#	ARTICLE	IF	CITATIONS
1	Myeloid-Derived Suppressive Cells in Ageing and Age-Related Diseases. <i>Healthy Ageing and Longevity</i> , 2022, , 53-64.	0.2	0
2	Muscle Mass and Inflammation in Older Adults: Impact of the Metabolic Syndrome. <i>Gerontology</i> , 2022, 68, 989-998.	2.8	14
3	Integrin activation enables rapid detection of functional VÎ1+ and VÎ2+ Î³Î T cells. <i>European Journal of Immunology</i> , 2022, ,	2.9	0
4	Latent CMV makes older adults less naÃve. <i>EBioMedicine</i> , 2022, 77, 103887.	6.1	0
5	Immunosenescence and Altered Vaccine Efficiency in Older Subjects: A Myth Difficult to Change. <i>Vaccines</i> , 2022, 10, 607.	4.4	23
6	Single-cell immune atlas for human aging and frailty. , 2022, 1, 67-70.		15
7	Aging in COVID-19: Vulnerability, immunity and intervention. <i>Ageing Research Reviews</i> , 2021, 65, 101205.	10.9	601
8	Associations of Cytomegalovirus Infection With All-Cause and Cardiovascular Mortality in Multiple Observational Cohort Studies of Older Adults. <i>Journal of Infectious Diseases</i> , 2021, 223, 238-246.	4.0	30
9	Vaccination in old age: Challenges and promises. , 2021, , 129-153.		1
10	The aging immune system: Dysregulation, compensatory mechanisms, and prospects for intervention. , 2021, , 345-366.		1
11	Genetic Influence on the Peripheral Differentiation Signature of VÎ2+ Î³Î and CD4+ Î±Î T Cells in Adults. <i>Cells</i> , 2021, 10, 373.	4.1	2
12	Unanticipated efficacy of SARS-CoV-2 vaccination in older adults. <i>Immunity and Ageing</i> , 2021, 18, 7.	4.2	20
13	Human endogenous retroviruses and ageing. <i>Immunity and Ageing</i> , 2021, 18, 14.	4.2	3
14	Improving seasonal influenza vaccination for older adults. <i>Immunity and Ageing</i> , 2021, 18, 13.	4.2	0
15	Cellular Immune Phenotypes and Worsening Scores of Frailty-Associated Parameters Over an 18-Month Period in the Very Old. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2021, 76, 1356-1361.	3.6	3
16	MDSCs, ageing and inflammageing. <i>Cellular Immunology</i> , 2021, 362, 104297.	3.0	30
17	Key Determinants of Cell-Mediated Immune Responses: A Randomized Trial of High Dose Vs. Standard Dose Split-Virus Influenza Vaccine in Older Adults. <i>Frontiers in Aging</i> , 2021, 2, .	2.6	3
18	The Journal of Ageing and Longevity: Taking a Holistic View of the Human Healthspan. <i>Journal of Ageing and Longevity</i> , 2021, 1, 1-2.	0.6	0

#	ARTICLE	IF	CITATIONS
19	Is mechanical loading essential for exercise to preserve the aging immune system?. Immunity and Ageing, 2021, 18, 26.	4.2	3
20	Does immunosenescence drive organismal ageing via inflammageing?. Immunity and Ageing, 2021, 18, 31.	4.2	3
21	Impact of Cytomegalovirus Infection and Genetic Background on the Frequencies of Peripheral Blood Suppressor Cells in Human Twins. Pathogens, 2021, 10, 963.	2.8	1
22	Catch-as-catch-can: mRNA vaccination boosts immune responses to SARS-CoV-2 variants. Signal Transduction and Targeted Therapy, 2021, 6, 259.	17.1	1
23	Human CD4+ T-Cell Clone Expansion Leads to the Expression of the Cysteine Peptidase Inhibitor Cystatin F. International Journal of Molecular Sciences, 2021, 22, 8408.	4.1	3
24	Immunomonitoring of Human Breast Milk Cells During HCMV-Reactivation. Frontiers in Immunology, 2021, 12, 723010.	4.8	7
25	Functional Changes of T-Cell Subsets with Age and CMV Infection. International Journal of Molecular Sciences, 2021, 22, 9973.	4.1	20
26	Novel immunomodulatory properties of low dose cytarabine entrapped in a mannosylated cationic liposome. International Journal of Pharmaceutics, 2021, 606, 120849.	5.2	8
27	Validation of the effectiveness of SARS-CoV-2 vaccines in older adults in "real-world" settings. Immunity and Ageing, 2021, 18, 36.	4.2	6
28	Antibody and Cell-Mediated Immune Responses Are Correlates of Protection against Influenza Infection in Vaccinated Older Adults. Vaccines, 2021, 9, 25.	4.4	8
29	Editorial: Frontiers™ Research Topic "Cancer Vaccines: Time to Think Differently!". Frontiers in Immunology, 2021, 12, 771319.	4.8	0
30	Multiple thymi and no thymic involution in naked mole rats?. Immunity and Ageing, 2021, 18, 41.	4.2	0
31	Granzyme B: A Double-Edged Sword in the Response to Influenza Infection in Vaccinated Older Adults. Frontiers in Aging, 2021, 2, .	2.6	3
32	Berlin Aging Study II (BASE-II). , 2021, , 649-656.		0
33	Human Immune System in Aging. , 2021, , 2484-2495.		0
34	Immunological Theory of Aging. , 2021, , 2556-2566.		0
35	4th Summer School in Immuno-Oncology, July 1st-3rd, 2021, Athens, Greece. Frontiers in Bioscience, 2021, 26, 1373.	2.1	0
36	Early disappearance of tumor antigen-reactive T cells from peripheral blood correlates with superior clinical outcomes in melanoma under anti-PD-1 therapy. , 2021, 9, e003439.		10

