#	ARTICLE	IF	CITATIONS
1	Polygenic risk, familial liability and stress reactivity in psychosis: an experience sampling study. <i>Psychological Medicine</i> , 2023, 53, 2798-2807.	4.5	5
2	Ecological and Convergent Validity of Experimentally and Dynamically Assessed Capacity for Social Contingency Detection Using the Perceptual Crossing Experiment in Adolescence. <i>Assessment</i> , 2023, 30, 1109-1124.	3.1	1
3	Impact of restrictive COVID-19 measures on daily momentary affect in an epidemiological youth sample in Hong Kong: An experience sampling study. <i>Current Psychology</i> , 2023, 42, 20804-20813.	2.8	4
4	The Effects of Sampling Frequency and Questionnaire Length on Perceived Burden, Compliance, and Careless Responding in Experience Sampling Data in a Student Population. <i>Assessment</i> , 2022, 29, 136-151.	3.1	145
5	Intervention mechanisms of an experience sampling intervention for spousal carers of people with dementia: a secondary analysis using momentary data. <i>Aging and Mental Health</i> , 2022, 26, 294-304.	2.8	5
6	Modelling the temporal interplay between stress and affective disturbances in pathways to psychosis: an experience sampling study. <i>Psychological Medicine</i> , 2022, 52, 2776-2785.	4.5	12
7	Stay Home, Drink at Home? A Daily Diary Study on College Students' Alcohol and Social Media Use during the COVID-19 Pandemic. <i>Substance Use and Misuse</i> , 2022, 57, 86-95.	1.4	10
8	Adolescents' real-time social and affective experiences of online and face-to-face interactions. <i>Computers in Human Behavior</i> , 2022, 129, 107159.	8.5	16
9	Identifying Clusters of Adolescents Based on Their Daily-Life Social Withdrawal Experience. <i>Journal of Youth and Adolescence</i> , 2022, 51, 915-926.	3.5	4
10	Applying multiverse analysis to experience sampling data: Investigating whether preprocessing choices affect robustness of conclusions. <i>Behavior Research Methods</i> , 2022, 54, 2981-2992.	4.0	8
11	Remote Assessment of Disease and Relapse in Major Depressive Disorder (RADAR-MDD): recruitment, retention, and data availability in a longitudinal remote measurement study. <i>BMC Psychiatry</i> , 2022, 22, 136.	2.6	42
12	Efficacy of Acceptance and Commitment Therapy in Daily Life in Early Psychosis: Results from the Multi-Center INTERACT Randomized Controlled Trial. <i>Psychotherapy and Psychosomatics</i> , 2022, 91, 411-423.	8.8	12
13	Longitudinal Relationships Between Depressive Symptom Severity and Phone-Measured Mobility: Dynamic Structural Equation Modeling Study. <i>JMIR Mental Health</i> , 2022, 9, e34898.	3.3	26
14	Mapping genomic loci implicates genes and synaptic biology in schizophrenia. <i>Nature</i> , 2022, 604, 502-508.	27.8	929
15	Be(com)ing social: Daily-life social interactions and parental bonding.. <i>Developmental Psychology</i> , 2022, 58, 792-805.	1.6	5
16	Home alone: Social functioning as a transdiagnostic marker of mental health in youth, exploring retrospective and daily life measurements. <i>Comprehensive Psychiatry</i> , 2022, 115, 152309.	3.1	1
17	Emotion generation and emotion regulation: The role of emotion beliefs. <i>Journal of Affective Disorders Reports</i> , 2022, 9, 100351.	1.7	3
18	General psychopathology and its social correlates in the daily lives of youth. <i>Journal of Affective Disorders</i> , 2022, 309, 428-436.	4.1	4

#	ARTICLE	IF	CITATIONS
19	Predictors of engagement with remote sensing technologies for symptom measurement in Major Depressive Disorder. <i>Journal of Affective Disorders</i> , 2022, 310, 106-115.	4.1	7
20	Delusions beyond beliefs: a critical overview of diagnostic, aetiological, and therapeutic schizophrenia research from a clinical-phenomenological perspective. <i>Lancet Psychiatry</i> , 2021, 8, 237-249.	7.4	63
21	Psychosis as a dialectic of aha- and anti-aha-experiences: a qualitative study. <i>Psychosis</i> , 2021, 13, 47-57.	0.8	13
