## William G Iacono

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/3925082/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Associations between polygenic risk of substance use and use disorder and alcohol, cannabis, and nicotine use in adolescence and young adulthood in a longitudinal twin study. Psychological Medicine, 2023, 53, 2296-2306.	4.5	7
2	Testing the consequences of alcohol, cannabis, and nicotine use on hippocampal volume: a quasi-experimental cotwin control analysis of young adult twins. Psychological Medicine, 2023, 53, 2671-2681.	4.5	3
3	Familial resemblance, citizenship, and counterproductive work behavior: A combined twin, adoption, parent–offspring, and spouse approach Journal of Applied Psychology, 2022, 107, 2334-2349.	5.3	0
4	Developmental and etiological patterns of substance use from adolescence to middle age: A longitudinal twin study. Drug and Alcohol Dependence, 2022, 233, 109378.	3.2	5
5	Not by g alone: The benefits of a college education among individuals with low levels of general cognitive ability. Intelligence, 2022, 92, 101642.	3.0	3
6	The role of parental genotype in predicting offspring years of education: evidence for genetic nurture. Molecular Psychiatry, 2021, 26, 3896-3904.	7.9	24
7	Adolescent Sexual Development and Peer Groups: Reciprocal Associations and Shared Genetic and Environmental Influences. Archives of Sexual Behavior, 2021, 50, 141-160.	1.9	5
8	The role of the shared environment in college attainment: An adoption study. Journal of Personality, 2021, 89, 580-593.	3.2	2
9	The Effects of Alcohol and Cannabis Use on the Cortical Thickness of Cognitive Control and Salience Brain Networks in Emerging Adulthood: A Co-twin Control Study. Biological Psychiatry, 2021, 89, 1012-1022.	1.3	17
10	A coâ€ŧwin–control analysis of adolescent and young adult drinking effects on learning and memory. Addiction, 2021, 116, 1689-1699.	3.3	5
11	Multimodal indicators of risk for and consequences of substance use disorders: Executive functions and trait disconstraint assessed from preadolescence into early adulthood. International Journal of Psychophysiology, 2021, 163, 47-57.	1.0	9
12	Parietal P3 and midfrontal theta prospectively predict the development of adolescent alcohol use. Psychological Medicine, 2021, 51, 416-425.	4.5	11
13	Using multivariate endophenotypes to identify psychophysiological mechanisms associated with polygenic scores for substance use, schizophrenia, and education attainment. Psychological Medicine, 2021, , 1-11.	4.5	3
14	Orbitofrontal cortex thickness and substance use disorders in emerging adulthood: causal inferences from a coâ€ŧwin control/discordant twin study. Addiction, 2021, 116, 2548-2558.	3.3	6
15	Associations between adolescent cannabis use and young-adult functioning in three longitudinal twin studies. Proceedings of the National Academy of Sciences of the United States of America, 2021, 118, .	7.1	28
16	Responsible Use of Open-Access Developmental Data: The Adolescent Brain Cognitive Development (ABCD) Study. Psychological Science, 2021, 32, 866-870.	3.3	39
17	Polygenic Score for Smoking Is Associated With Externalizing Psychopathology and Disinhibited Personality Traits but Not Internalizing Psychopathology in Adolescence. Clinical Psychological Science, 2021, 9, 1205-1213.	4.0	7
18	Mechanisms of parent–child transmission of tobacco and alcohol use with polygenic risk scores: Evidence for a genetic nurture effect Developmental Psychology, 2021, 57, 796-804.	1.6	6

#	Article	IF	CITATIONS
19	Reprint of: Using a co-twin control design to evaluate alternative trait measures as indices of liability for substance use disorders. International Journal of Psychophysiology, 2021, 163, 58-66.	1.0	0
