#	ARTICLE	IF	CITATIONS
1	Height and body-mass index trajectories of school-aged children and adolescents from 1985 to 2019 in 200 countries and territories: a pooled analysis of 2181 population-based studies with 65 million participants. <i>Lancet, The</i> , 2020, 396, 1511-1524.	13.7	219
2	Rationale and Design of a Genetic Study on Cardiometabolic Risk Factors: Protocol for the Tehran Cardiometabolic Genetic Study (TCGS). <i>JMIR Research Protocols</i> , 2017, 6, e28.	1.0	55
3	Reliability and validity of the Iranian version of the Pediatric Quality of Life Inventoryâ„¢ 4.0 Generic Core Scales in adolescents. <i>Quality of Life Research</i> , 2010, 19, 1501-1508.	3.1	50
4	A Randomized Controlled Trial of Acceptance and Commitment Therapy for Type 2 Diabetes Management: The Moderating Role of Coping Styles. <i>PLoS ONE</i> , 2016, 11, e0166599.	2.5	50
5	Barriers to a healthy lifestyle among obese adolescents: a qualitative study from Iran. <i>International Journal of Public Health</i> , 2011, 56, 181-189.	2.3	49
6	Diabetes knowledge, attitude and practice (KAP) study among Iranian in-patients with type-2 diabetes: A cross-sectional study. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2016, 10, S114-S119.	3.6	45
7	Evaluating the Effect of Knowledge, Attitude, and Practice on Self-Management in Type 2 Diabetic Patients on Dialysis. <i>Journal of Diabetes Research</i> , 2016, 2016, 1-7.	2.3	43
8	Are physical activity, sedentary behaviors and sleep duration associated with body mass index-for-age and health-related quality of life among high school boys and girls?. <i>Health and Quality of Life Outcomes</i> , 2016, 14, 30.	2.4	43
9	Heterogeneous contributions of change in population distribution of body mass index to change in obesity and underweight. <i>ELife</i> , 2021, 10, .	6.0	41
10	Metabolic Syndrome Predicts Poor Health-Related Quality of Life in Women but Not in Men: Tehran Lipid and Glucose Study. <i>Journal of Women's Health</i> , 2010, 19, 1201-1207.	3.3	32
11	Validity and reliability of the Iranian version of the Pediatric Quality of Life Inventoryâ„¢ 4.0 (PedsQLâ„¢) Generic Core Scales in children. <i>Health and Quality of Life Outcomes</i> , 2012, 10, 3.	2.4	32
12	Barriers to healthy nutrition: perceptions and experiences of Iranian women. <i>BMC Public Health</i> , 2012, 12, 1064.	2.9	31
13	Disordered Eating and its Association with Overweight and Health-Related Quality of Life Among Adolescents in Selected High Schools of Tehran. <i>Child Psychiatry and Human Development</i> , 2015, 46, 485-492.	1.9	28
14	A qualitative difference. Patientsâ€™ views of hospital food service in Iran. <i>Appetite</i> , 2011, 57, 530-533.	3.7	24
15	What are the main barriers to healthy eating among families? A qualitative exploration of perceptions and experiences of Tehranian men. <i>Appetite</i> , 2015, 89, 291-297.	3.7	24
16	Evaluating the effect of knowledge, attitude and practice on self-management in patients with type 2 diabetes. <i>Acta Diabetologica</i> , 2016, 53, 1015-1023.	2.5	22
17	Self-care activities and glycated haemoglobin in Iranian patients with type 2 diabetes: Can coping styles and social support have a buffering role?. <i>Psychology and Health</i> , 2015, 30, 153-164.	2.2	21
18	Factors associated with pre-diabetes in Tehranian men and women: A structural equations modeling. <i>PLoS ONE</i> , 2017, 12, e0188898.	2.5	20

#	ARTICLE	IF	CITATIONS
19	Perceived social support and health-related quality of life (HRQoL) in Tehranian adults: Tehran lipid and glucose study. <i>Health and Quality of Life Outcomes</i> , 2018, 16, 90.	2.4	20
20	Smoking habits and incidence of cardiovascular diseases in men and women: findings of a 12-year follow up among an urban Eastern-Mediterranean population. <i>BMC Public Health</i> , 2019, 19, 1042.	2.9	20
21	Factors Affecting Gender Differences in the Association between Health-Related Quality of Life and Metabolic Syndrome Components: Tehran Lipid and Glucose Study. <i>PLoS ONE</i> , 2015, 10, e0143167.	2.5	19
22	Integration of Spirituality in Medical Education in Iran: A Qualitative Exploration of Requirements. <i>Evidence-based Complementary and Alternative Medicine</i> , 2015, 2015, 1-7.	1.2	19
23	Iodine Nutrition Status and Knowledge, Attitude, and Behavior in Tehranian Women Following 2 Decades Without Public Education. <i>Journal of Nutrition Education and Behavior</i> , 2013, 45, 412-419.	0.7	16
