#	ARTICLE	IF	CITATIONS
1	Restricting the advertising of high fat, salt and sugar foods on the Transport for London estate: Process and implementation study. <i>Social Science and Medicine</i> , 2022, 292, 114548.	1.8	10
2	Changes in household food and drink purchases following restrictions on the advertisement of high fat, salt, and sugar products across the Transport for London network: A controlled interrupted time series analysis. <i>PLoS Medicine</i> , 2022, 19, e1003915.	3.9	23
3	Assessing the impact of selective licencing schemes for private rental housing on mental health and well-being: protocol for a mixed-method natural experiment study in Greater London, UK. <i>BMJ Open</i> , 2022, 12, e057711.	0.8	1
4	All change. Has COVID-19 transformed the way we need to plan for a healthier and more equitable food environment?. <i>Urban Design International</i> , 2021, 26, 291-295.	1.3	14
5	COVID-19: impact on the urban food retail system and dietary inequalities in the UK. <i>Cities and Health</i> , 2021, 5, S119-S122.	1.6	19
6	â€œComplexityâ€™ as a rhetorical smokescreen for UK public health inaction on diet. <i>Critical Public Health</i> , 2021, 31, 510-520.	1.4	16
7	Planning and Public Health professionalsâ€™ experiences of using the planning system to regulate hot food takeaway outlets in England: A qualitative study. <i>Health and Place</i> , 2021, 67, 102305.	1.5	10
8	The case for developing a cohesive systems approach to research across unhealthy commodity industries. <i>BMJ Global Health</i> , 2021, 6, e003543.	2.0	35
9	Evaluation of public health interventions from a complex systems perspective: A research methods review. <i>Social Science and Medicine</i> , 2021, 272, 113697.	1.8	86
10	Sociodemographic differences in self-reported exposure to high fat, salt and sugar food and drink advertising: a cross-sectional analysis of 2019 UK panel data. <i>BMJ Open</i> , 2021, 11, e048139.	0.8	11
11	Conceptualizing the commercial determinants of dietary behaviors associated with obesity: A systematic review using principles from critical interpretative synthesis. <i>Obesity Science and Practice</i> , 2021, 7, 473-486.	1.0	11
12	P27â€œ...Youth perspectives on soft drinks after the introduction of the UK soft drinks industry levy: a focus group study using reflexive thematic analysis. , 2021, , .		0
13	OP40â€œ...â€œThere is no silver bulletâ€™ how parliamentary debate on the UK soft drinks industry levy changed over time (2014â€œ2020): an applied thematic analysis. , 2021, , .		0
14	Geographical heterogeneity across England in associations between the neighbourhood built environment and body mass index. <i>Health and Place</i> , 2021, 71, 102645.	1.5	6
15	Media representations of opposition to the â€œjunk food advertising banâ€™ on the Transport for London (TfL) network: A thematic content analysis of UK news and trade press. <i>SSM - Population Health</i> , 2021, 15, 100828.	1.3	7
16	Escaping the Red Queen: Health as a corporate food marketing strategy. <i>SSM - Population Health</i> , 2021, 16, 100953.	1.3	0
17	Have socio-economic inequalities in sugar purchasing widened? A longitudinal analysis of food and beverage consumer data from British households, 2014â€œ2017. <i>Public Health Nutrition</i> , 2021, 24, 1583-1594.	1.1	1
18	Like parent, like child: a cross-sectional study of intra-household consumption patterns of non-alcoholic beverages among British households with children. <i>Public Health Nutrition</i> , 2021, , 1-9.	1.1	1

#	ARTICLE	IF	CITATIONS
19	Five insights from the Global Burden of Disease Study 2019. <i>Lancet, The</i> , 2020, 396, 1135-1159.	6.3	335
20	Longitudinal impact of changes in the residential built environment on physical activity: findings from the ENABLE London cohort study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 96.	2.0	11
21	Do neighbourhood characteristics act together to influence BMI? A cross-sectional study of urban parks and takeaway/fast-food stores as modifiers of the effect of physical activity facilities. <i>Social Science and Medicine</i> , 2020, 261, 113242.	1.8	20
22	Longitudinal associations between neighbourhood trust, social support and physical activity in adolescents: evidence from the Olympic Regeneration in East London (ORIEL) study. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, jech-2019-213412.	2.0	1
23	Non-market strategy as a framework for exploring commercial involvement in health policy: A primer. <i>Social Science and Medicine</i> , 2020, 262, 113257.	1.8	9
24	Genetic risk of obesity as a modifier of associations between neighbourhood environment and body mass index: an observational study of 335 046 UK Biobank participants. <i>BMJ Nutrition, Prevention and Health</i> , 2020, 3, 247-255.	1.9	15
25	Weekend and weekday associations between the residential built environment and physical activity: Findings from the ENABLE London study. <i>PLoS ONE</i> , 2020, 15, e0237323.	1.1	8
26	Patterns of beverage purchases amongst British households: A latent class analysis. <i>PLoS Medicine</i> , 2020, 17, e1003245.	3.9	10
27	Evaluating the effect of change in the built environment on mental health and subjective well-being: a natural experiment. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, jech-2019-213591.	2.0	9
28	The effect of moving to East Village, the former London 2012 Olympic and Paralympic Games Athletes' Village, on mode of travel (ENABLE London study, a natural experiment). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 15.	2.0	3
29	Impact of the announcement and implementation of the UK Soft Drinks Industry Levy on sugar content, price, product size and number of available soft drinks in the UK, 2015-19: A controlled interrupted time series analysis. <i>PLoS Medicine</i> , 2020, 17, e1003025.	3.9	141
30	Associations between commute mode and cardiovascular disease, cancer, and all-cause mortality, and cancer incidence, using linked Census data over 25 years in England and Wales: a cohort study. <i>Lancet Planetary Health, The</i> , 2020, 4, e186-e194.	5.1	44
31	Anticipatory changes in British household purchases of soft drinks associated with the announcement of the Soft Drinks Industry Levy: A controlled interrupted time series analysis. <i>PLoS Medicine</i> , 2020, 17, e1003269.	3.9	10
32	P27â€¦Diet â€œ is there a new digital divide? Social inequalities in use of digital food delivery services and associations with BMI. , 2020, , .		0
33	Active design of built environments for increasing levels of physical activity in adults: the ENABLE London natural experiment study. <i>Public Health Research</i> , 2020, 8, 1-162.	0.5	4
34	Title is missing!. , 2020, 17, e1003025.		0
35	Title is missing!. , 2020, 17, e1003025.		0
36	Title is missing!. , 2020, 17, e1003025.		0
