#	ARTICLE	IF	CITATIONS
1	A Qualitative Exploration of Body Image from the Perspective of Adolescents with a Focus on Psychological Aspects: Findings from Iran. <i>Child Psychiatry and Human Development</i> , 2023, 54, 202-212.	1.9	2
2	Long-Term Parallel Changes of Physical Activity and Body Mass Index in Different Predisposing Risk Trajectories of Obesity. <i>Journal of Physical Activity and Health</i> , 2022, , 1-11.	2.0	0
3	Assessing parentsâ€™ self-efficacy to handle child obesity-related behaviors: validation of the Lifestyle Behavior Checklist in Iran. <i>Journal of Health, Population and Nutrition</i> , 2022, 41, 9.	2.0	1
4	The Long-Term Effectiveness of a Multisetting Lifestyle Intervention on Tobacco-Related Habits in Adolescent Boys and Girls: Tehran Lipid and Glucose Study. <i>Journal of School Health</i> , 2022, 92, 888-897.	1.6	0
5	A pragmatic multi-setting lifestyle intervention to improve leisure-time physical activity from adolescence to young adulthood: the vital role of sex and intervention onset time. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022, 19, .	4.6	0
6	Community readiness for childhood obesity prevention programs: findings from an urban population in Iran. <i>Health Promotion International</i> , 2021, 36, 824-835.	1.8	4
7	Validity and reliability of the Iranian version of the Yale Food Addiction Scale for obese women. <i>Public Health Nutrition</i> , 2021, 24, 2512-2520.	2.2	3
8	The Cigarette Smoking Initiation and Continuation in Adolescents Undergoing a Long-Term Behavioral Intervention. <i>Nicotine and Tobacco Research</i> , 2021, 23, 702-710.	2.6	1
9	The main physical components of body image from the perspectives of Iranian adolescents: a qualitative study. <i>BMC Public Health</i> , 2021, 21, 78.	2.9	6
10	Emotional states of different obesity phenotypes: a sex-specific study in a west-Asian population. <i>BMC Psychiatry</i> , 2021, 21, 124.	2.6	2
11	Heterogeneous contributions of change in population distribution of body mass index to change in obesity and underweight. <i>ELife</i> , 2021, 10, .	6.0	41
12	Prognostic value of different maternal obesity phenotypes in predicting offspring obesity in a family-based cohort study. <i>BMC Public Health</i> , 2021, 21, 885.	2.9	1
13	Time-varying association between physical activity and risk of diabetes in the early and late adulthood: A longitudinal study in a West-Asian country. <i>Primary Care Diabetes</i> , 2021, 15, 1026-1032.	1.8	1
14	Does Motivational Interviewing Improve the Weight Management Process in Adolescents? A Systematic Review and Meta-analysis. <i>International Journal of Behavioral Medicine</i> , 2021, , 1.	1.7	4
15	Risk of hypertension in school-aged children with different parental risk: a longitudinal study from childhood to young adulthood. <i>BMC Pediatrics</i> , 2021, 21, 352.	1.7	2
16	Predisposing factors of long-term responsiveness in a cardio-metabolic cohort: Tehran Lipid and Glucose Study. <i>BMC Medical Research Methodology</i> , 2021, 21, 161.	3.1	4
17	Predictive value of womenâ€™s weight trajectories in determining familial cardiovascular disorders: a family-based longitudinal study. <i>Scientific Reports</i> , 2021, 11, 17317.	3.3	2
18	Health-related quality of life in men and women who experienced cardiovascular diseases: Tehran Lipid and Glucose Study. <i>Health and Quality of Life Outcomes</i> , 2021, 19, 225.	2.4	5

#	ARTICLE	IF	CITATIONS
19	Maternal Emotional States in Relation to Offspring Weight and Health-Related Quality of Life: Tehran Lipid and Glucose Study. <i>International Journal of Endocrinology and Metabolism</i> , 2021, 19, e113107.	1.0	1
20	Risk of hypertension in school-aged children undergoing a long-term community-based lifestyle intervention: Tehran Lipid and Glucose Study. <i>Preventive Medicine</i> , 2021, 153, 106799.	3.4	0
21	The Action Plan and Strategy Development for the Community Readiness Improvement for Tackling Childhood Obesity (CRITCO) Study. <i>International Journal of Endocrinology and Metabolism</i> , 2021, In Press, e111371.	1.0	1
22	Development and validation of a knowledge, attitude, and practice questionnaire regarding cardiovascular diseases in an Iranian general population. <i>BMC Public Health</i> , 2021, 21, 2050.	2.9	3
