#	ARTICLE	IF	CITATIONS
1	Longitudinal dietary trajectories from preconception to mid-childhood in women and children in the Southampton Women's Survey and their relation to offspring adiposity: a group-based trajectory modelling approach. <i>International Journal of Obesity</i> , 2022, 46, 758-766.	3.4	14
2	Measured weight in early pregnancy is a valid method for estimating pre-pregnancy weight. <i>Journal of Developmental Origins of Health and Disease</i> , 2021, 12, 561-569.	1.4	19
3	Poor sleep quality and physical performance in older adults. <i>Sleep Health</i> , 2021, 7, 205-211.	2.5	23
4	What can be done to encourage women from Black, Asian and minority ethnic backgrounds to attend breast screening? A qualitative synthesis of barriers and facilitators. <i>Public Health</i> , 2021, 190, 152-159.	2.9	15
5	A systematic review and meta-analysis of school-based interventions with health education to reduce body mass index in adolescents aged 10 to 19 years. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 1.	4.6	119
6	Protocol for a cluster randomised trial evaluating a multifaceted intervention starting preconceptionally: Early Interventions to Support Trajectories for Healthy Life in India (EINSTEIN): a Healthy Life Trajectories Initiative (HeLTI) Study. <i>BMJ Open</i> , 2021, 11, e045862.	1.9	12
7	Parental perspectives on negotiations over diet and physical activity: how do we involve parents in adolescent health interventions?. <i>Public Health Nutrition</i> , 2021, 24, 1-10.	2.2	4
8	How do we harness adolescent values in designing health behaviour change interventions? A qualitative study. <i>British Journal of Health Psychology</i> , 2021, 26, 1176-1193.	3.5	22
9	A qualitative study of parents' and their child's experience of a medial epicondyle fracture. <i>Bone & Joint Open</i> , 2021, 2, 359-364.	2.6	3
10	Women's perceptions of factors influencing their food shopping choices and how supermarkets can support them to make healthier choices. <i>BMC Public Health</i> , 2021, 21, 1070.	2.9	4
11	P107...Women's reactions to the COVID-19 food system shock and insights for strategies supporting healthy purchasing and dietary behaviours: a qualitative study. , 2021, , .		0
12	Framework for the development and evaluation of complex interventions: gap analysis, workshop and consultation-informed update. <i>Health Technology Assessment</i> , 2021, 25, 1-132.	2.8	184
13	A new framework for developing and evaluating complex interventions: update of Medical Research Council guidance. <i>BMJ</i> , The, 2021, 374, n2061.	6.0	1,567
14	Altering product placement to create a healthier layout in supermarkets: Outcomes on store sales, customer purchasing, and diet in a prospective matched controlled cluster study. <i>PLoS Medicine</i> , 2021, 18, e1003729.	8.4	14
15	Resources in women's social networks for food shopping are more strongly associated with better dietary quality than people: A cross-sectional study. <i>Social Science and Medicine</i> , 2021, 284, 114228.	3.8	3
16	The Challenges of Putting Systems Thinking into Practice Comment on "What Can Policy-Makers Get Out of Systems Thinking? Policy Partners' Experiences of a Systems-Focused Research Collaboration in Preventive Health". <i>International Journal of Health Policy and Management</i> , 2021, 10, 290-292.	0.9	3
17	Developing a measure of dietary quality for the UK Biobank study. <i>Proceedings of the Nutrition Society</i> , 2021, 80, .	1.0	0
18	Evaluation and interpretation of latent class modelling strategies to characterise dietary trajectories across early life: a longitudinal study from the Southampton women's survey. <i>Proceedings of the Nutrition Society</i> , 2021, 80, .	1.0	0

#	ARTICLE	IF	CITATIONS
19	Development of a short food frequency questionnaire to assess diet quality in UK adults. Proceedings of the Nutrition Society, 2021, 80, .	1.0	0
