| #  | Article                                                                                                                                                                                                                          | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Theory of mind and rule-based reasoning. Cognitive Development, 1995, 10, 483-527.                                                                                                                                               | 1.3 | 825       |
| 2  | Alcohol-related motivational tendencies in hazardous drinkers: assessing implicit response tendencies using the modified-IAT. Behaviour Research and Therapy, 2003, 41, 1149-1162.                                               | 3.1 | 241       |
| 3  | Technology-delivered adaptations of motivational interviewing for health-related behaviors: A systematic review of the current research. Patient Education and Counseling, 2016, 99, 17-35.                                      | 2.2 | 152       |
| 4  | Screening and Brief Intervention for Unhealthy Drug Use in Primary Care Settings: Randomized Clinical Trials Are Needed. Journal of Addiction Medicine, 2010, 4, 123-130.                                                        | 2.6 | 90        |
| 5  | Web-based screening and brief intervention for student marijuana use in a university health center: Pilot study to examine the implementation of eCHECKUP TO GO in different contexts. Addictive Behaviors, 2014, 39, 1346-1352. | 3.0 | 57        |
| 6  | The Effects of Alcohol and Sexual Arousal on Determinants of Sexual Risk in Men Who Have Sex with Men. Archives of Sexual Behavior, 2012, 41, 971-986.                                                                           | 1.9 | 56        |
| 7  | Positive alcohol expectancies and drinking behavior: The influence of expectancy strength and memory accessibility Psychology of Addictive Behaviors, 2001, 15, 60-67.                                                           | 2.1 | 55        |
| 8  | Using personalized feedback to reduce alcohol use among hazardous drinking college students: The moderating effect of alcohol-related negative consequences. Addictive Behaviors, 2011, 36, 539-542.                             | 3.0 | 42        |
| 9  | College student drinking and meaning in the pursuit of life goals Psychology of Addictive Behaviors, 2006, 20, 131-134.                                                                                                          | 2.1 | 41        |
| 10 | Do Brief Alcohol Motivational Interventions Work Like We Think They Do?. Alcoholism: Clinical and Experimental Research, 2014, 38, 853-859.                                                                                      | 2.4 | 41        |
| 11 | Effects of nicotine deprivation on alcohol-related information processing and drinking behavior<br>Journal of Abnormal Psychology, 2000, 109, 96-105.                                                                            | 1.9 | 40        |
| 12 | Personalized Feedback as a Universal Prevention Approach for College Drinking: A Randomized Trial of an e-Mail Linked Universal Web-Based Alcohol Intervention. Journal of Primary Prevention, 2014, 35, 75-84.                  | 1.6 | 38        |
| 13 | Action–state orientation and the self-regulation of eating behavior. Eating Behaviors, 2002, 3, 249-259.                                                                                                                         | 2.0 | 37        |
| 14 | Volition and alcohol-risk reduction. Addictive Behaviors, 2002, 27, 309-317.                                                                                                                                                     | 3.0 | 27        |
| 15 | Understanding university student drinking in the context of life goal pursuits: The mediational role of enhancement motives. Personality and Individual Differences, 2011, 50, 169-174.                                          | 2.9 | 23        |
| 16 | Positive Outcome Expectancies and Smoking Behavior: The Role of Expectancy Accessibility. Cognitive Therapy and Research, 2002, 26, 317-333.                                                                                     | 1.9 | 22        |
| 17 | Life goals and alcohol use among first-year college students: The role of motives to limit drinking.<br>Addictive Behaviors, 2011, 36, 1083-1086.                                                                                | 3.0 | 18        |
| 18 | Efficacy of a brief web-based intervention with and without SMS to enhance healthy eating behaviors among university students. Eating Behaviors, 2016, 23, 104-109.                                                              | 2.0 | 18        |

| #  | Article                                                                                                                                                                                                 | IF  | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Readiness-to-change as a moderator of a web-based brief intervention for marijuana among students identified by health center screening. Drug and Alcohol Dependence, 2016, 161, 368-371.               | 3.2 | 17        |
| 20 | The effects of alcohol outcome expectancy on a carbon-dioxide challenge in patients with panic disorder. Behavior Therapy, 2002, 33, 447-463.                                                           | 2.4 | 16        |
| 21 | Automatic processes in self-regulation: Implications for alcohol interventions. Cognitive and Behavioral Practice, 2004, 11, 190-201.                                                                   | 1.5 | 16        |
| 22 | Activating Action Tendencies: The Influence of Action Priming on Alcohol Consumption Among Male Hazardous Drinkers. Journal of Studies on Alcohol and Drugs, 2006, 67, 926-933.                         | 2.3 | 16        |