23	Barriers to weight management in pregnant mothers with obesity: a qualitative study on mothers with low socioeconomic background. <i>BMC Pregnancy and Childbirth</i> , 2021, 21, 779.	2.4	2
24	Developmental trajectories of body mass index since childhood and health-related quality of life in young adulthood: Tehran Lipid and Glucose Study. <i>Quality of Life Research</i> , 2021, , 1.	3.1	2
25	The First Cigarette Smoking Experience and Future Smoking Behaviors Among Adolescents with Different Parental Risk: a Longitudinal Analysis in an Urban Iranian Population. <i>International Journal of Behavioral Medicine</i> , 2020, 27, 698-706.	1.7	5
26	Trends of low physical activity among Iranian adolescents across urban and rural areas during 2006â€“2011. <i>Scientific Reports</i> , 2020, 10, 21318.	3.3	14
27	Long-term incidence of cardiovascular outcomes in the middle-aged and elderly with different patterns of physical activity: Tehran lipid and glucose study. <i>BMC Public Health</i> , 2020, 20, 1654.	2.9	6
28	Height and body-mass index trajectories of school-aged children and adolescents from 1985 to 2019 in 200 countries and territories: a pooled analysis of 2181 population-based studies with 65 million participants. <i>Lancet, The</i> , 2020, 396, 1511-1524.	13.7	219
29	Longitudinal association between body mass index and physical activity among adolescents with different parental risk: a parallel latent growth curve modeling approach. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 59.	4.6	6
30	The relation of alexithymia and attachment with type 1 diabetes management in adolescents: a gender-specific analysis. <i>BMC Psychology</i> , 2020, 8, 30.	2.1	5
31	Association of leisure and occupational physical activities and health-related quality of life: Tehran Lipid and Glucose Study. <i>Health and Quality of Life Outcomes</i> , 2020, 18, 13.	2.4	4
32	Developing and validating food choice determinants questionnaire: An instrument for exploring food choice determinants in Iran. <i>International Journal of Preventive Medicine</i> , 2020, 11, 141.	0.4	2
33	Behavioral Interventions for Weight Management in Overweight and Obese Adolescents: A Comparison Between a Motivation-based Educational Program and Conventional Dietary Counseling. <i>International Journal of Endocrinology and Metabolism</i> , 2020, 18, e88192.	1.0	4
34	Response Comment on "Validity and Reliability of the Iranian Version of the Short Form Social Well Being Scale in a General Urban Population". <i>Iranian Journal of Public Health</i> , 2020, 49, 820-821.	0.5	0
35	Smoking habits and incidence of cardiovascular diseases in men and women: findings of a 12â€“year follow up among an urban Eastern-Mediterranean population. <i>BMC Public Health</i> , 2019, 19, 1042.	2.9	20
36	Distribution of body mass index in children with different parental risk: Findings of a family-based cohort study in a West-Asian population. <i>Scientific Reports</i> , 2019, 9, 9375.	3.3	1

#	ARTICLE	IF	CITATIONS
37	The prevalence of food addiction and its associations with plasma oxytocin level and anthropometric and dietary measurements in Iranian women with obesity. <i>Peptides</i> , 2019, 122, 170151.	2.4	12
38	National trends of pre-hypertension and hypertension among Iranian adolescents across urban and rural areas (2007â€“2011). <i>Biology of Sex Differences</i> , 2019, 10, 15.	4.1	8
39	Long-Term Effectiveness of a Lifestyle Intervention: A Pragmatic Community Trial to Prevent Metabolic Syndrome. <i>American Journal of Preventive Medicine</i> , 2019, 56, 437-446.	3.0	9
40	Diabetes in women and health-related quality of life in the whole family: a structural equation modeling. <i>Health and Quality of Life Outcomes</i> , 2019, 17, 178.	2.4	5
41	Validity and Reliability of the Iranian Version of the Short Form Social Well Being Scale in a General Urban Population. <i>Iranian Journal of Public Health</i> , 2019, 48, 1478-1487.	0.5	1
42	The Effects of a Community-Based Lifestyle Intervention on Metabolic Syndrome and Its Components in Adolescents: Findings of a Decade Follow-Up. <i>Metabolic Syndrome and Related Disorders</i> , 2018, 16, 215-223.	1.3	12
43	Effects of a Healthy Lifestyle Education on the Incidence of Metabolic Syndrome in Children during a 13-Year Follow-up. <i>International Journal of Behavioral Medicine</i> , 2018, 25, 131-140.	1.7	3
