#	ARTICLE	IF	CITATIONS
1	Clinical Practice Guidelines for the Prevention and Management of Pain, Agitation/Sedation, Delirium, Immobility, and Sleep Disruption in Adult Patients in the ICU. <i>Critical Care Medicine</i> , 2018, 46, e825-e873.	0.4	2,074
2	Improving long-term outcomes after discharge from intensive care unit. <i>Critical Care Medicine</i> , 2012, 40, 502-509.	0.4	1,806
3	Validity of the Microsoft Kinect for assessment of postural control. <i>Gait and Posture</i> , 2012, 36, 372-377.	0.6	564
4	Expert consensus and recommendations on safety criteria for active mobilization of mechanically ventilated critically ill adults. <i>Critical Care</i> , 2014, 18, 658.	2.5	391
5	Exercise rehabilitation for patients with critical illness: a randomized controlled trial with 12 months of follow-up. <i>Critical Care</i> , 2013, 17, R156.	2.5	305
6	Ultrasonography in the intensive care setting can be used to detect changes in the quality and quantity of muscle and is related to muscle strength and function. <i>Journal of Critical Care</i> , 2015, 30, 1151.e9-1151.e14.	1.0	271
7	Early mobilization and recovery in mechanically ventilated patients in the ICU: a bi-national, multi-centre, prospective cohort study. <i>Critical Care</i> , 2015, 19, 81.	2.5	248
8	Executive Summary: Clinical Practice Guidelines for the Prevention and Management of Pain, Agitation/Sedation, Delirium, Immobility, and Sleep Disruption in Adult Patients in the ICU. <i>Critical Care Medicine</i> , 2018, 46, 1532-1548.	0.4	197
9	Preoperative physiotherapy for the prevention of respiratory complications after upper abdominal surgery: pragmatic, double blinded, multicentre randomised controlled trial. <i>BMJ: British Medical Journal</i> , 2018, 360, j5916.	2.4	183
10	Functional and postoperative outcomes after preoperative exercise training in patients with lung cancer: a systematic review and meta-analysis. <i>Interactive Cardiovascular and Thoracic Surgery</i> , 2016, 23, 486-497.	0.5	167
11	A Binational Multicenter Pilot Feasibility Randomized Controlled Trial of Early Goal-Directed Mobilization in the ICU*. <i>Critical Care Medicine</i> , 2016, 44, 1145-1152.	0.4	164
12	Assessment of impairment and activity limitations in the critically ill: a systematic review of measurement instruments and their clinimetric properties. <i>Intensive Care Medicine</i> , 2015, 41, 744-762.	3.9	139
13	Low physical activity levels and functional decline in individuals with lung cancer. <i>Lung Cancer</i> , 2014, 83, 292-299.	0.9	135
14	A Physical Function Test for Use in the Intensive Care Unit: Validity, Responsiveness, and Predictive Utility of the Physical Function ICU Test (Scored). <i>Physical Therapy</i> , 2013, 93, 1636-1645.	1.1	132
15	Functional outcomes in ICU – what should we be using? - an observational study. <i>Critical Care</i> , 2015, 19, 127.	2.5	121
16	Psychosocial Outcomes in Informal Caregivers of the Critically Ill. <i>Critical Care Medicine</i> , 2015, 43, 1112-1120.	0.4	119
17	Factors influencing physical activity and rehabilitation in survivors of critical illness: a systematic review of quantitative and qualitative studies. <i>Intensive Care Medicine</i> , 2017, 43, 531-542.	3.9	118
18	The quantity of early upright mobilisation performed following upper abdominal surgery is low: an observational study. <i>Australian Journal of Physiotherapy</i> , 2007, 53, 47-52.	0.9	111

#	ARTICLE	IF	CITATIONS
19	Interobserver Reliability of Quantitative Muscle Sonographic Analysis in the Critically Ill Population. <i>Journal of Ultrasound in Medicine</i> , 2015, 34, 1191-1200.	0.8	103
20	A randomised trial of domiciliary, ambulatory oxygen in patients with COPD and dyspnoea but without resting hypoxaemia. <i>Thorax</i> , 2011, 66, 32-37.	2.7	102
21	The ICU Mobility Scale Has Construct and Predictive Validity and Is Responsive. A Multicenter Observational Study. <i>Annals of the American Thoracic Society</i> , 2016, 13, 887-893.	1.5	96