22	Making the Black Box Transparent: A Template and Tutorial for Registration of Studies Using Experience-Sampling Methods. <i>Advances in Methods and Practices in Psychological Science</i> , 2021, 4, 251524592092468.	9.4	42
23	Selection of the Number of Participants in Intensive Longitudinal Studies: A User-Friendly Shiny App and Tutorial for Performing Power Analysis in Multilevel Regression Models That Account for Temporal Dependencies. <i>Advances in Methods and Practices in Psychological Science</i> , 2021, 4, 251524592097873.	9.4	42
24	Stress reactivity as a putative mechanism linking childhood trauma with clinical outcomes in individuals at ultra-high-risk for psychosis: Findings from the EU-GEI High Risk Study. <i>Epidemiology and Psychiatric Sciences</i> , 2021, 30, e40.	3.9	17
25	Psycho-social factors associated with mental resilience in the Corona lockdown. <i>Translational Psychiatry</i> , 2021, 11, 67.	4.8	136
26	Investigating the stress-related fluctuations of level of personality functioning: A critical review and agenda for future research. <i>Clinical Psychology and Psychotherapy</i> , 2021, 28, 1181-1193.	2.7	4
27	Reported Affect Changes as a Function of Response Delay: Findings From a Pooled Dataset of Nine Experience Sampling Studies. <i>Frontiers in Psychology</i> , 2021, 12, 580684.	2.1	4
28	Relationship Between Major Depression Symptom Severity and Sleep Collected Using a Wristband Wearable Device: Multicenter Longitudinal Observational Study. <i>JMIR MHealth and UHealth</i> , 2021, 9, e24604.	3.7	35
29	Predicting Depressive Symptom Severity Through Individuals' Nearby Bluetooth Device Count Data Collected by Mobile Phones: Preliminary Longitudinal Study. <i>JMIR MHealth and UHealth</i> , 2021, 9, e29840.	3.7	26
30	Phenomenology, delusions, and belief – Authors' reply. <i>Lancet Psychiatry</i> , 2021, 8, 273-274.	7.4	0
31	The repeated Montreal Imaging Stress Test (rMIST): Testing habituation, sensitization, and anticipation effects to repeated stress induction. <i>Psychoneuroendocrinology</i> , 2021, 128, 105217.	2.7	4
32	Gene Deletion and Sleep Depletion: Exploring the Relationship Between Sleep and Affect in 22q11.2 Deletion Syndrome. <i>Journal of Genetic Psychology</i> , 2021, 182, 304-316.	1.2	8
33	Affective structure, measurement invariance, and reliability across different experience sampling protocols. <i>Journal of Research in Personality</i> , 2021, 92, 104094.	1.7	11
34	Individualized prediction of three- and six-year outcomes of psychosis in a longitudinal multicenter study: a machine learning approach. <i>NPJ Schizophrenia</i> , 2021, 7, 34.	3.6	14
35	The Impact of COVID-19 on Adolescents' Daily Lives: The Role of Parent-Child Relationship Quality. <i>Journal of Research on Adolescence</i> , 2021, 31, 623-644.	3.7	39
36	Daily-Life Social Experiences as a Potential Mediator of the Relationship Between Parenting and Psychopathology in Adolescence. <i>Frontiers in Psychiatry</i> , 2021, 12, 697127.	2.6	6

#	ARTICLE	IF	CITATIONS
37	Investigating the impact of COVID-19 lockdown on adults with a recent history of recurrent major depressive disorder: a multi-Centre study using remote measurement technology. <i>BMC Psychiatry</i> , 2021, 21, 435.	2.6	16
38	Emotion regulation in response to daily negative and positive events in youth: The role of event intensity and psychopathology. <i>Behaviour Research and Therapy</i> , 2021, 144, 103916.	3.1	10
39	Uncovering the realities of delusional experience in schizophrenia: a qualitative phenomenological study in Belgium. <i>Lancet Psychiatry</i> , 2021, 8, 784-796.	7.4	28
40	Objectively measured physical activity and symptoms of psychopathology in general population adolescents from the SIGMA cohort. <i>Mental Health and Physical Activity</i> , 2021, 21, 100416.	1.8	4
41	Elucidating negative symptoms in the daily life of individuals in the early stages of psychosis. <i>Psychological Medicine</i> , 2021, 51, 2599-2609.	4.5	14
42	The association between self-reported stress and cardiovascular measures in daily life: A systematic review. <i>PLoS ONE</i> , 2021, 16, e0259557.	2.5	13
