcomes of school-age children and adolescents in low- and middle-income countries: A systematic review and meta-analysis. Journal of Global Health, 2021, 11, 04051.	2.7	13
64	Higher Global Diet Quality Score Is Associated with Less 4-Year Weight Gain in US Women. Journal of Nutrition, 2021, 151, 162S-167S.	2.9	13
65	There's an App for That: Development of an Application to Operationalize the Global Diet Quality Score. Journal of Nutrition, 2021, 151, 176S-184S.	2.9	11
66	Application of the Global Diet Quality Score in Chinese Adults to Evaluate the Double Burden of Nutrient Inadequacy and Metabolic Syndrome. Journal of Nutrition, 2021, 151, 93S-100S.	2.9	13
67	Food Crop Diversity, Women's Income-Earning Activities, and Distance to Markets in Relation to Maternal Dietary Quality in Tanzania. Journal of Nutrition, 2021, 151, 186-196.	2.9	10
68	Plasma concentrations of leptin at mid-pregnancy are associated with gestational weight gain among pregnant women in Tanzania: a prospective cohort study. BMC Pregnancy and Childbirth, 2021, 21, 675.	2.4	3
69	Maternal Diet, Infection, and Risk of Cord Blood Inflammation in the Bangladesh Projahnmo Pregnancy Cohort. Nutrients, 2021, 13, 3792.	4.1	3
70	Non-inferiority of low-dose compared to standard high-dose calcium supplementation in pregnancy: study protocol for two randomized, parallel group, non-inferiority trials in India and Tanzania. Trials, 2021, 22, 838.	1.6	1
71	Health priority-setting for official development assistance in low-income and middle-income countries: a Best Fit Framework Synthesis study with primary data from Ethiopia, Nigeria and Tanzania. BMC Public Health, 2021, 21, 2138.	2.9	0
72	Consumption of dietary folate estimates and its implication for reproductive outcome among women of reproductive age in Kersa: cross-sectional survey. BMC Nutrition, 2021, 7, 69.	1.6	4

#	ARTICLE	IF	CITATIONS
73	The Food and Health Environment in Junior Secondary Schools in Urban Burkina Faso: A Cross-Sectional Study of Administrators, Food Vendors and Early Adolescents. International Journal of Environmental Research and Public Health, 2021, 18, 12689.	2.6	1
74	Factors associated with plasma n-3 and n-6 polyunsaturated fatty acid levels in Tanzanian infants. European Journal of Clinical Nutrition, 2020, 74, 97-105.	2.9	2
75	Hemoglobin and hepcidin have good validity and utility for diagnosing iron deficiency anemia among pregnant women. European Journal of Clinical Nutrition, 2020, 74, 708-719.	2.9	7
76	The Effect of Maternal Multiple Micronutrient Supplementation on Female Early Infant Mortality Is Fully Mediated by Increased Gestation Duration and Intrauterine Growth. Journal of Nutrition, 2020, 150, 356-363.	2.9	6
77	Prenatal Zinc and Vitamin A Reduce the Benefit of Iron on Maternal Hematologic and Micronutrient Status at Delivery in Tanzania. Journal of Nutrition, 2020, 150, 240-248.	2.9	8
78	Vitamin D sufficiency in young Brazilian children: associated factors and relationship with vitamin A corrected for inflammatory status. Public Health Nutrition, 2020, 23, 1226-1235.	2.2	5
79	Prevalence and predictors of adolescent linear growth and stunting across the urban-rural gradient in eastern Ethiopia. Tropical Medicine and International Health, 2020, 25, 101-110.	2.3	10
80	Prevalence and risk factors associated with malnutrition among adolescents in rural Tanzania. Tropical Medicine and International Health, 2020, 25, 89-100.	2.3	13
81	HIV/AIDS awareness and testing practices among adolescents in eastern Ethiopia. Tropical Medicine and International Health, 2020, 25, 111-118.	2.3	7
82	The age of opportunity: prevalence of key risk factors among adolescents 10-19 years of age in nine communities in sub-Saharan Africa. Tropical Medicine and International Health, 2020, 25, 15-32.	2.3	31
83	Design and field methods of the ARISE Network Adolescent Health Study. Tropical Medicine and International Health, 2020, 25, 5-14.	2.3	27
84	Gender differences in nutritional status, diet and physical activity among adolescents in eight countries in sub-Saharan Africa. Tropical Medicine and International Health, 2020, 25, 33-43.	2.3	33
