#	ARTICLE	IF	CITATIONS
1	Neurologic and Developmental Disability at Six Years of Age after Extremely Preterm Birth. <i>New England Journal of Medicine</i> , 2005, 352, 9-19.	13.9	1,702
2	Moderate Hypothermia to Treat Perinatal Asphyxial Encephalopathy. <i>New England Journal of Medicine</i> , 2009, 361, 1349-1358.	13.9	1,471
3	Neurologic and Developmental Disability after Extremely Preterm Birth. <i>New England Journal of Medicine</i> , 2000, 343, 378-384.	13.9	1,284
4	The EPICure Study: Outcomes to Discharge From Hospital for Infants Born at the Threshold of Viability. <i>Pediatrics</i> , 2000, 106, 659-671.	1.0	831
5	Short term outcomes after extreme preterm birth in England: comparison of two birth cohorts in 1995 and 2006 (the EPICure studies). <i>BMJ, The</i> , 2012, 345, e7976-e7976.	3.0	655
6	Neurological and developmental outcome in extremely preterm children born in England in 1995 and 2006: the EPICure studies. <i>BMJ, The</i> , 2012, 345, e7961-e7961.	3.0	647
7	Perinatal and maternal outcomes by planned place of birth for healthy women with low risk pregnancies: the Birthplace in England national prospective cohort study. <i>BMJ: British Medical Journal</i> , 2011, 343, d7400-d7400.	2.4	598
8	Effects of Hypothermia for Perinatal Asphyxia on Childhood Outcomes. <i>New England Journal of Medicine</i> , 2014, 371, 140-149.	13.9	567
9	Lung Function and Respiratory Symptoms at 11 Years in Children Born Extremely Preterm. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2010, 182, 237-245.	2.5	463
10	Preterm Birth and Childhood Psychiatric Disorders. <i>Pediatric Research</i> , 2011, 69, 11R-18R.	1.1	459
11	Oxygen Saturation and Outcomes in Preterm Infants. <i>New England Journal of Medicine</i> , 2013, 368, 2094-2104.	13.9	424
12	Attention Deficit Hyperactivity Disorders and Other Psychiatric Outcomes in Very Low Birthweight Children at 12 Years. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 1997, 38, 931-941.	3.1	413
13	Perinatal morbidity and mortality in early-onset fetal growth restriction: cohort outcomes of the trial of randomized umbilical and fetal flow in Europe (<sc>TRUFFLE</sc>). <i>Ultrasound in Obstetrics and Gynecology</i> , 2013, 42, 400-408.	0.9	403
14	The EPICure study: associations and antecedents of neurological and developmental disability at 30 months of age following extremely preterm birth. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2005, 90, F134-F140.	1.4	370
15	Individual Differences in Inhibitory Control, Not Non-Verbal Number Acuity, Correlate with Mathematics Achievement. <i>PLoS ONE</i> , 2013, 8, e67374.	1.1	370
16	Motor and Executive Function at 6 Years of Age After Extremely Preterm Birth. <i>Pediatrics</i> , 2007, 120, 793-804.	1.0	365
17	High-Frequency Oscillatory Ventilation for the Prevention of Chronic Lung Disease of Prematurity. <i>New England Journal of Medicine</i> , 2002, 347, 633-642.	13.9	354
18	2 year neurodevelopmental and intermediate perinatal outcomes in infants with very preterm fetal growth restriction (TRUFFLE): a randomised trial. <i>Lancet, The</i> , 2015, 385, 2162-2172.	6.3	347

#	ARTICLE	IF	CITATIONS
19	Preterm birth-associated neurodevelopmental impairment estimates at regional and global levels for 2010. <i>Pediatric Research</i> , 2013, 74, 17-34.	1.1	337
20	Autism Spectrum Disorders in Extremely Preterm Children. <i>Journal of Pediatrics</i> , 2010, 156, 525-531.e2.	0.9	320
21	Vaginal progesterone prophylaxis for preterm birth (the OPPTIMUM study): a multicentre, randomised, double-blind trial. <i>Lancet, The</i> , 2016, 387, 2106-2116.	6.3	319
22	Childhood outcomes after prescription of antibiotics to pregnant women with spontaneous preterm labour: 7-year follow-up of the ORACLE II trial. <i>Lancet, The</i> , 2008, 372, 1319-1327.	6.3	314
23	Development of Executive Function and Attention in Preterm Children: A Systematic Review. <i>Developmental Neuropsychology</i> , 2009, 34, 393-421.	1.0	306
24	Association Between Oxygen Saturation Targeting and Death or Disability in Extremely Preterm Infants in the Neonatal Oxygenation Prospective Meta-analysis Collaboration. <i>JAMA - Journal of the American Medical Association</i> , 2018, 319, 2190.	3.8	294
25	Academic attainment and special educational needs in extremely preterm children at 11 years of age: the EPICure study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2009, 94, F283-F289.	1.4	290
26	The Cost of Preterm Birth Throughout Childhood in England and Wales. <i>Pediatrics</i> , 2009, 123, e312-e327.	1.0	283
27	Neuropsychological and educational problems at school age associated with neonatal encephalopathy. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2005, 90, F380-F387.	1.4	278