22	Minimal important difference of the 6-minute walk distance in lung cancer. <i>Chronic Respiratory Disease</i> , 2015, 12, 146-154.	1.0	93
23	Criteria to Determine Readiness for Hospital Discharge Following Colorectal Surgery. <i>Diseases of the Colon and Rectum</i> , 2012, 55, 416-423.	0.7	90
24	Efficacy of Prehabilitation Including Exercise on Postoperative Outcomes Following Abdominal Cancer Surgery: A Systematic Review and Meta-Analysis. <i>Frontiers in Surgery</i> , 2021, 8, 628848.	0.6	89
25	Does physiotherapy reduce the incidence of postoperative pulmonary complications following pulmonary resection via open thoracotomy? A preliminary randomised single-blind clinical trial. <i>European Journal of Cardio-thoracic Surgery</i> , 2010, 37, 1158-1166.	0.6	86
26	Duration of anaesthesia, type of surgery, respiratory co-morbidity, predicted VO ₂ max and smoking predict postoperative pulmonary complications after upper abdominal surgery: an observational study. <i>Australian Journal of Physiotherapy</i> , 2009, 55, 191-198.	0.9	84
27	Safety and Feasibility of an Exercise Prescription Approach to Rehabilitation Across the Continuum of Care for Survivors of Critical Illness. <i>Physical Therapy</i> , 2012, 92, 1524-1535.	1.1	83
28	Rehabilitation and exercise prescription in Australian intensive care units. <i>Physiotherapy</i> , 2008, 94, 220-229.	0.2	79
29	Understanding factors influencing physical activity and exercise in lung cancer: a systematic review. <i>Supportive Care in Cancer</i> , 2017, 25, 983-999.	1.0	78
30	Does removal of deep breathing exercises from a physiotherapy program including pre-operative education and early mobilisation after cardiac surgery alter patient outcomes?. <i>Australian Journal of Physiotherapy</i> , 2003, 49, 165-173.	0.9	76
31	Ten reasons why ICU patients should be mobilized early. <i>Intensive Care Medicine</i> , 2017, 43, 86-90.	3.9	76
32	A new two-tier strength assessment approach to the diagnosis of weakness in intensive care: an observational study. <i>Critical Care</i> , 2015, 19, 52.	2.5	74
33	Intensive care unit mobility practices in Australia and New Zealand: a point prevalence study. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2013, 15, 260-5.	0.0	74
34	Implementability of healthcare interventions: an overview of reviews and development of a conceptual framework. <i>Implementation Science</i> , 2022, 17, 10.	2.5	72
35	Electrical Muscle Stimulation in the Intensive Care Setting. <i>Critical Care Medicine</i> , 2013, 41, 2406-2418.	0.4	70
36	Risk Factors for Sternal Complications After Cardiac Operations: A Systematic Review. <i>Annals of Thoracic Surgery</i> , 2016, 102, 2109-2117.	0.7	70

#	ARTICLE	IF	CITATIONS
37	Head-down tilt and manual hyperinflation enhance sputum clearance in patients who are intubated and ventilated. <i>Australian Journal of Physiotherapy</i> , 2004, 50, 9-14.	0.9	69
38	Assessing physical function and activity for survivors of a critical illness: A review of instruments. <i>Australian Critical Care</i> , 2011, 24, 155-166.	0.6	69
39	Advances in cardiorespiratory physiotherapy and their clinical impact. <i>Expert Review of Respiratory Medicine</i> , 2018, 12, 203-215.	1.0	68
40	Functional electrical stimulation with cycling in the critically ill: A pilot case-matched control study. <i>Journal of Critical Care</i> , 2014, 29, 695.e1-695.e7.	1.0	67
41	Physiotherapy in Critical Care in Australia. <i>Cardiopulmonary Physical Therapy Journal</i> , 2012, 23, 19-25.	0.2	66
42	Time to Readiness for Discharge is a Valid and Reliable Measure of Short-Term Recovery After Colorectal Surgery. <i>World Journal of Surgery</i> , 2013, 37, 2927-2934.	0.8	58
43	Construct Validity and Minimal Important Difference of 6-Minute Walk Distance in Survivors of Acute Respiratory Failure. <i>Chest</i> , 2015, 147, 1316-1326.	0.4	57
44	The physiotherapy management of patients undergoing thoracic surgery: a survey of current practice in Australia and New Zealand. <i>Physiotherapy Research International</i> , 2007, 12, 59-71.	0.7	55