20	Cross-sectional associations between number and ages of children and maternal physical activity. European Journal of Public Health, 2021, 31, .	0.3	0
21	Factors influencing women's food choices and the support they require to make healthier food selections in supermarkets – a qualitative study. Proceedings of the Nutrition Society, 2021, 80, .	1.0	0
22	Longitudinal Dietary Trajectories from Preconception to Mid-Childhood in Women and Children from the Southampton Women's Survey: A Group Based Trajectory Modelling Approach. Proceedings of the Nutrition Society, 2021, 80, .	1.0	0
23	Methods for determining pubertal status in research studies: literature review and opinions of experts and adolescents. Journal of Developmental Origins of Health and Disease, 2020, 11, 168-187.	1.4	30
24	How can we best use opportunities provided by routine maternity care to engage women in improving their diets and health?. Maternal and Child Nutrition, 2020, 16, e12900.	3.0	25
25	A systematic review of the influences of food store product placement on dietary-related outcomes. Nutrition Reviews, 2020, 78, 1030-1045.	5.8	34
26	A systematic review of the influences of product placement in food stores on dietary behaviours and sales. Proceedings of the Nutrition Society, 2020, 79, .	1.0	0
27	A critical review of diet-related surveys in England, 1970-2018. Archives of Public Health, 2020, 78, 66.	2.4	4
28	Behaviour change interventions: getting in touch with individual differences, values and emotions. Journal of Developmental Origins of Health and Disease, 2020, 11, 589-598.	1.4	10
29	Engaging adolescents in changing behaviour (EACH-B): a study protocol for a cluster randomised controlled trial to improve dietary quality and physical activity. Trials, 2020, 21, 859.	1.6	4
30	The Effects of Different Smoking Patterns in Pregnancy on Perinatal Outcomes in the Southampton Women's Survey. International Journal of Environmental Research and Public Health, 2020, 17, 7991.	2.6	2
31	A mixed-methods systematic review of patients' experience of being invited to participate in surgical randomised controlled trials. Social Science and Medicine, 2020, 253, 112961.	3.8	18
32	Findings from an exploration of a social network intervention to promote diet quality and health behaviours in older adults with COPD: a feasibility study. Pilot and Feasibility Studies, 2020, 6, 15.	1.2	7
33	Improving pregnant women's diet and physical activity behaviours: the emergent role of health identity. BMC Pregnancy and Childbirth, 2020, 20, 244.	2.4	14
34	Protocol of a natural experiment to evaluate a supermarket intervention to improve food purchasing and dietary behaviours of women (WRAPPED study) in England: a prospective matched controlled cluster design. BMJ Open, 2020, 10, e036758.	1.9	5
35	A Context-Specific Digital Alcohol Brief Intervention in Symptomatic Breast Clinics (Abreast of) Tj ETQq1 1 0.784314 rgBT /Overlock 10	1.0	9
36	OP07...Factors influencing women's food choices and support they require to make healthier food choices in supermarkets – a qualitative study. , 2020, , .		0

#	ARTICLE	IF	CITATIONS
37	P26â€¦How does changing the placement of food products in supermarkets influence customersâ€™ purchasing and store sales?. , 2020, , .		0
38	Facilitating trial recruitment: A qualitative study of patient and staff experiences of an orthopaedic trauma trial. Trials, 2019, 20, 492.	1.6	15
39	A qualitative study of patientsâ€™ experience of recovery after a distal femoral fracture. Injury, 2019, 50, 1750-1755.	1.7	9
40	Examination of how food environment and psychological factors interact in their relationship with dietary behaviours: test of a cross-sectional model. International Journal of Behavioral Nutrition and Physical Activity, 2019, 16, 12.	4.6	21
41	The association between crowding within households and behavioural problems in children: Longitudinal data from the Southampton Womenâ€™s Survey. Paediatric and Perinatal Epidemiology, 2019, 33, 195-203.	1.7	12