24	Can an Educational Intervention Improve Iodine Nutrition Status in Pregnant Women? A Randomized Controlled Trial. <i>Thyroid</i> , 2017, 27, 418-425.	4.5	16
25	Psycho-Socio-Cultural Determinants of Food Choice: A Qualitative Study on Adults in Social and Cultural Context of Iran. <i>Iranian Journal of Psychiatry</i> , 2017, 12, 241-250.	0.7	16
26	Independent and inverse association of hip circumference with metabolic risk factors in Tehranian adult men. <i>Preventive Medicine</i> , 2006, 42, 354-357.	3.4	15
27	Psychometric Properties of a Developed Questionnaire to Assess Knowledge, Attitude and Practice Regarding Vitamin D (D-KAP-38). <i>Nutrients</i> , 2017, 9, 471.	4.1	15
28	Trends of low physical activity among Iranian adolescents across urban and rural areas during 2006-2011. <i>Scientific Reports</i> , 2020, 10, 21318.	3.3	14
29	Comparison of health-related quality of life (HRQoL) among healthy, obese and chronically ill Iranian children. <i>BMC Public Health</i> , 2018, 18, 1337.	2.9	13
30	The Effects of a Community-Based Lifestyle Intervention on Metabolic Syndrome and Its Components in Adolescents: Findings of a Decade Follow-Up. <i>Metabolic Syndrome and Related Disorders</i> , 2018, 16, 215-223.	1.3	12
31	The prevalence of food addiction and its associations with plasma oxytocin level and anthropometric and dietary measurements in Iranian women with obesity. <i>Peptides</i> , 2019, 122, 170151.	2.4	12
32	The Trends of Metabolic Syndrome in Normal-Weight Tehranian Adults. <i>Annals of Nutrition and Metabolism</i> , 2011, 58, 126-132.	1.9	11
33	Maternal Characteristics and Incidence of Overweight/Obesity in Children: A 13-Year Follow-up Study in an Eastern Mediterranean Population. <i>Maternal and Child Health Journal</i> , 2017, 21, 1211-1220.	1.5	10
34	Long-Term Effectiveness of a Lifestyle Intervention: A Pragmatic Community Trial to Prevent Metabolic Syndrome. <i>American Journal of Preventive Medicine</i> , 2019, 56, 437-446.	3.0	9
35	Socio-Behavioral Factors Associated with Overweight and Central Obesity in Tehranian Adults: a Structural Equation Model. <i>International Journal of Behavioral Medicine</i> , 2017, 24, 110-119.	1.7	8
36	National trends of pre-hypertension and hypertension among Iranian adolescents across urban and rural areas (2007-2011). <i>Biology of Sex Differences</i> , 2019, 10, 15.	4.1	8

#	ARTICLE	IF	CITATIONS
37	Factors Affecting Self-Care Performance in Adolescents with Type I Diabetes According to the PEN-3 Cultural Model. <i>International Journal of Endocrinology and Metabolism</i> , 2018, In Press, e62582.	1.0	8
38	Is persistence of metabolic syndrome associated with poor health-related quality of life in non-diabetic Iranian adults? <i>Tehran Lipid and Glucose Study. Journal of Diabetes Investigation</i> , 2014, 5, 687-693.	2.4	7
39	“Socio-Demographic Determinants of Health-Related Quality of Life in Tehran Lipid and Glucose Study (TLGS)” <i>International Journal of Endocrinology and Metabolism</i> , 2017, In Press, e14548.	1.0	7
40	Metabolic syndrome and health-related quality of life in reproductive age and post-menopausal women: <i>Tehran Lipid and Glucose Study. Archives of Iranian Medicine</i> , 2014, 17, 423-8.	0.6	7
41	Concordance between self-reported body mass index with weight perception, self-rated health and appearance satisfaction in people living in Tehran. <i>Journal of Diabetes and Metabolic Disorders</i> , 2015, 15, 22.	1.9	6
42	Is overweight associated with health-related quality of life (HRQoL) among Tehranian school children?. <i>SpringerPlus</i> , 2016, 5, 313.	1.2	6
43	Which obesity phenotypes predict poor health-related quality of life in adult men and women? <i>Tehran Lipid and Glucose Study. PLoS ONE</i> , 2018, 13, e0203028.	2.5	6
44	Long-term incidence of cardiovascular outcomes in the middle-aged and elderly with different patterns of physical activity: <i>Tehran lipid and glucose study. BMC Public Health</i> , 2020, 20, 1654.	2.9	6
45	Longitudinal association between body mass index and physical activity among adolescents with different parental risk: a parallel latent growth curve modeling approach. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 59.	4.6	6