45	Health-related quality of life in Australian survivors of critical illness*. <i>Critical Care Medicine</i> , 2011, 39, 1896-1905.	0.4	55
46	A randomized controlled trial comparing periodic mask CPAP with physiotherapy after abdominal surgery. <i>Physiotherapy Research International</i> , 2001, 6, 236-250.	0.7	51
47	Physiotherapy in the intensive care unit. <i>Physical Therapy Reviews</i> , 2006, 11, 49-56.	0.3	46
48	A postoperative shoulder exercise program improves function and decreases pain following open thoracotomy: a randomised trial. <i>Journal of Physiotherapy</i> , 2010, 56, 245-252.	0.7	46
49	Postural Control and Fear of Falling Assessment in People With Chronic Obstructive Pulmonary Disease: A Systematic Review of Instruments, International Classification of Functioning, Disability and Health Linkage, and Measurement Properties. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013, 94, 1784-1799.e7.	0.5	46
50	Safety and Feasibility of an Exercise Intervention for Patients Following Lung Resection. <i>Integrative Cancer Therapies</i> , 2013, 12, 213-224.	0.8	46
51	Proximal and distal gastroesophageal reflux in chronic obstructive pulmonary disease and bronchiectasis. <i>Respirology</i> , 2014, 19, 211-217.	1.3	46
52	The Physical Function Intensive Care Test: Implementation in Survivors of Critical Illness. <i>Physical Therapy</i> , 2014, 94, 1499-1507.	1.1	46
53	Prospective observation of physical activity in critically ill patients who were intubated for more than 48 hours. <i>Journal of Critical Care</i> , 2015, 30, 658-663.	1.0	46
54	Interpreting and Implementing the 2018 Pain, Agitation/Sedation, Delirium, Immobility, and Sleep Disruption Clinical Practice Guideline. <i>Critical Care Medicine</i> , 2018, 46, 1464-1470.	0.4	46

#	ARTICLE	IF	CITATIONS
55	Development of a physical function outcome measure (PFIT) and a pilot exercise training protocol for use in intensive care. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2009, 11, 110-5.	0.0	45
56	Exercise rehabilitation following hospital discharge in survivors of critical illness: an integrative review. <i>Critical Care</i> , 2012, 16, 226.	2.5	44
57	Exercise Interventions in Critical Illness Survivors: Understanding Inclusion and Stratification Criteria. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2015, 191, 1464-1467.	2.5	44
58	Multidisciplinary home-based rehabilitation in inoperable lung cancer: a randomised controlled trial. <i>Thorax</i> , 2019, 74, 787-796.	2.7	44
59	Barriers to Translation of Physical Activity into the Lung Cancer Model of Care. A Qualitative Study of Clinicians' Perspectives. <i>Annals of the American Thoracic Society</i> , 2016, 13, 2215-2222.	1.5	42
60	Functional capacity, physical activity and muscle strength assessment of individuals with non-small cell lung cancer: a systematic review of instruments and their measurement properties. <i>BMC Cancer</i> , 2013, 13, 135.	1.1	40
61	Does physiotherapy reduce the incidence of postoperative complications in patients following pulmonary resection via thoracotomy? a protocol for a randomised controlled trial. <i>Journal of Cardiothoracic Surgery</i> , 2008, 3, 48.	0.4	39
62	Exhaled Breath Condensate Pepsin: Potential Noninvasive Test for Gastroesophageal Reflux in COPD and Bronchiectasis. <i>Respiratory Care</i> , 2015, 60, 244-250.	0.8	37
63	What factors affect implementation of early rehabilitation into intensive care unit practice? A qualitative study with clinicians. <i>Journal of Critical Care</i> , 2017, 38, 137-143.	1.0	37
64	Preoperative Cardiopulmonary Exercise Test Associated with Postoperative Outcomes in Patients Undergoing Cancer Surgery: A Systematic Review and Meta-Analyses. <i>Annals of Surgical Oncology</i> , 2021, 28, 7120-7146.	0.7	37
65	Fear of falling in people with chronic obstructive pulmonary disease. <i>Respiratory Medicine</i> , 2015, 109, 483-489.	1.3	36