42	Intramedullary nails versus distal locking plates for fracture of the distal femur: results from the Trial of Acute Femoral Fracture Fixation (TrAFFix) randomised feasibility study and process evaluation. BMJ Open, 2019, 9, e026810.	1.9	16
43	Safety of Cyclooxygenase-2 Inhibitors in Osteoarthritis: Outcomes of a Systematic Review and Meta-Analysis. Drugs and Aging, 2019, 36, 25-44.	2.7	56
44	Safety of Opioids in Osteoarthritis: Outcomes of a Systematic Review and Meta-Analysis. Drugs and Aging, 2019, 36, 129-143.	2.7	57
45	OP98â€¦Effects of different smoking patterns during pregnancy on perinatal outcomes: an analysis of maternal smokers in the southampton womenâ€™s survey. , 2019, , .		0
46	OP39â€¦Development of a short food frequency questionnaire to assess diet quality in population studies. , 2019, , .		0
47	Vegetarian Diet during Pregnancy Is Not Associated with Poorer Cognitive Performance in Children at Age 6â€“7 Years. Nutrients, 2019, 11, 3029.	4.1	6
48	Retrograde intramedullary nail fixation compared with fixed-angle plate fixation for fracture of the distal femur: the TrAFFix feasibility RCT. Health Technology Assessment, 2019, 23, 1-132.	2.8	8
49	Before the beginning: nutrition and lifestyle in the preconception period and its importance for future health. Lancet, The, 2018, 391, 1830-1841.	13.7	691
50	Improving recruitment to clinical trials during pregnancy: A mixed methods investigation. Social Science and Medicine, 2018, 200, 73-82.	3.8	27
51	RF27â€¦How does changing the placement of food products in supermarkets influence customersâ€™ diets?. , 2018, , .		2
52	OP15â€¦The association of crowding within households and behavioural problems in children; longitudinal data from the southampton womenâ€™s survey. , 2018, , .		0
53	OP39â€¦The association between an unhealthy childhood diet and body composition depends on prenatal experience: data from the southampton womenâ€™s survey. , 2018, , .		0
54	How well do national and local policies in England relevant to maternal and child health meet the international standard for non-communicable disease prevention? A policy analysis. BMJ Open, 2018, 8, e022062.	1.9	4

#	ARTICLE	IF	CITATIONS
55	Faltering of prenatal growth precedes the development of atopic eczema in infancy: cohort study. <i>Clinical Epidemiology</i> , 2018, Volume 10, 1851-1864.	3.0	2
56	Diet Quality and Sarcopenia in Older Adults: A Systematic Review. <i>Nutrients</i> , 2018, 10, 308.	4.1	157
57	Arachidonic acid and DHA status in pregnant women is not associated with cognitive performance of their children at 4 or 6 years. <i>British Journal of Nutrition</i> , 2018, 119, 1400-1407.	2.3	8
58	Influences on diet quality in older age: the importance of social factors. <i>Age and Ageing</i> , 2017, 46, 277-283.	1.6	48
59	Maternal stress and psychological distress preconception: association with offspring atopic eczema at age 12 months. <i>Clinical and Experimental Allergy</i> , 2017, 47, 760-769.	2.9	31
60	Greater access to healthy food outlets in the home and school environment is associated with better dietary quality in young children. <i>Public Health Nutrition</i> , 2017, 20, 3316-3325.	2.2	18
61	What influences diet quality in older people? A qualitative study among community-dwelling older adults from the Hertfordshire Cohort Study, UK. <i>Public Health Nutrition</i> , 2017, 20, 2685-2693.	2.2	83
62	A Systematic Review of Digital Interventions for Improving the Diet and Physical Activity Behaviors of Adolescents. <i>Journal of Adolescent Health</i> , 2017, 61, 669-677.	2.5	230
63	Maternal body mass index: Relation with infant respiratory symptoms and infections. <i>Pediatric Pulmonology</i> , 2017, 52, 1291-1299.	2.0	33
64	Getting started with tables. <i>Archives of Public Health</i> , 2017, 75, 14.	2.4	1
65	The relationship between maternal self-efficacy, compliance and outcome in a trial of vitamin D supplementation in pregnancy. <i>Osteoporosis International</i> , 2017, 28, 77-84.	3.1	10
