## Janine Giese-Davis or Janine

#	Article	IF	CITATIONS
1	Depression and cancer: mechanisms and disease progression. Biological Psychiatry, 2003, 54, 269-282.	1.3	690
2	Supportive-Expressive Group Therapy and Distress in Patients With Metastatic Breast Cancer. Archives of General Psychiatry, 2001, 58, 494.	12.3	449
3	Decrease in Depression Symptoms Is Associated With Longer Survival in Patients With Metastatic Breast Cancer: A Secondary Analysis. Journal of Clinical Oncology, 2011, 29, 413-420.	1.6	378
4	Effects of supportiveâ€expressive group therapy on survival of patients with metastatic breast cancer. Cancer, 2007, 110, 1130-1138.	4.1	289
5	Contemplative/emotion training reduces negative emotional behavior and promotes prosocial responses Emotion, 2012, 12, 338-350.	1.8	283
6	Flattened cortisol rhythms in metastatic breast cancer patients. Psychoneuroendocrinology, 2004, 29, 1082-1092.	2.7	248
7	Electronic support groups for breast carcinoma. Cancer, 2003, 97, 920-925.	4.1	230
8	Breast Cancer as Trauma: Posttraumatic Stress and Posttraumatic Growth. Journal of Clinical Psychology in Medical Settings, 2007, 14, 308-319.	1.4	214
9	Change in emotion-regulation strategy for women with metastatic breast cancer following supportive-expressive group therapy Journal of Consulting and Clinical Psychology, 2002, 70, 916-925.	2.0	191
10	Actigraphy-Measured Sleep Disruption as a Predictor of Survival among Women with Advanced Breast Cancer. Sleep, 2014, 37, 837-842.	1.1	169
11	Design Decisions to Optimize Reliability of Daytime Cortisol Slopes in an Older Population. American Journal of Geriatric Psychiatry, 2006, 14, 325-333.	1.2	136
12	Depression, cortisol, and suppressed cell-mediated immunity in metastatic breast cancer. Brain, Behavior, and Immunity, 2009, 23, 1148-1155.	4.1	131
13	What goes up does not always come down: patterns of distress, physical and psychosocial morbidity in people with cancer over a one year period. Psycho-Oncology, 2013, 22, 168-176.	2.3	124
14	Mindfulnessâ€based cancer recovery and supportiveâ€expressive therapy maintain telomere length relative to controls in distressed breast cancer survivors. Cancer, 2015, 121, 476-484.	4.1	119
15	The effect of peer counseling on quality of life following diagnosis of breast cancer: an observational study. Psycho-Oncology, 2006, 15, 1014-1022.	2.3	112
16	Quality of couples' relationship and adjustment to metastatic breast cancer Journal of Family Psychology, 2000, 14, 251-266.	1.3	111
17	Repression and High Anxiety Are Associated With Aberrant Diurnal Cortisol Rhythms in Women With Metastatic Breast Cancer Health Psychology, 2004, 23, 645-650.	1.6	110
18	Effects of supportive-expressive group therapy on pain in women with metastatic breast cancer Health Psychology, 2009, 28, 579-587.	1.6	102

## JANINE GIESE-DAVIS OR JANINE

#	Article	IF	CITATIONS
19	Depression and Stress Reactivity in Metastatic Breast Cancer. Psychosomatic Medicine, 2006, 68, 675-683.	2.0	97
20	Patientâ€reported outcomes, body composition, and nutrition status in patients with head and neck cancer: Results from an exploratory randomized controlled exercise trial. Cancer, 2016, 122, 1185-1200.	4.1	89
21	Stress sensitivity in metastatic breast cancer: Analysis of hypothalamic–pituitary–adrenal axis function. Psychoneuroendocrinology, 2006, 31, 1231-1244.	2.7	83
22	Stress history and breast cancer recurrence. Journal of Psychosomatic Research, 2007, 63, 233-239.	2.6	82
23	Distress, Coping, and Social Support Among Rural Women Recently Diagnosed with Primary Breast Cancer. Breast Journal, 2001, 7, 25-33.	1.0	81
24	Psychophysiological and Cortisol Responses to Psychological Stress in Depressed and Nondepressed Older Men and Women With Elevated Cardiovascular Disease Risk. Psychosomatic Medicine, 2006, 68, 538-546.	2.0	75
25	Higher Vagal Activity as Related to Survival in Patients With Advanced Breast Cancer. Psychosomatic Medicine, 2015, 77, 346-355.	2.0	72
26	Vagal Regulation, Cortisol, and Sleep Disruption in Women with Metastatic Breast Cancer. Journal of Clinical Sleep Medicine, 2008, 04, 441-449.	2.6	70
27	Screening for distress, the 6th vital sign: common problems in cancer outpatients over one year in usual care: associations with marital status, sex, and age. BMC Cancer, 2012, 12, 441.	2.6	69
28	The Age Conundrum: A Scoping Review of Younger Age or Adolescent and Young Adult as a Risk Factor for Clinical Distress, Depression, or Anxiety in Cancer. Journal of Adolescent and Young Adult Oncology, 2015, 4, 157-173.	1.3	67
29	Does age matter? Comparing postâ€treatment psychosocial outcomes in young adult and older adult cancerâ€free peers. Psycho-Oncology, 2018, 27, 1404-1411.	2.3	59
30	Change in emotion-regulation strategy for women with metastatic breast cancer following supportive-expressive group therapy Journal of Consulting and Clinical Psychology, 2002, 70, 916-925.	2.0	53
31	Depressive symptoms predict head and neck cancer survival: Examining plausible behavioral and biological pathways. Cancer, 2018, 124, 1053-1060.	4.1	50
32	Suppression, Repressive-Defensiveness, Restraint, and Distress in Metastatic Breast Cancer: Separable or Inseparable Constructs?. Journal of Personality, 2001, 69, 417-449.	3.2	44
33	Emotional expression and diurnal cortisol slope in women with metastatic breast cancer in supportive-expressive group therapy: A preliminary study. Biological Psychology, 2006, 73, 190-198.	2.2	44
34	Self-Report and Linguistic Indicators of Emotional Expression in Narratives as Predictors of Adjustment to Cancer. Journal of Behavioral Medicine, 2006, 29, 335-345.	2.1	42
35	Association of Dispositional Mindfulness with Stress, Cortisol, and Well-Being Among University Undergraduate Students. Mindfulness, 2016, 7, 874-885.	2.8	40
36	Vagal regulation, cortisol, and sleep disruption in women with metastatic breast cancer. Journal of Clinical Sleep Medicine, 2008, 4, 441-9.	2.6	38