20	Rates of Incidental Findings in Brain Magnetic Resonance Imaging in Children. JAMA Neurology, 2021, 78, 578.	9.0	28
21	Resource profile and user guide of the Polygenic Index Repository. Nature Human Behaviour, 2021, 5, 1744-1758.	12.0	63
22	Largeâ€scale collaboration in ENIGMAâ€EEG: A perspective on the metaâ€analytic approach to link neurological and psychiatric liability genes to electrophysiological brain activity. Brain and Behavior, 2021, 11, e02188.	2.2	18
23	Genetic association study of childhood aggression across raters, instruments, and age. Translational Psychiatry, 2021, 11, 413.	4.8	31
24	Polygenic scores for smoking and educational attainment have independent influences on academic success and adjustment in adolescence and educational attainment in adulthood. PLoS ONE, 2021, 16, e0255348.	2.5	4
25	Adolescent cannabis use and adult psychoticism: A longitudinal co-twin control analysis using data from two cohorts Journal of Abnormal Psychology, 2021, 130, 691-701.	1.9	5
26	Genetic and environmental contributions to IQ in adoptive and biological families with 30-year-old offspring. Intelligence, 2021, 88, 101579.	3.0	9
27	The clashing nature of rebelliousness: Nontraditional attitudes and counterâ€normative behaviors show divergent associations with intelligence. Journal of Personality, 2021, , .	3.2	0
28	Parent Contributions to the Development of Political Attitudes in Adoptive and Biological Families. Psychological Science, 2021, 32, 2023-2034.	3.3	8
29	Meta-analysis of up to 622,409 individuals identifies 40 novel smoking behaviour associated genetic loci. Molecular Psychiatry, 2020, 25, 2392-2409.	7.9	83
30	Where do gambling problems fit in the structure of psychopathology during emerging adulthood?. International Gambling Studies, 2020, 20, 1-13.	2.1	9
31	Personality, romantic relationships, and alcohol use disorder symptoms in adolescence and young adulthood: An evaluation of personality × social context interplay. Development and Psychopathology, 2020, 32, 1097-1112.	2.3	1
32	Using a co-twin control design to evaluate alternative trait measures as indices of liability for substance use disorders. International Journal of Psychophysiology, 2020, 148, 75-83.	1.0	9
33	Expanding the genetic architecture of nicotine dependence and its shared genetics with multiple traits. Nature Communications, 2020, 11, 5562.	12.8	80
34	Differential implications of persistent, remitted, and late-onset ADHD symptoms for substance abuse in women and men: A twin study from ages 11 to 24. Drug and Alcohol Dependence, 2020, 212, 107947.	3.2	11
35	The Contribution of Cognitive and Noncognitive Skills to Intergenerational Social Mobility. Psychological Science, 2020, 31, 835-847.	3.3	16
36	Adolescent Externalizing Psychopathology and Its Prospective Relationship to Marijuana Use Development from Age 14 to 30: Replication Across Independent Longitudinal Twin Samples. Behavior Genetics, 2020, 50, 139-151.	2.1	6

#	Article	IF	CITATIONS
37	Targetâ€related parietal P3 and medial frontal theta index the genetic risk for problematic substance use. Psychophysiology, 2019, 56, e13383.	2.4	5
38	Age of initiation and transition times to tobacco dependence: Early onset and rapid escalated use increase risk for dependence severity. Drug and Alcohol Dependence, 2019, 202, 104-110.	3.2	13
39	Trait neuroticism and emotion neurocircuitry: Functional magnetic resonance imaging evidence for a failure in emotion regulation. Development and Psychopathology, 2019, 31, 1085-1099.	2.3	30
40	The causal influence of brain size on human intelligence: Evidence from within-family phenotypic associations and GWAS modeling. Intelligence, 2019, 75, 48-58.	3.0	48