66	OP89...Pre-pregnancy and postnatal depressive symptoms are associated with quality of mother-child relationships; longitudinal data from the southampton women's survey. , 2017, , .		0
67	Developmental Origins of Health and Disease: A Lifecourse Approach to the Prevention of Non-Communicable Diseases. <i>Healthcare (Switzerland)</i> , 2017, 5, 14.	2.0	131
68	Trial of Acute Femoral Fracture Fixation (TrAFFix): study protocol for a randomised controlled feasibility trial. <i>Trials</i> , 2017, 18, 538.	1.6	4
69	Translating Developmental Origins: Improving the Health of Women and Their Children Using a Sustainable Approach to Behaviour Change. <i>Healthcare (Switzerland)</i> , 2017, 5, 17.	2.0	12
70	The relationship between dietary quality and the local food environment differs according to level of educational attainment: A cross-sectional study. <i>PLoS ONE</i> , 2017, 12, e0183700.	2.5	35
71	OP85...How can pre-pregnancy weight be assessed? Comparison of approaches using longitudinal data from the Southampton Women's Survey. <i>Journal of Epidemiology and Community Health</i> , 2016, 70, A47.1-A47.	3.7	1
72	Preconception and pregnancy: opportunities to intervene to improve women's diets and lifestyles. <i>Journal of Developmental Origins of Health and Disease</i> , 2016, 7, 330-333.	1.4	12

#	ARTICLE	IF	CITATIONS
73	Education and the Relationship Between Supermarket Environment and Diet. American Journal of Preventive Medicine, 2016, 51, e27-e34.	3.0	32
74	P91â€¦Socio-economic inequalities in childhood wheeze and atopy: longitudinal findings from the Southampton Womenâ€™s Survey. Journal of Epidemiology and Community Health, 2016, 70, A93.2-A94.	3.7	0
75	OP64â€¦Preconceptional maternal anxiety is associated with childhood emotional problems, independent of the effect of post-natal depression. Journal of Epidemiology and Community Health, 2016, 70, A37.1-A37.	3.7	0
76	Southampton PRenancy Intervention for the Next Generation (SPRING): protocol for a randomised controlled trial. Trials, 2016, 17, 493.	1.6	18
77	Duration of sleep at 3Â½years of age is associated with fat and fatâ€free mass at 4Â½years of age: the Southampton Women's Survey. Journal of Sleep Research, 2016, 25, 412-418.	3.2	27
78	â€Making every contact countâ€™: Evaluation of the impact of an intervention to train health and social care practitioners in skills to support health behaviour change. Journal of Health Psychology, 2016, 21, 138-151.	2.3	107
79	Greater access to fast-food outlets is associated with poorer bone health in young children. Osteoporosis International, 2016, 27, 1011-1019.	3.1	10
80	Influences on the diet quality of pre-school children: importance of maternal psychological characteristics. Public Health Nutrition, 2015, 18, 2001-2010.	2.2	13
81	Maternal and early life factors of tooth emergence patterns and number of teeth at 1 and 2 years of age. Journal of Developmental Origins of Health and Disease, 2015, 6, 299-307.	1.4	22
82	Process evaluation of complex interventions: Medical Research Council guidance. BMJ, The, 2015, 350, h1258-h1258.	6.0	3,602
83	Limited exposure to ambient ultraviolet radiation and 25-hydroxyvitamin D levels: a systematic review. British Journal of Dermatology, 2015, 172, 652-661.	1.5	17
84	How do mothers manage their preschool children's eating habits and does this change as children grow older? A longitudinal analysis. Appetite, 2015, 95, 466-474.	3.7	27
85	OP65â€¦Duration of sleep at 3 years of age is associated with fat, lean and bone mass at 4 years of age: findings from the Southampton Womenâ€™s Survey. Journal of Epidemiology and Community Health, 2014, 68, A33.2-A34.	3.7	0
86	Process evaluation in complex public health intervention studies: the need for guidance. Journal of Epidemiology and Community Health, 2014, 68, 101-102.	3.7	228