46	The main physical components of body image from the perspectives of Iranian adolescents: a qualitative study. <i>BMC Public Health</i> , 2021, 21, 78.	2.9	6
47	Reliability and validity of the Iranian version of the QAPACE in adolescents. <i>Quality of Life Research</i> , 2014, 23, 1797-1802.	3.1	5
48	Diabetes in women and health-related quality of life in the whole family: a structural equation modeling. <i>Health and Quality of Life Outcomes</i> , 2019, 17, 178.	2.4	5
49	The First Cigarette Smoking Experience and Future Smoking Behaviors Among Adolescents with Different Parental Risk: a Longitudinal Analysis in an Urban Iranian Population. <i>International Journal of Behavioral Medicine</i> , 2020, 27, 698-706.	1.7	5
50	The relation of alexithymia and attachment with type 1 diabetes management in adolescents: a gender-specific analysis. <i>BMC Psychology</i> , 2020, 8, 30.	2.1	5
51	Health-related quality of life in men and women who experienced cardiovascular diseases: <i>Tehran Lipid and Glucose Study. Health and Quality of Life Outcomes</i> , 2021, 19, 225.	2.4	5
52	Association between Metabolic Syndrome and Health-related Quality of Life among Individuals with Normal and Impaired Glucose Regulation: Findings from <i>Tehran Lipid and Glucose Study. Archives of Iranian Medicine</i> , 2016, 19, 577-83.	0.6	5
53	Which insulin resistance-based definition of metabolic syndrome has superior diagnostic value in detection of poor health-related quality of life? Cross-sectional findings from <i>Tehran Lipid and Glucose Study. Health and Quality of Life Outcomes</i> , 2015, 13, 194.	2.4	4
54	Community readiness for childhood obesity prevention programs: findings from an urban population in Iran. <i>Health Promotion International</i> , 2021, 36, 824-835.	1.8	4

#	ARTICLE	IF	CITATIONS
55	Does Motivational Interviewing Improve the Weight Management Process in Adolescents? A Systematic Review and Meta-analysis. <i>International Journal of Behavioral Medicine</i> , 2021, , 1.	1.7	4
56	Predisposing factors of long-term responsiveness in a cardio-metabolic cohort: Tehran Lipid and Glucose Study. <i>BMC Medical Research Methodology</i> , 2021, 21, 161.	3.1	4
57	Association of leisure and occupational physical activities and health-related quality of life: Tehran Lipid and Glucose Study. <i>Health and Quality of Life Outcomes</i> , 2020, 18, 13.	2.4	4
58	Factors Associated with Pre-Hypertension Among Tehranian Adults: A Novel Application of Structural Equation Models. <i>International Journal of Endocrinology and Metabolism</i> , 2018, 16, e59706.	1.0	4
59	Behavioral Interventions for Weight Management in Overweight and Obese Adolescents: A Comparison Between a Motivation-based Educational Program and Conventional Dietary Counseling. <i>International Journal of Endocrinology and Metabolism</i> , 2020, 18, e88192.	1.0	4
60	Effects of a Healthy Lifestyle Education on the Incidence of Metabolic Syndrome in Children during a 13-Year Follow-up. <i>International Journal of Behavioral Medicine</i> , 2018, 25, 131-140.	1.7	3
61	Does motivational interviewing improve the weight management process in adolescents? Protocol for a systematic review and meta-analysis. <i>Systematic Reviews</i> , 2018, 7, 178.	5.3	3
62	Validity and reliability of the Iranian version of the Yale Food Addiction Scale for obese women. <i>Public Health Nutrition</i> , 2021, 24, 2512-2520.	2.2	3
63	Sleep Habits and Dietary Intake Among Preschool Children in Qazvin. <i>Journal of Comprehensive Pediatrics</i> , 2014, 5, .	0.3	3
64	Parental Correlates of Body Weight Status Among High School Students in Tehran. <i>International Journal of Endocrinology and Metabolism</i> , 2017, Inpress, e42701.	1.0	3
65	Familial Aggregation of Metabolic Syndrome With Different Socio-Behavioral Characteristics: The Fourth Phase of Tehran Lipid and Glucose Study. <i>Iranian Red Crescent Medical Journal</i> , 2016, 18, e30104.	0.5	3
66	Development and validation of a knowledge, attitude, and practice questionnaire regarding cardiovascular diseases in an Iranian general population. <i>BMC Public Health</i> , 2021, 21, 2050.	2.9	3
67	Emotional states of different obesity phenotypes: a sex-specific study in a west-Asian population. <i>BMC Psychiatry</i> , 2021, 21, 124.	2.6	2
68	Risk of hypertension in school-aged children with different parental risk: a longitudinal study from childhood to young adulthood. <i>BMC Pediatrics</i> , 2021, 21, 352.	1.7	2