44	Comparison of health-related quality of life (HRQoL) among healthy, obese and chronically ill Iranian children. <i>BMC Public Health</i> , 2018, 18, 1337.	2.9	13
45	Does motivational interviewing improve the weight management process in adolescents? Protocol for a systematic review and meta-analysis. <i>Systematic Reviews</i> , 2018, 7, 178.	5.3	3
46	Which obesity phenotypes predict poor health-related quality of life in adult men and women? Tehran Lipid and Glucose Study. <i>PLoS ONE</i> , 2018, 13, e0203028.	2.5	6
47	Perceived social support and health-related quality of life (HRQoL) in Tehranian adults: Tehran lipid and glucose study. <i>Health and Quality of Life Outcomes</i> , 2018, 16, 90.	2.4	20
48	Factors Associated with Pre-Hypertension Among Tehranian Adults: A Novel Application of Structural Equation Models. <i>International Journal of Endocrinology and Metabolism</i> , 2018, 16, e59706.	1.0	4
49	Factors Affecting Self-Care Performance in Adolescents with Type I Diabetes According to the PEN-3 Cultural Model. <i>International Journal of Endocrinology and Metabolism</i> , 2018, In Press, e62582.	1.0	8
50	The Association Between Metabolic Syndrome and Health-Related Quality of Life in Adult Population: A Summary of the Tehran Lipid and Glucose Study Findings. <i>International Journal of Endocrinology and Metabolism</i> , 2018, In Press, e84745.	1.0	2
51	Socio-Behavioral Factors Associated with Overweight and Central Obesity in Tehranian Adults: a Structural Equation Model. <i>International Journal of Behavioral Medicine</i> , 2017, 24, 110-119.	1.7	8
52	Maternal Characteristics and Incidence of Overweight/Obesity in Children: A 13-Year Follow-up Study in an Eastern Mediterranean Population. <i>Maternal and Child Health Journal</i> , 2017, 21, 1211-1220.	1.5	10
53	Can an Educational Intervention Improve Iodine Nutrition Status in Pregnant Women? A Randomized Controlled Trial. <i>Thyroid</i> , 2017, 27, 418-425.	4.5	16
54	Psychometric Properties of a Developed Questionnaire to Assess Knowledge, Attitude and Practice Regarding Vitamin D (D-KAP-38). <i>Nutrients</i> , 2017, 9, 471.	4.1	15

#	ARTICLE	IF	CITATIONS
55	Factors associated with pre-diabetes in Tehranian men and women: A structural equations modeling. PLoS ONE, 2017, 12, e0188898.	2.5	20
56	Rationale and Design of a Genetic Study on Cardiometabolic Risk Factors: Protocol for the Tehran Cardiometabolic Genetic Study (TCGS). JMIR Research Protocols, 2017, 6, e28.	1.0	55
57	“Socio-Demographic Determinants of Health-Related Quality of Life in Tehran Lipid and Glucose Study (TLGS)”, International Journal of Endocrinology and Metabolism, 2017, In Press, e14548.	1.0	7
58	Parental Correlates of Body Weight Status Among High School Students in Tehran. International Journal of Endocrinology and Metabolism, 2017, Inpress, e42701.	1.0	3
59	Psycho-Socio-Cultural Determinants of Food Choice: A Qualitative Study on Adults in Social and Cultural Context of Iran. Iranian Journal of Psychiatry, 2017, 12, 241-250.	0.7	16
60	Evaluating the Effect of Knowledge, Attitude, and Practice on Self-Management in Type 2 Diabetic Patients on Dialysis. Journal of Diabetes Research, 2016, 2016, 1-7.	2.3	43
61	Evaluating the effect of knowledge, attitude and practice on self-management in patients with type 2 diabetes. Acta Diabetologica, 2016, 53, 1015-1023.	2.5	22
62	Is overweight associated with health-related quality of life (HRQoL) among Tehranian school children?. SpringerPlus, 2016, 5, 313.	1.2	6
63	Are physical activity, sedentary behaviors and sleep duration associated with body mass index-for-age and health-related quality of life among high school boys and girls?. Health and Quality of Life Outcomes, 2016, 14, 30.	2.4	43
64	Diabetes knowledge, attitude and practice (KAP) study among Iranian in-patients with type-2 diabetes: A cross-sectional study. Diabetes and Metabolic Syndrome: Clinical Research and Reviews, 2016, 10, S114-S119.	3.6	45
65	A Randomized Controlled Trial of Acceptance and Commitment Therapy for Type 2 Diabetes Management: The Moderating Role of Coping Styles. PLoS ONE, 2016, 11, e0166599.	2.5	50
66	Familial Aggregation of Metabolic Syndrome With Different Socio-Behavioral Characteristics: The Fourth Phase of Tehran Lipid and Glucose Study. Iranian Red Crescent Medical Journal, 2016, 18, e30104.	0.5	3