66	Strategies for post ICU rehabilitation. <i>Current Opinion in Critical Care</i> , 2012, 18, 503-508.	1.6	35
67	Early rehabilitation in critical care (eRiCC): functional electrical stimulation with cycling protocol for a randomised controlled trial. <i>BMJ Open</i> , 2012, 2, e001891.	0.8	35
68	Physical Rehabilitation Core Outcomes In Critical illness (PRACTICE): protocol for development of a core outcome set. <i>Trials</i> , 2018, 19, 294.	0.7	34
69	Measurement of Functional Activity in Chronic Obstructive Pulmonary Disease. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2008, 28, 402-409.	1.2	33
70	Outcome measures report different aspects of patient function three months following critical care. <i>Intensive Care Medicine</i> , 2014, 40, 1862-1869.	3.9	32
71	Falls by individuals with chronic obstructive pulmonary disease: A preliminary 12-month prospective cohort study. <i>Respirology</i> , 2015, 20, 1096-1101.	1.3	31
72	Balance and Falls in Acute Exacerbation of Chronic Obstructive Pulmonary Disease: A Prospective Study. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2017, 14, 518-525.	0.7	31

#	ARTICLE	IF	CITATIONS
73	Pelvic floor muscle training for bowel dysfunction following colorectal cancer surgery: A systematic review. <i>Neurourology and Urodynamics</i> , 2015, 34, 703-712.	0.8	30
74	Socioeconomic Position and Health Outcomes Following Critical Illness: A Systematic Review. <i>Critical Care Medicine</i> , 2019, 47, e512-e521.	0.4	30
75	Physical Activity Measured Using Global Positioning System Tracking in Non-Small Cell Lung Cancer. <i>Integrative Cancer Therapies</i> , 2014, 13, 482-492.	0.8	29
76	Usual Care Physiotherapy During Acute Hospitalization in Subjects Admitted to the ICU: An Observational Cohort Study. <i>Respiratory Care</i> , 2015, 60, 1476-1485.	0.8	29
77	Living actively in the face of impending death: constantly adjusting to bodily decline at the end-of-life. <i>BMJ Supportive and Palliative Care</i> , 2017, 7, 179-188.	0.8	29
78	Long-term recovery following critical illness in an Australian cohort. <i>Journal of Intensive Care</i> , 2018, 6, 8.	1.3	29
79	Measurement of physical activity levels in the Intensive Care Unit and functional outcomes: An observational study. <i>Journal of Critical Care</i> , 2017, 40, 189-196.	1.0	28
80	Functional electrical stimulation in-bed cycle ergometry in mechanically ventilated patients: a multicentre randomised controlled trial. <i>Thorax</i> , 2021, 76, 656-663.	2.7	28
81	Reaching consensus on the physiotherapeutic management of patients following upper abdominal surgery: a pragmatic approach to interpret equivocal evidence. <i>BMC Medical Informatics and Decision Making</i> , 2012, 12, 5.	1.5	27
82	Upper Limb Exercise Prescription Following Cardiac Surgery via Median Sternotomy. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2014, 34, 390-395.	1.2	27
83	A pragmatic, phase III, multisite, double-blind, placebo-controlled, parallel-arm, dose increment randomised trial of regular, low-dose extended-release morphine for chronic breathlessness: Breathlessness, Exertion And Morphine Sulfate (BEAMS) study protocol. <i>BMJ Open</i> , 2017, 7, e018100.	0.8	27
84	Standard restrictive sternal precautions and modified sternal precautions had similar effects in people after cardiac surgery via median sternotomy (SMART Trial): a randomised trial. <i>Journal of Physiotherapy</i> , 2018, 64, 97-106.	0.7	27
85	Implications for post critical illness trial design: sub-phenotyping trajectories of functional recovery among sepsis survivors. <i>Critical Care</i> , 2020, 24, 577.	2.5	27
86	Which field walking test should be used to assess functional exercise capacity in lung cancer? an observational study. <i>BMC Pulmonary Medicine</i> , 2015, 15, 89.	0.8	26
87	The self-reported Physical Activity Scale for the Elderly (PASE) is a valid and clinically applicable measure in lung cancer. <i>Supportive Care in Cancer</i> , 2015, 23, 3211-3218.	1.0	26