28	Prognostic Factors for Poor Cognitive Development in Children Born Very Preterm or With Very Low Birth Weight. <i>JAMA Pediatrics</i> , 2015, 169, 1162.	3.3	271
29	Ranibizumab versus laser therapy for the treatment of very low birthweight infants with retinopathy of prematurity (RAINBOW): an open-label randomised controlled trial. <i>Lancet, The</i> , 2019, 394, 1551-1559.	6.3	268
30	Using the Bayley-III to assess neurodevelopmental delay: which cut-off should be used?. <i>Pediatric Research</i> , 2014, 75, 670-674.	1.1	250
31	Long-term impact of neonatal intensive care and surgery on somatosensory perception in children born extremely preterm. <i>Pain</i> , 2009, 141, 79-87.	2.0	247
32	Cognitive and educational outcome of very low birthweight children in early adolescence. <i>Developmental Medicine and Child Neurology</i> , 1998, 40, 652-660.	1.1	236
33	Neurodevelopmental Disability Through 11 Years of Age in Children Born Before 26 Weeks of Gestation. <i>Pediatrics</i> , 2009, 124, e249-e257.	1.0	233
34	Psychiatric disorders in extremely preterm children: longitudinal finding at age 11 years in the EPICure study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2010, 49, 453-63.e1.	0.3	230
35	Delayed versus Immediate Cord Clamping in Preterm Infants. <i>New England Journal of Medicine</i> , 2017, 377, 2445-2455.	13.9	228
36	Neurocognitive outcome after very preterm birth. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2004, 89, F224-F228.	1.4	219

#	ARTICLE	IF	CITATIONS
37	Genotypic and phenotypic spectrum of pyridoxine-dependent epilepsy (ALDH7A1 deficiency). <i>Brain</i> , 2010, 133, 2148-2159.	3.7	219
38	Psychiatric Disorders in Extremely Preterm Children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2010, 49, 453-463e1.	0.3	216
39	Educational Outcomes in Extremely Preterm Children: Neuropsychological Correlates and Predictors of Attainment. <i>Developmental Neuropsychology</i> , 2011, 36, 74-95.	1.0	210
40	Neurodevelopmental outcomes following late and moderate prematurity: a population-based cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2015, 100, F301-F308.	1.4	209
41	Early and long-term outcome of infants born extremely preterm. <i>Archives of Disease in Childhood</i> , 2017, 102, 97-102.	1.0	209
42	Bumetanide for the treatment of seizures in newborn babies with hypoxic ischaemic encephalopathy (NEMO): an open-label, dose finding, and feasibility phase 1/2 trial. <i>Lancet Neurology</i> , The, 2015, 14, 469-477.	4.9	208
43	Neonatal and infant outcome in boys and girls born very prematurely. <i>Pediatric Research</i> , 2012, 71, 305-310.	1.1	202
44	Specific Language Difficulties and School Achievement in Children Born at 25 Weeks of Gestation or Less. <i>Journal of Pediatrics</i> , 2008, 152, 256-262.e1.	0.9	197
45	Relationship between Test Scores Using the Second and Third Editions of the Bayley Scales in Extremely Preterm Children. <i>Journal of Pediatrics</i> , 2012, 160, 553-558.	0.9	197
46	Outcome at 8 years for children with birth weights of 1250 g or less.. <i>Archives of Disease in Childhood</i> , 1993, 68, 286-290.	1.0	188
47	The EPICure study: growth and associated problems in children born at 25 weeks of gestational age or less. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2003, 88, 492F-500.	1.4	178
48	Motor skills in extremely low birthweight children at the age of 6 years.. <i>Archives of Disease in Childhood</i> , 1989, 64, 839-847.	1.0	165
49	Patterns of motor disability in very preterm children. <i>Mental Retardation and Developmental Disabilities Research Reviews</i> , 2002, 8, 241-248.	3.5	161
50	Outcomes of Two Trials of Oxygen-Saturation Targets in Preterm Infants. <i>New England Journal of Medicine</i> , 2016, 374, 749-760.	13.9	161
51	Perinatal outcomes for extremely preterm babies in relation to place of birth in England: the EPICure 2 study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2014, 99, F181-F188.	1.4	157
52	The EPICure study: maximal exercise and physical activity in school children born extremely preterm. <i>Thorax</i> , 2010, 65, 165-172.	2.7	152
53	Nature and severity of lung function abnormalities in extremely pre-term children at 11 years of age. <i>European Respiratory Journal</i> , 2011, 37, 1199-1207.	3.1	150
54	Motor impairment in children 12 to 13 years old with a birthweight of less than 1250 g.. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 1995, 73, F62-F66.	1.4	141

#	ARTICLE	IF	CITATIONS
55	Childhood outcomes after prescription of antibiotics to pregnant women with preterm rupture of the membranes: 7-year follow-up of the ORACLE I trial. <i>Lancet, The</i> , 2008, 372, 1310-1318.	6.3	141