69	Predictive value of women's weight trajectories in determining familial cardiovascular disorders: a family-based longitudinal study. <i>Scientific Reports</i> , 2021, 11, 17317.	3.3	2
70	A Qualitative Exploration of Body Image from the Perspective of Adolescents with a Focus on Psychological Aspects: Findings from Iran. <i>Child Psychiatry and Human Development</i> , 2023, 54, 202-212.	1.9	2
71	Main Facilitators of Smoking Among Young Males in Tehran: Tehran Lipid and Glucose Study. <i>Iranian Red Crescent Medical Journal</i> , 2014, 16, e15429.	0.5	2
72	The Association Between Metabolic Syndrome and Health-Related Quality of Life in Adult Population: A Summary of the Tehran Lipid and Glucose Study Findings. <i>International Journal of Endocrinology and Metabolism</i> , 2018, In Press, e84745.	1.0	2

#	ARTICLE	IF	CITATIONS
73	Developing and validating food choice determinants questionnaire: An instrument for exploring food choice determinants in Iran. <i>International Journal of Preventive Medicine</i> , 2020, 11, 141.	0.4	2
74	Barriers to weight management in pregnant mothers with obesity: a qualitative study on mothers with low socioeconomic background. <i>BMC Pregnancy and Childbirth</i> , 2021, 21, 779.	2.4	2
75	Developmental trajectories of body mass index since childhood and health-related quality of life in young adulthood: Tehran Lipid and Glucose Study. <i>Quality of Life Research</i> , 2021, , 1.	3.1	2
76	Distribution of body mass index in children with different parental risk: Findings of a family-based cohort study in a West-Asian population. <i>Scientific Reports</i> , 2019, 9, 9375.	3.3	1
77	The Cigarette Smoking Initiation and Continuation in Adolescents Undergoing a Long-Term Behavioral Intervention. <i>Nicotine and Tobacco Research</i> , 2021, 23, 702-710.	2.6	1
78	Prognostic value of different maternal obesity phenotypes in predicting offspring obesity in a family-based cohort study. <i>BMC Public Health</i> , 2021, 21, 885.	2.9	1
79	Time-varying association between physical activity and risk of diabetes in the early and late adulthood: A longitudinal study in a West-Asian country. <i>Primary Care Diabetes</i> , 2021, 15, 1026-1032.	1.8	1
80	Maternal Emotional States in Relation to Offspring Weight and Health-Related Quality of Life: Tehran Lipid and Glucose Study. <i>International Journal of Endocrinology and Metabolism</i> , 2021, 19, e113107.	1.0	1
81	The Action Plan and Strategy Development for the Community Readiness Improvement for Tackling Childhood Obesity (CRITCO) Study. <i>International Journal of Endocrinology and Metabolism</i> , 2021, In Press, e111371.	1.0	1
82	Inventory of Determinants of Obesity-Related Behaviors in Adolescents: Development and Psychometric Characteristics. <i>International Journal of Endocrinology and Metabolism</i> , 2015, 13, e24618.	1.0	1
83	Validity and Reliability of the Iranian Version of the Short Form Social Well Being Scale in a General Urban Population. <i>Iranian Journal of Public Health</i> , 2019, 48, 1478-1487.	0.5	1
84	Assessing parents' self-efficacy to handle child obesity-related behaviors: validation of the Lifestyle Behavior Checklist in Iran. <i>Journal of Health, Population and Nutrition</i> , 2022, 41, 9.	2.0	1
85	Risk of hypertension in school-aged children undergoing a long-term community-based lifestyle intervention: Tehran Lipid and Glucose Study. <i>Preventive Medicine</i> , 2021, 153, 106799.	3.4	0
86	Response Comment on "Validity and Reliability of the Iranian Version of the Short Form Social Well Being Scale in a General Urban Population". <i>Iranian Journal of Public Health</i> , 2020, 49, 820-821.	0.5	0
87	Long-Term Parallel Changes of Physical Activity and Body Mass Index in Different Predisposing Risk Trajectories of Obesity. <i>Journal of Physical Activity and Health</i> , 2022, , 1-11.	2.0	0
88	The Long-Term Effectiveness of a Multisetting Lifestyle Intervention on Tobacco-Related Habits in Adolescent Boys and Girls: Tehran Lipid and Glucose Study. <i>Journal of School Health</i> , 2022, 92, 888-897.	1.6	0
89	A pragmatic multi-setting lifestyle intervention to improve leisure-time physical activity from adolescence to young adulthood: the vital role of sex and intervention onset time. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022, 19, .	4.6	0