#	ARTICLE	IF	CITATIONS
37	The conundrum of human immune system "senescence" Mechanisms of Ageing and Development, 2020, 192, 111357.	4.6	64
38	Lack of consensus on an aging biology paradigm? A global survey reveals an agreement to disagree, and the need for an interdisciplinary framework. Mechanisms of Ageing and Development, 2020, 191, 111316.	4.6	67
39	The human immunosenescence phenotype: does it exist?. Seminars in Immunopathology, 2020, 42, 537-544.	6.1	22
40	Invited Editorial: Despite COVID-19, Influenza Must Not Be Relegated to "Only the Sniffles". Vaccines, 2020, 8, 445.	4.4	0
41	Identification of Tumor Antigen-Specific T Cells in the Peripheral Blood of Colorectal Cancer Patients. Journal of the American College of Surgeons, 2020, 231, S57.	0.5	0
42	T cell phenotypes associated with insulin resistance: results from the Berlin Aging Study II. Immunity and Ageing, 2020, 17, 40.	4.2	11
43	The inherent challenges of classifying senescence "Response. Science, 2020, 368, 595-596.	12.6	5
44	The immune response to influenza in older humans: beyond immune senescence. Immunity and Ageing, 2020, 17, 10.	4.2	97
45	Advanced Age Increases Immunosuppression in the Brain and Decreases Immunotherapeutic Efficacy in Subjects with Glioblastoma. Clinical Cancer Research, 2020, 26, 5232-5245.	7.0	52
46	Immune Signatures and Survival of Patients With Metastatic Melanoma, Renal Cancer, and Breast Cancer. Frontiers in Immunology, 2020, 11, 1152.	4.8	6
47	Relationships Between Immune Landscapes, Genetic Subtypes and Responses to Immunotherapy in Colorectal Cancer. Frontiers in Immunology, 2020, 11, 369.	4.8	291
48	Aging as an inflammatory disease and possible reversal strategies. Journal of Allergy and Clinical Immunology, 2020, 145, 1355-1356.	2.9	11
49	Immune compromise in the elderly. , 2020, , 1001-1006.		0
50	Intake of dietary advanced glycation end products influences inflammatory markers, immune phenotypes, and antiradical capacity of healthy elderly in a little-studied population. Food Science and Nutrition, 2020, 8, 1046-1057.	3.4	20
51	Pitfalls in the characterization of circulating and tissue-resident human $\hat{I}^3\hat{T}$ T cells. Journal of Leukocyte Biology, 2020, 107, 1097-1105.	3.3	12
52	Influenza Vaccination: Accelerating the Process for New Vaccine Development in Older Adults. Interdisciplinary Topics in Gerontology and Geriatrics, 2020, 43, 98-112.	2.6	6
53	Can an effective SARS-CoV-2 vaccine be developed for the older population?. Immunity and Ageing, 2020, 17, 8.	4.2	43
54	758...Identification of tumor antigen-specific T cells in the peripheral blood of colorectal cancer patients. , 2020, 8, A806-A806.		1

#	ARTICLE	IF	CITATIONS
55	Recent advances in influenza vaccines. F1000Research, 2020, 9, 305.	1.6	13
56	Immunosenescence, Oxidative Stress, and Cancers. , 2020, , 513-531.		0
57	Possible causes of disparities in the risk and outcomes of COVID-19: Cytomegalovirus and aged immune phenotype. Journal of Clinical and Translational Research, 2020, 6, 92-93.	0.3	2
58	838â€¦Phenotypic and functional signatures of peripheral and tumor-resident T cells are informative for outcome of checkpoint blockade in melanoma. , 2020, , .		0
59	Does patient age influence anti-cancer immunity?. Seminars in Immunopathology, 2019, 41, 125-131.	6.1	60
60	Peripheral PD-1+CD56+ T-cell frequencies correlate with outcome in stage IV melanoma under PD-1 blockade. PLoS ONE, 2019, 14, e0221301.	2.5	16
61	Editorial: Immunology of Aging. Frontiers in Immunology, 2019, 10, 1614.	4.8	9
62	To help aging populations, classify organismal senescence. Science, 2019, 366, 576-578.	12.6	42
63	Is There a Positive Side to T Cell Exhaustion?. Frontiers in Immunology, 2019, 10, 111.	4.8	32
64	Expansion and Determination of Antigen-Reactive T Cells by Flow Cytometry. Methods in Molecular Biology, 2019, 1913, 141-151.	0.9	2
65	Frequency of Immune Cell Subtypes in Peripheral Blood Correlates With Outcome for Patients With Metastatic Breast Cancer Treated With High-Dose Chemotherapy. Clinical Breast Cancer, 2019, 19, 433-442.	2.4	5
66	Myeloid-Derived Suppressor Cells: Not Only in Tumor Immunity. Frontiers in Immunology, 2019, 10, 1099.	4.8	96