56	Cognitive trajectories from infancy to early adulthood following birth before 26 weeks of gestation: a prospective, population-based cohort study. <i>Archives of Disease in Childhood</i> , 2018, 103, 363-370.	1.0	140
57	Processing speed and working memory underlie academic attainment in very preterm children. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2010, 95, F267-F272.	1.4	139
58	Pervasive Behavior Problems at 6 Years of Age in a Total-Population Sample of Children Born at ≥ 25 Weeks of Gestation. <i>Pediatrics</i> , 2008, 122, 562-573.	1.0	137
59	Elective high-frequency oscillatory versus conventional ventilation in preterm infants: a systematic review and meta-analysis of individual patients' data. <i>Lancet, The</i> , 2010, 375, 2082-2091.	6.3	135
60	Respiratory health in pre-school and school age children following extremely preterm birth. <i>Archives of Disease in Childhood</i> , 2008, 93, 1037-1043.	1.0	131
61	Developmental assessment of preterm infants at 2 years: validity of parent reports. <i>Developmental Medicine and Child Neurology</i> , 2008, 50, 58-62.	1.1	125
62	Paediatric consequences of fetal growth restriction. <i>Seminars in Fetal and Neonatal Medicine</i> , 2004, 9, 411-418.	1.1	123
63	Growing up after extremely preterm birth: Lifespan mental health outcomes. <i>Seminars in Fetal and Neonatal Medicine</i> , 2014, 19, 97-104.	1.1	121
64	Validation of a parent report measure of cognitive development in very preterm infants. <i>Developmental Medicine and Child Neurology</i> , 2004, 46, 389-397.	1.1	117
65	Late Outcomes of a Randomized Trial of High-Frequency Oscillation in Neonates. <i>New England Journal of Medicine</i> , 2014, 370, 1121-1130.	13.9	113
66	Neonatal outcomes and delivery of care for infants born late preterm or moderately preterm: a prospective population-based study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2015, 100, F479-F485.	1.4	113
67	Planned early delivery or expectant management for late preterm pre-eclampsia (PHOENIX): a randomised controlled trial. <i>Lancet, The</i> , 2019, 394, 1181-1190.	6.3	112
68	Developmental screen or developmental testing?. <i>Early Human Development</i> , 2006, 82, 173-183.	0.8	111
69	Core outcomes in neonatology: development of a core outcome set for neonatal research. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 425-431.	1.4	107
70	Fertility and assisted reproduction: The costs to the NHS of multiple births after IVF treatment in the UK. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2005, 113, 21-25.	1.1	103
71	Psychiatric Disorders in Extremely Preterm Children: Longitudinal Finding at Age 11 Years in the EPICure Study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2010, 49, 453-463.e1.	0.3	102
72	rhIGF-1/rhIGFBP-3 in Preterm Infants: A Phase 2 Randomized Controlled Trial. <i>Journal of Pediatrics</i> , 2019, 206, 56-65.e8.	0.9	101

#	ARTICLE	IF	CITATIONS
73	The Growth Restriction Intervention Trial: long-term outcomes in a randomized trial of timing of delivery in fetal growth restriction. <i>American Journal of Obstetrics and Gynecology</i> , 2011, 204, 34.e1-34.e9.	0.7	100
74	Clinical prediction models for bronchopulmonary dysplasia: a systematic review and external validation study. <i>BMC Pediatrics</i> , 2013, 13, 207.	0.7	99
75	Prognostic factors for cerebral palsy and motor impairment in children born very preterm or very low birthweight: a systematic review. <i>Developmental Medicine and Child Neurology</i> , 2016, 58, 554-569.	1.1	99
76	Perinatal management of extreme preterm birth before 27 weeks of gestation: a framework for practice. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 232-239.	1.4	99
77	Eating problems at age 6 years in a whole population sample of extremely preterm children. <i>Developmental Medicine and Child Neurology</i> , 2010, 52, e16-22.	1.1	98
78	Growth impairment in very low birthweight children at 12 years: correlation with perinatal and outcome variables.. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 1996, 75, F152-F157.	1.4	97
79	Randomised trial of a parenting intervention during neonatal intensive care. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2007, 92, F438-F443.	1.4	97
80	Short-Term Memory and Language Outcomes After Extreme Prematurity at Birth. <i>Journal of Speech, Language, and Hearing Research</i> , 1998, 41, 654-666.	0.7	96
81	Costs and Health Utilities Associated with Extremely Preterm Birth: Evidence from the EPICure Study. <i>Value in Health</i> , 2009, 12, 1124-1134.	0.1	95