| 23 | Influence of naltrexone on cue-elicited craving among hazardous drinkers: The moderational role of positive outcome expectancies Experimental and Clinical Psychopharmacology, 1999, 7, 266-273.        | 1.8 | 14        |
| 24 | Castration, androgens, and dominance status in the rat. Learning and Behavior, 1967, 7, 1-2.                                                                                                            | 0.6 | 13        |
| 25 | Physical Health and Drinking Among Medical Inpatients With Unhealthy Alcohol Use: A Prospective Study <sup>1</sup> . Alcoholism: Clinical and Experimental Research, 2010, 34, 1257-1265.               | 2.4 | 13        |
| 26 | Interpersonal violence exposure and alcohol treatment utilization among medical inpatients with alcohol dependence. Journal of Substance Abuse Treatment, 2008, 34, 464-470.                            | 2.8 | 12        |
| 27 | The influence of depressive symptoms on alcohol use among HIV-infected Russian drinkers. Drug and Alcohol Dependence, 2014, 134, 85-91.                                                                 | 3.2 | 12        |
| 28 | Verbal labeling as an assimilation mnemonic for abstract visual stimuli: The sample case of recognition memory for Chinese characters. Memory and Cognition, 2006, 34, 795-803.                         | 1.6 | 11        |
| 29 | Predictors of exercise behavior among university student women: Utility of a goal-systems/self-regulation theory framework. Personality and Individual Differences, 2008, 44, 921-931.                  | 2.9 | 9         |
| 30 | How Alcohol Influences Mechanisms of Sexual Risk Behavior Change: Contributions of Alcohol Challenge Research to the Development of HIV Prevention Interventions. AIDS and Behavior, 2021, 25, 314-332. | 2.7 | 8         |
| 31 | College student alcohol use in context: The utility of goal constructs Psychology of Addictive Behaviors, 2006, 20, 143-144.                                                                            | 2.1 | 6         |
| 32 | Drinking motives mediate the associations between urgency and hazardous/harmful alcohol use among moderate-to-heavy drinking men who have sex with men (MSM). Addictive Behaviors, 2020, 110, 106520.   | 3.0 | 6         |
| 33 | Screening and brief intervention for lower-risk drug use in primary care: A pilot randomized trial.<br>Drug and Alcohol Dependence, 2020, 213, 108001.                                                  | 3.2 | 5         |
| 34 | Age-Related Dissociations in Time-Accuracy Functions for Recognition Memory: Utilizing Semantic Support versus Building New Representations. Aging, Neuropsychology, and Cognition, 2000, 7, 260-272.   | 1.3 | 3         |
| 35 | Screening and Brief Intervention for Drug Use in Primary Care. Journal of Addiction Medicine, 2010, 4, 131-136.                                                                                         | 2.6 | 3         |
| 36 | Action identification of drinking and self-control Psychology of Addictive Behaviors, 2010, 24, 145-150.                                                                                                | 2.1 | 3         |

| #  | Article                                                                                                                                                                                                                                                                       | IF  | CITATION |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----------|
| 37 | The image-based alcohol-action implicit association test. Journal of Behavior Therapy and Experimental Psychiatry, 2016, 50, 135-138.                                                                                                                                         | 1.2 | 3        |
| 38 | The effect of self-control on drinking outcomes is mediated by automatic appetitive responses to alcohol. Personality and Individual Differences, 2018, 125, 116-119.                                                                                                         | 2.9 | 3        |
| 39 | An integrated videoconferencing intervention for chronic pain and heavy drinking among patients in HIV-care: a proof-of-concept study. AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV, 2020, 32, 1133-1140.                                                  | 1.2 | 3        |
| 40 | Integrating patient perspectives in the development of a mobile health intervention to address chronic pain and heavy drinking in primary care: a qualitative study of patients in an urban, safety-net hospital setting. Addiction Science & Dinical Practice, 2021, 16, 20. | 2.6 | 3        |
| 41 | Effects of temptations on the affective salience of weight control goals. Behaviour Research and Therapy, 2007, 45, 449-458.                                                                                                                                                  | 3.1 | 2        |
| 42 | Moderated Mediation of Perceived Intoxication and Sexual Arousal on Determinants of Sexual Risk Behavior in Men Who Have Sex with Men. AIDS and Behavior, 2019, 23, 1460-1470.                                                                                                | 2.7 | 2        |
| 43 | Age Inequalities in Recognition Memory: Effects of Stimulus Presentation Time and List Repetitions. Aging, Neuropsychology, and Cognition, 2003, 10, 134-140.                                                                                                                 | 1.3 | 1        |
| 44 | Sexual Risk and Social Desirability among Black and White Men Who Have Sex with Men. Journal of Black Sexuality and Relationships, 2020, 6, 29-47.                                                                                                                            | 0.2 | 1        |