43	Momentary Manifestations of Negative Symptoms as Predictors of Clinical Outcomes in People at High Risk for Psychosis: Experience Sampling Study. <i>JMIR Mental Health</i> , 2021, 8, e30309.	3.3	4
44	Across the continuum: Associations between (fluctuations in) momentary self-esteem and psychotic experiences. <i>Schizophrenia Research</i> , 2021, 238, 188-198.	2.0	5
45	Lower [18F]fallypride binding to dopamine D2/3 receptors in frontal brain areas in adults with 22q11.2 deletion syndrome: a positron emission tomography study. <i>Psychological Medicine</i> , 2020, 50, 799-807.	4.5	2
46	Is theory of mind a prerequisite for social interactions? A study in psychotic disorder. <i>Psychological Medicine</i> , 2020, 50, 754-760.	4.5	10
47	The necessity for sustainable intervention effects: lessons-learned from an experience sampling intervention for spousal carers of people with dementia. <i>Aging and Mental Health</i> , 2020, 24, 2082-2093.	2.8	10
48	Real-life social interactions in schizophrenia. <i>Schizophrenia Research</i> , 2020, 216, 10-11.	2.0	3
49	S109. FEASIBILITY AND ACCEPTABILITY OF ACCEPTANCE AND COMMITMENT THERAPY IN DAILY LIFE (ACT-DL): PATIENTS' PERSPECTIVES. <i>Schizophrenia Bulletin</i> , 2020, 46, S75-S76.	4.3	0
50	Affective and psychotic reactivity to daily-life stress in adults with 22q11DS: a study using the experience sampling method. <i>Journal of Neurodevelopmental Disorders</i> , 2020, 12, 30.	3.1	14
51	Temporal dynamics of suspiciousness and hallucinations in clinical high risk and first episode psychosis. <i>Psychiatry Research</i> , 2020, 290, 113039.	3.3	15
52	Momentary predictors of compliance in studies using the experience sampling method. <i>Psychiatry Research</i> , 2020, 286, 112896.	3.3	25
53	Blended care in the treatment of subthreshold symptoms of depression and psychosis in emerging adults: A randomised controlled trial of Acceptance and Commitment Therapy in Daily-Life (ACT-DL). <i>Behaviour Research and Therapy</i> , 2020, 128, 103592.	3.1	32
54	Investigating real-time social interaction in pairs of adolescents with the Perceptual Crossing Experiment. <i>Behavior Research Methods</i> , 2020, 52, 1929-1938.	4.0	7

#	ARTICLE	IF	CITATIONS
55	Fluctuations in Affective States and Self-Efficacy to Resist Non-Suicidal Self-Injury as Real-Time Predictors of Non-Suicidal Self-Injurious Thoughts and Behaviors. <i>Frontiers in Psychiatry</i> , 2020, 11, 214.	2.6	43
56	The acceptability of real-time health monitoring among community participants with depression: A systematic review and meta-analysis of the literature. <i>Depression and Anxiety</i> , 2020, 37, 885-897.	4.1	13
57	Digital technology in psychiatry: towards the implementation of a true person-centered care in psychiatry?. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2020, 270, 401-402.	3.2	9
58	Temporal associations between sleep quality and paranoia across the paranoia continuum: An experience sampling study.. <i>Journal of Abnormal Psychology</i> , 2020, 129, 122-130.	1.9	29
59	Human-Centered Design Strategies for Device Selection in mHealth Programs: Development of a Novel Framework and Case Study. <i>JMIR MHealth and UHealth</i> , 2020, 8, e16043.	3.7	31
60	Using Smartphones and Wearable Devices to Monitor Behavioral Changes During COVID-19. <i>Journal of Medical Internet Research</i> , 2020, 22, e19992.	4.3	155
61	Remote Assessment of Disease and Relapse in Epilepsy: Protocol for a Multicenter Prospective Cohort Study. <i>JMIR Research Protocols</i> , 2020, 9, e21840.	1.0	5
62	Physical activity participation is associated with higher quality of life scores in men with alcohol use disorders: a study from Uganda. <i>African Health Sciences</i> , 2020, 20, 1407-1415.	0.7	0
63	Emotional outcomes in clinically isolated syndrome and early phase multiple sclerosis: a systematic review and meta-analysis. <i>Journal of Psychosomatic Research</i> , 2019, 124, 109761.	2.6	17