41	Minnesota Center for Twin and Family Research. Twin Research and Human Genetics, 2019, 22, 746-752.	0.6	27
42	Close relationships and depression: A developmental cascade approach. Development and Psychopathology, 2019, 31, 1451-1465.	2.3	10
43	Association studies of up to 1.2 million individuals yield new insights into the genetic etiology of tobacco and alcohol use. Nature Genetics, 2019, 51, 237-244.	21.4	1,307
44	Exome Chip Meta-analysis Fine Maps Causal Variants and Elucidates the Genetic Architecture of Rare Coding Variants in Smoking and AlcoholÂUse. Biological Psychiatry, 2019, 85, 946-955.	1.3	69
45	Free Will, Determinism, and Intuitive Judgments About the Heritability of Behavior. Behavior Genetics, 2019, 49, 136-153.	2.1	25
46	The Gender Risk–Severity Paradox for Alcohol Use Disorder From Adolescence Through Young Adulthood. Emerging Adulthood, 2018, 6, 375-386.	2.4	17
47	Numbers Assigned in the Vietnam-Era Selective Service Lotteries Influence the Military Service Decisions of Children Born to Draft-Eligible Men. Armed Forces and Society, 2018, 44, 347-367.	1.4	6
48	Associations between childhood ADHD, gender, and adolescent alcohol and marijuana involvement: A causally informative design. Drug and Alcohol Dependence, 2018, 184, 33-41.	3.2	35
49	Endophenotypes in psychiatric disease: prospects and challenges. Genome Medicine, 2018, 10, 11.	8.2	33
50	Genetic and Environmental Influences on Parent–Child Conflict and Child Depression Through Late Adolescence. Journal of Clinical Child and Adolescent Psychology, 2018, 47, S5-S20.	3.4	18
51	Impact of alcohol use on EEG dynamics of response inhibition: a cotwin control analysis. Addiction Biology, 2018, 23, 256-267.	2.6	21
52	The Developmental Unfolding of Sibling Influences on Alcohol Use over Time. Journal of Youth and Adolescence, 2018, 47, 349-368.	3.5	13
53	Increased Risk of Smoking in Female Adolescents Who Had Childhood ADHD. American Journal of Psychiatry, 2018, 175, 63-70.	7.2	28
54	Psychosocial functioning among regular cannabis users with and without cannabis use disorder. Psychological Medicine, 2018, 48, 1853-1861.	4.5	29

#	Article	IF	CITATIONS
55	Problematic alcohol use and hippocampal volume in a female sample: disentangling cause from consequence using a co-twin control study design. Psychological Medicine, 2018, 48, 1673-1684.	4.5	7
56	Transancestral GWAS of alcohol dependence reveals common genetic underpinnings with psychiatric disorders. Nature Neuroscience, 2018, 21, 1656-1669.	14.8	490
57	Mediating pathways from childhood <scp>ADHD</scp> to adolescent tobacco and marijuana problems: roles of peer impairment, internalizing, adolescent <scp>ADHD</scp> symptoms, and gender. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2018, 59, 1083-1093.	5.2	12
58	The accuracy of LD Score regression as an estimator of confounding and genetic correlations in genomeâ€wide association studies. Genetic Epidemiology, 2018, 42, 783-795.	1.3	45
59	Conflict-related medial frontal theta as an endophenotype for alcohol use disorder. Biological Psychology, 2018, 139, 25-38.	2.2	5
60	Maladaptive personality traits and romantic relationship satisfaction: A monozygotic co-twin control analysis Journal of Abnormal Psychology, 2018, 127, 339-347.	1.9	4
61	Reciprocal Associations Between Eating Pathology and Parent-Daughter Relationships Across Adolescence: A Monozygotic Twin Differences Study. Frontiers in Psychology, 2018, 9, 914.	2.1	10
62	Proper conditional analysis in the presence of missing data: Application to large scale meta-analysis of tobacco use phenotypes. PLoS Genetics, 2018, 14, e1007452.	3.5	18