## JANINE GIESE-DAVIS OR JANINE

#	Article	IF	CITATIONS
37	Exploring emotion-regulation and autonomic physiology in metastatic breast cancer patients: Repression, suppression, and restraint of hostility. Personality and Individual Differences, 2008, 44, 226-237.	2.9	34
38	Peer ounseling for women newly diagnosed with breast cancer: A randomized community/research collaboration trial. Cancer, 2016, 122, 2408-2417.	4.1	32
39	Detecting emotional expression in face-to-face and online breast cancer support groups Journal of Consulting and Clinical Psychology, 2008, 76, 517-523.	2.0	31
40	Marital Status Predicts Change in Distress and Well-being in Women Newly Diagnosed With Breast Cancer and Their Peer Counselors. Breast Journal, 2010, 16, 481-489.	1.0	26
41	Online support groups for young women with breast cancer: a proof-of-concept study. Supportive Care in Cancer, 2017, 25, 2285-2296.	2.2	19
42	Protocol for the MATCH study (Mindfulness and Tai Chi for cancer health): A preference-based multi-site randomized comparative effectiveness trial (CET) of Mindfulness-Based Cancer Recovery (MBCR) vs. Tai Chi/Qigong (TCQ) for cancer survivors. Contemporary Clinical Trials, 2017, 59, 64-76.	1.8	17
43	Online art therapy groups for young adults with cancer. Arts and Health, 2017, 9, 1-13.	1.6	13
44	Discharge to Primary Care for Survivorship Follow-Up: How Are Patients With Early-Stage Breast Cancer Faring?. Journal of the National Comprehensive Cancer Network: JNCCN, 2015, 13, 762-771.	4.9	10
45	Unmet Needs of Adult Survivors of Childhood Cancers: Associations with Developmental Stage at Diagnosis, Cognitive Impairment, and Time from Diagnosis. Journal of Adolescent and Young Adult Oncology, 2018, 7, 61-71.	1.3	10
46	Community/research collaborations: Ethics and funding Clinical Psychology: Science and Practice, 2008, 15, 149-152.	0.9	8
47	Falling through the cracks. A thematic evaluation of unmet needs of adult survivors of childhood cancers. Psycho-Oncology, 2018, 27, 1979-1986.	2.3	8
48	Deconstructing therapeutic mechanisms in cancer support groups: do we express more emotion when we tell stories or talk directly to each other?. Journal of Behavioral Medicine, 2015, 38, 171-182.	2.1	7
49	Illustrating the Multi-Faceted Dimensions of Group Therapy and Support for Cancer Patients. Healthcare (Switzerland), 2016, 4, 48.	2.0	7
50	Machine Learning for Identifying Emotional Expression in Text: Improving the Accuracy of Established Methods. Journal of Technology in Behavioral Science, 2017, 2, 21-27.	2.3	4
51	Narrative-Informed, Emotion-Focused Psychotherapy in Synchronous, Online Chat Groups for Adolescents and Young Adults with Cancer: A Proof-of-Concept Study. Journal of Adolescent and Young Adult Oncology, 2020, 9, 676-682.	1.3	4
52	Which symptoms matter? Self-report and observer discrepancies in repressors and high-anxious women with metastatic breast cancer. Journal of Behavioral Medicine, 2014, 37, 22-36.	2.1	3
53	Reply to Effects of Supportive-Expressive Group Therapy on Survival of Patients with Metastatic Breast Cancer: A Randomized Prospective Trial. Cancer, 2008, 112, 444-444.	4.1	0
54	Documenting patients' and providers' preferences when proposing a randomized controlled trial: a qualitative exploration. BMC Medical Research Methodology, 2022, 22, 64.	3.1	0