64	Social functioning and subclinical psychosis in adolescence: a longitudinal general adolescent population study. <i>Acta Psychiatrica Scandinavica</i> , 2019, 140, 275-282.	4.5	5
65	A quantitative assessment of the views of mental health professionals on exercise for people with mental illness: perspectives from a low-resource setting. <i>African Health Sciences</i> , 2019, 19, 2172.	0.7	9
66	Improving ecological validity in research on social cognition. , 2019, , 249-268.		8
67	Longitudinal evidence for a relation between depressive symptoms and quality of life in schizophrenia using structural equation modeling. <i>Schizophrenia Research</i> , 2019, 208, 82-89.	2.0	16
68	Predicting the incidence of non-suicidal self-injury in college students. <i>European Psychiatry</i> , 2019, 59, 44-51.	0.2	85
69	ACT in daily life in early psychosis: an ecological momentary intervention approach. <i>Psychosis</i> , 2019, 11, 93-104.	0.8	39
70	Lower cortisol levels and attenuated cortisol reactivity to daily-life stressors in adults with 22q11.2 deletion syndrome. <i>Psychoneuroendocrinology</i> , 2019, 106, 85-94.	2.7	18
71	Recovery from daily-life stressors in early and chronic psychosis. <i>Schizophrenia Research</i> , 2019, 213, 32-39.	2.0	33
72	Health care professionals's perspectives on physical activity within the Ugandan mental health care system. <i>Mental Health and Physical Activity</i> , 2019, 16, 1-7.	1.8	12

#	ARTICLE	IF	CITATIONS
73	Remote assessment of disease and relapse in major depressive disorder (RADAR-MDD): a multi-centre prospective cohort study protocol. <i>BMC Psychiatry</i> , 2019, 19, 72.	2.6	99
74	A Partial Correlation Screening Approach for Controlling the False Positive Rate in Sparse Gaussian Graphical Models. <i>Scientific Reports</i> , 2019, 9, 17759.	3.3	9
75	Efficacy of Acceptance and Commitment Therapy in Daily Life (ACT-DL) in early psychosis: study protocol for a multi-centre randomized controlled trial. <i>Trials</i> , 2019, 20, 769.	1.6	65
76	Liberal Acceptance Bias, Momentary Aberrant Salience, and Psychosis: An Experimental Experience Sampling Study. <i>Schizophrenia Bulletin</i> , 2019, 45, 871-882.	4.3	22
77	From laboratory to life: associating brain reward processing with real-life motivated behaviour and symptoms of depression in non-help-seeking young adults. <i>Psychological Medicine</i> , 2019, 49, 2441-2451.	4.5	49
78	Patterns of obsessive-compulsive symptoms and social functioning in schizophrenia; a replication study. <i>Psychiatry Research</i> , 2019, 271, 421-427.	3.3	1
79	Validity and correlates of the International Physical Activity Questionnaire in first-episode psychosis. <i>Microbial Biotechnology</i> , 2019, 13, 562-567.	1.7	11
80	“False-positive” self-reported psychotic experiences in the general population: an investigation of outcome, predictive factors and clinical relevance. <i>Epidemiology and Psychiatric Sciences</i> , 2019, 28, 532-543.	3.9	40
81	Response compliance and predictors thereof in studies using the experience sampling method.. <i>Psychological Assessment</i> , 2019, 31, 226-235.	1.5	92
82	Compliance and Retention With the Experience Sampling Method Over the Continuum of Severe Mental Disorders: Meta-Analysis and Recommendations. <i>Journal of Medical Internet Research</i> , 2019, 21, e14475.	4.3	110
83	The development of ecological momentary interventions. , 2019, , 124-141.		8
84	Sensitivity to Peer Evaluation and Its Genetic and Environmental Determinants: Findings from a Population-Based Twin Study. <i>Child Psychiatry and Human Development</i> , 2018, 49, 766-778.	1.9	8
85	Deep ECGNet: An Optimal Deep Learning Framework for Monitoring Mental Stress Using Ultra Short-Term ECG Signals. <i>Telemedicine Journal and E-Health</i> , 2018, 24, 753-772.	2.8	87
86	Intact striatal dopaminergic modulation of reward learning and daily-life reward-oriented behavior in first-degree relatives of individuals with psychotic disorder. <i>Psychological Medicine</i> , 2018, 48, 1909-1914.	4.5	14