63	A Co-Twin Control Study of the Relationship Between Adolescent Drinking and Adult Outcomes. Journal of Studies on Alcohol and Drugs, 2018, 79, 635-643.	1.0	8
64	A Genetic Epidemiological Mega Analysis of Smoking Initiation in Adolescents. Nicotine and Tobacco Research, 2017, 19, ntw294.	2.6	21
65	Cognitive, Noncognitive, and Family Background Contributions to College Attainment: A Behavioral Genetic Perspective. Journal of Personality, 2017, 85, 65-78.	3.2	21
66	Oppositional defiant disorder dimensions: genetic influences and risk for later psychopathology. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2017, 58, 702-710.	5.2	30
67	Genetic evidence of assortative mating in humans. Nature Human Behaviour, 2017, 1, .	12.0	242
68	Fine mapping genetic associations between the HLA region and extremely high intelligence. Scientific Reports, 2017, 7, 41182.	3.3	1
69	Deep Sequencing of 71 Candidate Genes to Characterize Variation Associated with Alcohol Dependence. Alcoholism: Clinical and Experimental Research, 2017, 41, 711-718.	2.4	13
70	Genome-wide association meta-analysis of 78,308 individuals identifies new loci and genes influencing human intelligence. Nature Genetics, 2017, 49, 1107-1112.	21.4	425
71	Parent–Offspring Resemblance for Drinking Behaviors in a Longitudinal Twin Sample. Journal of Studies on Alcohol and Drugs, 2017, 78, 49-58.	1.0	7
72	What can time-frequency and phase coherence measures tell us about the genetic basis of P3 amplitude?. International Journal of Psychophysiology, 2017, 115, 40-56.	1.0	9

William G Iacono

#	Article	IF	CITATIONS
73	Testing the effects of adolescent alcohol use on adult conflict-related theta dynamics. Clinical Neurophysiology, 2017, 128, 2358-2368.	1.5	9
74	Higher Rates of DZ Twinning in a Twenty-First Century Birth Cohort. Behavior Genetics, 2017, 47, 581-584.	2.1	5
75	Theta―and deltaâ€band EEG network dynamics during a novelty oddball task. Psychophysiology, 2017, 54, 1590-1605.	2.4	49
76	Genetic and environmental origins of gambling behaviors from ages 18 to 25: A longitudinal twin family study Psychology of Addictive Behaviors, 2017, 31, 367-374.	2.1	11
77	Genetic and environmental sources of covariation between early drinking and adult functioning Psychology of Addictive Behaviors, 2017, 31, 589-600.	2.1	2
78	Does parental divorce moderate the heritability of body dissatisfaction? An extension of previous gene–environment interaction effects. International Journal of Eating Disorders, 2016, 49, 186-190.	4.0	4
79	Personality Polygenes, Positive Affect, and Life Satisfaction. Twin Research and Human Genetics, 2016, 19, 407-417.	0.6	16
80	Genetic variants associated with subjective well-being, depressive symptoms, and neuroticism identified through genome-wide analyses. Nature Genetics, 2016, 48, 624-633.	21.4	870
81	Identification of Common Genetic Variants Influencing Spontaneous Dizygotic Twinning and Female Fertility. American Journal of Human Genetics, 2016, 98, 898-908.	6.2	89
82	Genome-wide association study identifies 74 loci associated with educational attainment. Nature, 2016, 533, 539-542.	27.8	1,204
83	A Test-Replicate Approach to Candidate Gene Research on Addiction and Externalizing Disorders: A Collaboration Across Five Longitudinal Studies. Behavior Genetics, 2016, 46, 608-626.	2.1	14
84	Next-generation genotype imputation service and methods. Nature Genetics, 2016, 48, 1284-1287.	21.4	2,828
85	A reference panel of 64,976 haplotypes for genotype imputation. Nature Genetics, 2016, 48, 1279-1283.	21.4	2,421
86	Antisocial peer affiliation and externalizing disorders in the transition from adolescence to young adulthood: Selection versus socialization effects Developmental Psychology, 2016, 52, 813-823.	1.6	44
