#	ARTICLE	IF	CITATIONS
1	The facilitation of user-involvement for people with dementia as experienced by health care professionals: A qualitative study using focus groups. <i>Aging and Mental Health</i> , 2022, 26, 2511-2517.	2.8	1
2	Targeted Interdisciplinary Model for Evaluation and Treatment of Neuropsychiatric Symptoms (TIME) in home care services: a cluster randomized feasibility trial. <i>BMC Health Services Research</i> , 2022, 22, 415.	2.2	1
3	Fun and a meaningful routine: the experience of physical activity in people with dementia. <i>BMC Geriatrics</i> , 2022, 22, .	2.7	5
4	Nursing Staff's Knowledge and Attitudes towards Dementia in an Indian Nursing Home: A Qualitative Interview Study. <i>Dementia and Geriatric Cognitive Disorders Extra</i> , 2021, 11, 29-37.	1.3	2
5	Staff's perspectives on the organization of homecare services to people with dementia – A qualitative study. <i>Nursing Open</i> , 2021, 8, 1797-1804.	2.4	11
6	Self-reported quality of life in people with dementia attending a day care programme in Norway: A 24-month quasi-experimental study. <i>Health and Social Care in the Community</i> , 2021, . .	1.6	0
7	Person-centered dementia care in home care services – highly recommended but still challenging to obtain: a qualitative interview study. <i>BMC Health Services Research</i> , 2021, 21, 723.	2.2	11
8	Limited Benefit of Marine Protein Hydrolysate on Physical Function and Strength in Older Adults: A Randomized Controlled Trial. <i>Marine Drugs</i> , 2021, 19, 62.	4.6	3
9	The COVID-19 pandemic as experienced by the spouses of home-dwelling people with dementia – a qualitative study. <i>BMC Geriatrics</i> , 2021, 21, 583.	2.7	9
10	Applicability of the locus of control of behaviour scale for people with dementia. <i>Aging and Mental Health</i> , 2020, 24, 2111-2116.	2.8	1
11	I need to be who I am: a qualitative interview study exploring the needs of people with dementia in Norway. <i>BMJ Open</i> , 2020, 10, e035886.	1.9	6
12	What are the needs of people with dementia in acute hospital settings, and what interventions are made to meet these needs? A systematic integrative review of the literature. <i>BMC Health Services Research</i> , 2020, 20, 723.	2.2	40
13	Protein Intake, Protein Mealtime Distribution and Seafood Consumption in Elderly Norwegians: Associations with Physical Function and Strength. <i>Geriatrics (Switzerland)</i> , 2020, 5, 100.	1.7	14
14	The Experience of Lived Time in People with Dementia: A Systematic Meta-Synthesis. <i>Dementia and Geriatric Cognitive Disorders</i> , 2020, 49, 435-455.	1.5	2
15	The Experience of Lived Time in People with Dementia: A Systematic Meta-Synthesis. <i>Dementia and Geriatric Cognitive Disorders</i> , 2020, 49, 435-455.	1.5	16
16	Facilitation of activities for people with dementia in day care: a qualitative study exploring the experiences of staff. <i>Journal of Multidisciplinary Healthcare</i> , 2019, Volume 12, 503-513.	2.7	7
17	Cost analysis of day care centres in Norway. <i>PLoS ONE</i> , 2019, 14, e0219568.	2.5	4
18	TIME to reduce agitation in persons with dementia in nursing homes. A process evaluation of a complex intervention. <i>BMC Health Services Research</i> , 2019, 19, 349.	2.2	13

#	ARTICLE	IF	CITATIONS
19	Experiences of nursing home staff using the targeted interdisciplinary model for evaluation and treatment of neuropsychiatric symptoms (TIME) – a qualitative study. <i>Aging and Mental Health</i> , 2019, 23, 966-975.	2.8	19
20	Experiences of attending day care services designed for people with dementia – a qualitative study with individual interviews. <i>Aging and Mental Health</i> , 2018, 22, 764-772.	2.8	29
21	Targeted Interdisciplinary Model for Evaluation and Treatment of Neuropsychiatric Symptoms: A Cluster Randomized Controlled Trial. <i>American Journal of Geriatric Psychiatry</i> , 2018, 26, 25-38.	1.2	36
22	The impact of attending day care designed for home-dwelling people with dementia on nursing home admission: a 24-month controlled study. <i>BMC Health Services Research</i> , 2018, 18, 864.	2.2	14
23	Nutrition and physical performance in older people – effects of marine protein hydrolysates to prevent decline in physical performance: a randomised controlled trial protocol. <i>BMJ Open</i> , 2018, 8, e023845.	1.9	11
24	The influence of day care centres designed for people with dementia on family caregivers – a qualitative study. <i>BMC Geriatrics</i> , 2017, 17, 5.	2.7	54
25	The association between attending specialized day care centers and the quality of life of people with dementia. <i>International Psychogeriatrics</i> , 2017, 29, 627-636.	1.0	15
26	The impact of the Dementia ABC educational programme on competence in person-centred dementia care and job satisfaction of care staff. <i>International Journal of Older People Nursing</i> , 2017, 12, e12139.	1.3	14
27	Meaning in family caregiving for people with dementia: a narrative study about relationships, values, and motivation, and how day care influences these factors. <i>Journal of Multidisciplinary Healthcare</i> , 2017, Volume 10, 445-455.	2.7	17
28	Group activity with Paro in nursing homes: systematic investigation of behaviors in participants. <i>International Psychogeriatrics</i> , 2016, 28, 1345-1354.	1.0	55
29	Change in quality of life in older people with dementia participating in Paro-activity: a cluster-randomized controlled trial. <i>Journal of Advanced Nursing</i> , 2016, 72, 3020-3033.	3.3	115
30	TIME – Targeted interdisciplinary model for evaluation and treatment of neuropsychiatric symptoms: protocol for an effectiveness-implementation cluster randomized hybrid trial. <i>BMC Psychiatry</i> , 2016, 16, 233.	2.6	11
31	The influence of day care centres for people with dementia on family caregivers: an integrative review of the literature. <i>Aging and Mental Health</i> , 2016, 20, 450-462.	2.8	64
32	Effects on Symptoms of Agitation and Depression in Persons With Dementia Participating in Robot-Assisted Activity: A Cluster-Randomized Controlled Trial. <i>Journal of the American Medical Directors Association</i> , 2015, 16, 867-873.	2.5	190
33	The role of leadership in the implementation of person-centred care using Dementia Care Mapping: a study in three nursing homes. <i>Journal of Nursing Management</i> , 2015, 23, 15-26.	3.4	85
34	Variables Associated with Change in Quality of Life among Persons with Dementia in Nursing Homes: A 10 Months Follow-Up Study. <i>PLoS ONE</i> , 2014, 9, e115248.	2.5	34
35	The Effect of Person-Centred Dementia Care to Prevent Agitation and Other Neuropsychiatric Symptoms and Enhance Quality of Life in Nursing Home Patients: A 10-Month Randomized Controlled Trial. <i>Dementia and Geriatric Cognitive Disorders</i> , 2013, 36, 340-353.	1.5	96
36	Psychometric evaluation of the Norwegian version of the Person-centred Care Assessment Tool. <i>International Journal of Nursing Practice</i> , 2012, 18, 99-105.	1.7	32

#	ARTICLE	IF	CITATIONS
37	The Experience of Relatives of Nursing Home Residents with COVID-19: A Qualitative Study. Nursing (Auckland, N Z ), 0, Volume 12, 17-27.	2.0	4