82	The role of student learning styles, gender, attitudes and perceptions on information and communication technology assisted learning. <i>Computers and Education</i> , 1999, 33, 223-234.	5.1	92
83	The SNAP trial: a randomised placebo-controlled trial of nicotine replacement therapy in pregnancy – clinical effectiveness and safety until 2 years after delivery, with economic evaluation. <i>Health Technology Assessment</i> , 2014, 18, 1-128.	1.3	90
84	International survey on diagnosis and management of hypotension in extremely preterm babies. <i>European Journal of Pediatrics</i> , 2014, 173, 793-798.	1.3	89
85	The EPICure study: growth and blood pressure at 6 years of age following extremely preterm birth. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2007, 93, F108-F114.	1.4	88
86	Infants Born Late/Moderately Preterm Are at Increased Risk for a Positive Autism Screen at 2 Years of Age. <i>Journal of Pediatrics</i> , 2015, 166, 269-275.e3.	0.9	88
87	Outcome following neonatal seizures. <i>Seminars in Fetal and Neonatal Medicine</i> , 2013, 18, 224-232.	1.1	87
88	Visual impairment in very low birthweight children. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 1997, 76, F82-F87.	1.4	86
89	Outcome of resuscitation following unexpected apparent stillbirth. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 1998, 78, F112-F115.	1.4	86
90	Randomised trial of parental support for families with very preterm children: outcome at 5 years. <i>Archives of Disease in Childhood</i> , 2005, 90, 909-915.	1.0	85

#	ARTICLE	IF	CITATIONS
91	Pravastatin for early-onset pre-eclampsia: a randomised, blinded, placebo-controlled trial. BJOG: an International Journal of Obstetrics and Gynaecology, 2020, 127, 478-488.	1.1	85
92	European variation in decision-making and parental involvement during preterm birth. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2014, 99, F245-F249.	1.4	84
93	Somatosensory function and pain in extremely preterm young adults from the UK EPICure cohort: sex-dependent differences and impact of neonatal surgery. British Journal of Anaesthesia, 2018, 121, 623-635.	1.5	84
94	Sensorineural hearing loss and prematurity. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2000, 82, 141F-144.	1.4	83
95	Screening for autism in extremely preterm infants: problems in interpretation. Developmental Medicine and Child Neurology, 2012, 54, 514-520.	1.1	83
96	Neurocognitive outcome following fetal growth restriction. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2007, 93, F322-F325.	1.4	80
97	Outcomes at 7 years for babies who developed neonatal necrotising enterocolitis: the ORACLE Children Study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2012, 97, F318-F322.	1.4	80
98	Trajectories of behavior, attention, social and emotional problems from childhood to early adulthood following extremely preterm birth: a prospective cohort study. European Child and Adolescent Psychiatry, 2019, 28, 531-542.	2.8	79
99	Nature and origins of mathematics difficulties in very preterm children: a different etiology than developmental dyscalculia. Pediatric Research, 2015, 77, 389-395.	1.1	77
100	Everyday Memory and Cognitive Ability in Children Born Very Prematurely. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2001, 42, 749-754.	3.1	73
101	Does Interleukin-6 Genotype Influence Cerebral Injury or Developmental Progress After Preterm Birth?. Pediatrics, 2004, 114, 941-947.	1.0	73
102	Is Interleukin-6 -174 Genotype Associated With the Development of Septicemia in Preterm Infants?. Pediatrics, 2003, 112, 800-803.	1.0	71
103	EVERREST prospective study: a 6-year prospective study to define the clinical and biological characteristics of pregnancies affected by severe early onset fetal growth restriction. BMC Pregnancy and Childbirth, 2017, 17, 43.	0.9	71
104	Risk factors for respiratory morbidity in infancy after very premature birth. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2005, 90, F320-f323.	1.4	69
105	AdaPT: An adaptive preterm segmentation algorithm for neonatal brain MRI. NeuroImage, 2013, 65, 97-108.	2.1	68
106	Economic costs associated with moderate and late preterm birth: a prospective population-based study. BJOG: an International Journal of Obstetrics and Gynaecology, 2015, 122, 1495-1505.	1.1	68
107	Longitudinal measurement of the developing grey matter in preterm subjects using multi-modal MRI. NeuroImage, 2015, 111, 580-589.	2.1	68
108	Processing Speed Mediates Executive Function Difficulties in Very Preterm Children in Middle Childhood. Journal of the International Neuropsychological Society, 2011, 17, 445-454.	1.2	67