87	Subjective quality of life in psychosis: Evidence for an association with real world functioning?. <i>Psychiatry Research</i> , 2018, 261, 116-123.	3.3	16
88	Striatal dopamine release and impaired reinforcement learning in adults with 22q11.2 deletion syndrome. <i>European Neuropsychopharmacology</i> , 2018, 28, 732-742.	0.7	9
89	The role of cognitive functioning in the relationship between childhood trauma and a mixed phenotype of affective-anxious-psychotic symptoms in psychotic disorders. <i>Schizophrenia Research</i> , 2018, 192, 262-268.	2.0	10
90	The Cascade of Stress: A Network Approach to Explore Differential Dynamics in Populations Varying in Risk for Psychosis. <i>Schizophrenia Bulletin</i> , 2018, 44, 328-337.	4.3	66

#	ARTICLE	IF	CITATIONS
91	Dealing with daily challenges in dementia (deal-id study): process evaluation of the experience sampling method intervention "Partner in Sight"™ for spousal caregivers of people with dementia. <i>Aging and Mental Health</i> , 2018, 22, 1205-1212.	2.8	7
92	Stress reactivity links childhood trauma exposure to an admixture of depressive, anxiety, and psychosis symptoms. <i>Psychiatry Research</i> , 2018, 260, 451-457.	3.3	36
93	F220. THREAT ANTICIPATION AND NEGATIVE AFFECT IN EARLY PSYCHOSIS. <i>Schizophrenia Bulletin</i> , 2018, 44, S307-S307.	4.3	0
94	Social anhedonia and asociality in psychosis revisited. An experience sampling study. <i>Psychiatry Research</i> , 2018, 270, 375-381.	3.3	31
95	Daily-life stress differentially impacts ventral striatal dopaminergic modulation of reward processing in first-degree relatives of individuals with psychosis. <i>European Neuropsychopharmacology</i> , 2018, 28, 1314-1324.	0.7	7
96	Emotional reactivity to daily life stress in spousal caregivers of people with dementia: An experience sampling study. <i>PLoS ONE</i> , 2018, 13, e0194118.	2.5	18
97	Sedentary behaviour and sleep problems among 42,489 community-dwelling adults in six low- and middle-income countries. <i>Journal of Sleep Research</i> , 2018, 27, e12714.	3.2	33
98	The associations between non-suicidal self-injury and first onset suicidal thoughts and behaviors. <i>Journal of Affective Disorders</i> , 2018, 239, 171-179.	4.1	235
99	Experience sampling methodology in mental health research: new insights and technical developments. <i>World Psychiatry</i> , 2018, 17, 123-132.	10.4	334
100	An Experience Sampling Method Intervention for Dementia Caregivers: Results of a Randomized Controlled Trial. <i>American Journal of Geriatric Psychiatry</i> , 2018, 26, 1231-1243.	1.2	20
101	Data quality and feasibility of the Experience Sampling Method across the spectrum of severe psychiatric disorders: a protocol for a systematic review and meta-analysis. <i>Systematic Reviews</i> , 2018, 7, 7.	5.3	10
102	Overall cortisol, diurnal slope, and stress reactivity in psychosis: An experience sampling approach. <i>Psychoneuroendocrinology</i> , 2018, 96, 61-68.	2.7	26
103	Clinical high risk for psychosis: the association between momentary stress, affective and psychotic symptoms. <i>Acta Psychiatrica Scandinavica</i> , 2017, 136, 63-73.	4.5	70
104	987. Stress Reactivity, Cortisol Levels and Experience Sampling in Adults with 22q11DS. <i>Biological Psychiatry</i> , 2017, 81, S399-S400.	1.3	1
105	Striatal dopaminergic modulation of reinforcement learning predicts reward-oriented behavior in daily life. <i>Biological Psychology</i> , 2017, 127, 1-9.	2.2	60
106	Familial liability to psychosis is a risk factor for multimorbidity in people with psychotic disorders and their unaffected siblings. <i>European Psychiatry</i> , 2017, 45, 81-89.	0.2	8
107	Does the Social Functioning Scale reflect real-life social functioning? An experience sampling study in patients with a non-affective psychotic disorder and healthy control individuals. <i>Psychological Medicine</i> , 2017, 47, 2777-2786.	4.5	53