87	The effect of a behaviour change intervention on the diets and physical activity levels of women attending Sure Start Children's Centres: results from a complex public health intervention. BMJ Open, 2014, 4, e005290-e005290.	1.9	35
88	Eating for two? The unresolved question of optimal diet in pregnancy. American Journal of Clinical Nutrition, 2014, 100, 1220-1221.	4.7	7
89	Healthy conversation skills: increasing competence and confidence in front-line staff. Public Health Nutrition, 2014, 17, 700-707.	2.2	46
90	Measuring the healthfulness of food retail stores: variations by store type and neighbourhood deprivation. International Journal of Behavioral Nutrition and Physical Activity, 2014, 11, 69.	4.6	60

#	ARTICLE	IF	CITATIONS
91	Influences on Adherence to Diet and Physical Activity Recommendations in Women and Children: Insights from Six European Studies. <i>Annals of Nutrition and Metabolism</i> , 2014, 64, 332-339.	1.9	14
92	Dietary inequalities: What is the evidence for the effect of the neighbourhood food environment?. <i>Health and Place</i> , 2014, 27, 229-242.	3.3	258
93	PP56â€...Poor sleep quality and physical performance in older adults. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, A69.2-A69.	3.7	0
94	Vitamin D supplementation in pregnancy: a systematic review. <i>Health Technology Assessment</i> , 2014, 18, 1-190.	2.8	227
95	How to get started with a systematic review in epidemiology: an introductory guide for early career researchers. <i>Archives of Public Health</i> , 2013, 71, 21.	2.4	29
96	PP68â€...Prevalence and Risk Factors of Poor Sleep in a Community-Dwelling Older Population: Findings from the Hertfordshire Cohort Study. <i>Journal of Epidemiology and Community Health</i> , 2013, 67, A75.2-A76.	3.7	0
97	PP65â€...What is the Effect of a Behaviour Change Intervention on the Diets and Physical Activity Levels of Women Attending Sure Start Childrenâ€s Centres in Southampton? Findings from a Non-Randomised Controlled Trial. <i>Journal of Epidemiology and Community Health</i> , 2013, 67, A74.2-A74.	3.7	0
98	Food labelling and dietary behaviour: bridging the gap. <i>Public Health Nutrition</i> , 2012, 15, 758-759.	2.2	9
99	A mixed-methods investigation to explore how women living in disadvantaged areas might be supported to improve their diets. <i>Journal of Health Psychology</i> , 2012, 17, 785-798.	2.3	14
100	Low levels of food involvement and negative affect reduce the quality of diet in women of lower educational attainment. <i>Journal of Human Nutrition and Dietetics</i> , 2012, 25, 444-452.	2.5	24
101	Implementation of new Healthy Conversation Skills to support lifestyle changes - what helps and what hinders? Experiences of Sure Start Childrenâ€s Centre staff. <i>Health and Social Care in the Community</i> , 2012, 20, 430-437.	1.6	21
102	Variety and quality of healthy foods differ according to neighbourhood deprivation. <i>Health and Place</i> , 2012, 18, 1292-1299.	3.3	31
103	Birth weight and muscle strength: A systematic review and meta-analysis. <i>Journal of Nutrition, Health and Aging</i> , 2012, 16, 609-615.	3.3	122
104	Engagement with the National Healthy Schools Programme is associated with higher fruit and vegetable consumption in primary school children. <i>Journal of Human Nutrition and Dietetics</i> , 2012, 25, 155-160.	2.5	14
105	Tumour necrosis factor antagonists and the risk of cardiovascular disease in patients with rheumatoid arthritis: a systematic literature review. <i>Rheumatology</i> , 2011, 50, 518-531.	1.9	198
106	Does birthweight predict bone mass in adulthood? A systematic review and meta-analysis. <i>Osteoporosis International</i> , 2011, 22, 1323-1334.	3.1	117
107	The Southampton Initiative for Health. <i>Journal of Health Psychology</i> , 2011, 16, 178-191.	2.3	55
108	The influence of distance to shops on the quality of diet of women of childbearing age. <i>Proceedings of the Nutrition Society</i> , 2010, 69, .	1.0	0