88	Patient acceptance of prehabilitation for major surgery: an exploratory survey. <i>Supportive Care in Cancer</i> , 2021, 29, 779-785.	1.0	26
89	Evaluation of Exercise Rehabilitation for Survivors of Intensive Care: Protocol for a Single Blind Randomised Controlled Trial. <i>Open Critical Care Medicine Journal</i> , 2008, 1, 39-47.	0.2	26
90	Quantifying Physical Activity Levels of Survivors of Intensive Care: A Prospective Observational Study. <i>Physical Therapy</i> , 2012, 92, 1507-1517.	1.1	25

#	ARTICLE	IF	CITATIONS
91	Physiotherapy education and training prior to upper abdominal surgery is memorable and has high treatment fidelity: a nested mixed-methods randomised-controlled study. <i>Physiotherapy</i> , 2018, 104, 194-202.	0.2	25
92	The Effect of Pelvic Floor Muscle Interventions on Pelvic Floor Dysfunction After Gynecological Cancer Treatment: A Systematic Review. <i>Physical Therapy</i> , 2020, 100, 1357-1371.	1.1	25
93	CAPACITY: A physical activity self-management program for patients undergoing surgery for lung cancer, a phase I feasibility study. <i>Lung Cancer</i> , 2018, 124, 102-109.	0.9	24
94	Home-based rehabilitation in inoperable non-small cell lung cancer—the patient experience. <i>Supportive Care in Cancer</i> , 2020, 28, 99-112.	1.0	24
95	Preoperative physiotherapy is cost-effective for preventing pulmonary complications after major abdominal surgery: a health economic analysis of a multicentre randomised trial. <i>Journal of Physiotherapy</i> , 2020, 66, 180-187.	0.7	23
96	Benefits of home-based multidisciplinary exercise and supportive care in inoperable non-small cell lung cancer — protocol for a phase II randomised controlled trial. <i>BMC Cancer</i> , 2017, 17, 663.	1.1	21
97	Implementing a telehealth prehabilitation education session for patients preparing for major cancer surgery. <i>BMC Health Services Research</i> , 2021, 21, 443.	0.9	21
98	Comparison of Pedometer and Activity Diary for Measurement of Physical Activity in Chronic Obstructive Pulmonary Disease. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2009, 29, 57-61.	1.2	20
99	Physical Activity Levels Are Low in Inoperable Lung Cancer: Exploratory Analyses from a Randomised Controlled Trial. <i>Journal of Clinical Medicine</i> , 2019, 8, 1288.	1.0	20
100	People With Hematological Malignancies Treated With Bone Marrow Transplantation Have Improved Function, Quality of Life, and Fatigue Following Exercise Intervention: A Systematic Review and Meta-Analysis. <i>Physical Therapy</i> , 2021, 101, .	1.1	20
101	An Assessment of Early Tracheostomy After Anterior Cervical Stabilization in Patients With Acute Cervical Spine Trauma. <i>Journal of Trauma</i> , 2008, 64, 749-753.	2.3	19
102	Improving the delivery of physical activity services in lung cancer: A qualitative representation of the patient's perspective. <i>European Journal of Cancer Care</i> , 2019, 28, e12946.	0.7	18
103	The LIPPSMAck POP (Lung Infection Prevention Post Surgery - Major Abdominal - with Pre-Operative) Tj ETQq1 1 0.784314 rgBT /Over 573.	0.7	17
104	The Sternal Management Accelerated Recovery Trial (S.M.A.R.T) — standard restrictive versus an intervention of modified sternal precautions following cardiac surgery via median sternotomy: study protocol for a randomised controlled trial. <i>Trials</i> , 2017, 18, 290.	0.7	17
105	Early mobilization practice in a single Brazilian intensive care unit. <i>Journal of Critical Care</i> , 2015, 30, 896-900.	1.0	16
106	Health-Related Quality of Life in Australasian Survivors of H1N1 Influenza Undergoing Mechanical Ventilation. A Multicenter Cohort Study. <i>Annals of the American Thoracic Society</i> , 2015, 12, 895-903.	1.5	16
107	Prognostic Validation of the Body Mass Index, Airflow Obstruction, Dyspnea, and Exercise Capacity (BODE) Index in Inoperable Non-Small-Cell Lung Cancer. <i>Journal of Thoracic Oncology</i> , 2013, 8, 1545-1550.	0.5	15
108	Measuring physical function after ICU: one step at a time. <i>Intensive Care Medicine</i> , 2017, 43, 1901-1903.	3.9	15