108	Interest, competence, appearance, fitness and social relatedness as motives for physical activity in Ugandan outpatients with psychosis. <i>Mental Health and Physical Activity</i> , 2017, 13, 94-99.	1.8	6

#	ARTICLE	IF	CITATIONS
109	Modeling the Interplay Between Psychological Processes and Adverse, Stressful Contexts and Experiences in Pathways to Psychosis: An Experience Sampling Study. <i>Schizophrenia Bulletin</i> , 2017, 43, 302-315.	4.3	63
110	Lower cardiorespiratory fitness is associated with more time spent sedentary in first episode psychosis: A pilot study. <i>Psychiatry Research</i> , 2017, 253, 13-17.	3.3	10
111	Development and validation of the Questionnaire of Stressful Life Events (QSLE). <i>Journal of Psychiatric Research</i> , 2017, 95, 213-223.	3.1	9
112	An experience sampling study on the ecological validity of the SWN-20: Indication that subjective well-being is associated with momentary affective states above and beyond psychosis susceptibility. <i>Psychiatry Research</i> , 2017, 258, 234-238.	3.3	4
113	The role of stressâ€­regulation genes in moderating the association of stress and dailyâ€­life psychotic experiences. <i>Acta Psychiatrica Scandinavica</i> , 2017, 136, 389-399.	4.5	24
114	626. Reward Learning and Dopamine Release in Adults with 22q11DS: A Study Using [18F]fallypride Positron Emission Tomography. <i>Biological Psychiatry</i> , 2017, 81, S253-S254.	1.3	0
115	Reward Learning and Dopamine Release in Adults with 22q11DS. <i>European Psychiatry</i> , 2017, 41, S225-S226.	0.2	0
116	Is sensitivity to daily stress predictive of onset or persistence of psychopathology?. <i>European Psychiatry</i> , 2017, 45, 167-173.	0.2	31
117	Unraveling the Role of Loneliness in Depression: The Relationship Between Daily Life Experience and Behavior. <i>Psychiatry (New York)</i> , 2017, 80, 104-117.	0.7	76
118	Dealing with Daily Challenges in Dementia (Deal-id Study): An Experience Sampling Study to Assess Caregivers' Sense of Competence and Experienced Positive Affect in Daily Life. <i>American Journal of Geriatric Psychiatry</i> , 2017, 25, 852-859.	1.2	9
119	Dealing with daily challenges in dementia (dealâ€­id study): an experience sampling study to assess caregiver functioning in the flow of daily life. <i>International Journal of Geriatric Psychiatry</i> , 2017, 32, 949-958.	2.7	24
120	Contribution of copy number variants to schizophrenia from a genome-wide study of 41,321 subjects. <i>Nature Genetics</i> , 2017, 49, 27-35.	21.4	838
121	Real-life validation of reduced reward processing in emerging adults with depressive symptoms.. <i>Journal of Abnormal Psychology</i> , 2017, 126, 713-725.	1.9	22
122	Ecological momentary interventions in psychiatry. <i>Current Opinion in Psychiatry</i> , 2016, 29, 258-263.	6.3	150
123	Psychological processes underlying the association between childhood trauma and psychosis in daily life: an experience sampling study. <i>Psychological Medicine</i> , 2016, 46, 2799-2813.	4.5	78
124	Sex differences in emotional reactivity to daily life stress in psychosis. <i>European Psychiatry</i> , 2016, 33, S46-S46.	0.2	0
125	Clinic risk associated with comorbidity of (subclinical) psychosis, anxiety and depressive symptoms: A case for stratified medicine in psychiatry. <i>European Psychiatry</i> , 2016, 33, S49-S49.	0.2	1
126	Developmental course of subclinical positive and negative psychotic symptoms and their associations with genetic risk status and impairment. <i>Schizophrenia Research</i> , 2016, 174, 177-182.	2.0	8

#	ARTICLE	IF	CITATIONS
127	Reactivity to social stress in ethnic minority men. <i>Psychiatry Research</i> , 2016, 246, 629-636.	3.3	11
128	Impact of Adverse Childhood Experiences on Psychotic-Like Symptoms and Stress Reactivity in Daily Life in Nonclinical Young Adults. <i>Focus (American Psychiatric Publishing)</i> , 2016, 14, 387-395.	0.8	3
129	Change in daily life behaviors and depression: Within-person and between-person associations.. <i>Health Psychology</i> , 2016, 35, 433-441.	1.6	47