87	Genome-wide analysis identifies 12 loci influencing human reproductive behavior. Nature Genetics, 2016, 48, 1462-1472.	21.4	284
88	Genetic variants linked to education predict longevity. Proceedings of the National Academy of Sciences of the United States of America, 2016, 113, 13366-13371.	7.1	110
89	Oneâ€year developmental stability and covariance among oddball, novelty, go/noâ€go, and flanker eventâ€related potentials in adolescence: A monozygotic twin study. Psychophysiology, 2016, 53, 991-1007.	2.4	19
90	A computational method for genotype calling in family-based sequencing data. BMC Bioinformatics, 2016, 17, 37.	2.6	8

#	Article	IF	CITATIONS
91	Achieving success with the Research Domain Criteria (RDoC): Going beyond the matrix. Psychophysiology, 2016, 53, 308-311.	2.4	7
92	Impact of adolescent marijuana use on intelligence: Results from two longitudinal twin studies. Proceedings of the National Academy of Sciences of the United States of America, 2016, 113, E500-8.	7.1	147
93	Meta-analysis of Genome-Wide Association Studies for Extraversion: Findings from the Genetics of Personality Consortium. Behavior Genetics, 2016, 46, 170-182.	2.1	178
94	Association of the OPRM1 Variant rs1799971 (A118G) with Non-Specific Liability to Substance Dependence in a Collaborative de novo Meta-Analysis of European-Ancestry Cohorts. Behavior Genetics, 2016, 46, 151-169.	2.1	98
95	Parent involvement, sibling companionship, and adolescent substance use: A longitudinal, genetically informed design Journal of Family Psychology, 2015, 29, 614-623.	1.3	29
96	Alcohol Use Initiation is Associated with Changes in Personality Trait Trajectories from Early Adolescence to Young Adulthood. Alcoholism: Clinical and Experimental Research, 2015, 39, 2163-2170.	2.4	11
97	Longitudinal stability and predictive utility of the visual P3 response in adults with externalizing psychopathology. Psychophysiology, 2015, 52, 1632-1645.	2.4	16
98	Meta-analysis of Genome-wide Association Studies for Neuroticism, and the Polygenic Association With Major Depressive Disorder. JAMA Psychiatry, 2015, 72, 642.	11.0	289
99	Copy Number Variations and Cognitive Phenotypes in Unselected Populations. JAMA - Journal of the American Medical Association, 2015, 313, 2044.	7.4	143
100	The Power of Theory, Research Design, and Transdisciplinary Integration in Moving Psychopathology Forward. Psychological Inquiry, 2015, 26, 209-230.	0.9	25
101	Genes, psychological traits and civic engagement. Philosophical Transactions of the Royal Society B: Biological Sciences, 2015, 370, 20150015.	4.0	24
102	High School Sports Involvement Diminishes the Association Between Childhood Conduct Disorder and Adult Antisocial Behavior. Journal of Adolescent Health, 2015, 57, 107-112.	2.5	25
103	Adolescent drinking and brain morphometry: A co-twin control analysis. Developmental Cognitive Neuroscience, 2015, 16, 130-138.	4.0	54
104	Rare variant genotype imputation with thousands of study-specific whole-genome sequences: implications for cost-effective study designs. European Journal of Human Genetics, 2015, 23, 975-983.	2.8	92
105	The Effect of Paternal Age on Offspring Intelligence and Personality when Controlling for Parental Trait Levels. PLoS ONE, 2014, 9, e90097.	2.5	16
106	Genetic and environmental influences on affiliation with deviant peers during adolescence and early adulthood Developmental Psychology, 2014, 50, 663-673.	1.6	41
107	Genomeâ€wide scans of genetic variants for psychophysiological endophenotypes: A methodological overview. Psychophysiology, 2014, 51, 1207-1224.	2.4	28
108	Predictive validity of delay discounting behavior in adolescence: A longitudinal twin study Experimental and Clinical Psychopharmacology, 2014, 22, 434-443.	1.8	33