67	Association between Metabolic Syndrome and Health-related Quality of Life among Individuals with Normal and Impaired Glucose Regulation: Findings from Tehran Lipid and Glucose Study. Archives of Iranian Medicine, 2016, 19, 577-83.	0.6	5
68	Concordance between self-reported body mass index with weight perception, self-rated health and appearance satisfaction in people living in Tehran. Journal of Diabetes and Metabolic Disorders, 2015, 15, 22.	1.9	6
69	Which insulin resistance-based definition of metabolic syndrome has superior diagnostic value in detection of poor health-related quality of life? Cross-sectional findings from Tehran Lipid and Glucose Study. Health and Quality of Life Outcomes, 2015, 13, 194.	2.4	4
70	Factors Affecting Gender Differences in the Association between Health-Related Quality of Life and Metabolic Syndrome Components: Tehran Lipid and Glucose Study. PLoS ONE, 2015, 10, e0143167.	2.5	19
71	Integration of Spirituality in Medical Education in Iran: A Qualitative Exploration of Requirements. Evidence-based Complementary and Alternative Medicine, 2015, 2015, 1-7.	1.2	19
72	What are the main barriers to healthy eating among families? A qualitative exploration of perceptions and experiences of Tehranian men. Appetite, 2015, 89, 291-297.	3.7	24

#	ARTICLE	IF	CITATIONS
73	Self-care activities and glycated haemoglobin in Iranian patients with type 2 diabetes: Can coping styles and social support have a buffering role?. <i>Psychology and Health</i> , 2015, 30, 153-164.	2.2	21
74	Disordered Eating and its Association with Overweight and Health-Related Quality of Life Among Adolescents in Selected High Schools of Tehran. <i>Child Psychiatry and Human Development</i> , 2015, 46, 485-492.	1.9	28
75	Inventory of Determinants of Obesity-Related Behaviors in Adolescents: Development and Psychometric Characteristics. <i>International Journal of Endocrinology and Metabolism</i> , 2015, 13, e24618.	1.0	1
76	Is persistence of metabolic syndrome associated with poor health-related quality of life in non-diabetic Iranian adults? Tehran Lipid and Glucose Study. <i>Journal of Diabetes Investigation</i> , 2014, 5, 687-693.	2.4	7
77	Reliability and validity of the Iranian version of the QAPACE in adolescents. <i>Quality of Life Research</i> , 2014, 23, 1797-1802.	3.1	5
78	Sleep Habits and Dietary Intake Among Preschool Children in Qazvin. <i>Journal of Comprehensive Pediatrics</i> , 2014, 5, .	0.3	3
79	Main Facilitators of Smoking Among Young Males in Tehran: Tehran Lipid and Glucose Study. <i>Iranian Red Crescent Medical Journal</i> , 2014, 16, e15429.	0.5	2
80	Metabolic syndrome and health-related quality of life in reproductive age and post-menopausal women: Tehran Lipid and Glucose Study. <i>Archives of Iranian Medicine</i> , 2014, 17, 423-8.	0.6	7
81	Iodine Nutrition Status and Knowledge, Attitude, and Behavior in Tehranian Women Following 2 Decades Without Public Education. <i>Journal of Nutrition Education and Behavior</i> , 2013, 45, 412-419.	0.7	16
82	Barriers to healthy nutrition: perceptions and experiences of Iranian women. <i>BMC Public Health</i> , 2012, 12, 1064.	2.9	31
83	Validity and reliability of the Iranian version of the Pediatric Quality of Life Inventory [®] , 4.0 (PedsQL [®] , 4.0) Generic Core Scales in children. <i>Health and Quality of Life Outcomes</i> , 2012, 10, 3.	2.4	32
84	A qualitative difference. Patients'™ views of hospital food service in Iran. <i>Appetite</i> , 2011, 57, 530-533.	3.7	24
85	Barriers to a healthy lifestyle among obese adolescents: a qualitative study from Iran. <i>International Journal of Public Health</i> , 2011, 56, 181-189.	2.3	49
86	The Trends of Metabolic Syndrome in Normal-Weight Tehranian Adults. <i>Annals of Nutrition and Metabolism</i> , 2011, 58, 126-132.	1.9	11
87	Reliability and validity of the Iranian version of the Pediatric Quality of Life Inventory [®] , 4.0 Generic Core Scales in adolescents. <i>Quality of Life Research</i> , 2010, 19, 1501-1508.	3.1	50
88	Metabolic Syndrome Predicts Poor Health-Related Quality of Life in Women but Not in Men: Tehran Lipid and Glucose Study. <i>Journal of Women's Health</i> , 2010, 19, 1201-1207.	3.3	32
89	Independent and inverse association of hip circumference with metabolic risk factors in Tehranian adult men. <i>Preventive Medicine</i> , 2006, 42, 354-357.	3.4	15
